Fine growing weather.
The district court convenes tomorrow. The jurors are not required to be present until Tuesday at 10 a. m.

The fishermen at Morehead and Beaufort are having a good catch of porpoises. The hides sell from three to four dollars each.

The fishermen at Morehead City tackled a whale on Wednesday last, but concluded that he was no good and let him go. Wise conclusion.

Perry Chadwick, one of the chronic cases of petty thieving around town, who has been wanted for some time, was captured yesterday by Policeman Gaskill.

A prisoner was brought from Weldon on Friday night and lodged with David Barham, the keeper of Craven street hotel. He was brought down for trial in the district court for selling whiskey without the proper license.

Mr. Alex Justice, one of our Broad street merchants, took a trip to Polkville last Tuesday, where he feasted on green garden peas at Mrs. E. Hudson's. He is rather late in reporting the fact, but it is better late than never.

Personal.
Mrs. Laura Blackwell and daughter, Miss Annie, arrived from Hyde county yesterday.

Dr. W. P. Ballance arrived from Hyde county yesterday.

Mrs. Clement Manly returned from a visit to Richmond last night.

Steamer Movements.

A telegram from Norfolk yesterday announced the arrival at 2:30 p. m. of the Pamlico of the O. D. line, which left here on Friday at 3 p. m., thereby making close connection for all points North, placing truck on the New York, Philadelphia and other points tonight in ample time for the markets tomorrow morning. The Newberne of the same line will leave tomorrow at 9 p. m. for Norfolk.

The Margie arrived from Lake Landing yesterday morning with a full cargo of corn and several passengers.

Truck Notes.

The following Norfolk information has been given us by Geo. Allen & Co. Their correspondent, under date of April 21, writes:

"We have had it very cold for several days this week. Very heavy frosts night after night, ground crisp. Strawberries much injured, especially the Charleston variety; but I think we shall still have a fair crop, but will be late."

"From what I can learn, if the weather had continued warm, we could not have picked peas sooner than 15th of May. This cold snap will set them back."

"Cabbage crop very poor. Potatoes are beginning to come up. None of the crops were hurt by the cold except berries, but all were set back."

Our New Berne truckers will have a clear market for their peas.

Our Colored Friends and the Graded School Bill.

We learn that some of our colored citizens are against the bill to establish graded schools in this city upon the ground that they have no representation upon the board of trustees who are to manage the schools, and that the money is not divided per capita. This means that they would not allow the white tax payers to help them in their schools unless the money is handed over to them to use as they see fit. Is this a reasonable demand? Is it money they want, or schools? We propose to give them the school.

Under this bill the trustees are compelled to sustain a colored graded school for the same length of time they do the white graded school. It is simply a question with the colored people of this city whether they will vote "For Schools" on the first Monday in May, and thereby secure a nine months term in the year, or as long as the white school runs, or vote "Against Schools" and have only a three or four months term under the general school law. The board of trustees is composed of gentlemen who desire to see the condition of the colored people improved; they desire to see them become better citizens. If education will improve their condition and make them better citizens, and they desire to become such, then they ought to vote "For Schools."

The opposition then to free schools in this city, if we are correctly informed, comes from two sources: First, from those who do not want to pay a tax to educate other people's children, and second, from the colored people who oppose it because they cannot control the money. These combined can probably defeat schools, but who will suffer? Why evidently the very people who propose to defeat the measure because they cannot control the money.

So far as representation on the board of trustees is concerned, or the management of the schools, the colored people will have the same representation that they now have. The only question is, will you vote "For Schools" and increase your school facilities or will you vote "Against Schools" and withhold from your children the education they ought to have and as citizens are entitled to.

An Unaccountable Disappearance.
Mr. S. S. Wetherington, who lives near Bachelor creek, in this county, called to see us yesterday and gave us the following story of the disappearance of Anthony Harris, colored, who lives in that neighborhood.

On Thursday night, April 14, three white men, with two horses and buggies, called at Harris's house. His wife came to the door and they asked if Anthony Harris lived there. She replied in the affirmative. They got out of their buggies and went into the house, took seats and began a conversation, when they told Anthony they wanted to see him on business and asked him to walk out with them. They went out and held a conversation behind the house. Harris's wife could hear them talking, but could not understand what they were talking about, only one of them said, "You had better go." Harris went back into the house and told his wife that he was going off and would be back in three days. He also gave instructions for his boy to continue hauling out manure and took his hat and left with the three men in the buggies. After they had gotten off from the house a little distance one of the men went back to the house and told Harris's wife that if she made any alarm about her husband's absence under three days they would come back and attend to her. In a few minutes after that she heard a pistol fire, and a few minutes later she heard two or three reports of a pistol, or firearms of some description. Harris has not been seen nor heard of in the neighborhood since.

Mr. Wetherington says Harris was a well-to-do colored man; owned a farm and team, and was prosperous. He was also of good character, and inoffensive to his neighbors. But where is he?

Notice.
At the request of many of my fellow citizens of the Second Ward, I announce myself a candidate for the office of Councilman of said ward. Am assured of an election, and therefore shall be in the field until the contest is decided.
J. V. WILLIAMS.

Notice.
On account of the unjust prejudice exercised by some of my so-called friends during ward meeting, Monday the 23rd, and of non-residents and minors voting thereat, and believing as I do, that the will of the people of the fifth ward was not expressed in this action, there being not more than 90 or 100 legal voters. In accord with the desire and wishes of many, I announce myself as the Republican candidate for Councilman of the fifth ward. Knowing that the will of the people will be expressed at the polls on the 1st Monday in May, I shall be in the field, confident of an election, till that day.

Hartford Life and Annuity Insurance Company.

We take pleasure in calling the attention of our readers to the annual statement of this excellent company, which appears in today's issue of the JOURNAL. Of the many co-operative candidates for public patronage, the Hartford is entitled to preeminence, both on account of its successful management and of its large available assets approximating one and a half millions of dollars, which secures its policy holders against any contingency, while under its safety fund system the greatest possible security is given independent of available assets.

The rates given in the table of assessment ratios are such that while there is \$1,000,000 or more of insurance in force, the assessments will pay all claims in full. Should the amount of insurance in force fall below a million dollars the division of the safety fund to the then members will pay them the full face of their certificates at once, and while living.

The safety fund is limited to \$1,000,000 invested in registered United States bonds, and deposited with the Security Company of Hartford, Connecticut, as trustee. It secures all outstanding certificates in a similar manner to that of holders of National bank bills. It more thoroughly secures its members than any other system of insurance.

Messrs. Watson & Street, of this city, general agents for North Carolina, introduced the company about six years ago, since which time they have written about one and a half millions of insurance, and the policies of the company may be found in the hands of our most prominent professional and business men. We cheerfully recommend the Hartford Life and Annuity to those desiring safe and cheap life insurance.

ROOMS OF THE YOUNG MEN'S CHRISTIAN ASSOCIATION.
April 23, 1887.

The ladies of New Berne who are interested in the Young Men's Christian Association and its library are requested to meet at the library rooms Tuesday afternoon next for the purpose of taking steps toward a public benefit for the Association. The consent of the executive committee of the trustees of the Academy has been obtained for the use of the Academy's grounds for an entertainment with the above object.

The undersigned venture to say that the citizens of New Berne are ready to assist in any organized effort to support the Association's library, which has done so much for the pleasure and edification of the youth of the city, and an invitation from a committee of ladies will be responded to to the fullest extent.

Your obedient servants,
A. M. BAKER, Pres't.
CHAS. L. IVES, Vice-Pres't.
J. K. WILLES, Treasurer,
J. D. CLARK, Secretary,
Executive Committee.

The New Berne Fire Companies.
Today while passing the door of the Atlantic engine company's quarters we saw the ubiquitous John Green busily at work on a strange looking machine hanging up on the side of the room. Curiosity induced us to enter. Upon inquiry, we saw that it was an instrument to be used at an alarm of fire. Mr. William Ellis, Foreman of the company, very politely explained its use, and kindly offered to show how it works. He touched a spring and instantaneously the gas was lighted, the gong was struck, the doors were opened and the halters were dropped from the horses, and had a clock, which is to be attached, been in place, the hands would have been stopped at the moment the alarm was given. It was wonderful. We understand that the New Berne company is also to have a like attachment.

We have a great pride in these two companies, and we unhesitatingly assert, that they are without a counterpart in this State. They may have their equals in the entire South, but not their superiors.

Sea and Land.

FURTHER EXPRESSIONS OF OPINION.
It is a book of rare usefulness, an ornament to any library, and a good investment for both agent and purchaser.—*Christian Observer.*
"Sea and Land" is a rich argyle, freighted with golden treasures of knowledge for the reader and splendid opportunities for the agent.—*Christian Index.*

You have indeed made the great book wonderful, embracing adventure, discovery, natural history, thrilling incident, and marvels in nature, the reader's friend and companion, and the agents' opportunity.—*Rev. J. S. Huntington, in letter to the author.*

The book has captivated me. The matter is intensely interesting, and the subjects flow so smoothly into and out of one another that it is impossible to lay the book down after having commenced it, until it is finished.—*The E. Post, Mo.*
It is a beautiful book and exceedingly interesting. We most heartily commend it to parents having children to educate, for they will learn more about natural history and kindred subjects from the volume than they would acquire in a year's study at school. The subjects are treated in such a way as to render them intensely interesting, so that no coaxing is required to induce any one to read the book.—*Capital News.*

FOREIGN NEWS.

PARIS, April 23.—(Later dispatches confirm the statement that M. Schnaebels was arrested on French territory. M. Florensins will await the result of a minute enquiry on the spot before demanding reparation from Germany for the arrest.)

The performance of Wagner's opera *Lohengrin*, which was to have taken place at the Eden theatre in Paris tomorrow, has been postponed owing to the feeling that has been aroused by the frontier occurrence.

PARIS, April 23.—M. Saurin, minister of justice, has sent the Procureur General to assist the Procureur at Nancy in making an investigation into the arrest of Schnaebels and to report the facts in the case. The prefect of the Meurthe et Moselle department, in which Pagny-sur-Moselle is situated, has arrived here for the purpose of conferring with Premier Goblet in regard to the arrest of M. Schnaebels.

BERLIN, April 23.—It is announced that the arrest of Schnaebels was ordered by a judge who had been conducting inquiries into treasonable practices in Alsace-Lorraine.

Charleston's Industrial Boom.

The Charleston (S. C.) *News and Courier* mentions as proof of the industrial boom in that city the organization of the Bull's Bay Oyster Canning Company and the Mount Pleasant canning factory. For the former enterprise the whole capital is taken, the territory for planting and growing oysters bought, and a steamer to do the work already purchased. All the money wanted was furnished and work commenced before the organization. For the canning factory four fifths of the capital stock has been subscribed, and the remainder will be taken as soon as the regular subscription books are opened.

A Halt Ordered.

The Michigan Legislature ordains a slight halt in the rush for divorces. Under the bill just passed there must be an interval of six months between the filing of a petition and the taking of evidence, and a divorced person cannot marry within two years. The House, too, has started back toward capital punishment by passing a bill making that the penalty for murder in the first degree, providing the jury recommend it. The action of the Senate is doubtful.

Notice.

The registration books of the fourth ward will be opened at John Lane's shop on April 28th, 29th and 30th, 1887.

The Registration Books of the First Ward will be opened at the office of W. B. Boyd, on South Front street, Thursday, April 28th, Friday, 29th and Saturday the 30th, 1887.

Notice.

The registration books of the 3d ward will be opened at the store of Bowden & Willis, on west side of Middle street, second door below South Front.

Don't Experiment.

You cannot waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung, and Chest affections. Trial bottles free at K. N. Duffy's drug store.
