CRAVES COUNTY PINANCES, he Journal Changed with Suppress-

A few days ago a gentleman of this city, for whom we have a high regard, came into our office and while discussing the financial condition of Craven county he said that the faxes collected the last year amounting to about twenty thousand dollars had not been accounted for, "and," said he with emphasis, 'the people are terribly down on the JOURNAL for suppressing the fact."

We confess that the charge of "suppressing facts" is somewhat annoying, notwithstanding we know it to be utterly false and without foundation. We publish the proceedings of the county commissioners, reports of the finance committee, and all the facts about our county affairs that we can get, but we do not consider it our duty to institute an investigation of any particular mat-ter; there are lawfully qualified per-fallen. The quotation of three per ter; there are lawfully qualified per We are selling best Pianos and Orsons to do this, and when they have made their investigations it will be time enough to charge us with a suppression of facts if we refuse to pub-

> As to the report that the taxes collected for the last year have not been accounted for, it may be true, but the time has not yet expired for the collector to make his final settlement. The county treasurer, however, states that not a cent of this money has been paid to him and no money can be obtained for a county voucher from the treasurer. They can be sold for about tifty cents in the dollar, and it is talked about town that the money collected on the taxes of last year is being held to buy these vouchers at this discount. So firmly some of our people believe this that they declare openly and bold ly that they will not pay another cent the present indignation felt by Frenchof taxes until this speculation is stopped. The refusal of the former treasurer of the county to post his receipts and disbursements at the court house door on the first Monday in each month as the law requires, bas given credence to this report and the people are becoming restless under what they deem a flagrant outrage. The tax payers of the county will not longer consent to such speculations at their expense. The county commissioners ought to have enforced the law and compelled the treasurer to show up once a month.

By reference to the records we find that from December 1st, 1883, to December 1st, 1886, a little less than ten thousand dollars of vouchers issued by the commissioners remain uncancelled A considerable amount of this, the the man de poll. But when one of these vouchers is presented the holder is told there is no money. Then what has become of the money colected the past year? The tax payers of it, and they demand it. County officers may temporarily succeed in defying the law, but a day of reckoning will come. The taxes in this county are too burdensome, and it will not do to trifle with the people who pay them.

Ward Politics.

We deem it necessary to caution our Democratic friends that they do not push their opposition to one another toofar. We understand the Republicans have a candidate in the field in the third ward, and that the Democrats, notwithstanding they have a candidate who was unanimously nominated in a ants has been settled.

It is now probable that Mr. O'Brien will abandon his visit to Canada. deavoring to get out another candidate.

These little scrambles in ward politice, although they have a tendency to injure party organization, are some-times allowed when there is no danger of a Republican alipping in. But if our friends in the third ward undertake to divide they may be deceived. There are Republicans in this city sharp enough to take advantage of every mis-take made by the Democrats. To once more get control of the city affairs, is their great desire, and especially is it desirable just now when the Democrate have got the finances in such a healthy condition. Do not foolishly throw away the results of your past good management.

The Newberne, of O. D. line, left her harf yesterday promptly at 2 p. m., rrying one of it council many of pass, namine, paragra, and contage and seneral the field until the contest is decided.

Paris, April 22.-The Government will not complain to Germany of the arrest of M. Schnaebeles, until full inquiries have been made into the case. The Intransigeumt, of which Henry Rochefort is editor, is the only paper that is rabid in its comments on affair. The other Paris papers are mod-

erate in their reference to it. Panis, April 22.—The French papers are unanimous in the statement that Schnaebeles was arrested on French soil by German officers. The Temps publishes a dispatch from Strasburg stating that German officials suspected Schnaebeles of having relations with persons in Germany for the purpose of obtaining information concerning mili-tary measures being taken around Metz for the use of French military officials Authorities of the Foreign Office believe the German Government will make an explanation of the affair that will calm men. Political and financial circles take a gloomy view of the situation.

BERLIN, April 22.-It is announced that the arrest of Schnachles was ordered by a judge who had been conducting inquiries into treasonable practices in Alsace-Lorraine.

BERLIN, April 24 .- The commission at Metz, investigating the French com-missary, Schnacheles, reports that the arrest was undoubtedly made upon German soil. There are numerous charges of high treason against Schnaebeles, and the evidence against him is overwhelming.

Montageblatt declares that Schnaebeles had eix subordinate agents who were acting as spies for Gen. Boulanger, the French war minister. One of these agents, a man named Kuehn was dismissed by Schasebeles and made revelations through which much evidence was collected against Schnae-

A Creditable Piece of Work

Mr. W. P. Ormeby, of Salem, has one of the most wonderful curiosities in the way of a writing deak known in America. It is 16 inches long, Va wide when closed, 19 when opened and 5 inches deep. It is composed of 8,500 different pieces of wood, including 35 varieties. which came from the following countries: China, India, Africa, South America, Spanishmaine. Italy, France and America. It has three secret drawers, none of which can possibly be gotten into without a knowledge of Mr. rmsby's secret.

To give an idea of what a delicate piece of work it is we would state that t has in a space of ! inch square 24 different little blocks of wood, which is inlaid and fitted up so closely that it ooks like one unbroken whole.
