The Fire Companies at Charlotte. The New Berne Steam Fire Engine Company of this city had an invitation to attend the Charlotte celebration on the 20th inst., and compete for a prize offered for the first water. We regret very much that they could not go as we are certain they would have brought off the prizes. The contest was for getting up steam and throwing 50 feet of water, and then filling a bucket suspended by a wire across the street, 60 feet in the air. The Pioneer engine was called to the front first, but from some defect, failed to draw water after being steamed up, and was ruled out. The Salvation Army and the Church.

The Salvation Army has been in New Berne for near three months, and their meetings at the theatre have been uniformly well attended. For about two weeks past the Captain, a delicate little lady, has been left alone with such assistance as the converts and members of churches in the city rendered her. On Saturday night a "Brigadier Major" and wife and Adjutant Reall and wife and Adjutant Reall and wife and some sanctification of saints. Whether or not they are saved is not for us to say, but we read in the Testament of our Lord and Saviour Jesus Christ that Peter when he stood up on the day of Pentecost and convinced the multitude there assembled that the same Jesus whom they had with wicked hands crucified and slain, God had The Methodist Sunday School of this raised from the dead, and being men and brethren what shall we do, he said unto them, "repent and be The Episcopal Convention at Edenton. Holy Ghoet." The Church of Christ was organized, according to our understanding of the Scriptures, for the conversion of sinners and the sanctification of saints, and the plan of salvation was declared by the apostles day after day as they preached the word. There is a number of organizations in this city claiming to be the Charch of Christ or We publish today an interesting a branch thereof, and a plea for this Biblical Revorder, published at Raleigh is so strongly presented that we deem it not inappropriate in connection with this subject. Whether or not the Salvathink both these things are necessary:

The Superior Court of Pamilico county convened yesterday, Judge Avery, presiding. Mesers. Clement Manly, P. H. Pelletier, L. J. Moore, W. E. Clarke and W. W. Clark, of the New Berne bar. and B. F. Maybew, Esq., of the Golds boro bar are in attendance.

The delegates to this assembly from Christ Church, Newbern, though probsins, and we shall receive the gift of the ably more severely staxed in their physical strength by the long and tedious journey than any others, speak in grateful and glowing terms of the delightful entertainment accorded them. Edenton is beautifully situated, and is the home of intelligence, culture and old time hospitality. Some of the poblest residences in the State are there. Brightly looking out on the bay, through the leafy foliage of splendid trees, is the elegant home of the Pages, whose kindly master and brilliant mistress would adorn any mansion or cetate. Directly opposite is the residence of the Shephards, perhaps the most costly and richly furnished dwelling in the city. and the hospitality of whose owners added greatly to the pleasure of the convention. On the eastern side of the bay, and only a short distance from Friday. Edenton, is the palatial abode of the Woods. Built in 1811, without regard to expense, by the Johnson family, furnished throughout in the most complete and elegant manner, and surrounded by grounds which more resemble the three of whom succumbed to privation tasteful planning of an old English FATHER KELLER RELEASED THE OF THE STATES. estate, the visitor is absolutely dazzled by what he sees. Many other homes there are occupied by genial and edu-cated people, where the deputies found delightful repose from the tedium of travel, and were made happy by the generous treatment bestowed upon them. Edenton may be remotely situated, and difficult to reach, but it is a gem of the waters, and takes a strong hold on the stranger's sheart by its quiet, polished character and warm,

anaffected manners. The time of the convention was taken up as usual by much necessary routine business. The reports of committees showed a fair degree of prosperity in the financial and spiritual affairs of the church. The discussions were always conducted with good sense, good tem per, and a wise regard to utility and propriety. It may be safely said of this estimable body of clergymen and laymen, that, while scarcely ever rising to any exalted plane of speculative legislation, they can always be trusted to say and do the right thing for the pro-motion of religious truth. The next session of the convention will be held in Fayetteville.
