Sometime ago we to ever a second nication from a prominent and not out zen of Kineton seking medical in has ing the colored normal school that has been located in this city for many years transferred to Kinetin this come pondent thought that the confinet of the colored people of New Berne in regard to the graded schools of this city showed that they were not much interested in who are in the education, and he thought it but fair they were in the state of the third white the state of the control of the contro that Kinston, where the colored quople manifest a deep interest up the etu-htion of their children elegal there we

Without particularly endorsing the views of our correspondent in every respect, we unhesitatingly believe and have so urged, that the normal schools ought to change from one place to an other at least every two years. By this means a greater number of teachers will be benefited. A large number of teachers cannot attend the normal schools when distantly beated. The colored normal school has been held at New Berne for many years at as time for it to go elsewhere. A white normal school has never been held in New Berne, it is time for us to have one. We most respect fully suggest to Major Finger and the State Board of Education to give the colored people in other communities the benefit of the colored normal school and give the white people of this come purpose of establishing a school of high munity the benefit of a white normal grade at or near Bayboro in said county school. There is no more convenient with a capital stock of not less than one point in all Eastern Carolina for the assemblage of a large number of whiteteachers than New Berne, and we sup | having subscribed one thousand dollars pose the main reason who we have never had the white normal is because the colored normal has been located been admitted to Probate and daily here. It is not just to the whate people of this and adjoining countries not is it just to the colored people of other a ma munities that this state of affairs should my hand and official seal the the
