Different Temperatures.

While the heat for the last few days has been very warm and oppressive we should be gratified to know that our dren. locality has been favored compared to others. The highest temperature recorded by the JOURNAL thermometer was Monday the 20th instant, when it reached 94°. At Wilmington it was 98°. Goldsboro 101º, Raleigh and Charlotte 102^o, and at Weldon the unprecedented high mark of 109°. At Chicago, nearly five hundred miles further north, it registered 1070.

Excitement in Texas.

Great excitement has been caused in the visinity of Paris, Texas, by the re-markable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a inge bottle and a box of Dr. King's New Life Fills; by the time he thad taken two boxes of pills and two bottles of the Discovery, he was well and had pained in flesh thirty-six pounds. P. S.-There were 17,500 Hessian troops hired by the British Government to wage war upon the United Colonies when they were fighting for their inde-pendence, for which the British Government paid a bonus of \$750,000. This action on the part of Great Britain was called atrocious in the House of Parliament and by all Europe. Even Freder-ick the Great refused to let them march through any part of Prussia proper to embark on their mission of blood. We wonder how many Germans and Irishmen' were imported by the United States Government to fill up their armies to fight the South, and how many of these *importations* are now in the Grand Army of the Republic. Will General Fairchild answer? We think his tongue would palsy in the effort. X. Y. Z.

NEW YORK, June 20.-Rev. Charles Stowe, son of Mrs. Harriet Beecher Stowe, who filled the pulpit of the late Henry Henry Ward Beecher yesterday. will probably be appointed permanently pastor of Plymouth Church. Mr. Stowe s about \$8 years olk. In early life he ran away to sea, and served before the mast on the old Black Ball Line of Liverpool packets. He worked up to the position of first mate, and then quit a seafaring life. He was then about twenty-one years old, and in 1870 he went to the Edward's Place School, at Slockbridge, Mass., where his father, Prof. Stowe had a home. He was

graduated at Harvard College, entered the ministry and was afterward rector of St. James's Episcopal Church of Bennington, Vt. Later he became a Congregationalist, and was called to the pastorate of the church at Hartford, Conn., where he now is.
