GEO. ALLEN & CO.

A good number of stockholders and visitors passed down for Morehead City last night.

The teachers are returning from Morehead City on every train and stockholders of the A. & N. C. Road are going down every evening.

A stalk of corn grown in this city was at President Bryan's office yesterday evening. It measured thirteen feet in length and had six shoots for ears on it.

A huge beet was brought in by master Edward F. Roberts yesterday. It was raised in his father's, Capt. E. B. Roberts garden, and weighs three and three quarter pounds, more than some of the "dead beets" weigh in the scales of common sense and justice. It is the biggest thing in the beet line we have ever seen.

Factory Wanted.

A middle street merchant is anxious for a cotton factory in New Berne. He is on the right track and we will help him along if talking and writing will accomplish anything.

Store Robbery at Trenton.

On Monday night the store of M. F. Smith of Trenton, was broken into and a quantity of merchandise taken out. One of the supposed thieves were arrested yesterday evening upon the charge.

Personal.

J. P. Brogden, Esq., of Trenton, is in the city.

Mr. and Mrs. Wm. Fife of Fayetteville arrived last night and are at the Gaston House.

Election of Officers.

At an election of officers of Eureka Lodge, No. 7, I. O. O. F., held at their hall Monday night, the following officers were elected for the ensuing term: C. K. F. Bates, N. G.; William Cohen, V. G.; Edward Gerock, R. S.; H. L. Hall, F. S.; A. Miller, Treasurer.

Competitive Examination.

Young Mr. Koonce of Jones county, son of ex-Sheriff Koonce, having failed to pass the physical examination at West Point, will return home and thus make a vacancy to be filled by Hon. F. M. Simmons. Mr. Simmons will fill the vacancy after a competitive examination is held, and will give due notice of the time and place of said examination. It is to be regretted that Mr. Koonce failed in his physical examination, as otherwise he was thoroughly competent and would have reflected credit upon his county and State.

Steamer Movements.

The Eagle of the E. C. D. line will sail today at 5 o'clock. The Vesper of this line will arrive today.

The Blanche of the N. & T. R. S. Co. left for Kinston yesterday with a large cargo of general merchandise. Most of the cargo was cotton baling for the enterprising firm of Oettinger Bros. The Trent of the same line leaves for Trenton this morning with a cargo of general merchandise.

The Margie of the Hyde County Line leaves this morning for Bayboro with a cargo of general merchandise.

The Delance of the Clyde line, arrived yesterday from Baltimore with a cargo of general merchandise.

The Newberne of the O. D. line, arrived last night from Norfolk and will sail today at 12 o'clock for Norfolk.

The Program for the Fourth.

The committee of arrangements have made the following program for the Fourth of July:

First, test of steam fire engines, first water through fifty feet of hose, fifty feet from nozzle, at the foot of Craven street at 10 a. m. Prize \$75.00.

At 11 a. m. a base ball match between the Kinston and New Berne club at Fowler's ferry on the opposite side of Neuse from the city.

At 3 p. m. reading Declaration of Independence from the steps of the City Hall.

At 4 p. m. second test of steam fire engines. First water through five hundred feet of hose one hundred feet from nozzle. Prize \$75.00. Immediately after a prize of \$25.00 will be awarded to the fire company that will fill a bucket suspended sixty feet in the air with water in the shortest time.

At 9 p. m. the display of fire works will open from a flat boat at the foot of Broad street and the display will be grand and magnificent.

The New Berne Steam Fire Engine Band has been engaged for the whole day to furnish music.

The Teachers' Visit to New Berne.

The Goldboro Argus has the following kind notice of the teachers' visit to this city on Friday last:

There is an old adage which reads, "words are like sunbeams, the more they are condensed the deeper they burn," our interpretation of which is that sincerity is best expressed in fewest words; such was Mr. Long's speech of welcome; brief, chaste and eloquent, and flowing out upon his hearers pure as molten gold in its sincerity.

But this speech making was not all—in fact it was only the brief preliminary to a characteristically New Berne manifestation of hospitality, which were lavished upon the visitors with unlagging cheerfulness throughout the entire day. Not only were all the delicacies of the season, in the way of tempting and refreshing ices, cake, etc., provided in exhaustless abundance in the reception room of the school building and served to the visitors by a committee of the charming ladies of the "Elm City," but every residence in the city was an "open house" and every citizen a courteous and delicately attentive entertainer.

It was useless for us to attempt to follow the numerous "meanderings" so to speak, of the Assembly during the day, for the members became so scattered in their quest of feature of interest, in which the old city abounds—even from away back in the earliest "Colonial" days, that we could not keep up with them. Suffice it to say that the general verdict tonight at the gathering of the assembly here, is that the people of New Berne have forever endeared themselves to the teachers who visited their city today, all of whom will ever retain a most pleasing remembrance of the event.

Kinston Items.

The usual number of cotton blooms have been brought in.

A grand opening of a bar room on the Fourth of July is talked of.

Miss Nettie Hill, daughter of Alex. Hill, died on Thursday last. There seems to be considerable sickness in the country around.

One of our prominent young attorneys was in luck last week—a baby born and twenty-five chickens hatched out, all the same night.

Dr. H. O. Hyatt has on his lot a farrow of Jersey red pigs. They are as pretty as pictures and are made so with feed from Meadows's mill of New Berne.

Dr. R. H. Lewis and family left for Virginia last Saturday morning. Miss Katie had been quite sick but we are glad to state that she was improving when they left.

The general opinion among the level-headed political thinkers about here is that Thos. J. Jarvis is the man to run for next Governor and Lenoir will doubtless favor putting him up.

W. B. Griffin of Dover was before U. S. Commissioner D. E. Perry last week charged with selling liquors without license. The evidence showed that the prosecution was malicious on the part of the informing witness and Mr. Griffin was discharged.

There is a little whispering around that there is a plot on foot to surprise everybody at the coming stockholders meeting of the A. & N. C. Road by a proposition to lease the concern to the W. & W. This story, however, has not gained much credence.

Jim Cox was in town Saturday with a huge loggerhead turtle. He caught it at Southwest mill pond and it weighed when cleaned eighteen and three quarter pounds. He had to quarter it up like a pig in order to sell it, as no one wanted to tackle so much turtle at once.

Several years ago a mill pond upon Neuse river, in which had been placed by the owner a good stock of German carp, broke and emptied its contents, fish and all, into Neuse river. This accounts for the fine carp that are now occasionally taken from this stream by the fishermen.

The much talked of cotton factory seems to have died out suddenly. Business men, however, do not blow much about what they are going to do but generally let the work speak for itself. It is to be hoped that the business men of Kinston are of this sort and will have the factory under way before the gossamers will have time to discuss it.

A manife of sorrow and grief was thrown over our town last Saturday morning by the sudden death of Miss Dora Tilghman. She had been confined with typhoid fever for sometime,

but was thought to be getting better, when unexpectedly to her friends death claimed her. She was about twenty-five years old, was of an amiable, sweet disposition and beloved and respected by all who knew her.

The crops of this county, taken all in all, are looking well. Edmund Taylor of Woodington township reports best stand of cotton ever had, corn looking well, in good condition but rather wet. John B. Noble of Pink Hill reports more cotton planted than last year, and that corn and cotton are both looking well and in good condition. Lemon Smith of Woodington reports cotton crop good but corn not quite so good. Not so much cotton planted as last year, condition good. S. J. Heath of Neck township, crops looking well, about the usual amount of cotton planted, all in good condition. Wheat crop an extra one. J. T. Askew of Lousin swamp, crops nothing extra but the people are getting better. Zenas Gooding from upper Jones county, crops all the way from his place to Kinston looking well. Such is the general verdict throughout the county but the critical period of the crop is just approaching and a too wet or too dry spell will materially change the prospects.

NEWS NOTES.

The total cases of fever at Key West to date are 42, total deaths 18, sick now 14, discharged cured 10.

A fire started on the Chicago Packing and Provision Company's property in Chicago Sunday and caused a loss of \$1,250,000.

Messrs. E. A. Crump and Geo. W. Basington, bankers and brokers, Cleveland, Ohio, failed Saturday. In consequence of the recent wheat panic in Chicago.

Fire in New York Saturday night, in the Puck building, inflicted about \$34,000 damage on Baldwin, bookbinder; Stadelcker & Ernsheimer, hat frame makers, and others.

The New York ice drivers yesterday adopted a resolution asking an increase to \$15 weekly for drivers, and barge-men and helpers to \$12. In case of non compliance a strike will follow.

The Berks county (Pa.) grand jury has returned indictments against eleven tax collectors, all prominent citizens, for misappropriating and misusing public funds aggregating nearly \$30,000.

The Wabash, St. Louis and Pacific Railway has given notice that from July 4 their rates from Chicago to Eastern points will be advanced to the same rates as quoted by the other Eastern roads out of Chicago.

The Travelers' Protective Association, at its session in St. Louis, adopted the constitution and by-laws which are an embodiment of what is known as the "Ohio idea." The next meeting will be held at Minneapolis.

The Mono county marble quarry, 50 miles from Carson, Nev., was completely destroyed by the recent earthquake. The marble was broken into cubes not over a foot square. The ledge was over five miles long and 400 feet wide, containing a fine grade of marble, ranging in shade from pure white to black. The quarry was valued at \$1,000,000.

An unknown suicide was found in Jerome Park, New York, Sunday. The man had tried to hang himself, with a heavy string, which broke. As he fell his foot caught in the crotch of the tree. His head struck the trunk in the fall, causing hemorrhage at the mouth. He hung suspended by the foot until discovered. A letter was found addressed to M. M. A., Market-Edgfield C., 14, S. C., with \$5 in money.

The crop bulletin says that the weather during the week has been generally favorable for the principal crops. Rains in the South Atlantic States doubtless improved the condition of the staple crops in that region. More rain is needed in the cotton region, and the indications are that rain will occur in the lower Mississippi and Ohio Valleys by Monday afternoon. The weather has been favorable for harvesting in the wheat region. In the corn region the weather has been generally favorable. In the New England the conditions have been especially favorable to the hay crops.

A scouting party of river guards and police, numbering twenty-five men, surprised a band of about twenty smugglers, well armed, with a cavalcade of twenty pack mules, fifteen miles below Piedras Negras, Mexico. The smugglers showed fight, and at the first volley two guards, fell dead and four had their horses killed under them. The guards fell back and dispatched a courier to Piedras Negras for reinforcements. The smugglers fell back toward the Rio Grande, with the evident purpose of crossing the river to the American side.

Buckley's African Balm.

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by R. N. Duffy.

FOREIGN NEWS.

THE EGYPTIAN CONVENTION—THREATENING ATTITUDE OF FRANCE.

LONDON, June 26.—The time for signing the Egyptian convention expires tomorrow. It is asserted that if the Sultan does not sign the document Sir Henry Drummond Wolff, the special British envoy, will depart from Constantinople instantly.

The Morning Post says: "The Egyptian negotiations have reached an acute stage. France threatens to break off diplomatic relations with the Porte and resume her claims regarding the protection of the Oriental holy places if the convention be ratified, while Russia demands recompense in Erzeroum. The Porte, therefore, asks England whether in the event of the ratification of the convention Turkey can rely upon the effective fulfillment of the convention relating to Cyprus. A reply to this note has not yet been received at Constantinople."

THE CONSTITUTION.—June 26.—The French government has sent a note to the Sultan in which it distinctly refuses to accept the situation which will result from the signing of the Egyptian convention, and says that if the convention be ratified France will take measures necessary to protect her interests, which will be endangered by the disturbance of the equilibrium of the Mediterranean. On the other hand France offers formal assurance that she will protect and guarantee the Sultan against whatever consequences may result if he will refuse to ratify the convention. By so doing, the note says, the Sultan will strengthen the ties of friendship between France and Turkey and protect his country from the encroachments and ambition of England. Upon receipt of this note the council of ministers was summoned and a note to the powers was drafted complaining of French interference in the internal affairs of Turkey. The note will be submitted to the Sultan for approval. It is rumored that Russian troops are advancing from Kars as a menace to Turkey.

AMERICAN INTEREST IN THE QUEEN.

LONDON, June 26.—Dr. Parker, of the City Temple, in the course of his sermon this evening, said he was astonished at the interest shown by Americans in the Queen. One American had offered £500 for a ticket of admission to Westminster Abbey on the occasion of the jubilee services.

Americans, he said, had no state coach, but they had education, liberty, independence, a spirit of progress and energy. Mr. Cleveland, America's king, had written him a friendly letter, showing that he did not feel that there was a wide difference between President and preacher.

THE FRENCH PATRIOTIC LEAGUE.

PARIS, June 26.—The recent meeting of the French Patriotic League has led to the resignation of many members of that organization, including M. Metivier, one of the founders of the league, and an intimate friend of Gambetta.

Letters have been received from various branches of the League protesting against "throwing France at Boulanger's feet." The affair threatens to break up the league. The leader of a fashionable Hungarian band has been arrested on suspicion of being a Prussian spy.

A DOWAGER'S ADVENTURE.

LONDON, June 26.—The Standard today publishes the following story: "Dowager Lady Meux while leaving Paris met a man. On their arrival in London they both went to the First Avenue Hotel at Holburn. Thence they removed to the Midland Hotel, where the man engaged the apartments, taking a separate room for himself. He dined with her at 16,500 belonging to the lady. No trace of the man can be found."

THE GENESTA STILL AHEAD.

LONDON, June 26.—The yacht Genesta which is leading in the jubilee race, passed Ventnor at 10 o'clock this morning. The Seline and Gwendoline passed Lizard Point at 7:30 a. m. Provided the prevailing head winds continue, the Genesta will arrive about forty hours ahead of the others. The Genesta passed Beachy Head at 7:30 p. m.

LONDON, June 27.—The Genesta has won the jubilee yacht race. Her time over the course was twelve days, sixteen hours and fifty-five minutes.

Stonewall Items.

On the 23d inst. of Bright's disease of the kidneys, T. F. Woodard, Esq., died at his home, having been a sufferer for two years. He leaves a wife, ten children and many friends to regret his loss. He was about fifty years old. Truly a good citizen gone.

On same day, Amanda, the youngest child of J. H. Gaskins, 18 months old, died of malarial fever.

On Saturday last some of the hands at work on the boiler of the saw-mill at Vandemere let John Barleycorn get rather the better of them and caused a row, in which one was rather used up by the use of a knife, so much so that he went back to New Berne to repair damage.

The farmers are laying by corn and at work fighting grass. Gen. Green has charged the fortifications, and carried them, of some of his neighbors, and changed cotton fields to yellow corn, and in some parts holds the fort yet.

Whooping cough is playing a full hand among the children, and has been the cause of several deaths.

The justices of the peace, with the advice of Dr. F. P. Gates, pronounced Judy Carraway a lunatic and recommended that she be sent to the lunatic asylum.

The schooner Jno. Hooker is at A. H. Whitcomb's mill, loading lumber for Philadelphia. Many are the feet of lumber shipped from here.

"Now Children," said the Pretty School Ma'am.

"Summer Silk in stripes and plaids is worth 50c per yard, and it takes 20 yds. to make a dress. I have nine dollars in my pocket, and my salary is three dollars per week, how much longer must I wait before I have enough to buy my dress?"

Before any one had the time to wink a little girl's hand went up.

"Why, Grace," said the teacher, "you cannot have the answer so soon."

"Oh yes! have teacher! You don't have to wait at all, because A. M. Baker is selling summer silks at 45c. Ma'mma bought a dress of it yesterday, and about one of that lovely Camille's Hair Dressing. She says it's the best hair-kath she ever saw."

Grace took her place at the head of the class.

Notice.

I hereby give notice to all barkeepers and druggists, forbidding them to sell to my wife, Letitia Covell, any spirituous or malt liquors of any kind, or any opium, morphine, or like drug, under penalty of the law. Said Letitia Covell is partially insane, of dark complexion, spare built, and about 5 ft. 6 in. high.

SHAFER'S MEDICINAL BLACKBERRY BRANDY.

Manufactured from the Blackberry Juice and Root, and pure Imperial French Brandy, especially for MEDICAL USE, by I. CALVIN SHAFER, 86 Courtland Street, New York.

The general demand for a pure Blackberry Brandy for family use, as a preventive of, and remedy for Diarrhoea, Colic, and similar derangements of the system, has induced the undersigned to prepare an article which fully meets the requirements, and can be prescribed and recommended by the physician, and taken by adult or child with perfect reliance as to its purity and efficacy. Being prepared from the fruit and root of the Blackberry, in combination with imported French Brandy, this remedial agent is presented in the most efficient form known, and the undersigned trusts that his established reputation, of many years' standing, as a manufacturer of similar preparations, will serve as a guaranty for the recommendation of this as the purest and best article of the kind in the market. Put up in Half-Pint, Pint and Quart Bottles, one dozen in a case.

TESTIMONIALS.

MONTCLAIR, N. J., Feb. 9, 1878.

My Dear Mr. Shafer:—I testify with pleasure to the value of your "Medicinal Blackberry Brandy," which I was induced to try by your statement (in which I place the utmost confidence), that it was composed essentially of good Brandy, with a definite quantity of Fluid Extract of Blackberry Root. You can well depend on the excellence of the articles which enter into its composition, for your success in obtaining orders when once it is known that you have unequalled facilities for obtaining the best materials and the disposition to make the best use of them.

Yours very truly, J. W. PINKHAM, M. D.
