

THE DAILY JOURNAL is a 24 column paper, published daily, except Sunday, at 100 per cent. \$100 for six months. Delivered to city subscribers at 50 cents per month.

THE WEEKLY JOURNAL, a 24 column paper, is published every Thursday at \$2.00 per annum.

ADVERTISING RATES (DAILY)—One inch one day \$1.00, for each subsequent insertion.

Advertisements under head of "Business Local" 10 cents per line for first, and 5 cents or every subsequent insertion.

No advertisements will be inserted between one and another price.

Notices of Marriages or Deaths, not to exceed ten lines will be inserted free. All additional matter will be charged 5 cents per line.

Payments for transient advertisements must be made in advance. Regular advertisements will be collected promptly at the end of each month.

Communications containing news or a discussion of local matters are solicited. No communication must be expected to be published that contains objectionable personal attacks, or that will make more than one column of this paper.

Advertisements for any agency must be accompanied by the name of the author or publisher, and the name of the office and where the grievance exists.

THE JOURNAL.

H. S. FURR, Editor.
H. HARPER, Business Manager.

NEW BERNE, N. C., JULY 12 1897.

Entered at the Post Office at New Bern, N. C. as second-class matter.

A HASCAL whose name is OSCAR J. HARVEY, has been caught in the treasury department at Washington. He will doubtless be turned out of the treasury department and turned in at Albany.

A FIRM known as Morton, Bliss & Co., has made an arrangement with the U. S. Trust Co. to settle the North Carolina special tax bonds. These gentlemen had just as well make arrangements to settle the Confederate bonds for the people of North Carolina will pay them just as quick as they will these special tax bonds. It is doubtful if Morton, Bliss & Co. have any hope of the State ever paying a cent of these bonds, but they hope to affect the market by this manoeuvre and perhaps unload.

THE SAME OLD FANATICISM.

The insults recently offered President CLEVELAND by some of the G. A. R. posts is simply the same old fanaticism which developed so rapidly in 1860-61 as to precipitate war. Though claiming to be a non-political organization politicians are making inroads on it and stirring up feelings of bitterness and strife.

But the acts of these fanatics, if we mistake not, will be turned to the advantage of the President, even with a large portion of the Union soldiers who compose the G. A. R. They recognize the fact that the President is at the head of the government; that he holds the highest office within the gift of the people and any insult offered to him is offered to the people of the whole country. If our country should ever be cursed with civil war it will come from just such fanatics, who very often find their counterparts in the old fire eaters of the South. When the pension attorneys and politicians get control of the G. A. R. as they seem to have at many of the posts, it will be converted into a mere political machine and its usefulness and original purposes be destroyed.

WHERE CAN IT BE FOUND!

The new postal law, now in effect makes the taking of newspapers and refusal to pay the same a theft, and any person guilty of such an offense is liable to criminal proceedings, the same as if he had stolen goods to the amount of the subscription. Webster's Weekly.

The editor of the Weekly was presiding officer of the House of Representatives in the last session of the General Assembly of North Carolina, and if he is a lawyer, certainly he can see some thing in general information to know whether or not there is such a law as he mentions in the paragraph above, and will not hesitate to tell us where it can be found, or the offense of stealing from the editors of newspapers comes within the jurisdiction of our State courts, the solicitors of the various judicial districts, judging from the complaints made by many of our State exchanges, would reap a rich harvest, provided they can get a grand jury of gentlemen who have paid their subscription to newspapers, and if these cases come only within the jurisdiction of the U. S. courts,

then district attorney Busbee has a fortune within his grasp, provided, he can find a grand jury of paying subscribers.

We hope brother WEBSTER will tell us where the law can be found. We know the interested attorneys will thank him very kindly for putting them on the road to fortune, and hard worked editors would like to stop the pilfering.

From Sanders Store.

Attention farmers! Can you tell me how much your farms are paying you? Have you ever counted the cost of a one-horse crop, and the net profit thereof? If not, let us go over it together. We will itemize everything so as to be certain that no error may occur in our calculation.

Thus for corn:

Shrub and prep'g land for plow	\$ 25
Seed and planting	15
Two hoeings	50
Harvest	50
Harvesting 24 bbls corn	30
Tools used in cultivation	10
Horse hire and horse feed 5 mos.	90
Expense	\$ 220

The average on upland, not manured may be put down at 12 1/2 bushels of which 2 1/2 bushels may be classed as rubbins and worth but half price. Thus:

Ten bus. corn at 60c	\$ 6 00
2 1/2 bus. corn at 30c	75
Total product	\$ 6 75
Deduct 1/3 for rent	2 25
Net profit	\$ 4 50
Deduct expenses	3 20
Net profit	\$ 1 30

With a net profit of \$1.30 per acre and forty acres to the horse farm, the horse farm would be worth \$52.00. Out of this, unless the horse can be profitably employed for the remaining seven months, the horse will have to be fed at an expense of at least \$5 per month or \$35,—leaving but \$17 to feed and cloth the farmer and his family. At \$52 profit to the horse farm, and counting 300 work days to the year, we have the startling fact that we are making but 17cts. per day.

Suppose our land will average 3 bbls. or 15 bus. per acre,—this will give:

12 bus. corn at 60c per bus.	\$ 7 20
3 bush. corn at 30c per bus.	90
Total product	\$ 8 10
Deduct 1/3 rent	2 70
Net profit	\$ 5 40
Deduct expenses	3 20
Net profit per acre	\$ 2 20

At this rate a farm of 40 acres would make \$88. At 25 bushels per acre and allowing 1-6 for rubbins, the net profit per acre would be \$5.80 or \$232, for a 40 acre farm. As I stated in the first calculation 12 1/2 bushels is the average for a large number of farmers,—and the fact is demonstrated to us that we can not hire labor to cultivate them.

The farmer who sits back in his house, or rides around expecting to cut a swell on land that produces but 12 1/2 bushels per acre (the general average) and hires his hands at 50 cents a day, will have to spend less than 17 cents per day to keep within the pale of his income—and that too when the sunshine and showers are unremitting in their favors to his crops. Contingencies in the way of storms, hail, cyclones, etc. would leave him without money or means of subsistence.

What are we to do? Let us suppose a case.

A says I won't hire but will do all my work myself. He takes 20 acres,—his land produces 12 1/2 bushels corn per acre—or a net profit of \$1.30 per acre. He scores in the item of expenses \$3.10 per acre which added to the \$1.30 profit makes \$1.80 profit per acre, and \$72 profit on 40 acres. Thus he gains on the 40 acres his hands \$36 per horse, or about 70 per cent. If the land would produce 25 bushels per acre a world make \$116, if 30, showing that to profitably employ labor our lands must be good producers—over the average yield of a large class of farms all over the country.

The farmer who sits back in his house, or rides around expecting to cut a swell on land that produces but 12 1/2 bushels per acre (the general average) and hires his hands at 50 cents a day, will have to spend less than 17 cents per day to keep within the pale of his income—and that too when the sunshine and showers are unremitting in their favors to his crops. Contingencies in the way of storms, hail, cyclones, etc. would leave him without money or means of subsistence.

Food Results in Every Case.

D. A. Bradford, wholesale paper dealer of Charlotte, Tenn., writes that he was seriously afflicted with a severe cold that settled in his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, his cold was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial bottles free at R. N. Duffy's drug store.

Catharine Lake Items.

We are glad to learn that little Henry Simpson is improving now from a spell of sickness.

Farmers are looking somewhat down at the mouth just now on account of cool weather and heavy rains.

Col. S. B. Taylor and daughter, Miss Annie, are off to Washington City on a pleasure trip. We wish them much enjoyment.

The annual picnic will come off the first Tuesday in August next. Come one, come all and see our beautiful spring near Catharine Lake.

Oct. S. B. Taylor has the largest corn we have seen so far. The Colonel and Mr. McGee are most excellent farmers. Much to their success.

Miss Agnes Grady has returned to her home in Kingston, where she will spend sometime with her relatives and many friends. We hope Miss Agnes will not forget us and will return soon.

J. N. Cox has the finest turnout we have seen, in the shape of a beautiful horse and buggy. I think he means business this time, though it is hard for us to tell who he means business with.

Mr. White Humphrey says he has the finest milk cow in the county. Says she will give six gallons of milk per day if treated well. Mr. Humphrey is a man of truth and cannot be doubted by those who know him.

W. B. Cox has the finest and latest mules we have seen in some time. Mr. Cox takes great pride in having good stock and fine stock. Every good farmer should do likewise and then there would not be any difficulty in getting their lands cultivated as it should be.

Bucklen's Arnica Salve.
