The East Carolina Land and Railway Charter.

We have been asked by several of our readers in Jones and Onslow counties to publish the charter of the East Carolina Land and Railway Company. We would like very much to accommodate our friends, but upon examining the charter we find it would take more space than we can spare for that purpose. But notwithstanding this, we would publish "anyhow" but for the fact that it can be found in every neighborhood where there is a justice of the peace, as each and every one of them are entitled to a copy of the acts of the last General Assembly, which contains in chapter 185, beginning on page 492, the charter in full. It is an important matter to these people and we hope they will call on the justice of their neighborhood or any county officer who has a copy of the acts, and read it.

The Colored Normal School

The Goldsboro Argus puts in a plea for the removal of the colored normal school from this city to Goldsboro. If the school is to be moved we have thought that Kinston if the people want it are entitled to it, and we base our opinion upon the very reasons urged by the Argus for Goldsboro, viz. that it is an educational centre, its people both white and black believing in education and spending their money for it. But we have no choice as to where it shall go, we only wish the reasons for our willingness to part with it to be thoroughly understood. The Argus gives the following as part of its reasons for the removal:

In the last election on the Graded School the colored men have exhibited an interest in education, which utterly refused to yield itself to the control of party leaders—they stood by the schools. In New Berne they cast a solid vote against the schools, thereby demonstrating that they are not entitled to the same consideration as are our colored citizens. It has always been the policy of the Trustees of the Peabody fund to help those who help themselves. This policy is founded in good reason, and all that we ask is that the State Board act upon the same principle.

We think the principle correct, and while we have some colored people among us who were willing, like a large majority of the whites, to help themselves, yet a large majority of them were influenced by men who really do not want them educated and who are always ready to oppose anything prominent white men are in favor of and for this reason perhaps it would be better to move the Normal school until these people show a willingness to help themselves. But the main reason that strikes us why the school ought to be removed is because it has been held at New Berne for a number of years, and the colored people of other sections are entitled to some consideration. For the same reason we think the white teachers in this section should have the benefit of a white normal at New Berne. That we have been trying to help ourselves no one can deny. We have erected a splendid building at a cost of \$10,000; have kept up a graded school by private subscription for one year and by taxation for three years, and whenever an opportunity offered have voted, by a large majority for schools to be continued by taxation. We have endeavored to help ourselves, and intend to keep trying, and we shall expect the State board of education to give us, at the very first opportunity, a white normal school.

We have no desire to strike back at our colored people for the course they pursued on the school bill. We knew at the time they were working against their own interest, but we also knew they were advised and led by bad, designing men who still have their confidence.

The Fire Department to be Sustained.
At a special meeting of the board of city council last night at which all were present except Mayor Meadows who is absent from the city, S. H. Lane, John Greer, H. P. Kennedy and M. F. Holly were appointed a committee to draft resolutions and they submitted the following which were adopted:

Whereas, At a joint meeting of the Atlantic and New Berne Steam Fire Engine Companies, resolutions were passed censuring the majority of our board for failing to take the proper action for passing necessary bills for the support of said fire department.

And whereas neither a majority nor the board of city council as a whole intended or desired by any means to deprive said department of any funds or appropriations for its necessary and current expenses.

And whereas, As representatives of the city of New Berne we feel justly proud of our fire department and have the deepest interest in its welfare, feeling how necessarily essential it is to the safety and preservation of our property in times of fire, and feeling that the sentiment of our entire community will be echoed in our present resolves.

Resolved, That the failure to pass the bills justly due the department was caused through an unfortunate division in our board and through no desire to repudiate such bills be it therefore Resolved, That all bills presented to our board shall receive a separate discussion and vote and that the bills of our fire department shall receive our special attention and full support, consistent with and agreeable to the ordinances governing our board's proceedings.

Be it further resolved, That a copy of these resolutions be sent to the chief of said fire department, asking his prompt consideration in reference to the sale of the horses as is mentioned in the resolutions of said companies, with assurance of our future co-operation and support; and that the New Berne Journal be requested to publish the same.

A number of Kinstonians left for New Berne Tuesday to witness the celebration which was to have taken place July 4, but postponed on account of the bad weather until that day. A few boys from this place pulled themselves together to touch the New Berne baseball club. The score stood 8 Runs, New Berne.

Mr. S. P. Moore, Mrs. S. J. West and two colored persons died last week making a total of four within a week or less time. I have never known the health of the place to be so bad as it now is. But Kinston is not the only place suffering with this almost always fatal malady, dysentery. Hardly a State paper do we pick up but you see accounts equally as bad if not worse than in Kinston.

Cesar Cox, a noted negro desperado in Jones county and an escaped convict, came to grief a few days since on his old stamping ground. He set fire to Mr. E. S. Fordham's gin house and also attempted to fire Mr. Gooding's but was run off by his dogs. He was tracked to Vine swamp, near by, where he received as a reward for his rascally deeds, the contents of a double barrel shot gun. He has for a number of years been a source of great annoyance to the citizens of Jones as well as this county. Hope he may rest in the shade.

A North Carolina Case.
Judge Hugh L. Bond, of the United States Circuit Court, sitting in chambers in Baltimore, yesterday modified a decree passed by Judge Aug. S. Seymour, of the United States Circuit Court for North Carolina, in the case of B. F. Clyde, of Philadelphia, and John Cahill and B. Thornton, trading as James Clark & Co., of Baltimore, against the Newbern and Pamlico Steam Transportation Company, J. V. Williams, Thomas Daniels and G. F. M. Dail, all of New Berne, N. C. The suit was instituted for the purpose of winding up the company and selling the property to pay its debts. The property consisted mainly of the steamboat Elm City, running between Baltimore, Norfolk and Newbern, under a lease to Mr. Williams, who owns fifty-one per cent of the stock. Messrs. Clark & Co., represented \$1,300 of the \$6,000 bonds of the company. Judge Seymour decreed that the boat should be sold at New Berne on July 15, 1887, for cash, subject to the mortgage in favor of the bondholders. Judge Bond modified the order to make the sale on Tuesday, July 26th, and that the steamer be sold absolutely and for the payment of all debts due by the company and not subject to the mortgage. Messrs. E. H. Busbee, of Raleigh, N. C., and Harry E. Mann, of Baltimore, appeared for the plaintiff, and Clement Manly, of New Berne, for the defendants.—Baltimore Sun 12th.

Banks and Private Bankers.
A new law passed at the last legislature provides: "That all incorporated banking institutions now organized or that may hereafter be organized, under the laws of this State, whether savings or general, and all private banks, shall be required to make to the State treasurer statements of their financial condition at such times as the treasurer may call for them, not less than twice in each and every year, and also shall publish such statements in condensed form as published by the national banks, in some newspaper published and printed in the city or town where such banking business is carried on, and if none there, then in a newspaper published in the town nearest thereto."

"That any banking institution failing to comply with the provisions of this act for a period longer than ten days after being called upon by the State treasurer for a statement shall be subjected to a penalty of three hundred dollars, etc., etc."

In compliance with this law Treasurer Bain is looking up the various banking institutions in the State and calling for statements. On account of the great number of private banking institutions in the State he is experiencing some difficulty in finding them all out. There is no provision for a systematic "looking them up," and the treasurer is wholly dependent upon replies to inquiries sent to county officers for his information of them. Individuals op-

erating such institutions would do well

to examine the law and prepare their returns. From these returns the condition of the banking interests of the State may be fully learned and irresponsible parties, if there be any shown up. So far, returns have been received from over half the counties of the State and others are daily being made. The returns will also be of material use in justifying the bank tax. It should be remembered that while the treasurer has no authority to compel the publication of the statement the law requires it. News and Observer.

Another invitation to the President, St. Louis July 11.—Interest in President Cleveland's Western visit has intensified and spread over the State since his letter withdrawing his acceptance of the invitation to St. Louis. The citizens have determined to bring a strong influence to bear on him, and a number of letters have been received by Mayor Francis from citizens from various parts of the State making another appeal. Accordingly with the idea of obtaining a more general expression of opinion the mayor has issued an address to the people of Missouri. In it he has requested every county in the State to appoint one of more representatives to join a St. Louis committee and to accompany them to Washington to bear the invitation. The delegation will, therefore, not be a city delegation alone, but a committee representing the whole State of Missouri, all working to one end—to have the President of the United States honor the people of this State by visiting its chief city this fall. The mayor received this morning from Charleston, Mo., a petition of two hundred voters of Mississippi county joining in the invitation. The committee will probably start from here next Monday and reach Washington about the time the President returns from New York.
