constantly on ice at Emanuel  
Fisher's, Broad street. [Jul 29th.]

**FOR SALE—A Fine Cow.** Price \$30.  
W. P. BURRIS.

**FIFTY BARRELS LIME,** suitable for  
sanitary purposes, at 75c. per barrel  
delivered, or at 50c. per barrel in five  
barrel lots.  
GEO. ALLEN & CO.

A good rain yesterday and the weather  
is cooler.

The very handsome and powerful  
tug-boat Geo. H. Reeves, of New York,  
put in yesterday for coal and provisions.

Two cases berole the Mayer yesterday.  
One for disorderly conduct was  
fined one dollar and cost. One for block-  
ading sidewalk was discharged upon  
payment of cost.

We are informed that Mr. John Griffin  
and his wife who live near Cowpen  
Landing, this county, were horrified  
last Monday morning when they woke  
up and discovered that their six months  
old baby was dead in bed with them.  
The supposition is that it was ac-  
cidentally smothered.

We are pained to learn of a serious  
accident that occurred to Mrs. Charles  
Jenkins living on the Burwell Canady  
place 8 or 10 miles east of Kinston. She  
attempted to light the fire in a stove  
with kerosene when it ignited with the  
oil in the can, causing an explosion  
whereby she was seriously burned. Dr.  
Woods rendered medical assistance.

**Fire.**  
A two story tenement house on South  
Front street next to the gas works,  
belonging to Mr. Philemon Holland,  
caught fire yesterday. The fire depart-  
ment responded promptly to the call,  
but Maj. Dennison put on the first  
stream. The damage was only slight.

**Resigned.**

Our townsmen, Dr. E. H. Meadows,  
has resigned the position of President  
of the North Carolina State Board of  
Pharmacy, to take charge of the labor-  
atory of the Meadows' Fertilizer Co.  
He has held the position, satisfactory  
to all concerned, for six years, and we  
are glad to know that a new enterprise  
of our city demands his services.

**Excursion to Morehead City.**

The train which carries the colored  
excursion to Morehead City next Sun-  
day will have a car attached for white  
people only. All who desire to go can  
do so by purchasing tickets at the rail-  
road office. Fare for the round trip 75  
cents.

**Personal.**

Mr. L. H. Cutler's family are off to  
Morehead for the summer.

Mr. J. J. Disoway the efficient and  
polite agent of the Neuse & Trent River  
Steamboat Co., returned from a trip to  
New York last night.

Miss Bennie Bishop has returned from  
a trip to Washington, D. C.

Mr. Fred. Mitchell, formerly of New  
Berne, passed down for Morehead City  
last night.

**We Must Have Them.**

Our Wilmington friends are making  
a desperate effort to deprive New Berne  
of the famous Winberry oyster. Seeing  
that we are determined to reach Onslow  
by rail they have gone to work in earnest  
to get a vote on the question of one  
hundred thousand dollars subscription to  
the Wilmington & Onslow Railroad.  
New Berne and Onslow have a charter  
that will enable them to build this line  
if they can get enough subscribed to  
make the survey and begin the work.  
An article from "S." in this issue is  
timely and to the point. We trust it  
will be read with care by our business  
men and all farmers in the counties of  
Jones, Onslow and Craven. If our  
people would visit other portions of the  
State occasionally and mingle with the  
successful business men and see how  
active they are for enterprises that will  
be for the general good, we think it  
would do them much good.

Jobbers, Retailers and Cheaters are  
all supplied with OLD RIP TOBACCO.

**Steamer Movements.**  
The Vesper of the E. C. D. line, sailed  
yesterday afternoon with cargo of  
general merchandise, lumber, shingles,  
truck, naval stores, &c. The Annie of  
this line will be in this morning.

**Our Machine Shops.**

The machine shops of New Berne have  
lately gone into new hands and the fa-  
cilities for securing first-class work now  
are greatly improved. We noticed a  
few days ago the new firm of Willis,  
Edwards & Co., which has just opened  
at the shops occupied by the late E. G.  
Cuthbert. We now wish to call atten-  
tion to the firm of Crabtree & Co., at  
the brick building on Craven street—  
the old stand of Manwell & Crabtree.  
Messrs. J. H. Crabtree and Basil Manly  
constitute the firm. They are both  
master machinists with considerable ex-  
perience, have added new machinery  
to the shops, and are prepared to do work  
in first-class style. They have just  
completed the machinery for the  
steamer Howard and are now engaged  
in overhauling the machinery of the  
Bay River Lumber Co.'s mill. They  
employ thirteen hands, are thoroughly  
reliable and do work promptly when  
brought in.

Now is the time to put engines and  
other machinery in order for ginning  
cotton and New Berne is the place to  
have the work done.

**The Farmers' Excursion.**

The farmers of Jones county will  
have an excursion from Trenton to  
Riverdale in this county on the 4th of  
August. The steamer Trent will leave  
Trenton at 7 a. m., and the Kinston will  
join her at Pollockville and both leave  
that point at 10 a. m. Fare from  
Trenton 50 cents, from Pollockville 40  
cents. Children under twelve years  
half price.

This will be a delightful trip for the  
farmers and their families and we ex-  
pect to see a large crowd. They will  
stop at New Berne going and coming  
and will have dinner at Riverdale.

We think Col. Polk ought to come  
down. We see he is to be in Wayne  
county on the 3d of August and if he  
could get to Goldsboro in time to take  
the evening train he could be here in  
time to join the excursion. The gentle-  
man in charge of the excursion would  
doubtless have invited him had they  
known that he would be in this section  
of the State. He is engaged in trying  
to organize the farmers and is publish-  
ing a first-class farmers journal. We  
think it will be to his interest and en-  
tertaining to the farmers who will be there  
to be present at this meeting.

**He Got the Cigar.**

A prominent young lawyer from one  
of our eastern counties was in attend-  
ance on the Press Association at Hen-  
dersonville. On the evening before he  
left, while sitting on the piazza at the  
hotel in company with friends, the  
commercial tourist of the house ap-  
proached him, when the following con-  
versation took place:

Tourist: "I knew you were one of the  
smartest lawyers in your country as  
soon as I looked in your face. You  
ought to have some big office."

Friend: "He will likely be the candi-  
date for Congress in the first district  
next year."

Tourist: "I knowed so; knowed it as  
soon as I looked at him. Now you jest  
do the talking and I will come down  
and do the outside work."

Lawyer: "I am very much obliged to  
you."

Tourist: "Haven't you got a cigar  
that you can give a fellow?"

Lawyer: "Look in my vest pocket  
hanging up there and you will find  
one."

Tourist obeyed, found the cigar and  
said: "Now haven't you got a little  
drap you can give a fellow? Hender-  
sonville is a dry town."

Lawyer: "Not a drap."

**ARRIVALS AT HOTEL ALBERT.**

J. A. Higgs, Sherwood Higgs, Balto;  
David Cannady, Onslow Co.; Wm. B.  
Blades, J. W. Latham, E. B. Roberts, J.  
F. Ives, Dr. Geo. Slover, city; Judge J.  
B. Martin, Windsor, N. C.; R. E. Ot-  
man, New York; R. Mayo, jr., Va.; L.  
L. Gilmer, N. C.; Walter S. Carby,  
Rochester, N. Y.; N. M. Mayer, Cincin-  
nati, O.; W. M. Mayes, Columbia, Tenn.

**Thanks.**

I desire to return thanks to the firm-  
men, and especially to Major Dennison,  
for saving my property yesterday morn-  
ing. Respectfully, P. HOLLAND.

**Files—Blind, Bleeding and Itching.**  
Positively cured by Darby's Prophylac-  
tic Fluid. Bathe with a little of the  
Fluid added to the water. A single ap-  
plication will allay the itching, soothe  
all inflammation, deodorize all offen-  
siveness and staunch the bleeding.  
Tetter and Scald Head are quickly  
cured by Darby's Prophylacitic Fluid.

If you want a GOOD TOUGH chew  
of tobacco, try OLD RIP.

## FROM THE MOUNTAINS.

**ROUND KNOB, July 24, 1887.**

We closed our last com-  
munication after hearing the  
train whistle just over the  
hills. We were unnecessarily hasty as  
we learned afterwards that one could  
write a letter after the train whistled  
in time for the mail. It takes fourteen  
minutes from the time of this signal to  
reach Round Knob, the train coming in  
view two and within a few hundred  
yards of the hotel before arriving and  
then stopping twenty minutes for din-  
ner. We expected to be on our way  
home before writing again, but this at-  
tractive place, the agreeable guests now  
stopping here and the clever treatment  
of the proprietor, induced us to stay  
over another day.

The gentlemen of the press of Ashe-  
ville who by the way are displaying as  
much vigor in building up their city as  
any other business men, having invited  
the members of the press association to  
spend a day in the city, we stopped over  
on our return from Hot Springs and  
took quarters at Battery Park. After  
dinner horses and carriages were fur-  
nished and we were driven to points of  
interest about the city. It was our luck  
to get a seat with Mayor Harkins, two  
hundred and fifty pounds of mountain  
republicanism, whom we found to be a  
very clever, enterprising gentleman.  
We learned from him that in enterpris-  
ing to the building up and improve-  
ment of the city, politics were left in  
the background and all hands pulled to-  
gether. This is as it should be. No  
town or city can move forward if poli-  
tics are allowed to rule in the promulga-  
tion of new enterprises. Asheville is  
truly on a boom. Waterworks are be-  
ing put in that will cost one hundred  
and twenty-five thousand dollars. The  
supply is brought from the Swannanoa  
river five miles from the city and empties  
into a stand pipe which holds seven  
hundred and fifty thousand gallons. This  
stand pipe is placed near the foot of  
Beaucatcher mountain and the water  
is distributed from it by pipes running  
to different portions of the city. The  
foundation of a large cotton factory has  
been laid and the work is being rapidly  
pushed forward; real estate is com-  
manding almost fabulous prices, and  
the boom in this line continues. Mayor  
Harkins pointed out to us a lot of two or  
three acres which sold a few years ago  
for five hundred dollars, a few months  
ago it sold for twelve thousand dollars  
and the owner is now offered sixteen  
thousand, but asks twenty and will  
probably get it in a short time. We be-  
lieve it is generally conceded that the  
building of Battery Park hotel gave the  
city the biggest boom it has had. It is  
situated on the highest point within the  
city limits, and is at once the most  
prominent object from the surrounding  
hills and mountains.

After several hours drive to points of  
interest around the city our party by a  
singular accident, as it seemed, met  
upon a hill near the French Broad  
river where refreshments were served  
and a speech of welcome delivered by  
Hon. Thos. D. Johnston which was re-  
sponded to by President Eldridge of  
the Association. This closed the pro-  
gram for the day and we sought Bat-  
tery Park where we got a good night's  
rest. Here we met Mr. E. H. West, a  
Lenoir county man; how cheering it is  
when among strangers to meet one from  
old home! We were beginning to feel  
that we had been from New Berne a  
month, having seen no JOURNAL for  
several days and no one from that sec-  
tion. On Saturday morning, however,  
we met Mr. W. F. Rountree, Capt.  
Dan Roberts and Dr. F. W. Hancock,  
and the presence of these gentlemen  
made Asheville seem more like New  
Berne. We wish them and the ladies  
who are with them a pleasant stay in  
the mountain metropolis.

During our stay in the mountains we  
have heard very little of politics. But  
we have heard enough to know that the  
Democrats are much interested in Rich-  
mond Pearson's movements. The true  
and stout hearted of the party are in  
favor of striking square from the  
shoulder and make him show his hand  
either as a Democrat or Republican.  
Others of the weak-kneed class are in  
favor of conciliation and would even  
make concessions to Mr. Pearson in  
order to have him pull in the Demo-  
cratic traces. Senator Kope Elias is by  
no means idle. He has been address-  
ing large crowds in his district, giving  
an account of his stewardship as the  
representative in the Senate. He  
doesn't propose to take up the time of  
the important campaign next year to ex-  
plain these matters, so he disposes of  
them while they are fresh in his mem-  
ory. He is a true Democrat, has a large  
heart, and if he should be the nominee  
for Lieut. Governor, on the Democratic  
ticket, the Hahn Republicans of Craven  
ought to give him a rousing vote, for it  
was his speech that followed Hon. C. C.

Clark's famous effort on behalf of the  
Democrats of Craven, and I brought the  
Senate back to its position and saved  
George Green, Esq. of course the  
coalition Democrats take it for granted  
that he acted conscientiously in the  
matter and will rally to his support if  
he should be the nominee. We further  
learned that our mountain friends do  
not think Jarvis is the man to run for  
Governor. They are waiting to take an  
Eastern man, but think we need a new  
man speaking today of who should be  
the candidate for Governor. We should  
ask, why not take Judge Palmer.  
We assured him that if he could get  
a warmer support in the East than  
Judge Palmer, in his Jarvis, will prob-  
ably in favor of the nomination, we pre-  
sume the ladies' nomination will have  
to stand approved.

Well, this is our last day at Round  
Knob for this season, but we hope to be  
here again. It has many attractions  
and will have many more by another  
season. It can be made a delightful  
spot. The Commodore of the Agricul-  
ture & Horticulture Society, with Mrs.  
Robinson is stopping here today or to-  
morrow with a party of the guests today  
to the mountains that have recently been  
discovered by Mr. Green and his party  
from the hotel. He says the water con-  
tains iron, sulphur and soda, and  
thinks the springs will be of great  
value to the hotel. Some of the  
guests were not far from a general  
prostration, but now a general  
prostration. We are almost tempted to  
stay a few days longer as we wish to  
publish the "Excursion" in full  
and it is not yet published. But our time  
is up and with many pleasant recollections  
and high regards to the friends whom we  
have met in so agreeable a way, with  
a deeper impression of all our interests  
and varied resources of this beautiful  
mountain region.

**SWEET MASH IS A SPOON.** It is a  
popular brand of tobacco which you  
try them.

**New Berne and the New Railroad.**

The charter of the Eastern Carolina  
Land and Railway Company is one of  
the most favorable ever granted by our  
legislature. It practically donates to  
the company forty-two thousand acres  
of valuable peccan and swamp lands.  
But to obtain the benefit of this liberal  
grant, in the interest of internal im-  
provement, the work must be begun  
within twelve months from the passage  
of the act. Five months of this time  
have already passed. The men who  
have the matter in charge are gentle-  
men of energy and determination, and  
are doing everything in their power to  
get in position to begin work within  
the prescribed time. They are not men  
accustomed to failure, and we do not  
believe they will fail in their present  
undertaking though beset with many dif-  
ficulties. But we do fear our business  
men do not appreciate the importance  
of their success to the trade of our city  
and of the country from which we get  
a large part of that trade, and are not  
giving that encouragement which their  
efforts deserve. It is a grave mistake  
to regard this as a private enterprise,  
only of importance to a few individuals.

Wilmington has a better appreciation  
of the present value and future pos-  
sibilities of Onslow than have we, and is  
now and has been for years making tre-  
mendous efforts to take from us that  
fraction of its trade which we now en-  
joy. It is to be hoped that she will not  
succeed. This trade is as valuable to us  
as it is to her, and by reason of our  
natural location we should have not  
only a part but the whole of it.

Year by year New Berne is losing her  
importance as the commercial center of  
the surrounding counties. There are  
towns around us not so favorably lo-  
cated by nature and not possessing equal  
advantages of transportation which are  
greatly outstripping us in the struggle  
for business, and gradually drawing  
from our markets products of sections  
which have for generations helped to  
enrich our merchants and contributed  
to the support and growth of our city.  
It is not because these good people, who  
have left us to do their buying and sell-  
ing with strangers, do not like us, but  
because we have neglected them, ne-  
glected them not only in matters of  
transportation but of supply as well.  
We are often confronted with the hu-  
miliating fact of our own townsmen  
going to Kinston or Goldsboro to buy  
their horses, and to the town of Wash-  
ington for their new buggies. This was  
chiefly before Stewart and Randolph  
came; they will, it is hoped and be-  
lieved, put an end to this. But this is a  
digression.

Whatever theorist may hope for New  
Berne, to the practical mind for the  
present, and for aught that appears for  
a long time to come, its future depends  
upon the country which surrounds it.  
If that grows and she retains her hold  
upon its traffic, she will grow; if that  
falls off or goes backward, so will she.  
Let us then assist the people who live  
in that country to improve their condi-  
tion; to enlarge their operations and  
increase their population by giving them  
cheaper, quicker and better trans-  
portation for their abundant products.  
Above all, given more energy, enter-  
prise and unity in all that tends to our  
upbuilding and less bickerings and  
jealousies, we will begin to reap the  
reward of our natural advantage of  
location. By unity we do not mean  
blind acquiescence, but that co-opera-  
tion which suggests defects as well as  
experiences, which criticizes as well as  
approves, but which is always inspired  
by an earnest desire to aid in correct-  
ing deficiencies and in producing con-  
ditions which may secure the ultimate  
success of that which is conceded to be  
beneficial to the community. S.

Every COUNTRY MERCHANT should  
buy OLD RIP TOBACCO.

## Stonewall Items.

Fred. Tooten has just commenced to  
teach school in this place, with a fair  
prospect of good patronage.

Dr. Lewis has added to his case a  
nice little girl on the 24th inst.—  
nothing unusual at all.

Wells aged 12 years, son of N. F.  
West died on the 26th inst. He has  
been an invalid nearly all his life.

Georgia, about 3 years old, a  
daughter of Geo. Lee was bitten by a  
poisonous snake in her father's yard  
on last Thursday. Dr. Atkin re-  
sided the sufferer, medical aid at that  
this writing she is 7 K.

On Tuesday night last a thief entered  
C. B. Molyette's poultry house and on  
next night Molyette set a snare in the  
shape of a steel trap to keep watch, and  
when the day dawned the thief was  
there held safe and fast by the snare.  
It was an imposition.

The mercury rose to about the time of  
this writing with a fine reason, thrown  
in as much as could be asked for by  
anyone. The rain has and will greatly  
benefit all growing crops which are do-  
ing well and some promise and who can  
desire the benefit to all the annual  
kind, especially the human kind, and  
if they temporarily cease to do the  
amounting is.

**Recently Killed.**

Not a few of the citizens of New  
Berne, N. C. have recently become  
greatly excited over the astounding  
facts that several of their friends who  
had been pronounced by their phy-  
sicians as irremediably and beyond all hope  
suffering with that dreadful malady  
consumption, have been completely  
cured by Dr. King's New Discovery for  
Consumption, the only remedy that  
does positively cure a fatal and incur-  
able disease. Coughs, Hoarseness, Asthma, etc.  
Dr. King's New Discovery.

**ADVICE TO TOBACCOERS.**  
The "Sweet Mash" tobacco which  
should always be used for chewing  
tobacco. It is the best tobacco in the  
country, and all good tobacco will  
only add to the best quality of the  
leaf. Twenty five cents a tin.  
mail 17 at this way.

**Excursion to the**  
**CAMP MEETING AT**  
**OCRACOKE.**

The Steamer "Margie"

Will leave NEW BERNE on

Saturday, Aug. 6, '87,

at SEVEN A. M. Thereby giving all

those who desire to spend Sunday, the  
last and largest day at the meeting a  
chance to do so.

Fare for round trip \$2.00. For fur-  
ther information enquire at the  
foot of Craven street.

W. P. BURRIS, G. M.

## Reopened

**Willis, Edwards & Co.**

Have reopened the New Berne Machine  
Works, and have added to the list of  
works to do all kinds of Machine and  
Tool Work at short notice.

They have also added a foundry to  
their works, and are prepared to do the  
best of Brass and Iron casting.

House Plumbing especially.

If you want good work done at low  
prices, call on us. All work guaranteed and  
done to suit the times.
