Steamer Movements.

The Annie of the E. C. D. line sailed vesterday afternoon with general merchandise and naval stores. The Vesper of this line will be in this morning.

The Pamlico of the O. D. line arrived vesterday morning with a large cargo of freights which were discharged and the steamer left for Norfolk via Nage Head with a large number of passengers.

They were fine looking ladies in the Mother Hubbards, mile. The convention is strictly though some were quite masculine in appearance.

We believe the boys intend to wake up Nage Head; but Ed. Pavie; Jimmie tend. Matters of great importance to Moore and Bill Guion will see that they do no mischief and will bring them all back safe and sound. A pleasant trip in tobacco culture should co-operate to you all.

Tax Deeds.

The county commissioners will be in session again today. They are endeavoring to made a settlement with ex-Sheriff Hahn. The Sheriff has one hundred and eighty tax deeds, which are not worth the snap of a finger to the county, which he wants the county to take in lieu of the taxes on the property which they cover and pay him the costs. Of course if the Sheriff has com plied with the law in every respect in selling this property, and endeavoring to collect the taxes due on it, the commissioners, it would seem, are bound to coept them and allow him his cost. But they should be sure that he has done his duty before they accept these as deeds, which will cost them five or six hundred dollars.

Put New Beine Or.

In the advertisement of excursion rates to the mountains this summer we notice that every little town on the W. N. C. R. is on the list. That is, excursion rates can be obtained to any one of these towns. We suppose when the winter travel for the South sets in these low rates will be offered by the different trunk lines for the season. New Berne is now prepared to entertain winter visitors. Hotel Albert is admirably fitted up for this purpose and we expect to see it filled with Northern visitors if the same inducements are They will stop at High Point for a while offered by the railroads that other points get.
