No discount, no delay, no legal warfare with widows and orphans, has ever been some of its cardinal principles.

WILLIAM H. OLIVER, Agt. Connecticut Mutual Life Ins. Co.

Wilmington, Morehead, City and New Berne are from four to eight hundred miles nearer the West India Islands and South American ports than the ports of Baltimore and New York, and ought to be the distributing marts of the coffee. sugar, molasses, salt, fruits and other sugar, molasses, salt, fruits and other Carts, Bruises, Seres, Uhers, San products of these tropical climes for the Rheum, Fever Sores, Tetter, Chapped West and Southwest instead of the latter ports. Lumber, shingles, staves. flour and manufactured goods are more, Philadelphia and New York, put aboard vessels and brought back along our coast right by our doors and taken on to the West Indies and other tropical ports, and the same vessels return with coffee, sugar, molasses, While there are fewer cattle than last &c., &c. which go past us to these Northers ports and are sold to our merchants for shipment South. This ought not to be. There is no reason why we should pay the Baltimore, Philadelphia and New York merchants to do our shipping when we can do it Pasha was in the Umjaro district at the ourselves.

Railroads are unquestionably the pioneers in developing a country, and they will do it when it is to their interest to do so. The building up of Morehead City and New Berne is not in accord with the interests of R. & D. and W. & W. railroads. Their interests lie in a different direction and they will throw every obstacle in the way they conflagration raged today in Scutari, possibly can to presvent these ports from assuming the importance they are entitled to. The C. F. & Y. V. is yet without a deep water outlet of its own. By connecting with the A. & N. C. R. it would necessarily be bound to build up the ports of New Berne and Morehead City. Knowing that nothbut good can ing come to this section by the consolidation of the two roads we are in favor of almost any terms that will bring them together. It would be better for the State, better for the counties holding stock, better for the private stock-O. R.
