See schedule of steamer Howard in this issue.

A change of schedule will be made in the running of the mail train on the A. & N. C. R. next Monday.

The steamer Florence and schooners Bula Benton and Theresa are on Howard's ways for repairs.

The city council was again in session last night. The proceedings will appear as soon as furnished by the clerk.

Capt. S. H. Gray has moved to the Harvey building, recently used as the Central Hotel, on South Front street.

Loads of crab grass hay are to be seen on the streets every day. It sells at from thirty to forty five cents per hundred.

L. H. Cutler's fall advertisement appears in this issue. He is fully prepared to fill all orders promptly and at satisfactory prices.

Miss Emily Ferebee gives notice that her school will open on Monday, Sept. 26th. Her terms are reasonable and she is fully qualified to teach children.

Rachael Best, col., has been arrested upon a capias from Pamlico county and confined in jail. The sheriff of Pamlico has been notified to come for her.

We learn that President Bryan has contracted for another thousand tons of steel rails for the A. & N. C. R. This will carry the track to near Falling creek station.

O. Marks' goods boxes came near blocking Pollock street yesterday. If he don't stop sending forward so many large boxes the city will have to limit him as to space.

Our carriage maker, O. T. Randolph, is booming his business. He recently found a customer at Norfolk, because his work suited better than any that could be found nearer home.

Six prisoners escaped from Durham jail last Sunday morning, by scaling the keeper and locking him in a cell, and afterwards scaling the walls and were well out of town before the jailer's situation was known.

Mr. J. A. Meadows' mill is running night and day since he has begun work in the factory building. Two more rocks will be ready to start next week, and then he will be able to catch up with the trade.

Sheriff Benson is making a good record in collecting the liquor tax which goes to the support of schools. His report to the board of education shows an increase of eight hundred dollars over last year.

If any one wishes to know how the current funds of the county stand they can learn the same by visiting the court house any time after the first Monday in each month and examining treasurer Patrick's statement. This statement is printed promptly on the first Monday in each month as the law requires. The receipts and expenditures are itemized so that it shows from what source every dollar is received, and to whom it is paid.

A Building and Loan Association.
The citizens of Wilmington held a very enthusiastic meeting a few days since to consider the question of organizing a Building and Loan Association. We have lately published facts about the workings of such an institution in other cities with the hope that some of our countrymen would catch on to the plan and start one in New Berne. But their fears were vain.

Arrivals at Hotel Albert.
C. D. Caffee, Lake Landing, N. C.; R. A. Smith and wife, Stella; George Maltersin, Miss May Lucas, Washington; H. V. Williams, La Grange; J. C. Crowell, Wilson; J. H. Brown, Grovesboro; Charles H. Fowler, Stonewall; T. J. Mitchell, Henderson; Chas. L. Nelson, Norfolk; W. Hayden, Jackson, Mich.; E. L. Crawford, Baltimore; Chas. W. Reif, Philadelphia.

Another Handsome Monument.
Our marble man, Mr. J. K. Willis, has added another ornament to Cedar Grove cemetery. It is a beautiful monument erected to the memory of Col. Thos. W. Mayhew. It is of Italian marble, cottage style. The corners of the die are ornamented with inverted torches; the sub-base and cap are elaborately moulded, and the whole is surmounted by a draped urn with a handsome wreath across the face, and is twelve feet high.

Hyde County Products.
Hyde county has the reputation of being a great corn country, but corn is only one of the items for which its soil is rich in productiveness. The finest onions, cabbage and other vegetables are raised there in abundance. New Berne market is supplied with onions from Hyde county and many hundreds of barrels are shipped to other markets. A cargo of these and Irish potatoes were in the market yesterday. The onions sold for \$1.60 to \$1.75 per barrel, the potatoes \$2.25 per barrel.

Steamer Movements.
The Defiance of the Clyde line, arrived from Baltimore last night with a large cargo of general merchandise, and will leave on return trip Friday at noon.

The Pamlico of the O. D. line, left yesterday for Norfolk with passengers and freights. Among the latter were forty bales of new cotton and a lot of naval stores. The Newberne of the same line will arrive tonight.

The Eaglet of the E. C. D. line, sailed yesterday afternoon with cargo of lumber, fish and general merchandise and cotton. The Veepier will arrive this morning.

Personal.

C. E. Foy and family have returned from their summer trip to the mountains.

Mrs. Mary Mayhew and family have returned from Winston.

Thos. W. Mayhew, Esq., of Aurora, passed through the city yesterday morning en route for Raleigh with his sister, Miss Barber, who goes to enter school.

Rev. Mr. Call of Washington, arrived on the steamer Pamlico yesterday morning and leaves this morning for a visit to his father's in the Western part of the State.

W. F. Rountree, Esq., and family returned last night from their summer trip to the mountains.

Mr. W. Hayden, Mayor of Jackson, Michigan, is at Hotel Albert.

An Improved Gas Burner.

Mr. C. H. Sheftall, representative of the Wilson Gas Burner Co. of Baltimore, is in the city handling the "Ocular Demonstration Burner," which is undoubtedly a great improvement over the old style. It gives a full, round and steady light, and at the same time Mr. Sheftall claims it to save from 20 to 80 per cent. of the gas consumed with the plain burner on high pressure, and 50 per cent. on low pressure gas. The JOURNAL office has been lighted throughout with them, and their brilliancy is very noticeable. Also the city has adopted them. With this saving anybody who can afford to buy lamps and oil can be made to use gas. It is a double benefit arrangement and prevents heating as well as giving a better light.

The Academy Green.

The grounds of the academy are being put in order for the opening of the schools. The old building is being whitewashed and put in thorough order for the High School which opens on the 19th inst. This school is separate and apart from the graded school and the teachers thereof are determined to make it a school worthy of the patronage of all. They are going in for old fashioned hard work to build up a school upon their merits, and all who desire to see New Berne take a stand beside her sister towns in educational matters should hold up their hands. Patronize them and speak a good word for the school whenever an opportunity offers.

The new building will be used for the graded school where tuition will be free up to and including the sixth grade. With a free preparatory school on the ground, the High School ought soon to rank second to none in the State in point of numbers and efficiency.

Arrested for Larceny.

John Cockerham and Chanie Jones were before justice E. G. Hill yesterday upon a charge of stealing hogs from Harmon Moore. They were held to bail for their appearance at the next term of the Superior Court. Jones gave bond, Cockerham was committed to jail in default of bond. "Hogs' cautions folks a heap o' trouble."

Second—We shall be prepared to submit to capitalists all opportunities for making large investments that we can recommend as safe and profitable, and to negotiate the sale of farms and unimproved lands.

Third—This Bureau will act as the northern advertising agent for health and pleasure resorts, for towns desiring increase of population, and for all new enterprises in North Carolina that need to be favorably presented to the public.

Fourth—This Bureau will act as the agent of persons or corporations wishing to introduce the natural products and manufactured goods of the State into the northern market.

Fifth—This Bureau will be a purchasing agency for the citizens of North Carolina for all articles that cannot be bought in the State; manufacturer's plans, steam engines, machinery, tools, farm implements, etc.

Sixth—For all services rendered a reasonable commission will be charged. The Manager of this department of my business, Mr. Nick W. Schenck, a citizen of Wilmington, N. C., will be happy to meet any of his former fellow citizens who may visit New York.

THE "WANT TO GET BACK" SOCIETY

Deposed Republican Office-Holders at Washington Forming an Association.

WASHINGTON, D. C., Sept. 4.—The Republicans who have lost positions in the various departments since the present administration came into power, and who continue to reside in this city, have formed an association. The membership is increased as fast as the political quillotine does its work, and there are Democrats here who think the machine is very slow in its reform movements. The fact is, however, that the deposed Republicans continue to make Washington their home with the expectation of being reappointed when their party comes into power again which they believe is certain.

These removed followers of the G. O. P. held a meeting last evening at the Washington Hotel and adopted resolutions setting forth that if the people want to save the country, they must return the Republican party to power. There were about fifty of the ex-office-holders present, and those who had for years drawn the largest salaries from Uncle Sam's Treasury were the most patriotic in the speech-making.

During the meeting W. N. Cox, a well-known colored gentleman from Virginia, arose and wanted to know if the color line would be drawn. He was told that the association had not thought of such a thing. Then Mr. Cox sailed in and was constantly offering suggestions and delivering speeches. A. T. Bissell, of Missouri, came high breaking in the gathering by asking if one colored member was to be allowed to run the entire association. Before the meeting adjourned a discussion took place over a name for the organization. A very frank ex-treasurer clerk suggested the name of "We-want-to-get-back." The association's title will not be decided upon until the next meeting.—N. Y. World.

For Cholera, Diarrhoea, Dysentery, Inflammation of the Bowels or Colic.

Take internally from five to ten drops of Darby's Prophylactic Fluid in a tablespoonful of water every hour or two till improvement takes place. There is no danger in taking more of it and more frequently if occasion requires. In chronic cases, or when the stomach refuses to retain anything else, use injections of the Fluid and water. We have never known a case that did not really yield to such treatment, and it saved the lives of many.

Wards of Wisdom.

A common-sense will not eat a load of stool and pronounce it a mushroom. The mushroom springs up in a night, in fact it is composed of darkness, and disappears as quickly.

The Oak (Old Reliable) springs from the acorn. It needs the sunshine, rain, dew, frost, etc., to attain perfection.

Having attained maturity, after the lapse of many years, its branches will give shelter to untold generations.—EX-AMINATION TO MEMBERS.

Mrs. WILSON'S SOOTHING SYRUP should always be used for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. Sent by mail.

He was before Justice Merrimon of the Supreme Court on Monday upon a writ of habeas corpus. He was surrendered to an officer from New York in obedience to a requisition from the Governor of that State.

FOREIGN NEWS.

A THEATRE BURNED.
LONDON, Sept. 5.—A theatre at Exeter took fire this evening during a performance of Romany Rye. The occupants of the pit, after an awful struggle, escaped, but many of them were greatly injured. There was only one exit from the gallery, and the rush there was terrific. Some were trodden under foot and suffocated. A fire escape was brought to a window, and many inside were rescued. Sixty corpses have been removed. The injured survivors were sent to a hospital. The mortality is estimated at 100.

WILL NOT TOLERATE FOREIGN INTERFERENCE.

SOFIA, Sept. 5.—M. Stambuloff, the prime minister, in an interview regarding the proposal of Russia to have a joint Russo-Turkish commission visit Bulgaria and arrange her affairs, said if General Ernoff and Artin Effendi came as private persons they would be admitted to Bulgaria, and not otherwise. Bulgaria was alive to Russia's objects, and would repel any interference in her internal affairs by any power whatever. If Russia liked to send General Ernoff to Bulgaria as her diplomatic agent, that would be different. Both he and Artin Effendi would be courteously received as duly accredited diplomats.

CONSTANTINOPLE, Sept. 5.—The Porte has learned that the Austrian government is strenuously trying to arrange for Prince Ferdinand's withdrawal from Bulgaria. BUCHAREST, Sept. 5.—The censorship of foreign telegrams continues throughout Bulgaria, and the entry of foreign

PAYING THEIR RESPECTS TO GLADSTONE.
LONDON, Sept. 5.—Many noted Americans went to Hawarden yesterday to pay their respects to Mr. Gladstone, and attended church, where he read the lessons of the day. Mr. Gladstone returned each greeting cordially.

YEAR AND EMPEROR NOT TO MEET.
BERLIN, Sept. 5.—The North German Gazette says: "The repeated statements that a meeting of the Emperor and the Czar is about to take place at Stettin emanate from Austrian and French sources and are based upon pure conjecture. Nothing exists to justify the supposition that the Czar is coming to Stettin."

RESULT OF THE MOBILIZATION EXPERIMENT.
PARIS, Sept. 5.—It is stated that the mobilization experiment has shown that all the reserves could be embodied in three days, that all the various regiments are ready to march and that cartage has been requisitioned for stores.
