**The train goes up, according to sched-**  
ule, twenty-nine minutes earlier this morning.

**One bale of cotton on the market yester-**  
day. No sales. Five bales were sold on Saturday at nine cents.

**Cottage prayer meeting tonight under**  
the auspices of the Y. M. A. at Mr. Mark W. Ipoth's residence, corner Pollock and Metcalf streets, at 8 p. m.

**Miss Myrick, who taught music in**  
this city last year is to be the music teacher of New Berne High School. Another good selection. The school will open next Monday.

**The old city clerk's office has been**  
moved from the court house square by Mr. F. Boesser to the opposite side of the street and will be used as a residence. Its removal gives the court house a much better appearance, but it can be further improved by removing the old plank wall on the east front.

**Mail Departures.**  
The change in schedule on the A. & N. C. R. necessitates a change in the hours of closing the mails at the post-office. The mails for the North, West and South will be closed at 7:30 a. m.; the mail for the East will be closed at 8 p. m.

**Fire.**  
About daylight yesterday morning the alarm of fire was given from the neighborhood of Five Points. Two small dwelling houses belonging to Robert G. Mosley, colored, on Carmer street were on fire and were almost entirely destroyed. The fire department arrived in time to prevent the spread of the flames to adjoining buildings. The buildings were worth about \$400; insured, \$850.

**At Work Again.**  
The wood pulp mill at Graywood starts up again today. Work was suspended sometime since, not for lack of capital as was reported to the Wilmington Messenger sometime since, but for repairs and with a view of putting in additional works. State Senator Chase of Providence, R. I., recently stated in a speech concerning the Richmond Paper Co.'s affairs that material similar to this made at Graywood makes the finest paper in the world. We hope to see the day come when the pulp made at Graywood is turned into paper on the spot.

**Building and Loan Association.**  
We think sufficient interest has been shown in the organization of a Building and Loan Association to call a meeting for that purpose. After consultation with several of our citizens we suggest that a meeting be called on Friday evening next at 8:30 o'clock at the Y. M. C. A. rooms, if they can be obtained for the purpose of organizing and subscribing to the stock.

An indication of this sort will be of great benefit to mechanics and laboring men of moderate means, and we hope to see them take an interest in it.

### Arrivals at Hotel Albert.

H. Engelberg and wife, Miss E. Teiser, Beaufort; L. C. Read, N. C.; Richard F. Myers, Philadelphia; Thos Eggleston, J. S. Raim; W. H. Connor, jr., Baltimore; V. E. Kugler, Smiths Creek.

### Reunion of First Cavalry.

We publish in another column a call from General Robert Ransom, which he makes in obedience to the request of Co. "H," for a reunion of the first regiment of North Carolina Cavalry at Raleigh on Thursday of the State Fair week. The time and place has been happily chosen. Now let the boys meet together once again and talk over the old times, and we suggest, take some steps to have a brief, concise and correct history of the regiment written.

### Correction.

The substitution of a word by the typo in Messrs. Watson & Street's communication on the Building and Loan Association which appeared in Sunday morning's issue made it mean just the opposite to what was intended. Instead of saying, we congratulate ourselves that our efforts in that direction are to be supplanted," &c., they said "we congratulate ourselves that our efforts in that direction are to be supplemented," &c. Another good article appears this morning upon the same subject from O. H. Guion, Esq.

### Personal.

Mr. T. A. Green and Mr. Wm. Cleve of Vanceboro left yesterday morning for a visit to Hot Springs.

Ex-sheriff M. Hahn and J. L. Hahn are on a trip to New York.

Mr. Frank Myer accompanied by Mrs and the little Myer have arrived and located at their residence on Broad street. Mr. Myer looks fresh and vigorous, and ready for the fall and winter work in the cotton trade. He has long been a buyer in the New Berne market and his appearance indicates that the market has fairly opened.

Mr. I. Stuart of Louisville, Ky., arrived with his bride on the steamer Pamlico on Sunday morning and is stopping with Mr. A. H. Holton.

### Steamer Movements.

The Pamlico of the O. D. line arrived Sunday morning with a large freight and sailed yesterday at noon for Norfolk with cotton, other freights and passengers. The Newberne of the same line will arrive tonight and sail at noon tomorrow for Norfolk.

The Kinston of the N. & T. S. line, arrived from Kinston yesterday with a cargo of cotton. She will leave tomorrow morning for the mouth of Contentnea creek. The Blanche of the same line, arrived from up Neuse and will leave for Kinston today at noon. The Trent of the same line left for Trenton yesterday with a cargo of goods.

The Margie of the Hyde county line, arrived from Bayboro last night.

The Vesper of the E. C. D. line arrived Sunday with a cargo of merchandise. The Eagle of this line sailed yesterday afternoon with lumber, cotton and general merchandise. The Vesper will sail Wednesday afternoon at 4 o'clock.

### Reunion of First N. C. Cavalry.

At a reunion of Company H, 1st N. C. Confederate Cavalry, at Goldsboro, Aug. 24th, 1887, a resolution was passed that the undersigned be asked "to issue a call for reunion of the whole regiment at Raleigh on Thursday of Fair week," next October, and I heartily make the call and request most earnestly every member of the regiment from its organization to its declination to meet at the time and place stated. The fame of that regiment is too well established for any to doubt the propriety and patriotism of such a reunion.

I shall be glad to correspond with any and all who may wish to communicate with me upon the subject.

R. RANSOM,  
New Berne, N. C.

Sept. 10, 1888.

### The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 30 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at R. N. Duffy's drug store.

### Thanks.

I return my thanks to the Fire Department and citizens for their aid in assisting to put out the fire which burned my property Monday morning.

R. G. MOSLEY.

### Doan's Kidney Pills.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Sore Throat, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by R. N. Duffy.

### Building and Loan Association.

Mr. Editor.—Naturally feeling an interest in the advancement and prosperity of my native town and deeming the enterprise appearing in the columns of your paper (a list of members as subscribers to which Messrs. Watson & Street have secured in their usual indefatigable efforts in all business transactions, in which they may be interested) one, if properly and legally conducted, of inculcating advantage to its welfare, I ask space for a few remarks upon the subject of "Building and Loan Association."

Knowing that confidence once shaken is hard to be restored, I desire more particularly to present to those interested and not already informed, the cause of the dissolution of our former building and loan association, which had it been conducted with the view more to public advancement and less to individual gain, would doubtless now remain in our midst an instrument to prosperity.

I notice that Mr. Pelletier in his communication in Saturday's issue has briefly intimated a proposed plan for conducting the organization, from which can be drawn the distinction in that of the former association, the facts of which are cited in the case of Mills vs. Salisbury building and loan association and which I set out below—for the purpose of presenting to the community the only obstacles to be guarded against in the formation of the plan which only needs completion to insure successful operation.

W. J. Mills subscribed for and became the owner of five shares at a par value of \$200 per share by agreeing to pay \$1 00 per month on each share. According to the by-laws he withdrew two shares.

On the 1st Monday in June 1874 he attended the regular monthly meeting when three shares of the stock valued at \$600 were offered for redemption and put up at auction to the highest bidder. Mills bid the sum of \$221.00 as a premium or bonus for the privilege of having an advance of \$600 made him. He therefore paid the association the \$221 and executed security for the payment of installments thereafter to become due at the rate of \$1.00 per share on each share also the interest upon the sum of \$600 payable monthly and also to secure the payment of such fines and penalties as should thereafter at any time be prescribed by the association. He then became in arrears for eight months. Note the result.

|   |           |
|---|-----------|
| To monthly dues on 3 share stock            | \$ 24 00  |
| Interest on advancement                     | 24 00     |
| Fines for non payment of dues and interest  | 21 60     |
| Advancement on redemption of 3 shares stock | 600 00    |
|   | \$ 669 60 |

Having secured a loan of \$600 by paying a premium of \$221.00 he received in actual cash \$379.00. Therefore Mills borrowed of the association \$379.00 or received that amount in actual cash to secure the payment of which he executed to the association his bond not for \$379.00 but for \$600 and a mortgage upon land to secure not \$379.00 and interest thereon but interest on \$600 and an additional six per cent which they call dues but which is only another name for interest. So that Mills agrees to pay 12 per cent interest on \$600 in monthly installments which is equal to about 19 per cent interest on the amount he actually borrowed, \$379.00. Is it strange that an association doing business under so unscrupulous a system could be tolerated by our unscrupulous laws? Now the plan heretofore suggested can by no means draw or demand a greater rate of interest than that allowed by the laws of our State.

Therefore with the defects and errors of the old association pointed out to us we can surely organize and conduct the proposed association on a firm and safe foundation and crown our efforts with the desired result.

The object of this enterprise, Mr. Editor, can not be better set forth than in the words of the statute creating the former organization, so unfortunately conducted:

"Whereas divers persons, chiefly of the industrial classes, are desirous of forming associations for the purpose of accumulating by small periodical deposits, a savings fund with which they may secure a homestead and for their mutual benefit."

This, I take it, is the intent and purpose of our present plan and cannot fail to commend itself to our citizens, who I know with one accord are ready to lend their aid to any worthy object whose end is for the promotion of prosperity in their midst. Judge Reade in the case above referred to says that the declared object of the legislature is to enable and to encourage persons, chiefly poor persons, to save and deposit their little, and when sufficiently accumulated to draw them out in bulk and secure homesteads. And he further proceeds, that though not within the letter of the act it would doubtless be in its spirit if the associations should be so organized that instead of a member in all cases waiting to pay in by little and take out in bulk, he could in the beginning of his connection with the association take out in bulk and pay back in little.

And I know of no community in which this suggestion would be more readily adopted than our own. Our representative men whom fortune has less endowed, whenever they show themselves worthy of their assistance.

Although, Mr. Editor, the columns of a newspaper are perhaps the proper instruments for ventilating subjects of public interest, yet theory exhausts itself when unaided by practice, and if it is the desire of our citizens to build a structure upon a foundation mapped out for them by the Supreme Court, which has shattered the old hull, let us unite in a general meeting called for this purpose, at which time we can formulate upon new ideas and past experience a basis for this commendable

undertaking. When once set in motion by a general expression of opinions in the meeting assembled, we will find but little difficulty in carrying out a project which must appear for the good of all. And in calling this meeting, Mr. Editor, urge upon the mechanics and artisans of our city the necessity of their attendance and the desire for their cooperation in its behalf that they may also be convinced in this initiatory step that one of its main objects is the promotion of their labors. Let the meeting be called at an early date and even though few attend, by this united effort and by the work of committees selected the desired end may be accomplished. It is difficult to enlist membership for an enterprise with no settled plan of cooperation and without the encouragement of public sentiment. I trust that in my zeal for this organization I have not occupied too great a space in your columns, and sincerely hope that our town may take this the first step towards shaking off the lethargy from which too many have predicted she can not free herself.

Very truly  
O. H. G.

### A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking her first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co. of Shelby, N. C. For sale at R. N. Duffy's drug store.

### To Whom It May Concern.

Prof. Neal has been so fortunate as to secure the services of Miss Fannie S. Myrick as teacher of music in the High School. A new piano will be placed in the building, and the pupils will receive every advantage to be obtained in any college.

Pupils are solicited from every direction, and lessons will be given either in the school building or at home just as the parents may prefer. The terms are \$3 per month for all pupils either in the Graded or High School.

Miss Myrick is an experienced and efficient teacher, and can furnish the best references. She is a graduate of the Wesleyan Female College, and taught in that institution. The following is an extract from a recommendation given her by the Professor of Music with which she was associated and who was her former teacher: "I can cheerfully recommend Miss Myrick as a thorough and painstaking music teacher. She is a brilliant performer, plays readily at sight, and in fact combines all the qualifications a good music teacher ought to possess."

Those wishing to secure the services of Miss Myrick will please apply as soon as possible.

A Tennessee country editor who went off for his summer vacation left the following notice on his office door: "Will be gone for several days and have left matters in charge of the office boy. People who wish to pay subscriptions will see our wife. Those who have complaints to make will please go to the devil."

### Chills and Fever. Malaria.

"Many cases of fever and ague, dumb ague and congestive chills were promptly arrested and entirely banished by the use of Simmons' Liver Regulator. You don't say half enough in regard to the efficacy of the valuable medicine in cases of ague, intermittent fevers, etc. Every case has been arrested immediately. I was a sufferer for years with the liver disease, and only found relief by using the Regulator."—ROBERT J. WELLS, Batavia, Kane Co., Ill.

### Music School.

Miss MYRICK will reopen her Music School

Monday, September 12th.  
A liberal patronage is respectfully solicited, and every advantage will be given to the pupils.
