The people of every town or station
along the A. & N. C. R. are interested
in an extension of the A. & N. C. R. to
the C. F. & Y. V.

The executive committee of the Y. M.
C. A. are requested to meet the presi-
dent, Dr. J. D. Clark, at his office, to-
morrow, Monday, at 8 p. m.

The Goldsboro daily Argus has en-
tered its sixth volume, being two and a
half years old. It is a live paper and
conducted with much force and ability.

Goldsboro has a furniture factory and
she now needs an extension of the A. &
N. C. R. to the C. F. & Y. V. in order to
find an additional market for the furni-
ture.

It will cost the C. F. & Y. V. some-
thing near a million of dollars to ex-
tend to Wilmington. We can extend
the A. & N. C. R. to Fayetteville and
give them a better outlet without
money and without price.

Salvation Arrivals.

Major Inman of Washington, D. C.,
Capt. Hunter of Wilmington, Capt.
Hartline of Raleigh, Capt. Gow of Dur-
ham, Capt. Denton of Greenville, S. C.,
Lieut. Dunkley of Wilmington, Lieut.
Gow of Durham, Lieut. Snell of Golds-
boro, Cadet Strickland of Raleigh, Capt.
Deal and wife arrived last night to aid
in the grand jubilee meeting of the Sal-
vation Army this week.

Personal.

Mr. H. B. Lee of Carteret, called to
see us yesterday. He has been teach-
ing school in Pink Hill township,
Lenoir county, for several months and
will return there soon to resume his
school. He brings a message from one
of his employers to the JOURNAL to the
effect that "advertising pays," an ad-
vertisement in the columns of the JOUR-
NAL had brought them a good teacher.

Miss Maria Manly arrived from Bal-
timore last night and will take charge of
her class in the High School tomorrow.
Mrs. Geo. H. Brown of Washington
arrived from the mountains last night
on her return home.

Major Graham Davis arrived last
night.

Mr. Benjamin Ulrich returned from
Baltimore last night, accompanied by
Mr. T. Fletcher Hargis, but not in a
cage.

Public Meeting of Citizens
Of Craven county is called by author-
ity of the County Government to meet
in the Court on TUESDAY EVENING
AT EIGHT O'CLOCK to consider and
determine measures looking to a Railroad
connection with the Yorkin Valley
Railroad. A full meeting of the citi-
zens of the county is desired. sep27st.

Cotton Manufacturing.

One of our leading merchants has an-
nounced his willingness to invest a
thousand dollars in a cotton factory for
New Berne. The last issue of the
Baltimore Manufacturers' Record has
a long article showing the good divi-
dends made by Southern mills. They
have paid all the way from sixteen to
twenty per cent, and it is stated that
cotton mills are being built so rapidly in
North Carolina that the State promises
to become the Southern centre of this
industry. Several of the North Carolina
mills are cited as having paid hand-
some dividends, and it is further
stated that the fancy in this State is for
small mills instead of large ones.

A cotton factory is a sort of a sore
subject with some of our people, be-
cause of the failure of the last one
tried. But it is often truthfully said
that where you lose money is the place
to find it. So it would seem that with
the experience of the former enterprise
a cotton mill might be started that would
pay as well here as anywhere in North
Carolina.

Commissioner J. T. Patrick published
sometime ago a plan of starting fac-
tories which we think was an excellent
one. He said that the excuse offered
by the men of means in many small
towns for not engaging in manufactur-
ing is that they don't know anything
about the business, and therefore don't
like to put their money in it. We have
heard this same excuse offered right
here in New Berne. He says there are
many small factories North that would
be moved down South at any time if
the owners could get the people of the
town where they locate to take
stock in it. The owners will
put in their machinery as their part
of the stock and will run it if the re-
sident business men will take stock
enough to become interested in the suc-
cess of the enterprise; by this the owners
are assured of the good will of the com-
munity, and it shows a disposition to
help and encourage such enterprises.

Now we are prompted to write this
about manufacturing cotton, because
this merchant seemed to be in dead
earnest about his willingness to invest
in such an enterprise and because we
believe it would give employment to
many worthy girls and boys in the city
that need it. The good results as shown
by the Manufacturer's Record is also
another cause for writing on the sub-
ject at this time. If the minds of any
of our monied men are tending in that
direction, and they manifest sufficient
interest in it, we will publish the entire
article from the Record and let them
see what a good investment they are
missing.

The Onslow Railroad.

The chairman of the board of county
commissioners has, in response to a re-
quest of a number of citizens, has ap-
pointed a committee to meet and confer
with representatives of the W. & O.
Railroad Co., the citizens of Wilming-
ton and Onslow county, on the question
of building a railroad from one city to
the other through Onslow county. The
committee is composed of the following
gentlemen: Wm. G. Brinson, George
Allen, W. M. Watson, Thos. H. Mailison,
H. S. Nunn, Maj. John Hughes, Clement
Manly, Enoch Wadsworth, Dr. Geo.
Slower and William Cleve. A com-
mittee has also been appointed on the
part of the Cotton Exchange for the
same purpose.

The President of the Wilmington,
Onslow & East Carolina Railroad Co.,
and a number of other citizens of
Wilmington will meet this committee
in Goldsboro next Tuesday. It is ex-
pected that a good delegation will be
there from Wilmington and that the
matter will be fully discussed, and
some concert of action be brought about
in regard to building the road.

Steamer Movements.

The Trent arrived from Trenton with
a cargo of cotton.
The Howard arrived from Trenton
with a cargo of cotton.
The Pacific of the O. D. line will
sail tomorrow at noon for Norfolk.
The Carolina will leave for Bell's
Ferry tomorrow at noon.
The Eagle of the E. C. D. line sailed
last night with a full cargo of cotton.
The Annie of this line will arrive today
and sail tomorrow afternoon.

Electric Bitters.

This remedy is becoming so well
known and so popular as to need no
special mention. All who have used
Electric Bitters sing the same song of
praise. A pure medicine does not ex-
ist and it is guaranteed to do all that is
claimed. Electric Bitters will cure all
diseases of the liver and kidneys, will
remove pimples, boils, salt rheum and
other affections caused by impure blood.
Will drive malaria from the system and
cure as well as cure all malarial
fevers. For cure of headache, consti-
pation and indigestion try Electric Bi-
ters. Entire satisfaction guaranteed or
money refunded. Price 50c. and \$1.00
per bottle at R. N. Duffy & Sons.

Goldsboro Alive to Her Interest.

We rejoice to see the Argus taking
such strong grounds in favor of ex-
tending the A. & N. C. R. to Fayette-
ville or some point on the C. F. & Y. V.
A meeting has been called for Monday
evening to discuss the matter. The
plan for extension is entirely feasible,
and we feel confident if the people along
the line will communicate their wishes
to the Governor he will give them a
fair hearing. Without an extension
and connection with a long line the
A. & N. C. R. can never be a source of
income to the State or private stock-
holders, nor can it do much towards
the development of this section.

Our chances for a connection with
the C. F. & Y. V. are better than those
of Wilmington if we but make use of
them. If the Governor is against us
and will not consent to the extension
of the road, then let us offer other in-
ducements for the C. F. & Y. V. to ex-
tend to us.

Extensive Fishing.

Clement Manly, Esq., of New Berne
is in the city attending the Supreme
Court. In a pleasant chat with him on
yesterday, a reporter learned some
facts about the fishing industry around
Beaufort and Morehead City. There is
a large run of all kinds of fish and the
catches are enormous. A school of
"fatbacks" was captured a day or two
since and though 450,000 have been
taken from the nets not half of the en-
tire school has been taken out. The
scrap factories are running with a vim
and supplying fertilizer factories with
tremendous quantities of scrap. As the
fish are taken from the net they are
placed in large vats and every particle
of oil is pressed from them. This oil
has a good commercial value and is a
source of considerable revenue. After
pressing, the fish are spread upon large
flat plates of ground to dry. Then they
are packed in sacks and sent on to the
fertilizer factories. Their fish scrap
contains 15 or 16 per cent of ammonia.
The porpoise fisheries are also having
fine runs. Thousands are being cap-
tured and the business is so heavy that
two more factories are contemplated for
extracting oil and working skins. The
business has increased over 100 per cent
from last year. There are large runs of
other fish, such as mullets, mackerel,
blue fish, etc., and the fishing season is
on a big boom.—News and Observer.

A Good Balm.

Should not hesitate to wait upon those
ill with such diseases as Small-pox,
Cholera or Scarlet Fever. There is little
to be feared by persons waiting on the
sick if they will use Darby's Froyliac-
tic Fluid freely. In sick rooms it should
be exposed on a plate or saucer, and the
patient sponged off with the fluid di-
luted. For safety, cleanliness and com-
fort in the sick-room the Fluid is indis-
pensable.

GETTING DOWN TO WORK.

Master Workman Powderly Presents
His Report to the General Assembly.

MINNEAPOLIS, Minn., Oct. 6.—The
business before the Knights of Labor
convention is creeping on apace. All
matters of contested seats were finished
up yesterday, and it was then found
that there are 225 delegates entitled to
seat and voice. A committee was ap-
pointed to collect funds for a monument
to Thomas Armstrong. In the evening
Grand Master Workman Powderly de-
livered his annual address. He said
that, although the present General As-
sembly was not so large as that of last
year, and better things could be ex-
pected at its hands, existing dissensions
had been enlarged upon and scattered
by enemies of the order, and employers
in many cases had taken advantage of
what they mistook for their weakness
and rushed into conflict with the
Knights.

Speaking of the relations of the order
to Anarchy, Mr. Powderly takes oc-
casion to say that he had never con-
sidered Socialism with Anarchy, and
he would ask the General Assembly to
define the position of the order on the
attempt that had been made to pro-
stitute it to such base uses as the An-
archists he says. "If these men did not
have a fair trial, such as is guaranteed
every man in the United States, then
they should be granted a new trial. If
they have not been found guilty of
murder, then they should not be hanged.
If they are to be hanged for the actions
of others, it is not just. The man who
threw the bomb in Chicago should be
hanged, and his accomplices should re-
ceive the punishment allotted to such
offenses by the laws of the State of
Illinois."

Mr. Powderly defined his connection
with the Home Rule Club, and his op-
position to the resolution expelling the
cigar-makers and then make a number
of recommendations. He favors the
establishment of a national department
of labor, thinks the government ought
to run its own line of telegraphs, ex-
presses the conviction that the order
can't very well get along without a
journal, and advocates a universal bene-
fit plan.

Fair Notes.

Senator Zeb. Vance has been in-
vited to make an address at the State
fair and is confidently expected to be
present.

Mr. Z. T. Broughton, who has the
superintendence of the trades parade
has just returned from a trip to Dur-
ham and other points. He reports that
the business men of Durham and other
places are preparing to send great
handsome floats down to join the pa-
rade and that the various tobacco and
other manufacturing industries will be
handsomely represented in actual op-
eration. The people are coming en
masse from everywhere to join the
great annual State reunion of relatives,
friends and acquaintances.

Hume, Minor & Co., a large musical
firm doing business in Richmond, Nor-
folk and Portsmouth, will make a grand
display of musical instruments of every
description.

Several business firms of Raleigh took
spaces of 20 feet each yesterday and
will make fine exhibits.

The poultry exhibit this year will be
a special feature. A number of extra
coops have been carried out to the
grounds to accommodate the exhibits.
Boys are all agog over the goat race,
and several more entries are to be made

Free Trade.

The reduction of internal revenue and
the taking off of revenue stamps from
Proprietary Medicines, no doubt has
largely benefited the consumers, as well
as relieving the burden of home manu-
facturers. Especially is this the case
with Green's August Flower and Bos-
choe's German Syrup, as the reduction
of thirty-six cents per dozen, has been
added to increase the size of the bottles
containing these remedies, thereby giv-
ing one-fifth more medicine in the 75
cent size. The August Flower for Dys-
pepsia and Liver Complaint, and the
German Syrup for Cough and Lung
troubles, have perhaps the largest sale
of any medicines in the world. The
advantage of increased size of the bot-
tles will be greatly appreciated by the
sick and afflicted in every town and
village in civilized countries. Sample
bottles for 10 cents remain the same
size.
