**Redmond's** Ginger Ale, Lemon Soda, etc., equal to imported.

**Buggies**, McEl. Paten's make, for sale at

**November**. The city council will be in session to night.

Yesterday was another one of those rainy and disagreeable days.

A letter from "Polly" to "Susanna" on our third page furnishes an amusing incident.

The schooner Eva J. Shenton arrived Sunday with a cargo of salt for F. Ulrich and others.

The mercury went to thirty five degrees yesterday, only three degrees above the freezing point.

The secretary of the Building and Loan Association gives notice in this issue of the second installment of stockholders being due.

The schooner A. J. Marine, Moore, master, arrived Saturday from Charleston, S. C., with a cargo of phosphate for E. H. & J. A. Meadows.

Schooner Eugene Arendalls, Yeomas master, is in port from Charleston with a cargo of dissolved bone consigned to E. H. Meadows.

We are glad to know of the continued good patronage at Hotel Albert. The proprietors, Messrs. M. Patterson & Son, are making an earnest endeavor that no further complaints shall be made as to hotel accommodations in New Berne. In this they are admirably succeeding.

The services in the Methodist church in this city Sunday were more than of ordinary interest. After the sermon by the pastor, Rev. L. W. Crawford, the ordinance of baptism was administered and fifteen persons united with the church by letter and on profession of faith.

**A Cool Wave.** A northerly wind Sunday night brought on a cold wave that made fires and overcoats quite comfortable throughout Monday and in the evening news came of considerable snow fall at Goldsboro, Smithfield and other points. Later a few flakes fell here.

### The Onslow Railroad.

A correspondent elsewhere shows that a railroad to Onslow county will pay. We may be mistaken but it strikes us that it will give a new outlet for corn that will enable New Berne to regain a large part of her corn trade from the northeast counties. There is more for the road in carrying corn than cotton from Onslow county. The cotton trade of Onslow will be but a small part of the traffic.

**Man Drowned.** The Washington Gazette says that seaman Wm. S. Waterworth of the light house tender Violet while on the lookout on the morning of October 25th near Pamlico Point shoals, went overboard and was drowned. It was about 4 o'clock in the morning and the wind was blowing heavy from N. N. E. and the night dark and heavy. All efforts to find the body that morning proved fruitless.

**Manufacturing.** While deeply interested in and planning for railroads our people should not be neglectful of the great need of manufacturing industries. There are various kinds besides those for making cotton fabrics which might be put in operation to work up our crude material and give employment to the many people who are not regularly employed. Below we copy from the Wadesboro Messenger an account of one of these industries that is about to be established at Wadesboro.

"Last week our town was excited by the report that an opportunity was offered for Wadesboro to have a silk factory. Everybody listened, but few believed the story. Business men chuckled, and beautiful women smiled incredulously. But soon it was ascertained that Mr. John T. Patrick was in town accompanied by several strangers whose every motion indicated business. They seemed to be looking for something. What was it? A Wadesboro business man, ready to put his shoulder to the car of enterprise. They found Mr. George W. Huntley, and then something happened for a fact. The strangers proved to be Messrs. Singleton, Rose and Murray, of Paterson, New Jersey, who were looking for a Southern town in which to establish a silk factory. At the request of Mr. Patrick they had come to Wadesboro, where they had selected Carr's Mount as the site of their Southern factory. Provided satisfactory arrangements could be made, at which propositions were made, discussed and accepted. We cannot give all the details, but we are assured that all the machinery will be here by the 25th of next February.

### Steamer Movements.

The Eagle of the U. S. S. Co. sailed yesterday afternoon with full cargo of cotton and oil. The Veep of this line will arrive today and sail this evening.

The Lowberie sailed for Norfolk yesterday with a cargo of merchandise.

### Will It Pay?

The question is, will a railroad from here to Washington, connecting with a railroad from here to Onslow county, which in turn will connect with a railroad to be built from there to Wilmington, benefit New Berne and Craven county. Looked out of the question the advantage to accrue to us from a through line of coast railway from Norfolk to Washington and the South, which the building of these roads will undoubtedly insure to us in the near future, the writer confidently believes the local freight will support the roads and add greatly to the volume of our business. Let us consider the Onslow branch alone. Why, there are three articles that will yield enough freight to much more than pay expenses. No one will doubt the claim that much corn will be transported over it to the Southwestern part of the State, besides all the corn that Wilmington now buys from the counties that lie northeast of us and which now goes to that city by Norfolk over the Wilmington & Weldon Railroad.

Mr. Worth, the U. S. Fish Commissioner, has said, so we are informed, that there is in New River fifteen square miles of finest natural oyster bed on the continent. With the present crude method of cultivation, and the limited extent to which it is now practiced, for but few people now follow it as a business, and with the old fashioned way of transportation by carts over a sandy road, it is estimated that the New River oyster now sold in the Wilmington market alone amounts to about seventy-five thousand dollars per annum. This industry will be greatly increased and stimulated by the success of the scheme and New Berne will surely get a part of it, whereas it now gets, well, practically none of it. But as valuable as will be the corn and the fish and oyster business to be reached by this road, it can safely be asserted that the lumber to be hauled will be even greater. Onslow and Jones counties are magnificently timbered and Northern capitalists have at last found it out. It is said that one Northern man has recently purchased in the former county a sufficient amount of pine timber to keep two mills turning out thirty or forty thousand feet per day running for more than a dozen years. Where will this lumber find a market? Why of course, in the North, the South does not need it. And how? Over this road, because there is not sufficient depth of water at New River inlet and if there was just think about the dangerous and circuitous route. Don't bother yourself about the road's living—help to build it and it will feed itself and do good work for its owners. Why Craven county is not asked to give its bonds to the road, but to simply subscribe them, and get stock for them. You can be certain this stock will be worth something. It and the taxes this road will pay into your treasury will go far towards paying the interest upon the bonds.

But won't Wilmington get all the local freights? Certainly not. We will be nearer to the New River section by about fifteen miles, and when we agree to connect with the Wilmington road rest entirely assured that the men in charge will see to it that we are protected beyond peradventure against any discrimination in rates or in any other way.

It is a good thing, Mr. Editor. Let all vote for it. It will help us to get the Cape Fear connection too. If we show snap and enterprise in this, they will say, well surely old Hip Van Winkle has at last awoken himself; and while he will be all the more anxious to come down here. You know they say, "Give a dog a bad name." Well, in one sense, we have got that name, and it will help mightily to relieve us if we shall do this thing and all within ourselves build these roads.

**Presbyterian Synod of N. C.**  
The Synod was organized on Tuesday night after preaching by Rev. J. W. Primrose, of the election of Rev. R. J. Johnson, of Lincolnton, as moderator, and Rev. A. Sprunt, of Henderson, and Capt. J. E. Johnston, of Charlotte, as temporary clerks.

Rev. S. Taylor spoke upon the interests of Union Seminary, N. C., on Wednesday night.

On Thursday night Rev. J. A. Fair of Charlotte, will preach and the Lord's Supper will be celebrated.

Friday afternoon will be devoted to Sabbath school work, the exercises of which will be of peculiar interest to all. In this very fine looking body—numbering, according to the roll of expected delegates, about 100 members—are many old and not a few young men, who all seem to be in earnest about their great work.

The Synod of North Carolina has met in Fayetteville thirteen times since 1827 when it was organized. It has met annually ever since, of the ministers who moderated these thirteen sessions all are dead but four of these four three are Men and the fourth is a thoroughly Scotchman that he doesn't need the famous prefix, the Rev. Cain Shaw who was born here, but now lives in Duplin county. The Synod has had ten years stated, thirteen years in seven years of life. The Rev. Cain Shaw was clerk for thirty-one years.

The Synod is composed of all the ordained Presbyterian ministers in North Carolina, and one ruling elder from each church. From the latest available statistics we gather that there are in the Synod 177 ministers, 274 churches, 804 ruling elders, 27,840 communicants, 12,729 Sabbath school scholars that for benevolent objects it contributed \$2,888 and that the average salary of its ministers is about \$2000 annually paid.

### Conflict Between State and Federal Authority.

WASHINGTON, D. C., October 28. The threatened conflict between the civil and military forces at the Round Valley, Cal., reservation has been averted by instructions sent by the Secretary of War to Gen. Howard to withdraw United States troops now on the reservation pending settlement of the matter. It is learned at the War department that a company of soldiers under command of Captain Shaw was ordered to report a number of squatters from the reservation at the request of the military department. An injunction was obtained by the squatters from the State court and, as the captain of the United States forces refused to obey it, the State military was called upon to enforce the court's order. At this juncture the Attorney General appealed the case to the United States court, and directed to discontinue further proceedings.

It was while this appeal was pending that the sheriff began his movement looking to the arrest of the military force. The order sent to Gen. Howard to withdraw the military force is expected to prevent an immediate conflict, but the question of jurisdiction involved is regarded at the department as of the gravest importance.

It has cropped out in one phase or another in all of the Indian outbreaks of the last few years wherever State or territorial authorities have attempted to make arrests on Indian or military reservations and a final settlement of the conflicting rights of the State and federal authorities over government reservations is earnestly desired by military officers.

### Receiver Appointed for the C. and O. Railway.

RICHMOND, Oct. 28.—On Thursday, the Chesapeake and Ohio Railway Company confessed judgment to C. P. Huntington, in the Circuit Court of Richmond, \$1,765,034.16. On the same afternoon C. P. Huntington filed a bill in the Circuit Court of the county of Henrico, praying for the appointment of a receiver. This was replied to by the New-Port News and Mississippi Valley Company, as lessee of the Chesapeake and Ohio Railway, and also by the Chesapeake and Ohio Railway Company. Whereupon Judge B. R. Wellford, jr., appointed Gen. William C. Wickham receiver of the Chesapeake and Ohio Railway, bond being given in the sum of \$200,000; with Franklin Stearns and Isaac Davenport as sureties.

### Erysipelas and Obstinate Ulcers.

Boils, Carbuncles and Running sores of every kind are cleansed, the poison germs destroyed and a speedy cure effected by using Darby's Propylactic Fluid.

"I have been afflicted with the Erysipelas. Nothing would heal the sore or stop the running. I used Darby's Propylactic Fluid and found a speedy cure. Have also tried it several other cases and it proved effectual."—S. P. Greer.

### Argument in the Sharp Case.

ALBANY N. Y., Oct. 28.—Argument in the "Jake" Sharp case before the Court of Appeals was concluded today. The general impression is that the people made a good case, and that Sharp will not get a new trial.

### Their Business Booming.

Probably no one thing has caused such a general revival of trade at R. N. Duffy's drug store as their giving away to their customers so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. Every bottle warranted. For sale at R. N. Duffy's drug store.

### Knoxville Votes a Subscription.

KNOXVILLE, Tenn., Oct. 29.—Knoxville today voted on the proposition to subscribe \$200,000 to the Carolina, Knoxville & Western railroad. The subscription was carried by an overwhelming majority. In a population of nearly 40,000 but 14 votes were polled against the proposition. The new road will run from Knoxville to Augusta and Port Royal. All the counties in East Tennessee and North Carolina, through which the road is to run have voted liberal subscriptions. The road is to be completed in eighteen months. Work is now in progress on the South Carolina end of the line. Surveys are now being made to extend the road from Knoxville westward to the Cincinnati Southern Railroad. Only two months ago the city of Knoxville subscribed half a million dollars to the Powell Valley Railroad and the Knoxville Southern Railroad, both of which are in rapid process of construction.

### A Humor of Jay Gould's Attack.

NEW YORK, Oct. 28.—District Attorney Martine and his assistant, Verthoe Davis, today obtained into the records in the complaint of foreign holders of old Kansas Pacific Railroad stock against Messrs. Gould and Sage, that they misappropriated \$3,000,000 worth of bonds of that corporation. It was reported at the evening that Jay Gould had been arrested on a bench warrant issued in application of the attorney for the foreign Kansas Pacific bondholders. Another rumor prevailed that though the warrant had been issued it had not been served on Mr. Gould, who was said to have gone down the bay on a yacht.

### Two Editors Want to Fight.

PHILADELPHIA, Oct. 28.—The row between the editors of the Philadelphia Times and Democrat, the rival Wherry and Nicholls organs, is still the absorbing topic of conversation. Challenges passed and were accepted two days ago between Mr. Tucker of the Democrat and Mr. Nicholls of the Times, and although at twenty paces were agreed upon, but the law officers have so far prevented a meeting.

It is reported that a quarrel had broken out in the work of Miss In. Duff-Bryant, and strains a fine thing might be the result.

All sorts of rumors are flying about concerning a war between the two States. It is said that the military force is being withdrawn from the reservation pending settlement of the matter.

### Major Mayne's Death.

NEW YORK, Oct. 28.—The death of Major Mayne, who died yesterday of typhoid fever, is mourned by the military authorities. He was a brave and gallant officer, and his death is a serious loss to the service.

### All Difficulties Adjusted.

NEW ORLEANS, Oct. 28.—Late information in regard to the strike on the sugar plantations is to the effect that all difficulties with the laborers on the sugar plantations have been adjusted, and they have agreed to resume work today.

### Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, green and wooded, and thousands of means of enjoyment. We can desire no better when in perfect health, but how often do the misery of people feel like giving it up, disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles 10 cents. Try it.

### The Cholera at New York.

NEW YORK, October 29.—The health officer today reports with reference to the cholera cases in quarantine that the Alezia's passengers are all well and that the two passengers from the Britannia are improving. One child, one year old, died last evening and two persons were sent to the hospital.

### Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at R. N. Duffy's drug store.

### MORTGAGE and Warrantee Deeds.

Use House's Chill Syrup

## COMMERCIAL.

**COTTON MARKET.**  
New York, Oct. 28.—Cotton futures opened steady. Sales, 6,000 bales.

November	24 1/2	May	24 1/2
December	25 1/2	June	24 1/2
January	26 1/2	July	24 1/2
