The sidewalks on several of our streets are being improved.

Mr. John Dunn is adding improvements to his dwelling on Middle street.

The Mattamuskeet apple is coming pretty freely and selling at sixty cents per bushel, wholesale.

Another alarm of fire last night, when there was no fire. The chief of the fire department says he will give five dollars for the arrest and conviction of any one who gives a false alarm. Good.

The lost woman that was talked about so much a few days ago has been found in the neighborhood of Core creek, and the man that carried her off is there too. They were brought down last night under a warrant against the man for assault and battery.

Personal.

Mr. C. Stephens of Onslow county arrived in the city yesterday evening.

Steamer Movements.

The Newberne of the O. D. line sailed yesterday for Norfolk with a cargo of cotton and a number of passengers.

Bridge Across Neuse River.

When the question of voting a subscription to the Onslow and Wilmington railroad is submitted to the people, why not put in enough to include a bridge across Neuse river? Twenty five thousand dollars will build a good bridge which would be worth more than ten thousand dollars a year to the county.

Further Particulars of the Killing of Luke Russell.

The colored young man, Bill Williams, who shot and killed Luke Russell on Wednesday night had not been arrested up to the latest accounts last night.

Williams it is said had a reputation in the neighborhood for petty thieving, and was charged with stealing cotton from Russell. A warrant was issued and placed in Russell's hands for execution. He attended a prayer meeting in the neighborhood and after the meeting asked several young men to go with him to arrest Williams. Quite a number responded—eight or ten—and they went to Jesse Jones's house. Jones informed them that Williams had been there that day but was not there at that time. Russell asked permission to

search an out-house used for storing cottonseed, which was granted. This house is simply a shelter with a loft open at both ends, and Mr. Russell got on a cart, which brought him up on a level with the loft when the gun fired and put twenty-four shot in his breast. The crowd became excited, rushed to Russell's assistance, while the man in the loft jumped out at the other end and made his escape.

Williams, it is said, had been in the habit of sleeping in the loft, and his shoes and a bed quilt given him by a colored woman were found in the loft on the following morning.

The verdict of the jury was "We the jury, find in the case of Luke K. Russell that he came to his death at the hands of William Williams."

New Berne High School.

Yesterday was the day for the monthly exercises in declamations, compositions, &c., at the New Berne High School. Dropping in early in the morning we had the pleasure of hearing the opening of these exercises by an astronomical lecture from Prof. Geo. W. Neal. In a talk of one hour the speaker took the class from one planet to another, explaining distances, size, temperature, and the relative positions and bearings of one to the other. He took them from the earth to the sun, thence to Mars, Venus, the moon, Jupiter, Mercury and onto Neptune, explaining the power of the sun, the great central orb, which holds the other planets in their proper paths as they whirl through space. The students were much interested, and in answer to questions put by the Professor before he concluded showed that they were storing up valuable information for future thought.

New Berne has talent enough outside the faculty of this school, to furnish a lecture each month on some important subject for the benefit of the pupils, and we suggest to the faculty to call on some of our well-informed citizens for assistance in this line if necessary.

This school is now one of the permanent institutions of New Berne and every family is interested in making it a success. The teachers will do their duty, and if the people will hold up their hands we will soon have a school to be proud of.

The Wilmington and Washington Railroad Project.

The committee to wait on the county commissioners at their next meeting held an informal meeting with the authorities of the East Carolina Land & Railway Co. yesterday evening and discussed the proposition to be submitted.

It is the desire of the committee and all concerned that Onslow county should move in the matter at the same time the people of Craven do, so the matter of calling an election may be postponed for a few days. However, we are not well advised on this point, they may ask the commissioners to call the election at once.

In the mean time we ask our people to consider this matter in the light of reason, and in a business like manner. We already hear it whispered around that there is a scheme on foot to grind private axes. This is utterly untrue and without foundation in fact. The gentlemen who were enterprising enough to procure the very liberal and advantageous charter from the last General Assembly for the construction of this road, have no private axes to grind in the matter but to build the road. They would doubtless give their charter to any one who would take it and construct the road. About thirteen thousand dollars have been subscribed and the books are still open for any one to subscribe who desires to do so. Nothing is kept in the dark; everything is open and above board. It is also being talked around that the road is not to be built to New Berne at all, but only between Trent and New Rivers. Craven county will not be asked to surrender her bonds until the road is completed in the county. So that point ought to be considered settled.

The real question is, will it pay Craven county, as a matter of business, to subscribe this one hundred thousand dollars to the building of these two roads? This is the question to be considered. The JOURNAL thinks it can be shown that it will pay, and that it can be done with very little if any increase of taxes. This we propose to do when the commissioners have ordered an election.

Erysipelas and Obsolete Ulcers. Boils, Carbuncles and Running sores of every kind are cleansed, the poison germs destroyed and a speedy cure effected by using Darby's Phlogistic Fluid.

THE BOOM OF THE ANARCHISTS.

What the Baltimore Members of the Internationale Have to Say About It.

The news that the Supreme Court of the United States had denied a writ of error in the anarchist case fell heavily upon the members of the Internationale in this city. They did not care to talk about the matter, but stated that the result was not unexpected. One member said: "It was not to be expected that the highest tribunal of the country would rule otherwise in the case of men who advocate the abolition of the present class system. For it is known that the large corporate monopolies are represented on the Supreme Court Bench of the United States. Why did we make the appeal? Because it was necessary to show how justice is meted out in our so-called present American civilization. Every honest American today regrets the execution of Mrs. Surratt as a black spot upon the history of judicial bloodthirstiness, and the time will come when the execution of these seven men will be recalled with the same feeling of horror that accompanies a thought of Mrs. Surratt. If any are to be executed it should be Capt. Bonfield and his associates for breaking up a peaceable meeting, such as is guaranteed by the constitution, and as sworn to by Mayor Carter Harrison. These people caused the death of a number of innocent policemen, who were simply obeying orders, but had the bomb not been thrown it is probable that the unsight of the police would have caused greater loss of life than actually occurred."

Mr. Ernest Bauer, when informed of the decision of the court, said: "That settles it. There is no longer any doubt about it. I have got no opinion to express about it but their execution will cause labor questions to be discussed and better understood than they are at present. People will then learn that true anarchy and true socialism are but two sides to economic questions. Some think I am a bomb-fellow, because I am talking with forty men working cooperatively in socialism. Nothing in this is there."

Mr. Frederick Schmitt, who entertained Mrs. Lucy Parsons in this city last year when she made her famous Hall speech, was told of the decision of the court, and he said: "Well, I am overcome that I don't know what to say or how to express my feelings. Believing as I do, that the men are innocent, I don't believe the condemned men were in a conspiracy to murder, but I feel certain there was a conspiracy to break up the eight hour movement, which the Chicago bomb certainly effected. I do not believe to order an anarchy of socialist societies and if I thought the bomb was thrown by a so-called friend of labor I would willingly see him hanged, because that bomb killed more than seven policemen. It caused a bad reaction in the labor movement for a time. When Mrs. Parsons was here I learned from her the side of the condemned men, that I could not get from newspaper articles. It is terrible to think that Albert Parsons, who was so conscious of his own innocence that he gave himself up for trial, is to be hanged. If it is a conspiracy to organize labor, then Gov. Melane and the legislature are anarchists for abolishing the conspiracy laws. I had nursed the thought that the United States Court would order a new trial."

Mr. Paul Grottkow, the Milwaukee socialist, who is now in Baltimore on a tour of agitation, said: "I was surprised to hear that the judges of the United States Supreme Court are not wiser and not less corrupt. I see that they too, are indulging in injustice toward the class of workmen. I shall speak about the subject in meeting at Philadelphia and New York. Whether I shall go to the funeral of the condemned men or not I cannot say, but although not an anarchist myself, I believe it to be the duty of every anarchist speaker in the country to be present on that occasion."

Otto Doem, of the German Central Labor Union, said he was not at all surprised at the decision of the court. He did not expect there would be any trouble on the day of the execution. He believed that all anarchists were cowards, and said that they had never done anything towards the welfare of the workmen. He was frank to say, however, that he considered the sentence of the men an act of justice."

The Condemned Anarchists.

CHICAGO, Nov. 3.—Two full companies of policemen are now quartered in the county jail near the anarchists' cells. The officers were brought into jail last night by the back entrance. There are fifty-four men in all and each is armed with a Winchester rifle. These men will remain in the building until after the event of the 11th inst. There was no excitement in the jail this morning. Whatever stir was caused by the decision yesterday had worn off today and everything was quiet around the establishment.

The Sheriff has already begun the building of the scaffold on which it is intended to hang the anarchists. The carpenters were busy this afternoon working on the pieces which go to make up the machine of death and it will not be long before the gallows will be ready. This is regarded in some quarters as significant of Mr. Matson's belief that the Governor will not interfere.

The Epidemic at Tampa.

JACKSONVILLE, Fla., Nov. 3.—There were seven new cases of yellow fever at Tampa and two deaths during the twenty-four hours ending last night. The weather is cool. There is no yellow fever in the State outside of Tampa.

"Shall our girls whistle?" Of course if they strengthen their lungs by taking Dr. Bull's Cough Syrup.

Meeting of State Board of Education.

A meeting of the State Board of Education was held in the executive office yesterday. The principal matter coming before the board was the proposition made at the last meeting by Mr. Geo. A. Ramsey of Pender county, on behalf of a company, to lease the "State convict road" running through Angola Bay in Pender county as a foundation for a tramway or railway. Angola Bay, which is properly a swamp, is on the State lands which are under the control of the State Board of Education. Some years since the State built a road through the swamp, twenty-two feet wide and nine miles long for the benefit of the citizens of Pender county and the public generally. The ultimate intention was to turn it over to the commonwealth of Pender county as a convict road, but this has never been done. It is an important thoroughfare, but no work having been done on it for some years it is getting into bad condition. The company proposing to lease it has a capital stock of \$200,000 which it wishes to invest in timber interests and get out some of the line timber in the swamp. It wishes to use the road as a means of transportation in hauling out the timber. After discussing the proposition for some time the board passed the following resolution:

Resolved, That the board will agree to lease to Geo. A. Ramsey and his assigns a certain portion of the road, not in width eight feet, but in depth, and ascertained under the supervision of the agent and engineer of the road, and the road recently built through Angola Bay for a period of years to be used as a tramway or railway open to public use, and kept in the condition required by the State, at a certain price to be fixed by the board, at a certain time, the lease to be approved by the Board of Education, and the Attorney General to draft the lease and the board to execute it with this resolution.

This will be submitted to the company for acceptance or refusal. Signed and approved.

Troops Ordered to Chicago.

WASHINGTON, Nov. 4.—Two companies of the Sixth infantry, have been ordered from Fort Douglas, Salt Lake City, to the new military reservation near Chicago. Major Wm. I. Lyster will command the post. No other troops will be ordered there for the present. The object of garrisoning the post is to protect the government property during the winter and prepare for the beginning of work early in the spring. The troops will be available in case there should be any riots in Chicago, but it is stated at the War Department that this is not the primary cause for ordering them there at present. There is no money available for improving the reservation, but it is expected that an appropriation will be made at the coming session of congress. In the absence of government buildings the soldiers will be quartered in farmhouses near the reservation, and the men in charge.

A Passenger Train Robbed.

PORTLAND, Nov. 4.—About 1 o'clock this morning several masked men stopped the east-bound Pullman Express on the Dexter & Ken Grand Road, a few miles east of Grand Junction and compelled engineer, fireman, mail and express messengers to leave the train and while they were guarded by one of the robbers, the others passed through the train relieving passengers of their money and valuables. The robbers then entered the express car but failed to open the safe. The mail pouches were cut and the registered letters and packages opened. The train was allowed to proceed after being delayed over an hour, and the robbers escaped. It is supposed that they had some success in their raid.

The young couple who were so lately married at the wedding of last week of a local character is so far from being a local character that they are now in the city.

De Russ's Sperm Oil is a purely vegetable, refined and specially prepared for babies. Price only 50¢.

To Gliners.

New Berne Cotton and Grain Exchange requests Gliners of Cotton to leave off Side Strips when packing, as to Norfolk and other markets bales with Side Strips on are subject to a deduction in weight.

New Berne, Nov. 31, 1887.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap bad whiskey, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at R. N. Duffy's drug store.

DIED.

At the Calvin Perry place in November 3d, of hemorrhagic fever, Jefferson Davis. He leaves a wife and three children.

Jenny, wife of Benj. McFrater, col., on November 3d at 11 o'clock, aged about 40 years. Funeral will take place from St. Peter's Church Sunday evening at 8 o'clock. She has been a resident of New Berne all her life and was well liked.

COMMERCIAL.
