 Game and Oyster Fair was a grand
 success.

Cottage prayer meeting at P. A.
 Willie's on East Front street tonight at
 7:30 o'clock.

Already people are briskly coming
 into town looking to their holiday
 trading. Business was quite lively
 yesterday.

A special train will leave this evening
 at four o'clock for the Patti Rosa enter-
 tainment and return immediately after
 the performance. Fare for round trip,
 including admission to opera, \$1.50.

We learn that the pupils of the High
 School will probably give to the public
 some classical dramas early in January.
 We gladly note this, as they will not
 only prove entertaining, but instructive,
 and then it is our home talent.

The Springfield (Ill.) Monitor says:—
 Miss Kate Bensberg is an entrancing
 vocalist, and it is impossible for a hu-
 man voice to render "The Last Rose of
 Summer" with more liquid sweetness
 and purity of tone than it was rendered
 last night.

The Jarman ice factory is in full
 working order, now turning out pure
 ice from Major Dennison's artesian
 well. Mr. Jarman will take pleasure
 in showing any of our citizens who may
 wish them the modus operandi of making
 ice by steam.

The county commissioners were in
 session yesterday winding up the settle-
 ment with D. N. Kilburn, ex-treasurer
 of the county. After this was com-
 pleted the consideration of sheriff
 Hahn's bond was taken up, pending
 which the board adjourned till today
 11 o'clock.

Jones Confesses His Diabolical Crime.
 Chas. F. Jones, the wife murderer,
 who is to be hanged on the 17th of
 January, 1888, has made a full confession
 of his crime, the particulars of which
 it is not necessary now to give.

Steamer Movements.
 The Vesper of the E. C. D. line sailed
 yesterday with a full cargo of cotton
 and lumber. The Eagle of this line
 will sail at 4 o'clock tomorrow (Wed-
 nesday) afternoon.

The New Berne of the O. D. line sailed
 yesterday for Norfolk, carrying out
 heavy cargo of merchandises and several
 passengers.

The Beacon.
 From the amount of preparation going
 on at Stanly hall yesterday by the
 ladies of the Presbyterian Working
 Society the public may expect a fine
 entertainment tonight. Do not fail to
 attend and be sure not to eat supper
 before you go. A special dish will be
 prepared for the literary society.

The Man Fish.

Prof. G. O. H. Walter arrived yesterday
 morning and will exhibit at Stanly
 hall tonight his wind carrying apparatus
 for land or sea. His exhibit at the
 Beaufort Fair attracted quite a crowd.
 He has traveled the coast from Cape
 Henry to Cape Lookout visiting the life-
 saving stations with his apparatus.

Serious Accident

On Saturday last Mr. A. H. Kinsey,
 living on Mr. E. B. Cox's farm about
 five miles from the city, had the misfor-
 tune of having his right hand caught by
 the saw of a gin, which so badly lacer-
 ated the arm that it was necessary to
 amputate it above the elbow, which
 was done on Sunday by the Doctors
 Duffy assisted by Dr. Wm. Cobb Whit-
 field. The fingers of his left hand were
 also badly cut. At last accounts he was
 doing tolerably well.

New Lodge Formed

K. R. Jones, D. G. D., assisted by
 W. B. Boyd, organized a Lodge of
 Knights of Honor at Pollockville yester-
 day of twenty seven members, with
 the following officers:

D. S. Barrus, Past Dictator; J. C.
 Parker, Dictator; J. F. White, Vice-Dic-
 tator; Jacob Harper, Assistant Dic-
 tator; J. N. Foscue, Reporter; H. C. Fos-
 cue, Financial Reporter; T. A. Bell,
 Treasurer; B. F. Billshunt, Chaplain;
 I. H. Barrus, Guide; Furney Wilcox,
 Guardian; B. F. Henderson, Sentinel;
 Dr. N. H. Siret, Medical Examiner; J.
 J. Simmons, Nedham White and S. J.
 Hudson, Trustees.

Our Railroad Projects.

We begin in this issue of the JOURNAL
 a series of articles on improvements
 and better railroad facilities for Eastern
 Carolina, from the pen of one who has
 long been an authority on matters of
 this kind, and who in former days was
 recognized as the ablest of our Internal
 Improvement writers of the interme-
 diate school. Twenty years ago, before
 we had recovered from the crushing re-
 sults of the war, he revived interest in
 the improvements of our water-ways,
 which had slumbered from 1857, and
 the magnificent works of improvement
 on the Tar, Pamlico, Contentines, Neuse,
 Trent and Cape Fear have followed the
 efforts of his pen to convince the peo-
 ple of our own section of the vast im-
 portance of their inland waterways, and
 to impress upon public legislation the
 propriety and necessity for their im-
 provement at the hands of the general
 government. The first examination that
 was ever made looking to the improve-
 ment of Trent river, was procured and
 paid for by this gentleman.

Possessing an intimate knowledge of
 the resources and acquainted with the
 wants of Eastern Carolina, we deem
 ourselves fortunate in having secured
 the contributions of one so long familiar
 with our section, and so partial to East-
 ern Carolina, as his writings show.

He Appreciates It

The following item is from the Wil-
 mington Review. Capt. Ellis highly
 appreciates the manner in which he
 was received by the firemen of our sis-
 ter city. His visit to that city was a
 business one, but the noble-hearted fire-
 men, remembering him as a prominent
 and zealous member of our fire depart-
 ment, captured and held him as their
 guest.

Capt. Wm. Ellis, formerly chief of
 the New Berne fire department, and
 now fireman of the Atlantic company
 of that city, called on his brother fire-
 men here last Thursday evening and
 was persuaded to stay until last night.
 He is a fine fellow. The boys of Wil-
 mington Steam Fire Engine Company
 No. 1 were so well treated when they
 visited New Berne a few years ago that
 they named their new steam engine the
 Atlantic in honor of the New Berne
 company. Capt. Ellis was serenaded
 Saturday night by Guy Wright's band
 under the auspices of W. S. F. E. Co.
 No. 1. The Captain stated that he had
 never heard such music before and
 thought it beat the Mulligan's by a large
 majority.

ADVICE TO MOTHERS.
 Mrs. WINDLOW'S SCOTCH SYPHON
 should always be used for children
 teething. It soothes the child, softens
 the gums, allays all pains, cures colic,
 cold, and in the best remedy for dia-
 rhea. Twenty five cents a bottle.

Reduction of Iron Workers' Wages.
 BETHLEHEM, Dec. 16.—The Bethlehem
 Iron Co. today gave notice of a reduc-
 tion of ten per cent on wages, to take
 effect January 1st. The reason assigned
 is that the "condition of trade and the
 reduced price of rails in the market,
 make it necessary for this company to
 reduce the expense of manufacturing. This
 reduction still leaves wages several
 per cent higher than before the advance
 of last winter.

An Aged Couple Fatally Burned.
 BUFFALO, N. Y., Dec. 17.—George
 Bauerli, aged 61, and his wife, aged 58,
 of Hamburg, Erie county, were fatally
 burned. The couple were too infirm to
 make their escape.

Their Business Booming.
 Probably no one thing has caused
 such a general revival of trade as E. N.
 Duffy's drug store as their giving away
 to their customers of so many free trial
 bottles of Dr. King's New Discovery for
 Consumption. Their trade is simply
 enormous in this very valuable article
 from the fact that it always cures and
 never disappoints. Coughs, colds,
 asthma, bronchitis, croup, and all
 throat and lung diseases quickly cured.
 Every bottle warranted. For sale at E.
 N. Duffy's drug store.

EAST CAROLINA IMPROVEMENT.

A Coast Line of Railway.

NUMBER 1.
 EDITOR JOURNAL:—The subject of a
 coast line of railroad, through Eastern
 Carolina, connecting the coast and
 interior towns and cities of Wilmington,
 Jacksonville, Trenton, New Berne,
 Washington, Plymouth, Suffolk, Nor-
 folk &c., engaged the attention of some
 of our wisest economists, ablest writers,
 and profoundest thinkers, of that por-
 tion of our State, more than a third of
 century ago.

It is one of the best written pamphlets
 ever given to the people of North Caro-
 lina on the subject of material
 development. Dr. Francis L.
 Hawks, thirty odd years ago addressed
 himself to the necessities of a North and
 South line of railway through Eastern
 Carolina, passing at the head of broad
 waters and auxiliary to the natural
 facilities for water transportation of our
 sounds and rivers from Currituck to
 the Cape Fear. And he therein de-
 monstrated that no real and lasting
 prosperity would ever come to this
 portion of our State, until such line of
 railway was built.

Our present Secretary of State, Col.
 Wm. L. Saunders, one of the ablest and
 profoundest men of our times, he
 ought to be Governor, further elabo-
 rated the subject in a series of editorial
 articles in the Raleigh Observer ten
 years ago, clearly showing the absolute
 necessity for the continuation of a coast
 line of railroad through North Carolina.

From time to time, since railroading
 began, the subject has occupied the
 attention of some of our best minds, and
 since the war various charters looking
 to the accomplishment of this general
 end, have passed our legislature.

So that the necessity of this line of
 internal communication has been fully
 acknowledged during the entire period
 of railroad building in our State, and much
 energetic thought given to the ways
 and means of achieving it.

Two projects are now claiming the
 attention of the people of the two sec-
 tions of which Wilmington and New
 Berne are the respective centres: The
 Wilmington and Onslow Railroad, and
 the New Berne and Onslow Railroad.

These eminently worthy and prac-
 ticable projects may very properly
 be united and made to stand for the
 central idea of a great coast line of
 railway through the State, and as such
 should arrest the attention and com-
 mand the earnest support of every man
 in those portions of Eastern Carolina
 without regard to coloring or position—
 white, black, laborer and capitalist.

Wilmington has already voted thir-
 money to build her O slow connectio

With respect to the New Berne featur

Every fact of practical bearing on the
 subject should be brought out in dis-
 cussion, so that the public sense, in-
 structed and appealed to, shall be able
 to intelligently decide a question of the
 greatest possible moment to the future
 people of the county, who, should this
 debt be incurred, will be called upon
 to pay it, as it is they who will be the
 greatest beneficiaries from the develop-
 ment which the road is designed to ac-
 cure.

As regards the people of today, they
 who inaugurate and are to decide the
 measure—and to whom it is given to
 impose the burden of this proposed
 slight county taxation for interest on
 the bonds, and a sinking fund to meet
 maturity, they will scarcely feel the
 weight of the taxation, so slightly
 would it increase their present tax.

As regard the matter of taxation, the
 property of the road itself; the new
 men, with their money an enterprise
 it would cause to come into the county
 from abroad, and the increased value
 of improved property; and the creation
 of new property along the line of the
 road, would, in three years, or less ag-
 gregate a taxable property, the returns
 from which would, if so applied, wipe
 out the tax for the proposed bonds, and
 go a long way to lighten the A. & N.
 C. incubus. Look at the Wilson and
 Fayetteville short-cut. Take note of
 the rise of the town of Dunn thereon in
 one year.

BUT WHAT OF IMMEDIATE BENEFIT?

Why, the labor it would immediately
 employ, the market for country produce
 its construction gangs would at once
 create, the timber for bridges and cross-
 ties it would immediately convert into
 cash-through Craven, Jones and Onslow
 would put a new face on the industrial
 affairs of our section from the moment
 the first spadeful of dirt was thrown.

Foreign News.
PESHU December 16.—The press of
 this city are unanimous in the opinion
 that yesterday's article in the Military
 Gazette of St. Petersburg has greatly in-
 creased the tension of the situation
 between Russia and her neighbors. The
 Foster Lloyd says that Austria must
 prepare herself militarily, thereby in-
 volving large expense. "Roumania
 must in any event," says the paper
 "remain neutral." Those who are best
 informed in official circles believe that
 Russia will not venture to challenge the
 triple alliance.

ST. PETERSBURG December 19.—The

 tendance on the Crown Prince made an
 examination today of the new growth
 detected a few days ago on the left ven-
 tricular band of the throat. After a
 close and exhaustive examination the
 physicians issued a bulletin declaring
 that the new growth was not of a can-
 cerous nature, that it did not hinder the
 breathing, and that no operation was
 necessary at present. They also de-
 clared that the right larynx is wholly sound.

LONDON, December 16.—The authori-

**A Half Witted Boy Kills Brother
 and Sister.**
CHICAGO, Dec. 17.—A Daily News
 special from Columbus, Ark., says,
 Charles Whitsett, a half-witted boy aged
 13, went out walking with his brother
 aged 9, and his sister aged 6. He re-
 turned home alone and informed his
 mother that he had killed them, show-
 ing a large knife with which he had
 done the deed. The boy and girl were
 found stretched out in pools of blood,
 with their heads cut off.

You Who Lead Sedentary Lives
 will find great relief from constipation,
 headache and nervousness by taking
 Simmons' Liver Regulator. It is a sim-
 ple, harmless, vegetable compound
 sure to relieve you. Persons of seden-
 tary habits often suffer with kidney af-
 fectious. If they would maintain the
 strength of the digestive organs and im-
 prove the quality of the blood by taking
 the Regulator it would restore the kid-
 neys to health and vigor.

A DEVELOPING ART.—Probably
 no application of science is advanc-
 ing more rapidly than photography.
 Among recent appliances are a de-
 tective camera in the form of a
 watch, with charm to hold a supply
 of miniature dry plates, and a telesco-
 pic camera in which distant ob-
 jects are brought near by telescopic
 aid and photographed. Modern dry-
 plates have made the camera quite
 available at night, and exquisite
 pictures are now taken by, moon-
 light and even by starlight.

A CURIOUS DISCOVERY.—In the
 tartar of teeth from skeletons of
 the stone age, Mr. Charters White,
 of the Odontological Society of
 Great Britain, has found specimens
 of the food eaten by our prehistoric
 ancestors 3,000 years or more ago.
 The fragments identified include
 portions of corn husks, spiral vessels
 from vegetable, starch husks, fruit
 cells, the point of a fish's and bit of
 wool, feathers and cartilage.
