Cottage prayer meeting under the auspices of the Y. M. C. A. at Mr. J. F. Clark's residence on Hancock street, at 7:30 o'clock.

The improvement on Johnson street, between Middle and Hancock, is marked, and one that has been needed for sometime. The alley way from Middle to the east side of the market dock has also been greatly improved. Let the good work go on.

The Week of Prayer, held under the auspices of the Evangelical Alliance, closed in this city on Sunday night with Union services at the M. E. Church where the sermon was preached by Rev. J. T. Harris. A large audience was present but the sound of the fire bell disturbed the most important feature of the meeting—the collection. Just before this was ordered the alarm sounded and the Church was quickly emptied. But those who desired to give on that occasion will doubtless have another opportunity, when they must remember that the fire chased the churches out of one collection. Mr. Geo. Allen was elected President, and Mr. J. C. Whitty, Secretary of the New Bern branch of the Alliance for the ensuing year.

Funeral Notice.
The funeral of Thos. W. Mayhew, Esq. will take place from the residence of Mrs. Mary E. Mayhew this morning at 11 o'clock. Friends are invited to attend.

Another Assignment.
We regret to hear of another failure in business. Humphrey & Howard have assigned to J. M. Howard for the benefit of creditors. These gentlemen could have met their liabilities promptly had they been able to collect their claims for goods sold on time. Short crops prevented this, and the pressure from their creditors forced them to take this step.

The Chattanooga Tradesman.
We are in receipt of the January number of this most excellent journal, and had it full of information in regard to the progress of manufacturing, mining, mercantile and other industrial pursuits in the South. In addition to giving information on these topics it discusses economic questions relative thereto in an able manner. It disagrees with the President's tariff ideas, favors the repeal of the internal revenue laws as far as possible, beginning with the tobacco tax.

Stonewall Items.
Rev. D. B. Clayton, Universalist, will preach at the court house in Bayboro on the fourth Sunday in this month, it being the 29th inst.
Dr. Attmore had slaughtered a few days since three pigs which weighed respectively 370, 305 and 240 pounds; pretty good for a doctor.
Miss Sallie Baxter of Currituck is visiting her friends and relatives in this section, and has her headquarters at J. B. Turner's, to the gratification of a Bayboro merchant.

On the night of the 6th inst., at Smith's Creek, E. W. Lupton had the sad fate to have his dwelling and all his furniture consumed by fire; only saved two beds, and some of the family had to jump from the upper windows to make their escape. The fire was accidental. I learn he had some small amount of insurance on it.
At the residence of G. W. Dixon, the bride's father, on the 4th inst., Mr. R. E. Baxter and Miss Victoria Dixon were married by the Rev. F. Boston, and returned to the home of the groom in this place the same evening, where Robt had prepared and set before his friends and guests a sumptuous repast, which was highly appreciated by all present. It is an opinion can be formed by observation. It cost only 34 cents.

Tournament at Aurora.

A grand tournament and coronation ball will be held at Aurora, Beaufort county, on Friday, January 13th. Messrs. B. F. Mayo, W. B. Reddit, W. K. Jacobson, W. W. Hooker, J. D. Swindell and W. T. Bryan constitute the committee of arrangements, and W. A. Harvey, floor manager.
We acknowledge receipt of an invitation.

Steamer Movements.

The Yeoper of the E. C. D. line arrived Sunday night with a full cargo of general merchandise. The Eaglet of this line sailed yesterday afternoon with full cargo of cotton, lumber, etc. The Newberne of the O. D. line left yesterday for Norfolk with a full cargo of cotton. The Manteo of this line will arrive tonight.

Fire.

On Sunday night about the time the churches were closing services the fire alarm sounded, and a light blaze in the direction of Five Points designated the spot. A small two story building on Rountree street belonging to Shade Edwards, colored, was on fire and had made such headway before the department could reach it that nothing but the frame badly charred was left.

Look After the Fire Wells.

It has been suggested that the city council have the employee who attends to the pumps to examine the fire wells after every heavy rains and see that they are free from mud. Several of the wells are used for the purpose of drainage as well as for furnishing water and it is often the case, specially after heavy rains, that they are choked with sand or mud as was the one on Moonshine Alley Sunday night where the Atlantic engine had difficulty in getting water.

The Corn Crop.

The State Commissioner of Agriculture, Mr. John Robinson, in the last issue of "The Bulletin" advises the farmers of North Carolina to guard well their corn crop, as the statistics issued by the department at Washington City show the crop is two million bushels short of last year and shorter than any crop since 1881. In view of this he thinks the price will necessarily be higher than at present.
It is well for those who have a good supply of corn, as well as those who have not, to put in a good quantity of oats and other grain and forage in order that they may be able to sell corn.

Personal.

The many warm friends of Mr. L. F. Tillery, formerly telegraph operator at this place, but now living at Rocky Mount, were glad to see him in town yesterday. He was on his way to Havelock to visit his father-in-law, and where he expects to take a bear hunt. A big decline in the market quotations of bear meat is looked for in a few days.

Mr. S. B. Waters, Jr., who has been located here for the last two or three years, has gone to Raleigh to accept a position in the large dry goods house of W. H. & R. S. Tucker & Co. Mr. Waters was quite popular here in social circles and will be missed.

C. H. Hunter, Esq., of Havelock, was in the city yesterday and reports the death of Mrs. Stephen Peartree of that place which took place last Friday at the advanced age of 91 years.

Chas. F. Warren, Esq., of Washington, is in the city on professional business.

Elder Bryant Whitford, from the south side of Newus, was in the city yesterday. He is in for a through railroad from Wilmington to New Bern and on to Washington. Though well on in years he is in favor of moving forward and keeping pace with the progress of the age.

January 8d, 1888.

The district stewards of New Bern District, North Carolina Conference, M. E. Church South, met at the district parlors in Goldsboro, N. C. at 12:30 o'clock, p. m., with Rev. J. T. Harris, P. E. in the chair.

Adjourned with the benediction. C. S. WALLACE, Sec'y.

Arrangements to Accommodate the Increasing Tide of Travel.

WASHINGTON, Jan. 6.—For the purpose of accommodating the increasing tide of travel southward, the Atlantic Coast Line will in a few days put on the fast vestibule train of palace cars, which will make the run from Washington to Jacksonville, Fla., in the reduced time of twenty-four hours. The road proposes to make this train the finest in America in point of luxury of equipment. A special train today carried south two hundred officers and help of the new Ponce DeLeon Hotel at St. Augustine, Fla.

Railroad Accident.

CHICAGO, Jan. 7.—A special from Thomasville, Ga., says: The north and south-bound freight trains on the Savannah, Florida & Western railroad, between Thomasville and Albany, collided yesterday near Meigs. Fifteen miles above this city. Both trains were running thirty miles an hour. The engines and several cars were demolished. Two car loads of horses were burned. All the train-men escaped with but slight bruises. The accident was caused by one of the trains.

A Big Fire.

RICHMOND, Va., Jan. 7.—A fire at Louisa Court House last night resulted in the destruction of twenty-one out of the twenty-four business houses and shops in the town. The new hotel recently erected by R. P. Cammack escaped the flames.
The burned district did not embrace the residence portion of the town, and not more than a dozen families lived in the houses burned.

Some fashionable ladies are not satisfied with ready made fans, but must have them made to order; they are, however, satisfied with Dr. Bull's Cough Syrup at 25 cents and take it regularly.
"One fire burns out another's burning," and most pains suffers more to be cured, but Salvation Oil is painless and certain. It costs only 24 cents.

FOREIGN NEWS.

LONDON, Jan. 6.—A telegram from the Russian frontier states that eight Nihilists, including the Cossack Tchernoff, who were condemned to death for making an attempt upon the life of the Czar during his visit to the Don Cossack county, were hanged at St. Petersburg January 5th.

LONDON, Jan. 6.—The body of Archie McNeil, who went to France to report the Smith-Kilrain prize fight for the London Sportsman, and who had been missing since, has been found on the beach at Boulogne. There were distinct marks on McNeil's throat showing that he had been strangled. He had, when last seen, coin, Bank of England notes, and a watch, all of which were missing when his body was found, and several five pound notes which he was known to have in his possession when he left London have been cashed at the Bank of England.

DUBLIN, Jan. 6.—Mr. Gilhooly, M. P., failed to put in an appearance when his case was called at the fourth sitting of the Schull Court today, and the case was therefore adjourned.
The Nationalist demonstration at Berr today was attended by 6,000 persons, and several members of Parliament were present.
The meeting announced to be held at Dromore, which was proclaimed by the Government, was not held. Three meetings were held outside the town, the police not interfering.

CORK, Jan. 6.—Captain Plunkett has informed the magistrate that Canon O'Mahoney refused the police access to the three girls who it is alleged were assaulted by Roberts, the governor of the county jail. Inquiries in the case have therefore been stopped. Roberts has been advised to prosecute Canon O'Mahoney.

ST. PETERSBURG, Jan. 9.—Well informed persons consider that although the political situation is decidedly improved, the improvement is only conditional, and that if the European cabinets confine themselves to plain statements and fail to take corresponding action the situation will shortly become as critical as it was two weeks ago. The Gazette, announcing that the first series of time has expired, the guardsmen have already been dismissed and that the infantry dismissals will follow shortly instead of March 1st, the usual period, welcomes a measure as augury of peace that these forces would not be dismissed were it likely that their services would shortly be required.

PARIS, Jan. 7.—It is reported here that the condition of the Emperor of Germany is quite serious. It is said that he is confined to his bed and has had several fainting spells.

A Terrible Tragedy.

CAMDEN, N. J., Jan. 7.—Isaac Merrick this afternoon shot his young daughter dead at her home on Central Avenue and then turned the weapon on himself with fatal effect. No cause has yet been ascertained for the terrible tragedy.

To Arbitrate.

PHILADELPHIA, Jan. 9.—Mr. George W. Childs, who has been suggested by both strikers and Reading officials as a proper person to arbitrate the present difficulties, said last evening to a Record reporter that so far as he knew the proposition to have him arbitrate the present trouble had not taken any definite shape. He did not hesitate to say that the miners should be given an eight per cent. advance, but he thought that they should return to work. He was of the opinion that if they should resume work the company and men might be able to arrive at a satisfactory agreement concerning the rate of wages to be paid in the future.

Prophylactic in Sickness.

"Typhoid fever has broken out here again, but wherever Darby's Prophylactic Fluid has been freely used there has been no fever."—M. B. Lancaster, P. M., Ed. Central Alabamian.
"The Fluid is not merely a deodorizer but a disinfectant—a destroyer of the disease germs in an atmosphere which cannot be breathed without danger."—New York Evening Post.
