Learn the Character of the Play.

We clip the following item from the Wilmington Star and commend it to all theatre goers. And we think it proper to see us yesterday. He is strong for to add that newspapers should endeavor railroad subscription. theatre goers. And we think it proper to learn the character of the play before commending it to the public:

Edwin Booth is by common consent the greatest living American actor. He is a man of culture and ability. He wrote to the New York Christian Union: I never permit my wife or daughter to attend the theatre without previously ascertaining the character of the play." Here is a lesson for all parents.

A Good Subscriber

W. H. West, Esq., one of the county commissioners of Lenoir, called in yesterday to pay his subscription to the JOURNAL. By reference to our books we found him already paid up to October, 1888. This is rather an unusual occurrence. We very often find those who think they have paid when in reality they have not. Mr. West believes in the doctrine that the laborer is worthy of his hire; he knows that it takes earnest, continued work to get out a good newspaper, and he wants to be certain that it is paid for. We are always glad to see him, even if he has paid up, for we feel that we are in good company when he is there.

Neatly Said.

We copy with pleasure the following notice of our worthy townsman from the Wilmington Star:

John S. Long, Esq., of New Berne, has been invited to repeat his University lecture before Wake Forest College in February. No living North Carolinian surpasses Mr. Long on such occasions. In a very remarkable degree he blends the chayms of rhetoric with the attractions of thought. He uses rich embroidery but upon a solid substratum. He is a thinker, a rhetorician and orator and it affo ds us pleasure to say this for it is the truth.

We have talked with some of the boys at the University who heard this lecture and they say it is pronounced the best to suggest that it would be proper not We have talked with some of the boys delivered there in many years. Mr. Long spent much time in preparing it and he did it for the purpose of benefit- affidavits. ing as far as lies in his power the young charge or intimate any improper constudents of today, who are to be the men of the future. His devotion to the educational interest of his State is highly commendable.

The Onslow Election.

We publish in this issue a list of appointments for speakers to address the people of Onslow county on the railroad subscription. We are glad to see such interest being manifested. If the people will go out to hear the speakers we are satisfied they will be convinced that it is to the interest of the county to vote the subscription and secure the construction of a railroad from New Berne to Wilmington and eventually on to arrived from Trenton with a cargo of Norfolk. The county will not be called on to issue its bonds unless the road is to be built, and there is not a particle enough taxable capital to the county to pay the interest on the same. Onslow has been too long without steam navigation. The cry of hard times will continue as long as it remains in its present

Railroad Meeting. T. E. Gilman, Esq., and other speakers will address the people of Omslow consity on the subject of the Wilmington, New Berns and Onslow Railrond at the tollowing times and places:

A. C. Huggins, Esq., of Jacksonville, is in the city.

Arrangements of House Committees. WASHINGTON, Jan. 7 .- Several of the most important committees of the House organized yesterday and today, and some of them expect to be ready to report business for the House on Monday. if the call of committees is made. The committee on banking and currency appointed a sub committee, consisting of Lander of Illinois, Schneider, of West Virginia, Dinglery, of Maine, Weber, of New York, and chairman Wilkins, to which was referred the bill of the Comptroller of Currency for the reorganization of the national banking system. The committee on territories adopted a rule providing that hereafter all delegations desiring to appear before the committee shall submit their views and claims in writing, and not orally as has been the practice. On Monday a special meeting will be held to hear the delegation by Governor Ross, of New Mexico, which will urge upon Congress some speedy lagislation for final adjudi-cation of Spanish and Mexican land claims in New Mexico.

The following letter was laid before the House Committe on Elections today Hon. C F. Urisp, Chairman Committee on Elections. - Dear Sir: - I learn from the proceedings of your committee that an application has been made by counsel for the contestant to reopen the case and allow additional testimony to be taken, and as I have had time only to decide the matter finally until I can have reasonable oppportunity to examine the papers and if necessary file So far as the affidavits duct upon my part in reference to the held, I am ready now to contradict them in the most positive manner, by my own affidavit, but there are other things in the papers of which I cannot have personal knowledge, and which if left unanswered, might produce an enormous impression upon the minds of the com-mittee. Please present this note to the committee. I will, of course, be entire-ly satisfied with any course the committee may choose to take, but it seems to me that under the circumstances I ought to have an opportunity to carefully examine the papers and take such steps as may be thought proper before the application now pending is disposed

Very respectfully, J. G. CARLISLE.

Arrangements for Rev. Mr. Pearson The committee appointed to make arrangements for the accommodation of the people, who it is expected will assemble by thousands to hear the Rev. Mr. Pearson, the evangelist, on the decasion of his visit to this city from a number of builders and itractors, for the estimates, ranged from 100 to \$3,500. After consideration ras deemed the most feasible plan to are if possible part of the Champion appears building at the Red Gross set. It is proposed, if possible, to the first compartment of the building to the first compartment of the building at the first compartment of the first co is in a fair way to recover. If he lives it will be the only case on record ent the first compartment of the build-ing, which is 107 by 189 feet, and it is estimated will seat 2,500 to 3,000 people. It will cost about six hundred dollars to but in the seatz, etc., and there will be additional cost for electric lights.—

Allve With His Neck Broken. P. O. Myers of Nickleville, Pa., who

fell and broke his neck December, 24,

lives it will be the only case on record where a man has eccaped death after sustaining a double dislocation of the neck. Myers was riding on horse-back at the time of the socident. The animal became frightened and threw Myers violently off his back. The ground was hard, hilly and frozen, and when help came along in the shape of two farmers, Myers lay paralysed in the road. His head hung limp and lifeless and swung around as if it was on hinges. It was found that his neck was dislocated. Drs. Wallace of East Brady and Clover of Salem were called. There was only one treatment availab! the doctors said, and that was to duce the disduce th aid, and that was to duce the disconted bones. Myers was told that
his was his only chance, and the information was imparted that the operation was more than likely to prove
atal. Myers had lote of grit. He realused that he couldn't live long any way
with his neck broken in two places, and
was perfectly willing for the doctors to
experiment on him. A big sponge
loaded with chicroform held under his
mose seat him into the land of dreams.
It took over an hour to replace the rup-

medical world by living. His body which was paralyzed from the start. recuperating from the shock. He has not yet regained the use of his arms or legs, but they are sensible to the touch and he can move his fingers slightly.
