

DELAWARE'S ANNOUNCEMENT.  
**THE DAILY JOURNAL** is published daily, except Monday, at New Bern, N. C., for six months. Delivered to subscribers at 25 cents per month.  
**THE WEEKLY JOURNAL**, a 32-page paper, is published every Thursday at 12 1/2 cents.  
**ADVERTISING RATES (DAILY)**—One line one day \$1.00, five days \$4.00, ten days \$7.50, for each subsequent insertion.  
 All advertisements under head of "Business Advertisements" are 50 cents per line, and 3 cents for every subsequent insertion.  
 All advertisements will be returned at once unless otherwise specified.  
 Notices of Marriages or Deaths, not exceeding one line, will be inserted free. All additional copies will be charged at 10 cents per line.  
 Forthrightly and transient advertisements made in advance. Regular advertising rates will be collected promptly at the end of each month.  
 Communications containing news of a distinctive or of matters are solicited. No remuneration must be expected to be published without the name of the author or editor, and it will be made more than one column in its length.  
 Any person feeling aggrieved at any announcement, may obtain the name of the author or editor by application at this office and leaving therein the grievance exists.

**THE JOURNAL.**  
 N. S. HARRIS, Editor.  
 G. W. HARRIS, Business Manager.  
 NEW BERNE, N. C., JAN. 18 1888  
 Entered at the Post Office at New Bern, N. C. second-class matter.

**TROTTER'S** contest for Carlisle's seat was a very short one. He goes back to old "Kaintuck" where he can pick his flint and try again, while Speaker Carlisle will continue to kick against the repeal of the internal revenue laws.

Senator Vest, of Missouri, has added greatly to his laurels by an able, learned, eloquent speech against the Blair bill.—*Charlotte Chronicle.*  
 He has simply announced to the world that in his opinion the children of poor people are better citizens in ignorance than when educated. His argument drifted into this. It is difficult for those who continue their opposition to national aid to public schools to conceal their disapproval of popular education.

The farmers throughout the country are evidently moving upon an independent line of thought in regard to public measures. The idea that a protective tariff encourages manufacturing and employs a class to consume agricultural products and thereby creates a demand for the farmer's surplus puts the thing too far removed for the average farmer to realize that he is benefited. He would prefer to sell where he can obtain the best prices and buy where he can buy on the best terms without the aid of the government.

The farmers convention at Greensboro was well attended, about two hundred delegates being present representing all sections of the State. In his opening address President Elias Carr dwelt upon the necessity of trained, skilled followers of agriculture and advised that candidates for legislative honors in the coming political campaign be made to understand that the farmers will demand an appropriation for the purpose of encouraging county institutes. He comments severely upon the action of the monopolist and protectionist in capturing the National Farmers' Congress and attempting to make it appear that the farmers throughout the country are asking for protective tariff. His address was practical and abounded in good sense.

**GOVERNOR JARVIS** in a letter to the Wilmington Messenger thinks it a bad sign for the democrats to see so many candidates spoken of for the nomination for Governor. He says it will not be well for the party to go in convention with public sentiment so divided. The JOURNAL thinks it decidedly better to go in a convention divided than go in with packed delegations from counties enough to make a nomination regardless of the wishes of other counties. No delegation should go in a convention pledged for any candidate. The delegates ought to meet together for the purpose of settling as to who is the proper man to nominate, and the spirit of compromise and concession should prevail so that when the nomination is made the candidate can receive the hearty endorsement of all. We are offering this as advice, but we wish to state that the people are in no condition to compromise with. Many infelicitous

democrats boldly proclaim that this section would have been infinitely better off if York had been elected Governor, and the people of this county know that a republican General Assembly could not have treated them worse than did the overwhelming democratic assembly of 1884-'85, unless it had repealed the present county government system.

**Jones County Items.**  
 Partridges are scarcer in our section than we have ever known them.  
 Mrs. Nancy Ward of Swansboro, is visiting relatives and her many friends at Trenton.  
 Sixty cents was refused for corn at Trenton on Saturday last, and we learn that corn is scarcer in Jones this year than it has been in five years.  
 We had the pleasure of grasping the hand of Mr. T. O. Whitaker who is now merchandising at Germanon, N. C., and here visiting his father, Mr. T. J. Whitaker.  
 Mr. C. C. Green of Trenton, raises very fine cabbages in his garden at Trenton. I inquired of him how could he raise them on such sandy land—did he haul clay in his garden. Why, said he, no; I do it by hauling in swamp mud.  
 We learn that Mrs. Scarborough has quit keeping boarding house at Trenton and intends making Seven Springs her future home. We learn that Mrs. Scarborough's boarders have all been taken care of by Mr. Brogden while W. W. Franks and W. E. Ward are occupying the dwelling vacated by her.  
 It is not often that we can find a house that has in it a merchant and a merchant's clerk, a doctor of medicine, a lawyer, a superintendent of public schools, and a teacher; but Trenton has them all sheltered under one roof, and the best of it they are all considered well up in their different professions.  
 Would it not be a good idea for our farmers to consult together, as it is near planting time, what crops it would be best to plant—whether oats, rye, or Irish potatoes to help them over the scarcity of corn? My impression is that oats and Irish potatoes will prove best as they will come in the real time of need. Then we can follow oats with peas, and Irish potatoes with sweet potatoes, and secure two crops on the same land.  
 We learn that the school committee at Trenton has contracted with Miss Fannie Betts, one of our live, progressive and most successful teachers, to teach the public school for a term of three months. The educational board of Jones county divided two-thirds of the school money which will give each child in the county 63 cents; the other third was equally divided between the several districts which will add nearly twenty dollars more to each district. One hundred dollars was set apart for the purpose of defraying the expenses of a teachers' institute which will convene at Trenton sometime during summer months.

**PERSONAL.**  
 Mr. N. H. Frohchstein, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of bronchitis and catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.  
 Dr. King's New Discovery for consumption, coughs and colds, is sold on a positive guarantee. Trial bottles free at R. N. Duffy's drug store. Wholesale and retail.

**Little Grains of Sand.**  
 Little things continue to make our mighty universe of material things. People are too often prone to reject minor details. One drop of the right kind of medicine has often effected a cure, where years use of the wrong medicine had failed. Read the following endorsements of B. B. B., the most wonderful of all blood remedies:  
**TW- BOTTLES CURE RHEUMATISM.**  
 BROUGHTON, Ark., June 4, 1887.  
 I cheerfully state the following facts in regard to the use of your medicine in my family. My little son, 14 years of age, suffered from an acute attack of rheumatism, caused by undue exposure and chilling of the blood. I heard your remedy highly recommended, and purchased one bottle of Monocel and Bro. Frewett, Ark. In about one month after using this bottle, he became so much better that I got the second bottle so much better. I think by removing him to a cooler summer climate (which I will do) and continuing its use, a perfect cure will be effected. I consider B. B. B. a most excellent blood purifier.  
 CHAS. H. TITUS,  
 R. R. Agent, Broughton, Ark.

**ONE BOTTLE DID IT—BOILS CURED AND HEALTH RESTORED.**  
 B. B. B. Co., Atlanta, Ga.  
 Genl.—My sister was afflicted for a number of years with boils scattered about her face. They would make their appearance every spring, and last through the summer and until late in the fall. Her health was sadly impaired, losing flesh and strength every day; in fact they were sapling her life. I gave her one bottle of B. B. B. and the effect was like magic, producing a complete cure and restoring her health. Today she is perfectly sound and her health fully restored. It is without doubt the best and most valuable Blood Purifier now on the market. Yours, etc.,  
 D. M. MCRAR,  
 Waynesboro, Miss., July 14, 1887.  
 Send for our Book of Wonders, free. It treats of all blood disorders. Address—

 For sale in New Bern at R. N. Duffy's drug store.

**GREAT ENTHUSIASM DISPLAYED AT THE OPENING EXERCISES OF FLORIDA'S SUB-TROPICAL EXPOSITION.**  
 JACKSONVILLE, Fla., Jan. 11.—Fifteen thousand people witnessed the successful opening of the Florida Sub-Tropical Exposition here today. At 1:45 the monster procession formed on Bay street, and marched to the exposition grounds. Among those participating were the Governor, Edward A. Perry and staff, ex-Governors W. D. Bloxham and Harrison Reid, county and city officials, mayors and aldermen of the leading towns in Florida, fire departments and civic organizations and invited guests and two battalions of State troops. Gens. Schofield, Terry and Ayers, U. S. A., were honored guests. The city was gayly decorated, and presented a gala day appearance, all business being suspended. After marching through the principal streets, they entered the building at 2:45. Director General Pane then announced the completion of buildings, &c., and ex-Governor Bloxham, the orator of the day, made a most inspiring speech, referring especially to the new era that this exposition marked for Florida. Then Governor Perry declared the exposition opened.  
 The main building is 325 feet in length, and is 135 feet broad. The main roof is 52 feet from the floor, while the dome reaches to a height of 100 feet and is filled with the products of Florida. The grounds and annexes occupy five acres. The floor space of the building will reach nearly forty thousand feet. More than one-half of the area is devoted to the horticultural department. In the second story is the art gallery, under Jay Smith, of Minneapolis. In it are 400 copies of paintings by the leading painters

of America and Europe, valued from \$1,000 to \$20,000 apiece. The roof is made of glass, and inside there is a small octagon shaped room, giving a well space for the exhibits. Among the collections there will be shown a large number of rare old paintings. No such art exhibit has ever before been made in the Southern States, and none equal to it at any exposition save at the Centennial. The exposition will remain open three months.  
 Spurgeon and the Baptist Union.  
 LONDON, Jan. 13.—A deputation of the Baptist Union had a conference today with Mr. Spurgeon with reference to his withdrawal from the union. Mr. Spurgeon declared that he must still maintain his resignation. He suggested that the Council should adopt a simple basis of Bible truths such as are accepted evangelical doctrines. He considered that the constitution of the union did not contain sufficient powers to enable it to deal with members who disclosed heretical tendencies. He declined to formally acquiesce anybody. He said that when he had spoken of that which looked like the beginning of a confederacy in evil he referred to no special association in connection with which deviation from the gospel truth could be discerned. He would continue to support the department of the union in which he was specially interested.  
 A plenary council of the union has been convened for Thursday to consider M. Spurgeon's position.

**SCRIBNER'S MAGAZINE.**  
**PROSPECTUS FOR 1888.**  
 The holiday issue, now ready, is complete in itself, containing no serial matter. The cover is enriched by an ornamental border printed in gold. The price is as usual, 25 cents. It contains the most delightful stories, poems, and essays by distinguished writers, and superb illustrations.  
 Among the important articles to appear during the year 1888 are the following—Send for prospectus:  
**Robert Louis Stevenson** will contribute regularly to each number during the year. He will write of many topics, old and new, and in a familiar and personal way, which will form new bonds of friendship between the author and his thousands of readers. In the first paper, entitled "A Chapter on Dreams," appearing in the January number, he relates incidentally, in connection with the general subject, some interesting facts concerning the origin of the famous story "Strange Case of Dr. Jekyll and Mr. Hyde."  
**Railway Accidents,** by W. S. Chaplain, will be the first of an especially important and interesting series of papers on railroads, their administrations and construction, including great engineering feats, famous tunnels and passes, and indeed, those branches of the subject which in this day engage the attention of the whole country. The illustrations which will accompany this series will be very elaborate original, and beautiful. The authors and the titles of the future articles will be announced later.  
**Dr. A. Sargent's** papers on Physical Proportions and Physical Training will be continued by several of increasing interest, with as rich and unique illustrations as those which have already appeared.  
**Illustrated Articles** of special interest will be those on the Campaign of Waterloo, by John C. Ropes; on "The Man at Arms" by E. H. Blishfield; two papers by Edward L. Wilson, illustrating results of recent Egyptian research; a further article by William F. Apthorp, on a subject connected with his recent contribution on Wagner, and many others of equal interest. Professor Shaler's articles on the Surface of the Earth will be continued, and articles upon two of the most interesting groups of contemporary European writers will be accompanied by rich and novel portrait illustrations.  
**Electricity** in its various applications as a motive power, Explosives, etc., will be the subjects of another group of illustrated articles of equal practical interest, by leading authorities upon these topics.  
**Mendelssohn's Letters** written to his friend, M. S. Wobbes, at a peculiarly interesting time of his career, will furnish the substance of several articles of great interest to musical readers, which will be illustrated with portraits and drawings from Mendelssohn's own hand.  
**The Fiction** will be strong, not only in the work of well known writers, but in that of new authors in securing whose co-operation the magazine has been so fortunate during its first year of publication. A serial novel, entitled "First Harvest," by Frederic J. Stimson, will be begun in the January number, and early in the year novelties will be published by Henry James and H. C. Bunner. The short stories are of noticeable strength and freshness.  
**Illustrations.** The Magazine will show increased excellence in its illustrations. They will be more abundant and elaborate than ever. It is the intention of the publishers to represent the best work of the leading artists, and to promote and foster the most skillful methods of wood engraving.  
**Special notice.**—To enable readers to possess the Magazine from the first number (January, 1887) the following inducements are offered:  
 A year's subscription and the numbers for 1887, \$4.50  
 A year's subscription and the numbers for 1887, bound in two volumes, cloth gilt top, 6.00  
**\$3.00 A YEAR, 25 CENTS A NUMBER.**  
 Remit by bank check or money order to **CHARLES SCRIBNER'S SONS, New York.**
