this afternoon at 4 p. m. for Golusborn in order to give our citizens an opp rtunity to witness Shake-pears's immortal tragedy. R-chard III , as interpreted

The Board of Trade. The following item is from the Greensburo North State:

the New Berne Board of Trade is affected branches to the Scientific nothing but a little organization to gos i, with each other about the financial conition of their customets. That ap published in that journal by Professor proaches about as near to the true object C. V. Riley: of a board of trade, as a fl-a does to the size of an elephant Instead of learn ing how to collect bad debts or to avoid m king them a board of trade should combine every interest in a community. whether it is active or inactive. The greatest good to be done is to include the careful monied men, who have by their retirement from business life be come so timid, that they jump involue tarily with fear, if a man asks him for a loan on real estate. Combination is the thing It gives courage. It enlarges the mind, and gives it better grasp. Men have more physical and moral courage when they are united. Money is bolder

and will do more when protected and pushed forward by combination. It was not our intention to convey such an idea of our Board of Trade thoush to some extent it may be true

We remember with pride and satisfac tion the off one of the Board of Trade to secure the manual force for the construction of the Quaker Bridge road and securing - prophations for opening up Ir-purser The members forwarded nemotials and permon-to the General Amenably and theverner in regard to the Queker fundge road and to Congress toted until it forms a homogeneous masceletrye to appropriations for Neuse and frent rivers and their efforts aided much in securing help from the State hand, the most convenient method is to Louisiana dominar in Warshold, and national governments in these pump the liquid back to upon itself yio enterpri es

But we fear the Board of Trade has keep reliable statistics of the business. hipping and manufacturing done each y-ar; investigate the cause of any fail ing off study and mature plans for extonding the trade; watch all measures of legislation calculated to mjure or impede the prosperity of the community, and aid and encourage al. in dustrial enterprises. A combination of act upon them promptly and intelligent-

iy, will do incatculable good. We are making an effort to have on

the 13 14th and 15th of March an ex sented the petition of Nathaniel Ma hibit of our moustries, also the fish gruder, acitizen of the District of to tal trageds. Rechard III, as interpreted first of our industries, and the first bumble, praying compensation for in jury to his property in West Washington caused by grading streets. well as individually, to give it every encouragement within their power. It Mr Simmons, in securi g appropriations memorials and petitions. It has done ston, at S uthport.

Save the Euonymus. It has been noticeable for sometime that the Euonymus shrubbery in various

On this subj-ct the New Berne JOUR places in the city is dying out from Nal has a good article, and also discloses some cause. Major A. R. Dennison a fact that surprises us. It seems that recently forwarded a twig of one of the

> American and the following reply is stubborness Happy Medium the most relebrated

The twig of Euonymus (latifolia?) sent is infested with a scale insect Chionaspis cuonymi Comstock, described and fixured Rep Dept. Agr. 1880, page \$13. plates v., Fig. 8, xvii , Fig. 2. 10.18 common on Euonymus, and has also been taken from orange in Louisiana. Those remedies which have been successful against scale insects infesting orange trees will prove successful against this. The most successful wash her is the kerosene emulsion, made by either of the following formulæ:

Milk 1 part Sour milk (not buttermilk,) is pref. able, as the emulsion is more stable when thus made Instead of milk water can be used by adding a small smouth of soap. The proportions re-main the same. The following formula is a very convenient one to use for

-mail quantitice. 2 Kerosene Squarts Water 1 quart Whale of soap 1 p and In enter case the mak or sosp and ster should be heater to both hg and with the latter the scorp thoroughly dissidved then the kernsetic added where not and the mix-ure thoroughly set of crampike consistency. It can be agreated by churning shaking or other wise, but where a force pump leat lently, forcing it through a small nozzie

This continued for five to lifteen mining the same strengous efforts to guard the mixture. The emulsion will reand extend the commercial interest of main stable for an indefinite period Reflector and should be dilluted only as wanted the community that it did years age for use. The strength required varies I' e North State is right in saying that for different insects, also some plants a Board of Trade should combine every will bear it stronger than others. This three thousand, shall separate them interest in a community. It should wash can safely be used on orange 1 selves from the Brewer's Line A should not be repeated until first apply cation has had time to be efficient say ten days or two weeks. It is best not to apply during freezing weather. On a small scale application may be made with brush or cloth but the most convenient and effective method is with force pump, using a fine spray nozzle has been fully discussed from time to the business men of any community time in my official reports, and especial that will take such matters in hand and ly in Hubbard's report on Insects Af fecting the Orange.
