* The Fair committees are at work.

The Monjon Concert Club was out on Tuesday night making delightful music.

Dr. N. H. Street has sold out his drug store to Seymour W. Hancock who will continue the business at the same place for the present.

Pat Trenwith announces that he has resumed work at his old stand on Middle street. Where he is ready for all kinds of blacksmith work, especially shoeing horses.

Steamer Movements.

The Eaglet of the E. C. D. Line sailed yesterday with cargo of cotton, lumber and general merchandise. The vessel of this line arrived last night.

The Manteo of the O. D. line arrived last night from Norfolk and will sail tomorrow morning at 9 o'clock on return trip.

Personal.

F. W. Hancock, Esq., returned from an extended trip North and West yesterday. He is traveling salesman for a large and extensive house in Detroit, Michigan, Park, Davis & Co. and will start out in a few days to canvass North-Carolina.

Mrs. Robena Harrison and children of Chicago, Ill. is visiting her mother in law Mrs. Virginia Harrison.

The East Carolina Fish, Game and Oyster Fair.

The Committee on Transportation held a meeting at President Bryan's office last night and perfected arrangements for transporting passengers and articles for exhibit to the Fair on the 13th, 14th and 15th of March. Publication of the same will be made in due time.

It is seldom that representatives of so many transportation lines meet together in New Berne as attended this meeting. It shows that great interest is being taken in the Fair. Let the good work be pushed forward.

The Star Concert.

As we stated yesterday the musical part of the entertainment had not commenced when our report was sent out, and consequently we said nothing of those engaged in it. It is hardly justice to the female portion of the corps to fail to say that they fully sustained the fine reputation that preceded them. Miss Smith as the prima donna soprano rendered some fine solos. She has a fine voice highly cultured and under complete control, and Miss Nahar as elocutionist displayed not only a highly cultivated knowledge of but a very decided talent in the art. Rev. Price's discourse was eminently fitting to the occasion and purpose for which these concerts are given, that is the benefit of Livingston College at Salisbury.

Don't Forget It.

Today is the day on which the astute ground-hog comes out for the purpose of taking observations as to weather indications. Should the sun be bright and he thereby enabled to see his shadow, he immediately returns to his den for another six week's stay of siccitude or inelegant leisure. If the day proves cloudy and he perceives no shadow then the unwelcome news is instinctively imparted to him that winter is over and he must begin to plow the earth for subsistence, for it is a remarkable fact that this animal becomes intensely fat while enjoying the seclusion of his winter home, and becomes very poor in a few days after emerging therefrom. By this it may be seen how dear his life for any one to know when winter breaks—simply watch for the ground-hog today.

Morehead City as a Summer Resort.

From present indications Morehead City will have a larger number of visitors the coming summer than ever before. The work of improving the Atlantic Hotel will begin in a few days, and the corner stone of the Teachers' Assembly building will be laid on the first Monday in April. The President of the A. & N. C. R. promises the fastest schedule in the State, and to enable him to carry out this promise, the work of laying the road with new steel rails is about completed from New Berne to Morehead City and will soon begin on the Morehead City end. The work of draining and putting in cross ties is also being pushed with vigor.

The outlook is such that the boatmen may have their sail boats in good trim; the fishermen may have their nets in order; the farmer plant a good supply of vegetables, and raise all the poultry he can for somebody will be there to feed this season. The owners of the hotel have plenty of means and are not to be men to fail in any enterprise they may undertake. A big time may be expected at Morehead City this summer. By the way, why not hold the State Convention there, it is but a few hours' run from Raleigh, and there will be a great demand for cool heads about that time, and Morehead City is the place to keep cool in the summer.

Public Building at Newbern.

EDITOR JOURNAL: We would suggest that a petition be immediately circulated asking Congress to make an appropriation for a public building at Newbern as per bill introduced by Hon. F. M. Simmons.

Let this petition be gotten up and placed in the hands of some one who will take an interest in getting signatures to it. It could not be placed in better hands than Mr. Thomas Hancock who is in the employ of Geo. Allen. Mr. Allen has always shown so much earnestness in everything pertaining to Newbern that he doubtless will allow his employees to do this work.

At same time let a petition asking for the laying out and grading the road to the Federal Cemetery be placed in the same hands. In a few days the signature of nearly every one in Newbern could be obtained.

Kinston Items.

Dr. F. P. Gates of Pamlico was on a visit to his old home last week.

Robert H. Ronatros, Esq., of New York, was in town some days last week. The continued serious illness of Dr. F. M. Rountree is cause of much regret in this community.

Mr. Frank Cooper and Miss Percy Jarman, both of Onslow county, were united in holy wedlock by Rev. Mr. Baker on Wednesday, January 13th. Joy be with you.

Onslow county has given something more than 100 majority for a \$800,000 subscription for a railroad. Onslow needs a railroad and all want one; but some do not want to be taxed to build it.

The Disciples Union at Tuckahoe was largely attended. J. T. Davis preached on Saturday and H. C. Bowen on Sunday and also lectured on Sunday schools. The next union will be held at Richlands the 5th Sunday in April and Sunday before.

Mingo David, an old colored man, was found dead on Wednesday of last week in a pond of water in Joshua's creek, Jones county. He was not of sound mind, and left his house during the night, and is supposed to have accidentally drowned.

Married, Mr. Buck A. Petway of Onslow county, and Miss Burton of Duplin county, on Tuesday, January 24th. He went to the school (we have not learned whether he voted for or against railroad) and went on and got married. A good day's work.

A tremendous explosion of dynamite in Newport harbor, R. I., last Monday morning, was felt at several points in the State and the people thought it was an earthquake. Efforts were being made to clear the harbor of ice fields by the use of dynamite. Houses in Providence, thirty miles off, were shaken. In Bristol harbor, eighteen miles off, the ice was considerably cracked. An illustration of the power of dynamite.

The Greensboro Patriot is responsible for the following "Pattie Lindsay (colored) who died here a few days ago, was a decided monostrality in her time. When she last weighed she tipped the beam at 625. For several years past she had been entirely helpless and unable to go out of the house in consequence of her tremendous avoirdupois. She was sixty years old when she died, and is supposed to have weighed about 700 pounds. Her coffin presented the appearance of a piano box."

James F. Rule, city editor of the Knoxville, Tenn. Journal, was attacked by three men, as he was entering church last Sunday morning. A communication reflecting upon Dr. T. A. West, city physician, appeared in the Journal and two sons of Dr. West and a friend of theirs demanded the name of the author. Rule refused to give the author's name, and a bloody fight ensued with knives and pistols. Three of the men were wounded, one of them, William West, running away unhurt. John West was carried home in a dying condition. Rule's injuries are not dangerous.

The train of passenger coaches which passed through Wilmington last Friday with tourists for Florida, met with disaster on the way back, near Jessup, Ga., where it was run into by the north-bound express train. The coaches were empty. Five of them, including two Pullman sleepers, were burned. Engineer Wm. H. An Explanation.

When I advertised for Christmas Gifts and New Year's Presents, it was only a reminder to those who owed me little amounts to pay up. After due time I think I must have been dreaming, for they don't pay what a cent. A few good friends have paid—some good friends have not paid. Well, they will, won't they? I don't know, time will tell. I think it will be after we get the Railroad built from New Berne, through Jones county, to Onslow, and on to the sea. We will see.
