rapidly drawing near when our city will be visited by a large concourse of people to attend the Oyster Fair. Allow me to suggest that a special meeting of the city council be called, for the pur- tive to the numbers and values of farm pose of making arrangements to have our sidewalks put in something like decent order. It is true that they are horses, mules and a decrease now in a better condition than they in sheep and swine is reported. The were before Councilman Williams took charge of them, but they are not as yet model sidewalks. I also suggest that the city authorities order the bricks on the sidewalks between Meadows' corner by sixty four millions, and for sheep a and South Front street to be taken up trille smaller, with increase in those for immediately so as to make it less dangerous to pedestrians. I wish to make another suggestion; it is, that the city council employ sweepers to remove the large quantity of brickbats, straw. paper, glass, rotten wood and unbroken oyster shells now on Craven street between Pollock street and Trent river: as for South Front street, from Gates corner to Middle street, thence down Middle street to the market, I have nothing to say, being convinced that a large part of the tax collected in the city would barely suffice to put that portion of the city in very nice order before the week of the Fair. All I wish. and all every other taxpayer wishes is that our worthy Marshal, Mr. Harget may be given a carte blanche to proceed

and clean appearance during Fair week as any other citizen of New Berne. I am of the opinion, Mr. Editor, that if that good man Job had been compelled to walk down such a place as the east side of Middle street from Meadows' corner with rheumatic ankles or with corns on his toes, he would have had still greater trials and larger demands upon his patience. In conclusion I say that the untidy condition of our streets reflect no credit on our city council, and the brick sidewalks on the east side of Middle street, between Pollock and South Front, are a disgrace to the city and the city council should
