REPAIRING of China and Bricks done by CLARK & MORGAN, Taxidermists, East Front St. New Berne, Jan. 14, 1888. law3m

The Disciples' church is being painted.

J. W. Stewart has fitted him up a nice and cozy office adjoining his stable.

The sidewalk in front of Green, Foy & Co.'s bank has been cleared off leaving a nice, smooth concrete pavement, and a new bridge has been put across the gutter.

Capt. Enloe has received two additional car loads of N. C. mules which he is selling rapidly at low prices. His stock is kept in the yard of the Henderson House and the farmer who goes in generally comes out with a rope and a mule at the other end leaving the greenbacks with the Captain. Sales amounted to over twelve hundred dollars in cash yesterday.

While the wagon of the Southern Express Company was being driven up Owen street on Wednesday night a colored boy herding a drove of mules, being mounted on one of them, collided with the wagon with such force as to break both shafts and throw the driver out into the street; the mule rider was hurled to the ground and sustained severe and painful injuries.

Accident to the Steamer Experiment.

The steamer Experiment of the Clyde line while en route from Norfolk to this city broke her rudder off Pamlico Point on Wednesday night. The steamer Trent went down to her assistance yesterday evening. She arrived here about night.

Our Special Edition.

Our special edition of five thousand of our WEEKLY JOURNAL will be issued next week. We have some advertising space to spare which will be filled at reasonable rates. Those desiring advertisements in this issue should hand them in at once. They cannot be received after Monday.

Personal.

Maj. A. Gordon of Egypt farm called to see us yesterday. He is a Vice-President of our Fair Association and is taking a lively interest in its success.

Messrs. E. L. Francks, jr. and John W. Mills, Esq., of Richlands, Onslow county, are in the city. They are anxious for a forward movement on the New Berne and Wilmington railroad.

A Valuable Premium.

We have been shown a handsome full engraved solid silver watch of the Elgin Watch Manufacturing Company, which was purchased of Mr. Chas. S. Bell by Mr. Charles Reizenstein and presented by him to the Oyster, Fish and Game Fair, to be awarded as a premium for the best exhibit of game.

The watch cost \$20, and is certainly a liberal donation on the part of Mr. Reizenstein.

Steamer Movements.

The Carolina arrived from Bell's Ferry yesterday loaded with cotton and peanuts. Of the latter there were three hundred and one four bushel sacks.

The Vesper of the E. U. D. line arrived yesterday morning with a cargo of general merchandise and will sail this afternoon at 4 o'clock. The Eagle of this line will arrive tomorrow morning.

The Mantic of the O. D. line will sail for Norfolk this morning at 9 o'clock.

Feeling the Pulse of the People.

The enterprising editor of the State Chronicle has sent out a number of questions touching the coming political contest in this State in order, we presume, to learn, if possible, which way the cat will jump before it is time for him to jump. These questions are sent to the JOURNAL office and we take the liberty of answering them publicly.

1st. What are likely to be the leading political issues in your county in the coming campaign?

Ans. The "line" will want to stay in and the "outs" will want to get in. The Democrats and a large number of Republicans will make a strong effort to elect good and competent men to office.

2nd. What legislation do your people want?

Ans. We want the General Assembly in the first place to rearrange the judicial districts in accordance with common sense and with justice to Craven county.

If legislation is necessary for the purpose, we want it in order to extend the A. & N. C. R. to Fayetteville or Sanford and on to Charlotte that we may have new connections and find new markets for our corn, fish, oysters and other products and extend our trade that is now hampered by the combinations of the associated railways.

And, mark you, we will not vote for a man for governor unless we are satisfied he will not put himself in the way of this enterprise. Our business interest will not be lost sight of, as in some instances in the past, in our zeal for party success. We also want such legislation as will give us more and better public highways, and the use of convict labor in cutting new highways through the peccosins and swamp lands of the State which will add greatly to the convenience of the people and make the lands available for the public school fund.

3rd. Upon what leading political questions do they differ?

Ans. The Democrats generally want to maintain the present system of county government, and we believe some few Republicans think it better than to go back to the elective system. This in reference to those of both parties who take a lively interest in politics, but the masses of the people are satisfied with any system that administers the affairs of the county honestly, economically and judiciously. As to national questions, some few Democrats favor a protective tariff, while the great body of the party want the only tariff warranted by the Constitution, for revenue.

4th. Is there any disaffection in the Democratic party in your county, and if any, what is its cause?

Ans. If there is any it is caused by the points noted in answer to the 2nd question.

5th. How do the people regard the administration of Cleveland?

Ans. As a complete success, save, perhaps, in one particular. They can not see the wisdom nor the sound sense in economizing at the expense of the conveniences of the people while the treasury is overloaded with surplus funds. A case in point: To save about twelve hundred dollars annually, the deputy collectors of customs and boatmen at Ocracoke and Hatteras have been abolished, and shippers and vessel owners are put to the great inconvenience to come by sail boat one hundred miles to get the papers which the law requires the masters of vessels to carry, it being often necessary to change masters at those points before going to sea.

6th. If both cannot be secured, which would you prefer, reduction of the tariff, or repeal of the internal revenue?

Ans. We want the internal revenue laws wiped out, root and branch, not that we are in favor of "free drinks, free chaws and free smokes," but because we want the taxes derived from this source for State and county purposes, and the tariff fixed upon a revenue basis keeping in view such manufacturing enterprises as need protection.

7th. Do your people favor national aid for education?

Ans. Those who favor popular education, or the education of the masses, do, provided the schools are conducted under our State laws.

8th. In what way and how much will the Farmer's Alliance influence politics in your county?

Ans. We don't think there is an Alliance in the county.

9th. In what way and how much will the Knights of Labor influence politics in your county?

Ans. Don't know. We believe this organization claims to be non-political but will vote as their interests suggest.

10th. Whom do your people want as Democratic nominee for Governor?

Ans. Thos. J. Jarvis, though there are some good and intelligent men in the county that think it good policy to "rotate." But the friends of Jarvis are enthusiastic and if he is the nominee he would in all probability make such inroads on the Republican ranks as to carry the county.

Offer Premiums.

The generous act of Mr. C. Reizenstein in offering a \$20.00 silver watch for the best exhibit of game at our Fair on the 13th, 14th and 15th of March, is highly commendable and we trust others of our citizens will follow his example and offer special premiums.

The JOURNAL, always ready to do its full share in encouraging all enterprise for the advancement of New Berne and this section, offers the following special premiums:

The DAILY JOURNAL for one year for the best exhibit of taxidermy work.

The WEEKLY JOURNAL one year for the best exhibit of oysters.

The WEEKLY JOURNAL one year for the best exhibit of fish.

The WEEKLY JOURNAL one year for the best exhibit of wood.

The WEEKLY JOURNAL one year for the best exhibit of home-manufactured articles.

The WEEKLY JOURNAL one year for the best exhibit of farm products.

These papers will be sent by registered mail, addressed by the parties to whom the awards are made.

The Superior Court.

Court convened Thursday morning at 10 o'clock. The calendar for Wednesday was taken up and that and the one for Thursday were both disposed of by 3 p. m. No case of importance was tried. M. DeW. Stevenson, Esq. being connected with some of the most important and being absent a luncheon was served.

The injunction case of D. Langfield et al. vs. M. H. Sultan et al. was taken up. The plaintiffs in this case alleged that in the assignment of M. H. Sultan, there was fraud, that there was a collusion with the assignee, and that the claims of the preferred creditors were fraudulent. A restraining order had been obtained to prevent the purchasers of the goods sold by the assignee disposing of the same until the case could be heard. Quite a number of affidavits were offered by the plaintiffs in support of their allegations and they asked that the injunction be continued and a receiver appointed until a hearing could be had. The defendants submitted numerous counter-affidavits showing that there was no collusion, and that the claims of the preferred creditors were genuine. The case was argued at length by W. E. Clarke, O. H. Guion and H. C. Whitehead, of counsel for the plaintiffs, who had associated with them P. H. Pelletier and L. J. Moore. The defendants were represented by Clement Manly, of the firm of Simmons & Manly, and Clark & Clark. Decision not rendered.

Glass Ball Shooting.

At the regular shoot yesterday afternoon the following score was made:

W. Ellis 100110011111010—10
W. B. Ellis 100010101010100—6
C. Reizenstein 00100000000000—1
C. S. Bell 10111011011011—11
A. E. Parsons 00101000001000—3
Judges: Wm. Ellis, J. B. Duffy, C. Reizenstein and C. S. Bell.

The Granges.

Mr. J. T. Eaton, the general deputy of the State Grange, P. of H., called to see us yesterday and reports that he has visited quite a number of the Granges he organized during the last year and was most agreeably surprised to find them all in a prosperous, hopeful and good working condition. He says they are building the foundation broad and solid and will be sure to accomplish great good.

He organized during the week a Grange at Grantsboro, Pamlico county, and goes to Fulcher's on the north side of Neuse river in this county to organize one today.

Committee Meeting.

A meeting of the Committee of Arrangements.

The Executive Committee, The Committee on Stock, The Committee on Advertising, The Committee on Finance, and the chairman of the other Committees are requested to meet at the Graded School Building on Monday, 8 p. m., for consultation.

GEO. ALLEN, Pres.

IS CONSUMPTION INCURABLE?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at R. N. Duffy's drug store.

ADVICE TO MOTHERS.

Mrs. Winklow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. Beware of cheap imitations.
