THE JOURNAL.

falls on Wednesday. June 17, (anniversary of the battle of Bunker Loss of Appetite. Hill) is Sunday, which means a botiday Monday. July 4 is Wednes day. Thanksgiving will be appointed on November 29 if the old custom consist merely in an loading the bowels. The incident work of only act as is pargative is followed. Christmas will fall on the incident will be a tonic as well, and not produce after its use greater obstiveness. To secure a regular habit of body without charging the day.

Legt begins early, as Ash Wed- or disorganizing the system. nesday falls on February 15. April 1 will be, Easter Sunday, Trinity Sunday falls on May 27.

A second total eclipse of the moon will occur on the night of July 22 and 23. The eclipse will begin at five minutes to eleven o'clock and ends at twenty five minutes to three o'clock.

There are three partial eclipses of must go to the Indian or South have not experienced any indiant of Pacific Ocean, and to the Arctic it in my house and well not be will Ocean to see the third, which would desor with the reserved of the res mean considerable travel.

The morning stars will be; Venus until July 11, Mars until April 11, What has entil wrapper mered 2 trade Jubiter until May 23 and from December, 7 to close of year, Saturn from August 1.

The evening stars will be Saturn from January 28 to August 1, Venus from July 11, Mars from April 11, Jupiter from May 22 to December 5.

If a person is anxious to obtain a view of Mercury the best time for him to succeed is in the early morn ing before the sun is up, viz: March 30, July 29, November 17, or just after the sun has set on February 17, June 12, and October 8 in the west,

The Presidental election will take place on Tuesday, November 6.

Casting a Great Steel Gun.

On Wednesday, January 11, the largest gun ever made by direct steel casting was cast of Bessemer steel at Pittsburg, Pa. Sixteen thousand five hundred pounds of melted iron were charged into the converters. After the blow the fluid steel was run into the mould. The latter stood on end in a casting pit. Two minutes sufficed for pouring the metal into the flask All went well apparently, but it was only after its removal from the mould that an opinion as to the success of the operation could be pronounced. On Monday, January 16, it was taken from the mould, and the casting was pronounced perfect. both by Superintendent Hainsworth. of the Pittsburg Casting Co., and by the government representatives. The gun is to be of 6 in. caliber, with 7g in. powder chamber; largest diameter, 23 in., and outside diameter of muzzle, 10 in.; initial velocity of projectile, 2,000 ft; pressure in chamber, 15 tons. Its total weight when finished will be 51 tons. After completion it will be subjected to extremely severe tests at Annapolis, Md.

The casting of this gun is an event of much importance. If the piece proves a success, it may revolutionize the construction of guns in this country. It will do much to put the great question of supremacy between cast and built up guns the test of practical trial. It also is a step that may bring about the trial of aluminum bronze guns. Should it be shown that casting can produce a satisfactory cannon, then an additional inducement will be created for trying aluminum-bronze, a metal that is much easier melted than steel, and that in strength and generally resistant qualities equals or surpasses it.

The progress of the new piece will be watched with much interest both here and abroad. It is satisfactory to feel that the United States may yet maugurate a new departure in heavy ordnance. It seems evident that if cast metal guns are to be antiniactory weapons, the proof will be given in this country. In thus casting gues the saving in expense is very great. The new piece will cost but a fraction of the sum which would be expended upon a built-up gon of like caliber.

The French military authorities have recently issued stringent orders regarding the observance of the Sabbath day, an over-zealous officer, Colonel Pous, commanding the 3d Infantry of Marine, who insisted upon calling out his men for practice on Sunday, has been sent the penal colony—New Caledonia.

An exchange tells of a girl who had just returned from college. She was witnessing a fire engine worke. After watching it for some time in mute autonishment she said: "Who would evah have dwesmed such a vewy diminutive looking apa watus would hold so much watch."

Fact About 1888.

It is leap year. Eebruary has twenty-nine days.

Washington's birthday falls on Wednesday. Memorial day also falls on Wednesday. June 17.

Sick Headache, Bad Breath, etc.

There are three partial eclipses of the sun to take place—the first on February 11, the second on July 8 and the third on August 7. TARE ONLY THE GENTINE.

How a Dying Child Was Saved!

The following is a true account of what your m. S. S. has done for our little stangister finnes, now four years old. When it no muss old a tump appeared on her heef with that wit prove larger. The family physician thoughest was caused by a piece of broken of as or nor libut falled to bring anything to hight. The shild became rectier affthe time we ming to lose the use of her leg, and finally quit walk-ing entirely. The middle finant and thum! of either hand became entarged, the fireh hecoming hard. The hip joints became involved, so that when seventeen mentils oil she could not stand, having limt the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrocked muncles contracted and there was general westing of fiesh and muscle. At righteen months of age she was placed under the treatment of a prominent physician of thosom, Hasa, but at the end of ten months she had declined to such a degree that are was in a dying condition. This was in April, 100 We took the could away not knowing what to do In this dreadful dissuma we were over persuaded by friends to try "one bot the" of Swirt's Service, with three did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills for many days to come, for it has brought our dying Hasel to life, to right, the strength and health again.
The sales hus of her cheeks has changed to a roay tink. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a bifthe, cheerful han py romping child. Should you wish to h crease your testimonials of proof of the virtue of S. S. S., our numes and what we have said is but a portion of what we owe to you, should you wish to use them.
