A scheme to defraud two life insureach has been exposed in Charleston, all of the parties to which are negroes.

Representatives of the steel rail mills of the country are holding a secret meeting in Philadelphia to decide the Eastern North Carolina is alive to the output for the present year, and it is onward march of progress. The time stated that it will be fully fifty per cent is short, the Fair is almost upon us, but

Reports from the enow storm in Michi- count on me as gan and Dakota, represent it to be the severest ever known. The railroads are completely blocked with heavy drifts. and no mail or freight trains have been sent out since Wednesday last.

There is a possibility of the Burlington strike extending to all of the Western them to take preside on the Old Do roads, but the railway officials say they will soon be able to resume all of their freight business. The Brotherhood have not been able to make terms with the Knights, and the latter will take the places of the strikers.

Pleased to Know.

A lady offers to the girl under 16 years who will exhibit at the Fair any garment made entirely by hand and a specimen of her darning on stockings, a nickel chatelaine watch.

MR. Epiron:-I am pleased to see the ladies of New Berns are taking quite an | was cured of Rheumatism of ten years interest in the Fair and if the interest is standing. Abraham Bare, druggist, kept up until the time for opening and during the Fair next week I'll guaraning medicine I have ever handled in my tee a success, for I have never known of a poor fair when the ladies took a lively and working interest. By the way have seen mention in your paper of several old relics that were going to be exhibited. As a number of Burnside's old soldiers are to give us a visit how would it do to get up a few relics of this recent visit? Recently while in New Berne I found on the north side of the river grape shot. Such things would not only be of interest to the "old fellows" who gave our people a visit "when we did not want them" but of much interest to us who were too young to remember much of the days of '60 to '65. We will have quite a crowd to visit your people during the Fair from our City of Oaks

Transportation Co. will transport ar-ticles for exhibition on prepayment of freight to New Berne, and upon pro-duction of pertificate from any one of the secretaries of the Fair Association that such articles have not been sold freight charges will be refunded, and articles returned free, or upon producsee that their respective counties and setons get the advantage of a handsme and full display of cysters, fish, ame and all others of interest. These privates of the Fair Association that articles are intended for exhibition they will be transported free as above provided for. Agents of the different transportation companies will be intransportation. A Good Suggestion

Our Fire Department will have a parade during the Fair, and one of our business men has suggested that an industrial feature would add much to it Yes, a dozen floats representing the various industries would, with our Fire Department, make a grand parade The fine stock to be exhibited might also be added. Can we find a dozen or so enterprises who will take the trouble

and expense of preparing the floats? Mr. Editor, you are on the right track when you suggest the industrial parade A first class parade such as New Berne It is stated that the Southern Pacific city and add much to the attractions of The floats could be so arranged as to light them up, and the addition of a hundred or more hand bauners, thinese lanterns ance companies of five thousand dollars torches, &c., would not be amiss. I think it in order and therefore move that the President appoint a committee of three on parade and illumination. Many people are coming from a distance. The propie of North Carolina are expecting New Berne to show that much is being and will be accomplished before the opening day. A HELPER
