Sam Jackson killed a mink at the E. C. D. dock yesterday evening. Too late for the Fair.

Yesterday was St. Patrick's day. The morning was warm, cloudy and fair; the evening was cold, fair and cloudy, and at night it was rainy.

City tax collector Fulcher publishes a long list of delinquents in today's issue. Those who are interested had better examine and attend to it at once.

A gentleman gives an interesting communication on the partridge in this issue. We think he is right. No more quail until we have better authority for it.

Carteret Superior Court convenes tomorrow, Judge Shepard presiding. We presume Craven will be well represented as the case of Hancock vs. Hubbs for the office of Register of Deeds of Craven county is to come up for trial.

The semi-annual meeting of the Ladies Memorial Association will be held on Tuesday, March 20th at 12 m., at the residence of Mrs. Vass. It is hoped that all the members of the association will be present, as arrangements will be made for the annual celebration of the 10th of May.

Hotel Albert made an extra effort during the Fair to accommodate the large number of guests that stopped there. A large number of coats had been previously secured and with the perfect system of steam-heating the building was kept to a pleasant temperature throughout though it was a cool spell at the time. Many flattering remarks were heard of the elegance, beauty and many conveniences of the Albert.

Dwelling Burned.
The house of Wm. Bryant living on Bryant Pettipfer's place one and a half miles above Pettipfer's ferry was burned on Wednesday last. Most of the furniture was saved. Fire was accidental.

Drowned.
Last Friday while the steamer Outer of the N. & T. R. Steamboat Co. was coming down Contineas creek about one and a half miles above Fountain Hill, a deck hand by the name of Fred Brown, col., lost his balance and fell overboard and was drowned. All efforts to rescue him failed. His body has not yet been recovered.

Not Satisfied.
Mr. E. E. Woolard, of Washington, is not satisfied with the decision of the judges in the pigeon shooting. He claims that he killed ten birds at ten shots, and the judges did not do the right thing in ruling him out. He now offers to challenge any man in the Craven county Gun Club for a shoot for ten dollars, one shot at each bird.

Winberry Oysters.
Geo. W. Winberry of Onslow county had an exhibition at the Fair a jar of pickled oysters which was ordered to be turned over to the JOURNAL after being exhibited. Mr. Winberry made a mistake. He ought to have sent instructions for the committee of awards to open the jar and test their quality. If they had been done Mr. Winberry would have carried off a special premium, for we have substantial proof that nothing better was exhibited.

Omissions.

Our sins of omission in regard to the articles on exhibit at the Fair are numerous and continue to multiply. This, perhaps, is because of our assistant reporter having to retire from the field on the second day of the Fair and has not been able to be out since, and it was too big a thing for one reporter to undertake to write up.

In the poultry department a pair of bronzed turkeys, the finest pair, by far, on exhibition, by Willett & Dunn, was omitted, and there were white Leghorns by H. D. Wood & Bro. which attracted considerable attention; Plymouth rocks by C. M. Nelson; Wyandots by Mrs. H. R. Bryan; Peafowls by Col. J. N. Whitford; and a fine Cochon cock by Joe McSorley.

Another curiosity which attracted considerable attention was a small pair of pants sent by Geo. T. Sanford of Greene county. They measured fifty-six inches in the waist and were long in proportion. They were too small for the man they were made for and were offered at the Fair as a premium to the man who would come the nearest fitting them. They were not awarded to anybody, but a gentleman from near Richlands only lacked a few inches of taking them. We suggest to Capt. Sanford to grow large enough to fill them and come down to the next Fair; he would make a splendid exhibit for a side show.

At the next Fair we intend to have a reporter for every department and get rid of the trouble of making corrections.

Premiums.

We have had several inquiries about when the premium awards will be published. We can only answer that they will be published as soon as furnished. We don't know the committees of awards, or we would go to the chairman of each and get his report. Send in the reports and let the people know who got premiums. The Association has the money on hand to pay all the premiums offered, but the people want to know who got them. The committee of awards will please send in the information and let the people have it.

Commissioners' Proceedings.

We publish elsewhere the proceedings of the county commissioners at a meeting held on the 15th. It seems from the reading of these proceedings that ex-treasurer Kilburn is still trying to hold the fort. If we understand the matter, he is not county treasurer, because he failed, in the judgment of the county commissioners, to offer a good and sufficient bond. Surely he will not undertake to hold the books of the county treasurer, knowing that he is not the treasurer.

Flower-Thieves.

EDITOR JOURNAL:—Permit me through your columns to call attention of those in authority to frequent thefts of flowers that have of late been committed at Cedar Grove Cemetery. Many of the choicest bulbs—principally handsome double hyacinths—planted in lots and enclosures for ornament, have been cut and carried off, and the petty pilfering has extended even to the robbing of the floral decorations placed upon graves.

It is hoped that a stop will be put to these practices, and those who are engaged in them, if they can be detected, made to pay the penalty.

County Commissioners' Proceedings.

The Board assembled at the court house on Wednesday, March 15, at 11 o'clock. Present: Jas. A. Bryan, Thos. H. Mallison, S. W. Latham and W. G. Brinson.

M. W. Carman, Esq., one of the supervisors of roads and bridges of No. 9 township, reported to the Board that the bridge across Batchelor creek, on Washington road is in a very bad condition, and recommended the immediate repair of the same. The matter was referred to Commissioner W. G. Brinson with power to act.

Isom Albriston, col., of No. 7 township, was relieved from payment of poll tax charged against him for the year 1887, he being over fifty years old.

The committee appointed to examine the books and accounts of the county treasurer, submitted to the Board the following report:

To the Board of Commissioners of Craven county:

Gentlemen—In compliance with your resolution of March 6, instructing the committee appointed for that purpose to examine the books of the county treasurer and report to your Board at an adjourned meeting to be held to-day all moneys received and which ought to have been received by said treasurer from all sources, respectfully submit, that they have examined the books and the accounts of said treasurer and are unable to make the report as contemplated in your resolution. The treasurer states to your committee that his books do not show what money he ought to have received, and that he has no means of making up a correct statement of the same, as ex-treasurer D. N. Kilburn has refused to account with him and to turn over to him the books of the office; that he is informed and believes that ex-treasurer D. N. Kilburn has in his possession moneys belonging to Craven county; that he has made a demand on said ex-treasurer Kilburn to turn over to him all books, papers and other property in his hands belonging to the county, and that he positively refuses to do so; that an examination of said books in the hands of said ex-treasurer Kilburn is necessary to furnish the information called for by your resolution, and that he cannot make a statement without it. All of which is respectfully submitted.

JAMES A. BRYAN, Chairman of Committee.

March 15, 1888.

Whereas, The committee to examine the books and accounts of the treasurer has reported that it is unable to discharge its duty in consequence of ex-treasurer Kilburn refusing to turn over the books of the office. It is therefore ordered that the chairman of the Board issue a subpoena according to law to compel the attendance of D. N. Kilburn before the Board on the first Monday in April next, being the second day of said month, and to produce then and there all books and papers relating to the affairs of the county, especially the treasurer's office, for the purpose of examination.

Board adjourned to first Monday in April.

Southern Antidote for Malaria.

It is generally known that Simmons' Liver Regulator is relied upon to secure immunity from all malarial disorders. This is proven by its popularity, and any one who has lived in the South has seen its curative effects and the protection it gives against the weakening and dangerous malarial, it acts more promptly than calomel or quinine, without any of their injurious consequences.

Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Malaria. Twenty-five cents a bottle. [Jan 18/88.]

THE LATEST NEWS.

Condensed from our Exchanges.

The Wilson Mirror will soon begin its seventh year.

In a quarter of a century fourteen theatres, museums and circuses have been destroyed in New York city alone.

Raleigh Advocate: Dr. Eugene Grissom has consented at an early day to deliver an address before the Y. M. C. A. of this city.

Hickory Press: It may be interesting as well as surprising to know the amount of hen fruit that has been shipped from Hickory to Northern markets since the first of January, and to say that half a million eggs had been shipped seems incredible, but such is the case.

Asheville Citizen: A party convicted of carrying concealed weapons in the Mayor's court yesterday afternoon was fined \$12.50.—An old gentleman told us yesterday that on April 18th, 1859 a snow fell in this county that lasted two weeks. The depth of the snow in places, was nine inches.

Washington Gazette: Our people are getting up a petition asking Major Latham's efforts in securing a public building here.—We are pleased to note that the Association of ex-Confederates of this county have invited Hon. Daniel G. Fowle to deliver the address at the unveiling of the monument on Memorial Day.

The Wilmington Star says Electric lights were placed in the Pearson Tabernacle yesterday.—A force of hands are at work in the vicinity of Scott's Hill, Pender county, grading the Wilmington, Onslow & East Carolina Railroad. The number employed is yet small, but the force is being continually augmented, so that it seems that the people of Pender county are determined that, if the road is not built speedily, it shall be through no fault of theirs.

The German citizens of Wilmington engaged in Memorial services in honor of the dead Emperor. The Star says: "The largest crowd that ever assembled in the Opera House in this city gathered last night to witness the memorial exercises in honor of the late Emperor William of Germany. People began to arrive an hour before the opening of the exercises and by 7:30 p. m. a continuous stream was pouring into the opera house, which soon filled it to its utmost capacity, so that standing room was not obtainable, and many had to return."

Partridges vs. Quail.

In late years it has become quite common among us of this part of the South to call our plucky little game bird, "Bob White," a quail, as he is almost without exception styled in the Northern States. Formerly he was known to us, as elsewhere in the South, as a partridge, and there is excellent authority for saying that he is properly a partridge.

In an article entitled "Bob White, the Game Bird of America," published some years ago in what was then Scribner's Magazine, the author, Alfred M. Mayer, good authority on such matters, says of this bird:

"In fact he is neither quail nor partridge; but to our mind he seems more akin to the latter than to the former of his European cousins."

The article treats of the subject at considerable length, and it has been republished by the Century Company in a very interesting volume called "Sport with Rod and Gun."

The eminent ornithologist, Dr. Cones, classes Bob White among the partridges and enumerates their distinguishing features:

"Our partridges may be distinguished among American Gallinæ," etc., and adds: "In habits they agree more or less completely with the well known Bob White," and describes how.

Quite pertinently Mr. Mayer says:

"If, however, many of our friends shall persist—as they certainly will—in calling Bob White a quail, then they should call a brood of these birds a brood, while a covey should designate the brood; if they call him a Virginia partridge,"

IN BRIEF, AND TO THE POINT.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

The Dead Emperor.

BREKIN, March 15.—Paul Lendau, the famous critic, thus describes the appearance of the dead Emperor: "At first sight the face, with its closed eye lids, produces a sad and pathetic impression. There is nothing awe-inspiring, yet there is something strange in its appearance. The upper lip is deeply depressed, sunk back as it were into the mouth, and despite the mouche which is much deeper than the under lip which, retaining its original position, makes the effect unnatural. The lower part of the face, especially the mouth, is cruelly disfigured by death. If however, we cover the mouth and contemplate the upper part of the face, the strangeness vanishes, and we recognize easily and with deep emotion our beloved departed Emperor. The whole makes a grand and sublime impression. It is death but not clothed with the terrors or horrors of death. It is lovely peace, such as the weary pilgrim yearns for."

President National Bank.

McMinnville, Tenn., writes: In my opinion from experience in my wife's case, your Lemon Elixir has few if any equals, and no superior in medicine for the regulation of the liver, stomach and bowels. Your Lemon Hot Drops are superior to any medicine we have ever been able to get for my wife's throat and lung disease. I feel certain and so does she, that your Lemon Elixir and Lemon Hot Drops have been the means of greatly prolonging her life. We have not the least idea that she would now be living only for these remedies. Had she only used these remedies sooner she would long since in my opinion, have been well and been saved the great suffering she has undergone. Truly, W. H. MOZLEY, To Dr. H. Mozley, Atlanta, Ga.

From a Prominent Lady.

I have not been able in two years to walk or stand without suffering great pain. Since taking Dr. Mozley's Lemon Elixir I can walk half a mile without suffering the least inconvenience.

Mrs. R. H. BROADWORTH, Griffin, Ga.

Lemon Hot Drops.

I had for several years a severe ulcerated sore throat, causing much pain and uneasiness, as there was considerable hemorrhage when coughing. I bought one bottle of Dr. Mozley's Lemon Hot Drops. It gave me almost immediate relief, have used it only twenty-four hours, and my throat and cough is almost entirely well. It is certainly an efficient and speedy remedy.
