

IF PUBLISHED, ANNOUNCEMENT.

THE DAILY JOURNAL is a six column paper, published daily, except Monday at \$1.00 per year, \$1.50 for six months. Delivered to city subscribers at 50 cents per month.

ADVERTISING RATES (DAILY)—One inch one day \$1.00; 50c for each subsequent day.

Advertisements under head of "Business Items" 10 cents per line for first and 5 cents for every subsequent insertion.

No advertisements will be inserted between the hours of 10 o'clock and 12 o'clock.

Advertisements for marriages and deaths not to exceed one line. All additional matter will be charged 5 cents per line.

Payment for transient advertisements must be made in advance. Regular advertisements will be collected promptly at the end of each month.

Communications containing news of a local character or of matters are solicited. No communication must be expected to be published that contains objectionable personal attacks or will make more than one column of its length.

Any person feeling aggrieved at any notice or advertisement can obtain the name of the author by application at this office and receive it without the expense of a suit.

THE JOURNAL.

Editor: S. S. WOOD. Business Manager: S. H. HARRIS.

NEW BERNE, N. C., MAY 11, 1888.

Entered at the Post Office at New Berne, N. C., as second-class matter.

LIVINGSTONE COLLEGE.

We copy a few extracts from the report of Prof. J. C. Price, President of Livingstone College, which is the leading institution of the A. M. E. Zion church, made to the general conference now in session in this city.

One of the most commendable features of this institution is the industrial department which shows that the colored people of this connection are keeping abreast of the times in their educational work.

SCOPE OF WORK OF THE COLLEGE.

Four courses of study are provided, viz: grammar school, normal, classical and theological. We have recently introduced the industrial department on a large scale.

Hence the special building for this work. Young men are instructed in the use of tools and already many of them do creditable work.

In the carpenter and cabinet shop and in the printing office, they are kept at work every week. No work, however, interferes with the regular literary instructions.

Under J. C. Daney, editor and manager of the Star of Zion, forty four young men have been taught printing and office work. Some of these, four at least, are prepared to take charge of a printing office, and twenty are ready to do set type with facility.

In the carpenter shop, young men are taught to make tables, washstands and bedsteads and to do other wood work. They are now being instructed in framing and building model houses.

A visit to our industrial hall will give more satisfactory evidence of our work in this direction.

The shoe shop and tailoring room will be put in full operation this fall. All of the tools for the several branches have been provided, but instructors have not been secured for shoe making and tailoring because of the lack of an adequate appropriation.

The young ladies have also had instruction in cooking, plain and fancy needle work and in dress making, cutting and fitting. A model home is needed for more careful training in the duties of a well regulated household.

A room in Stantord Seminary is now used as a sewing department, where we have a few machines at work. We are now in need of a greater number of machines.

STUDENT EXPENSES.

Board, washing, tuition, room and fuel are only six dollars per month. Minister's children are five dollars per month. This covers the entire expenses excepting music which is \$2.50 per month extra including the use of instrument.

ATTENDANCE.

The attendance during the four years has been as follows:

1884-'85, 160—classical department 17, normal 41, preparatory 102.

1885-'86, 133,—classical 17, normal 44, preparatory 72.

1886-'87, 153—classical 3, classical 17, normal 45, preparatory 88.

1887-'88, 210—classical 3, classical 33.

The present attendance is nearly 40 per cent in advance of last year. In the 310 students for 1887-'88, 75 different towns and cities are represented and twelve States and territories, including Nova Scotia and the District of Columbia, as follows:

North Carolina, South Carolina, Kentucky, District of Columbia, Virginia, Mississippi, Florida, Alabama, Rhode Island, Massachusetts, Pennsylvania and Nova Scotia.

TOTAL RECEIPTS AND EXPENDITURES.

Receipts from Children's Day collections, \$ 8,334.07

Receipts from building fund, 17,284.35

Total receipts from general fund (on salaries), 15,549.76

Balance due from general fund

appropriations, 8,157.24
Receipts from State fund, industrial department, 1,700.00
Total receipts from all sources, including loans, 23,404.47
Total expenditures, 48,283.96
Balance on hand, May 7th, '88, 124.11

The sum of \$8,157.24 yet due the college for the last four years is an indication that the professors are fellow sufferers with the Bishops so far as the partial payment of salary is concerned.

None of the professors have received full salary. At times, they have been one half and two-thirds salary. In fact, even if the six thousand dollar appropriation was paid up in full, it is not sufficient to meet the most economic demands of the institution.

Permission to use a part of the money for the industrial department was the only way by which we were enabled to keep the teaching force in sufficient condition.

THE DOCTORS.

THIRTY-FIFTH ANNUAL CONVENTION OF THE NORTH CAROLINA STATE MEDICAL SOCIETY.

FAYETTEVILLE, N. C., May 8.—The thirty-fifth annual meeting of the Medical Society of North Carolina opened here today with a very appropriate prayer by Rev. J. H. Wheeler, a very cordial address of welcome by Hon. G. M. Rose of this city, and a response by Dr. R. H. Lewis, of Raleigh, N. C. This was followed by the usual order of business.

At the afternoon session a very interesting report of the section on surgery was made by P. B. Baringer, M. D., of Davidson College, N. C. The Society was then highly entertained by an address by the President, T. D. Haigh, M. D., of this city.

At the evening session the annual essay was read by W. C. Galboway, M. D., of Snow Hill, N. C., and a lecture was delivered by W. C. McPhail, M. D., of Fayetteville, N. C., on the subject of Dietsies on Health.

A FURTHER ACCOUNT.

During the morning session several very interesting papers were read. Dr. Herring of Wilson, reported a case of malaria in which the temperature had ranged for several weeks from 94 to 111 degrees and "busted" several thermometers. This is the most remarkable case of hyperpyrexia on record, but he was strongly corroborated. He had given 5,000 grains of quinine.

The President's (Dr. Haigh's) address this afternoon was a most masterly effort.

Several physicians are present from New York and Baltimore.

There are forty applicants before the examining board; one lady, the second ever before the board, has passed. There are also four colored doctors to appear before the board.

Fayetteville is doing the hospital on a grand scale—News & Observer.

Are They Wise?

We have always been a friend of temperance, and however we may differ from temperance organizations as to the means of promoting temperance, we regard intemperance as the great curse of man, and we respect any persons who are striving by any means to advance the cause of temperance among men, and therefore it is that we deprecate the course of some of the friends of temperance in dragging the temperance cause into the dusty arena of politics. Many friends who advise the making of temperance a political issue are doubtless impelled by the most sincere and honest convictions, but their zeal outstrips their wisdom. They are wise without knowledge. The cause of temperance reform is too pure and clean to have its garments dragged in the foul pool of politics. Temperance in politics is like a woman in the athletic prize ring, with bared arms and shoulders. It is an unnatural and revolting combination, the result of which will be the destruction of the agency of temperance that courts or permits the unholy alliance.—Economist.

Just What It Seems to be Doing.

Knowledge for knowledge's sake is worth having, and the mere fact of knowing how cold it was yesterday is something worth having and knowing. To know how cold it will be tomorrow would be more valuable; but that can only be guessed at, and the signal service, which is on salary anyway, might as well do the guessing.

ELECTRIC BITTERS.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50c, and \$1.00 per bottle at R. N. Duffy's drug store.

A Submerged Forest.

During the late violent storms in the channel the sea washed through a high and hard sand bank near the Isle of St. Malo, France, nearly four meters thick, laying bare a portion of an ancient forest which was already passing into the condition of coal. This forest at the beginning of our era covered an extensive tract of the coast; but with the sinking of the land it became submerged and covered up by the drifting sand. Mount Saint Michel once stood in the middle of it. The forest had quite disappeared by the middle of the tenth century. Occasionally, at very low tides after storms, remains of it are disclosed, just as at present. It is believed that some centuries ago the highest tides rose about 12 meters above the level of the lowest ebb. Now the high water level is 155 meters above the lowest.

From Rev. John Matthews, Pastor M. E. Church, South, at Montgomery, Ala.

"Darby's Prophylactic Fluid is the only medicine kept in my family. We can use it for almost everything—burns, bruises, cuts, stings, carache, toothache, sour stomach, etc. My children, when hurt or bruised, always call at once for Darby's Fluid. We cannot get along well without it. It is so valuable for its prompt relief of pain from all kinds of injuries, and also is a powerful Antiseptic and Disinfectant."

A Heroic Woman.

There has been a fine example of woman's heroism this season in the town of Caribou. The heroine deserves Howells's title, "The Lady of the Aroostook," with all the nobility expressed in that much-abused word. C. D. King and his wife live in the deep solitude of the forest, thirteen miles from any town, with their nearest neighbor eight miles away. Mr. King cut his foot badly recently, and the following day his need of medical aid was so pressing that his wife started for Caribou. Equipped with a pair of snow shoes, in case the crust should fail, and hauling her child on a sled, she walked the entire thirteen miles, six being through a pathless forest. She seemed none the worse for her long walk, and the necessary aid was at once sent to her husband.

Distinguished Men.

Governor John Ireland, of Texas. Simon P. Hughes, of Arkansas. S. D. McEnery, Governor of Louisiana. E. B. Turner, Judge U. S. Court; Ex-Gov. Hubbard, Minister to Japan; Marion Martin, ex-Lieut. Governor of Texas. W. R. Miller, ex-Governor of Arkansas. E. A. Perry, Governor of Florida. W. D. Bloxham, ex-Governor of Florida. John B. Gordon, Governor of Georgia. Alex. Gregg, Bishop of the Episcopal Church and Chancellor of the University of the South, and hundreds of other distinguished men of the United States in all professions and in every department of science have had their right restored by the use of Hawkes's Crystalized Lenses.

All eyes fitted and fit guaranteed by F. S. Duffy, New Berne, N. C. 473nd

ITS USE FOR KIDNEYS.

JENNY, GA., May 26, 1887. I have been suffering from kidney disease for a month past, and the pain in my back was very severe. My occupation requires a good deal of writing at night and I suffered all the time. I saw one man who said he was cured by using Botanic Blood Balm (H. H. & I) and I commenced using it, and the pain is a great deal less. I have only used two bottles and believe it will effect a cure by the use of a few more bottles. Yours respectfully, J. E. COLEMAN.

Pure Blood is of Priceless Value.

The Blood Balm Co., Atlanta, Ga. My Dear Sir—I have, for some time past, used H. H. & I as purifier of the blood and to build up the system generally, and consider it without exception the finest remedy of the kind in the market. Yours with best wishes, A. H. LEWIS, Editor Southern Society.
