With the November, 1887, issue The Century commences its thirtyfifth volume with a regular circulation of almost 250,000. The war Papers and the Life of Lincoln increased its monthly edition by 100,-000. The latter history having recounted the events of Lincoln's early years, and given the necessary survey of the political condition o, the country, reaches a new period. with which his secretaries were most immediately acquainted Under the captain

### Lincoln in the War

the writers now enter on the more important part of their narrative, viz.: the early years of the War and President Lincoln's part therein.

Supplementary War Papers,

ollowing the "battle series" by distinguished generals, will describe interesting features of army life, tunneling from Libby, narratives of personal adventure, etc. General Sherman will write on 'The Grand Strategy of the War."

### Kennan on Siberia.

Except the Life of Lincoln and the War Articles, no more important series has ever been undertaken by The Century than this of Mr. Kenan's. With the previous preparation of four years' travel and study in Russia and Siberia, the author undertook a journey of 15,-000 miles for the special investigation here required. An introduction from the Russian Minister of the Interior admitted him to the principal mines and prisons, where he became acquainted with some three hundred State exiles,-Liberals, Nibilists, and others,—and the series will be a startling as well as accurate revelation of the exile system. The many illustrations by April, the steamer Howard will run the artist and photographer, Mr. George A. Frost, who accompanied the author, will add greatly to the value of the articles.
