CANCER.

CANCER CURED-DEAD.

Dear Madam - Most giadly do I give you ny name to place before the public bearing testimony of the miraculous cure effected on me by your most valuable testimony. Fifteen years ago I was troubled by what seemed to be liftle scales appearing on the right side of my cheek under the eye resemling dry meal bran, which I could remove when I shaved, but they would return again in a short time. Soon an enlargement appeared under the same eye, attended with tching and burning sensations and sharp, darting pains from the affected place to the eye, causing great difficulty in closing the ye, even to sleep. Sometimes it would feel better, but never at any time disappear, Some physicians pronounced it eczems, others chronic erysipelas, and all advised me to let it alone. This I did until two years ago, when a little scale began to form right inder the eye, resembling a wart, which ould not remove, in size and appearance it soon grew to be as large as a strawberry, and the scabs came off and left the place entirely raw. Having fear of a cancer, I began to use various kinds of salves to healit up, but never could. I consulted with physicians of great experience, they said it looked sucpicious of it, and advised me to have it cut or burnt out at once. I did not wish to do either; and being persuaded it was in my blood, I resolved to try your Remedy, as it had been recommended to me. I did so with the most happy results. I can say I am a well man. I cannot say too much for your Remedy, it is worth its weight in old. Before I had used one bottle I was hopeful, and at the expiration of five weeks the sore was entirely healed, the scales or roughness of
