CHICAGO, July 26 .- It is stated today that since the arrest of Hronek, the chief would-be assassin of Gary, Grinnell and Bonfield, the police have made an important discovery by working upon the fears of Hronek. Surprising-ly little dynamite was found at Hronek's ouse at the time of his arrest, the bulk of the contraband goods consisting of bombs in various stages of comple tion. The police, however, were con-vinced that he had access to plenty of dynamite, and when the subject was dynamite, and when the subject was properly presented to Mrs. Hronek she led the way to the basement of the building, in which Sebio's shop is, and to the delight of the officers, who allowed her to do the searching, returned to the open air with a market basket full of half-pound sticks of the stuff. There were fully ten pounds of it, enough to have blown the whole neighborhood skyward. It is said the testimony before the grand jury shows that Sebic, as well as Hrodek, know where the dynamite was concealed.

Colonel Moore is the sole owner of a pair weighing 330 pounds, which he would not sell for \$100. These large clam shells came from the Mediterranean sea and there are some in Italy which weigh 700 pounds. Most of thes shells have a blemish, but in a public museum, where they are not handled, the blemish may not be seen.

In a private collection it is desirable to have perfect shells. Col. Moore's \$100 shells pre perfect and the finest in the United States. There are parts of the meat of these big clams which are good food. Col. Moore has seen a clam steak six inches wide and a foot long. In his collection are clam shells so small that ten pairs would not weigh an ounce. To outweigh the high pair would require more than 10,000 of the small ones .- News and Observer.

Fifpen years ago I was fronted by what seemed forty little scales appearing on the right side of my once a mader the eye resemmashort time, woon an entargement appeared under the same eye, attended with tehing and harming sensations and sharp, darting pains from the affected place to the eye, causing great difficulty to closing the better, but never at any time disappear. Some physiciaus pronogneed it eczema, others chromicer, sipelar, and all advised me to let it alone. Thus I did until two years ago, when a little scale began to form right under the eye, resembling a wait, which sould not remove, in size and appearance it soon grew to be as farge as a strawberry, and the scale came off and left the place entirely raw Having fear of a cancer, I began to use various kinds of salves to health up, but never could I consulted with physicians of great experience, they said it looked susdcious of it, and adv sed me to have it cut or burnt out at once if did not wish to do either, and being persuaded it was in my blood, I resolved to try your itsmedy, as it and been recommended to me. I did so with the most imppy results. I can say I am a well man. I cannot say too much for your Remedy, it is worth its weight in old. Before I had used one bottle I was hopeful, and at the expiration of five weeks the sore was entirely healed, the scales or roughness of the skin all gone, and left me a new man. I will give one similarly affected any further nformation they may desire, and can only say, if the public will give your Remedy a trial it will speak for itself, and your success will know no bounds.
