Two of the Chicago dynamites have been surrendered by their bondsmen.

THERE seems to be a small amount of ku-kluxing going on in Ireland. Two farmers were shot by disguised men on the 29th.

THE House Committee on Banking and Currency have ordered a favorable report on Senate bill to reimburse depositors of the Freedman's Bank.

GOVERNOR Scales has reappointed the present directors on the part of the A. & N. C. R. T. B. Womack, Esq., of Chatham, is reappointed State proxy.

IN the House on Saturday the Senate bill for the erection of a public building at Charlotte, N. C., was passed, with an amendment reducing the cost from \$175,000 to \$85,000.

COLONEL PRICE, chairman of the National Democratic Campaign Committee, is greatly encouraged by reports from the West. He says that the chances of Democratic success in Michigan are very good.

SCOTT PARTIN has been set scott free. After a thorough investigation by Solicitor Argo it is found that the Raleigh prisoner is not Partin. What will will be the next sensation at the Capitol?

BLOODY tales come from Kansas. A sheriff and posse were killed while trying to arrest the warring citizens of two neighboring towns and war seems to be imminent. It bids fair to be bleeding Kansas again.

THE present session of Congress is likely to be one of the long sessions. If the Senate reports and discusses a tariff bill they will likely go into September and then adjourn without stopping the collection of a surplus.

THURMAN has renewed his youth and girded his loins for the battle. He has accepted the invitation of Michigan Democrats to visit their State, and will open the campaign at Port Herring. After a short canvass in the West he will speak in New York and Connecticut.

A SECOND Daniel is about to come to judgment. It seems that Mr. Brower, the Republican candidate for Congress in the fifth district and the present member, has thrown fat in the fire by his vote on the Mills bill. It was undoubtedly the most sensible vote that he has cast during the session.

LOCAL NEWS.

Sheriff Simson wants Schedule B tickets. See notice.

Major Dennison is overhauling his extensive gin works and getting ready for the cotton season.

Remember the meeting of the Fair Association tonight at the Y. M. C. A. rooms at 9:30 o'clock.

We were in error as to the time of meeting of the board of appraisers of the A. & N. C. R. Next Tuesday was the time set instead of yesterday.

We learn that there is a good company of visitors now at Round Knob. In addition to the finest scenery in Western North Carolina, a number of excellent mineral springs have been discovered, which will greatly add to the attractions of that delightful place.

Mr. O. Marks has bought out the large stock of dry goods kept by M. Prag, next door to the former postoffice. It was a quick sale, but judging from the broad smiles on the purchaser's countenance after examining the stock there must be large profits in it or he will sell it mighty cheap.

Steamer Movements.

The Eglet of the E. C. D. line will sail at four o'clock this afternoon. The vesper of this line will arrive tomorrow morning.

Base Ball.

A match game of base ball was played at the Academy Green yesterday about four o'clock between the uptown and downtown boys. The result of the game was 21 to 17 in favor of the uptown boys. This is the second victory for the uptown boys.

The Speech Last Night.

C. N. Grandison, the colored prohibition orator, spoke last night at the court house to an audience of about one hundred and about equally divided between whites and blacks. He is a good speaker and made a strong speech for his party. We are unable to say whether or not he made any converts.

Changing the Custom.

Our people have so long been in the habit of shipping raw material and receiving manufactured goods that to see a finished article sent out is quite a novelty. Our marble man, Joe K. Willis is reversing the thing. Many times we have seen dressed marble on our wharves from his yard waiting for steamer to some neighboring town or landing. Yesterday the steamer Newberne of the O. D. line took out two pieces of hand-somely dressed marble from his yard on her trip to Norfolk. The excellence of his work and the reasonableness of his prices will tell every where.

Personal.

R. B. Lehman, Esq. and Mrs. Lehman left on the steamer Newberne yesterday for Norfolk on their way to Tacoma, Washington Territory, their future home. Their many friends in this city part with them with sincere regret, and wish them abundant success and happiness in their future distant home. Mr. Lehman is a lawyer by profession, an accomplished scholar, a true man and a christian gentleman. We commend him and Mrs. Lehman to the people of Tacoma who have gained by New Berne's loss.

Messrs. W. T. Cabo and Chas. H. Fowler of Pamlico went to Morehead City last night.

Geo. H. Brown, jr., Esq., of Washington arrived yesterday and left for Morehead City last night.

Mr. J. S. Moreton of Harlowe called to see us yesterday. He reports work on the canal progressing slowly.

An Opinion of the Press.

From reading the accounts of the Press Convention in the different papers throughout the State we have been rather forcibly reminded how many of them touched on the same subject when referring to the beauty and gaiety at the Atlantic Hotel. They speak of the scantiness of dress with some of the more fashionable young ladies as being rather immodest and hardly becoming. We do not propose to lay down a law for our own true Southern girls, but would like to ask them this question: If it is not a little inconsistent for them to so attire themselves when it falls to please the male sex? To do this, they are no doubt endeavoring, and it is their duty, but the question is, are they succeeding? Certainly not entirely if the editors of these papers are to be counted, and they are not all "sour grapes" bachelors either. Some of them are young, unmarried, and handsome too.

Building and Loan Association.

The eleventh payment on shares is now due and will be received today at the National Bank.

HURRAH FOR THE BOYS.

THE JOURNAL offered a wager that the team sent to the shooting tournament by the Craven County Gun Club would hold their own against the field. The following telegram shows that we are correct so far. The tournament will continue for several days:

ATLANTIC HOTEL, July 31.

H. S. NUNN—The maiden prize was won by Wm. Ellis. Lucky man. JNO. DURM.

The Atlantic & North Carolina Railroad.

Next Thursday is the day prescribed by the by-laws of the A. & N. C. R. for the 24th annual meeting of the stockholders which will be held at Morehead City.

We have not seen the President's report but presume it will show an increase of freights and passenger traffic, and notwithstanding the low rates obtained for its through freights, will show a healthy increase in receipts. The judicious expenditure of the one hundred thousand dollars recently borrowed and the earnings of the road, has put it in excellent condition and as soon as the section between Morehead City and New Berne is re-routed it will be in as good condition as any road in the South.

For almost a third of a century the people of Craven and adjoining counties have been burdened with taxes to pay for the construction of this road, which, but for the combination of other large and powerful corporations, would have been paying a dividend to its stockholders. There has been bickering and wrangling enough about the road, it is time to get down to business and endeavor to make it pay back some of the hard earned money paid by the counties that aided in its construction. The question of "ins and outs" pats and favorites should be ruled out and a sound business policy adhered to, without regard to threats or combinations of other corporations.

Good business men who understand the situation have known for years that the only hope of the A. & N. C. R., and the development of this section, is in its extension. It must look for new connections and a new outlet for the products of its territory that are now forced into other channels by unjust discriminations and combinations. Its salvation and prosperity and the development of a large Eastern section depends that it be extended to Charlotte via Sanford, connecting with the C. F. & Y. V. at the latter point and penetrating new and undeveloped territory in a chain of counties lying between Goldsboro and Charlotte. In a private letter recently received from a prominent citizen of Moore county, he, writing of this extension, says:

The great reason why I say the road should go to Charlotte is that it will open up the finest belt of pine timber (and oak too) along the northwestern side of Moore county and Montgomery county that I have ever seen anywhere; the finest I believe in the South. This would open up the very finest naval stores and lumber business and large local business for the road. And right here along your own independent line you would have a market for a large portion of the corn surplus of your Eastern counties which corn we cannot now touch on account of freight rates. On your map you will see the line of the R. & A. E. R. The proposed line would run on the opposite side of the county.

You have no conception of the amount of business done in lumber and naval stores along the line of the R. & A. E. R. It is the very finest the grocery merchants are able to find, for they produce nothing in the way of groceries and consume everything. There is very little farming done along the line of the R. & A. E. R. in the turpentine belt, but there is now a saw mill for every mile of road through the county. On the proposed line you would find finer timber and much finer farming lands after the timber is removed, in fact the very best farming lands in all this section, the greater portion of it, however, undeveloped.

Had this road been in private hands it would have been extended long ago and would have been paying a handsome dividend. When first got the road he met with the same difficulty in handling our Eastern corn that we now have. But he began an extension and by some means forced the associated railways into better terms and our docks were crowded with shippers and the wharves covered with corn. A large part of this trade has been driven from us and a good, honest Governor refuses to let us break the shackles that bind us and destroy our business. Will Fowle do likewise?

Materialization.

So absorbing is popular interest in spiritualistic manifestation that hundreds of sleight of hand performers have taken to the road in late years, and continue to humbug the people with their so-called mediumistic entertainments. Their deceptive methods disgust the thinking masses, also retard genuine study and research into the mysteries of real spiritual phenomena.

We have carefully examined the criticisms of the leading papers of the world on Mile. Steen, who is to appear at the New Berne Theatre Thursday and Friday, August 2d and 3d—not copies of the notices, but the original notices—and we are prepared to assert that it would be, absolutely impossible to secure such comments from such sources by the use of influence or money, and we must therefore conclude that what is said of Mile. Steen's performance is true. Now what do the unpurchasable critics say? To reprint all that has been said would fill every page of this journal for months to come, and we therefore give but a few expressions of leading and well known journals, that the reader may judge of how the Steens have been received elsewhere.

London Times—Incomprehensible. London Telegraph—Simply wonderful. St. Louis Globe-Democrat—Strange force power. Houston, Tex. Post—Almost miraculous. San Francisco Chronicle—The best exhibition of occult force of power we ever saw on any stage. Detroit Free Press—Miss Steen is the only medium who ever visited Detroit and gave perfect satisfaction. New York Herald—The most marvelous, thrilling and exciting entertainment ever introduced to the American public.

The above should be sufficient to satisfy all reasonable persons of the power possessed by Miss Steen and it should also provoke inquiry among the most skeptical.

Seats are now on sale at Bell's jewelry store.

THE CROPS AND WEATHER.

The North Carolina Weather Service, conducted by Prof. H. B. Battle, sends out the following report of the crops for the week ending Saturday, July 28th, as received from special correspondents.

EASTERN DISTRICT.

Beaufort, Carteret county—Fine rains throughout the county during the week, affecting all crops favorably. Elizabeth City, Pasquotank county.—The cool weather for the past week has had an unfavorable effect upon all crops, especially corn and cotton. Faison, Duplin county.—All crops suffering, especially corn and vegetables. Cotton is small and needs water. Goldsboro, Wayne county.—All crops suffering for want of rain. Cotton is not yet suffering seriously. Halifax, Halifax county.—Dry weather is damaging corn and has just commenced to injure the cotton. Hertford, Perquimans county.—Cotton and corn are looking better, plenty warm for corn, but not for cotton. Littleton, Halifax county.—No rain since 21st. Corn crop poor. Lumberton, Robeson county.—Some parts of the county have good crops, others very poor on account of drought. Lenoir, Lenoir county.—Fine rains, good warm weather, very beneficial to the growing crops. Rocky Mount, Nash county.—Corn needing rain badly. Cotton doing very well, but its growth is checked by cool weather. Scotland Neck, Halifax county.—The past week has been more like September than July. Cool nights and dry weather have affected all crops injuriously. Tarboro, Edgecombe county.—The absence of any marked fall of rain is being badly felt by all crops. Toisnot, Wilson county.—Cotton is looking well, but corn is a failure. Warsaw, Duplin county.—Crops are exceedingly sorry, especially corn. Need rain very much. Weldon, Halifax county.—The cool nights of the past week have had a bad effect on cotton. Williamston, Martin county.—The cotton and grain crops are suffering from want of rain and the cool weather.

CENTRAL DISTRICT.

Fayetteville, Cumberland county.—No rain since last report. Corn badly damaged. Gibson's Station, Richmond county.—Farmers say all crops are suffering. Corn of adjoining sections reported seriously injured. Haw River, Alamance county.—All crops suffering for want of rain, especially corn. Hillsboro, Orange county.—Corn crop seriously damaged. Tobacco promises a very poor crop. Monroe, Union county.—Crops generally favorably affected by the rains of the 29th and 30th. A small portion of the county still needs rain. Salem, Forsyth county.—Crops needing rain. Corn and tobacco on uplands injuriously affected. Wake Forest, Wake county.—Dry rain much needed. Corn and cotton beginning to need it much. Raleigh, Wake county.—The weather for the past week has been very unfavorable for cotton. Weed small and outlook poor. Warrenton, Warren county.—Needling rain now badly, especially tobacco, which will require the most favorable seasons to make a fair crop.

All the Way from Japan.

Mr. A. K. HAYES—Dear Sir: I am much pleased with the pantoscopic glasses you so perfectly adapted to my eyes; with them I am enabled to read, as in my youth, the finest print with the greatest ease. I cheerfully recommend them to the public. Respectfully,
E. B. HURBAIRD.

(Ex-Gov. of Texas) Minister to Japan. All eyes fitted and fit guaranteed by F. B. Duffy, New Berne, N. C., 1331m

STATE NEWS CONDENSED.

Salisbury Press: The Richmond and Danville are now giving Saturday night excursions to the mountains and the sea coast for the benefit of the visitors who can only be away a few days from their business.—The workmen while working on the waterworks Wednesday near the railroad found two bombs filled with powder, the fuse had rotted off up to the connection with the powder which was damp. Evidently the bombs had been left there during the war as they were very rusty.

Wilmington Star: The fireman's tournament is down for the 16th of August.—Tar has advanced to \$1.60 per barrel. At the same date last year it was quoted at \$1.50.—Spirits turpentine advanced half a cent yesterday, the market selling at 33 1/2 cents. At the same date last year the price was 28 1/2 cents.—The survey of the entire route of the Cape Fear and Yadkin Valley Railroad between Wilmington and Fayetteville was completed by Chief Engineer Roger P. Atkinson, last Friday, and the grading is now going on at both ends of the line.

Yayetteville Journal: Mrs. Geddie, wife of Mr. McD. Geddie, was fatally injured this morning, dying in a short while. While drawing a bucket of water she slipped and fell on her head, striking her squarely across the back.—The basin on the south side of Mr. McNeill's mill pond is being converted by the cyclone Boating Club into a neat park. It will, of course be small, but it will supply a want long felt in the community. It is being fenced in and trees will be planted and neat benches placed at intervals. We are told that fountains will also be placed therein.

Third City Daily: The publication of a Third Party paper will begin in Durham on the first of August.—At the expiration of his term Governor Scales will establish and conduct a National banking business in Greensboro. The governor seems bent on retiring from public life.—The iron industry in this State is developing. Five hundred men are digging ore in Polk county, and five hundred more are connected with it, yet not one hundredth part of the iron ore land in Polk county are actually occupied.

Republican Primary Meeting.

The Republicans of the fifth ward of New Berne, south side of Queen street, are requested to meet at McCarthy's cart house, at junction of Queen and Pollock streets, in New Berne, on Monday, Aug. 6th, 1888, at 12 o'clock, M.; for the purpose of electing three delegates and three alternates to represent said precinct in the Republican County Convention, to be held in New Berne on Thursday, August 9th, 1888.

SEE WHAT MRS. JOE PERSON'S REMEDY WILL DO FOR CANCER.

CANCER CURED—DEAD.

RESIDENCE N. C., May 2, 1887.

Dear Mr. Mason: Most kind and give me your name to place before the public bearing testimony of the miraculous cure effected on me by your most valuable Remedy. Fifteen years ago I was troubled by what seemed to me a little scab appearing on the right side of my cheek under the eye resembling dry scab, which I could not remove when it chafed, but it would return again in a short time. Soon an enlargement appeared under the same eye, attended with itching and burning sensations and sharp, darting pains from the affected place to the eye, causing great difficulty in closing the eye, even to sleep. Sometimes it would feel better, but never at any time disappear. Some physicians pronounced it eczema, others chronic erysipelas, and all advised me to let it alone. This I did until two years ago, when a little scab began to form again under the eye, resembling what, which could not remove, in size and appearance it soon grew to be as large as a straw berry, and the scabs came off and left the place entirely raw. Having fear of a cancer, began to use various kinds of salves to heal it up, but never could. I consulted with physicians of great experience, they said it looked suspicious of it, and advised me to have it cut or burnt out at once. I did not wish to do either, and being persuaded it was in my blood, resolved to try your Remedy, as it had been recommended to me. I did so with the most happy results. I can say I am a well man. I cannot say too much for your Remedy, it is worth its weight in gold. Before I had used one bottle I was hopeful, and at the expiration of five weeks the sore was entirely healed, the scales or roughness on the skin all gone, and left me a new man. I will give you similarly affected any further information they may desire, and can only say, if the public will give your Remedy a trial it will speak for itself, and your success will know no bounds. God speed the day that must dawn upon your future prosperity.

Yours most truly,
JAMES CARTER ARRINGTON.
