darting pains from the affected place to the eye, causing great difficulty in diosing the eye, even to sleep. Sometimes it would feel better, but never at any time disappear. Some physicians pronounced it. conor others chronic crysipelas, and all advised me to let it alone. This I did until two years ago, when a little scale began to form right under the eye, resembling a wart, which could not remove, in size and appearance it soon grew to be as large as a strawberry, and the scabs came off and left the place entirely raw. Having fear of a cancer, ibegan to use vations kinds of salves to heal it up, but never could. I consulted with physicians of great experience, they said it looked suspicious of it, and advised me to have it cut or burnt out at once. I did not wish to do either; and being persuaded it was in my blood, I resolved to try your Reniedy, as it had been recommended to me. I did so with the most happy results. I can say I am a well man. I cannot say too much for your Remedy, it is worth its weight in old. Before I had used one bottle I was hopeful, and at the expiration of five weeks the sore was entirely healed, the scales or roughness o the skin all gone, and left me a new man, 1 will give one similarly affected any further information they may desire, and can only say, if the public will give your Remedy a trial it will speak for itself, and your surge will know no bounds, God speed the day that must dawn upon your future prosperity?
