**CHOICE** Teas for making food Teas, Flavoring Extracts.

C. H. STOVER.

**GINSAWS** filed promptly and sale favorably by ang 3442-wlm A. R. DENHAM.

**YELLOW FEVER QUARANTINED.** Although poor old New Bern has received its share of trouble, she is still prepared to say there is not a more healthy town in the South. The present prevention of the physicians and city council, with the assistance of the proprietor of the Only Cash Store in North Carolina, at Humphrey & Howard's old stand in New Bern, there is no quarantine against high prices in a protection for all.

**HAY, BEAN, DOUCE, CORN AND OATS.** S. W. & E. W. SMALLWOOD'S.

**ON** draught, Bergner & Engel's celebrated Beer, ice cold, at J. H. HOLTON'S.

**SPECIAL NOTICE TO CONSUMERS.** Having put my delivery wagon on the street, I am now in a position to furnish all my customers with FIRST CLASS Groceries at a very notice and a very small profit. I defy competition, warrant my goods, and only ask a trial to convince the most doubtful. Now some of my friends say that my advertising and my wagon don't pay me (with my small profit), and that I will soon break. Let me be the best judge of that. I am still paying 100 cents on the dollar, my property is in my own name, and I am determined to sell good groceries cheap.

Very respectfully,  
THE GROCER, E. B. HACKBURN.

**PHIL'S BUTTER.** the best in the market, on ice at Dunn's, only 30 cents per lb.

**WHITE LEAD,** Mixed Paint, Varnish, Oil and Glass at GEO. ALLEN & CO.

**BOTTLED BEER,** ice cold, and all other cool drinks at J. H. HOLTON'S.

**USE PURE ICE,** manufactured by the Jarman Ice Factory. J. J. 294

**CALL** at the Broad St. Store where you can buy all kinds of Fresh Groceries low for cash only. G. F. M. DALL, Ag't.

**BLAME** and Blame are getting synonymous.

**STRIKE** while the iron is hot, and be sure you hit the iron.

**THURMAN** continues to make speeches that astonish the natives.

**SOME** of our friends are claiming North Carolina by 40,000 majority.

**WILMINGTON** is producing a good substitute for jute bagging made of pine straw.

**THE** assertion that cotton is not merchantable unless it is packed in jute bagging is not true.

**HON. SAMUEL J. RANDALL,** though not recovered from his severe illness, has commenced work for Cleveland and Thurman.

**JUDGING** from the men who have been nominated the next Legislature of North Carolina will be one of the ablest ever assembled in the State.

**THE** hope of the Republicans to carry North Carolina lies alone in the Prohibition party. Sad that so good a cause should threaten such dreadful evil. Fortunately it is only a threat.

**THE** Democracy of the Union regrets to learn that Hon. W. L. Booth declines to be a candidate for re-election to Congress. He is one of the best in the House. His health is the reason assigned for his declination.

**SINON** entering the field of periodical literature Belford's Magazine has fairly been deluged with novels, tales, essays, and poetry from the South. With all excellently original, it has been a task to elect the portion we could use.—Dom Platt.

**THE** man without a purpose is like a ship without a rudder—a wail, a nothing, a no man. Have a purpose in life if it is only to kill and divide and sell an oxen well, but have a purpose; and having it, throw each thought of mind and muscle into your work as God has given you.—Carline.

**THE** Breckinridges of the House are sometimes confounded. It is so much to say "Mrs. Breckinridge

of Kentucky," that injustice is done the "gentleman from Arkansas." The latter is the son of John C. Breckinridge, and to him we are indebted for the heavy cannonading the bagging trust has received.

**HON. O. A. BACON** of Georgia, has gone to Washington to assist Col. Brice in the management of the Democratic campaign. Col. Bacon has long been conspicuous in Georgia. In the last contest for the Democratic nomination for Governor in that State, he was defeated; but his friends say no one but Gordon could have beaten him.

**SCIENTISTS** are questioning the feasibility of enforcing the new State law inflicting the death penalty by electricity, which is to supersede hanging after January 1st. The courts imposing the sentence is to name merely the week within which execution is to take place, the day being left to the discretion of the principal officer of the prison. The condemned man will be seated in a chair, the sheriff's deputy will press an electric button, and all be over. The death is instantaneous. The body is not mutilated. It is a wild, weird way of dying, well calculated to inspire terror.—Belford's Magazine.

**Notice to Subscribers.** Our subscribers will please remember that the JOURNAL can always be gotten at reduced rates when paid for in advance. Many of our subscribers have taken advantage of these rates, because they not only pay out less money, but are also saved the annoyance of having our collector after them every month. We are glad to say that nearly all of our subscribers are prompt in their payments, but there are a few who are behind, and the work that is required to get them up, really costs more than their subscription is worth. If not paid up, after a few more notifications, we will be compelled to cease their names from our books.

**Gun Club Attention.** Regular monthly meeting of the Club will be held this evening at half past eight o'clock. Business of great importance is to be transacted. A full attendance is requested.

**Jacksonville Receives Advice.** From practical experience with yellow fever the city of New Orleans is entitled to respect and consideration in regard to the suppression of true statements about the epidemic in Jacksonville. We quote from the Times-Democrat:

"The Jacksonville health authorities now recognize the fact that they made a mistake, the other day, in suppressing the names of those taken sick of the fever there, and at once abandoned their position, at the demands of the press. In this day, people want the news and will not brook any action to suppress it. Those who try this always come out the losers by it. There is a disposition on the part of some railroads to try to hush up the news about a big accident on their line, but we have never known of their succeeding in this. All the facts come out in the end and the company gets a journalistic overhauling in addition."

No good will ever come from such a short-sighted policy. If any suppression of news is encouraged, or if cases are not reported, the result will be to create a lack of confidence in the Jacksonville authorities on the part of the neighboring towns and cities, so that when the fever is really ended there, they will still decline to believe its protestations.

Jacksonville will do well to read over again the warnings sent it from New Orleans and Memphis. Tell the whole truth, do not suppress a fact, give the fullest news to the world and invite general confidence. The moment you lose that, you will find rumors floating around ten times as bad as the truth, and the town will be still quarantined when it is wholly free from the fever."

This is equally true about correctly reporting any calamity where the public are entitled to it for their benefit and protection, and it is the duty of newspapers to give the facts.

**Yellow Fever.** JACKSONVILLE, Fla., Sept. 1.—The first of September was another prolific day in fever victims. For the third day in succession the new cases reported to the Board of Health have numbered 23. Quite a large proportion are colored people in Oakland—though the cases are well scattered through the city. Only two deaths occurred today—both employees of the postoffice—Captain W. J. Merritt, mail fumigator, who is claimed by his friends died from a hemorrhage caused by inhaling the fumes of sulphur through careless use, but his case is reported as yellow fever; and Mrs. Fannie L. Hopkins, stamp clerk in the post office. At the citizens meeting today a much better feeling prevailed, the assurance of opening a route to places offering refuge to our people who can leave has caused hundreds of faces to brighten and gave the hope of considerable reduction of population.

Persons of sound constitution, with few exceptions, recover speedily when treated in time by skilled physicians and carefully nursed. Fortunately there are many physicians and others here familiar with the disease.

Total number of cases reported to date 144; deaths 22; now under treatment 122.

WASHINGTON, D. C., Sept. 1.—Burgess General Hamilton has received a dispatch from Philadelphia informing him that a case of yellow fever has been discovered there, in the person of a Florida refugee who passed inspection at Way Cross, Ga. The patient was sent to the municipal hospital.

**BRACE UP.** You are feeling depressed, your appetite is poor, you are bothered with headache, you are edgy, nervous, and generally out of sorts, and want to brace up. Brakes up, but not with stimulants, spring, medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and then leave you in a worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Give a medicine you will find in Electric Bitters and only fifty cents a bottle at R. N. Duffy's drug store.

**Cotton Bagging.** The following statements were made before the Congressional Committee in regard to the cotton bagging question:

Jute bagging mills are located in Massachusetts, New Jersey, Indiana, Illinois, Missouri, South Carolina, New York and other States.

There are at present eight firms engaged in manufacturing bagging. Last year there were fifteen firms in the business.

The entire production in 1887 was about 43,000,000 yards. The prices of bagging at the mill were in 1877 to 1879, average 14¢ cents, 1880 11¢ cents, 1887 7½¢ cents.

The price of jute butts has been lower this season than at any time during the past ten years.

The prices paid by the Trust for bagging this year at the mills is 12¢ cents per yard, about 5 cents advance over last year. This witness said there were considerable quantities of bagging coming from Europe, but that the mills abroad could not furnish enough to prevent the sale of American bagging.

There are 34 bagging mills in Indiana with 8,337 looms, and which the witness said could produce ten times the amount of bagging needed for the United States.

The Trust has obtained control of two-thirds of the bagging for this year, and they paid the price which at present is three cents higher than foreign bagging can be delivered here, including the duty. For several years the price of bagging made in this country has been so low that it would not pay to import it. The witness thought that even if bagging was admitted free there would be corners made in it every other year.

The only remedy that seems to be open to the South is to establish bagging factories in the several States. New Bern can make all the bagging needed for this State and in doing so can give employment to a number of people who need the work.

Bagging should be made from some fibre that is grown in the Southern States, and it should all be woven in the South. Cannot the Board of Trade and Industries do something to aid the farmer for next season?

**Public Discussion of the Merits of the Candidates for Sheriff.** OAK GROVE SCHOOL HOUSE. Township 1, Aug. 31, 1888.

**EDITORS JOURNAL:**—We had quite a political stir in our quiet neighborhood last night. Mr. David Johnson, a Hahn man, challenged Mr. Charles Sutton to a joint discussion of the merits of the two candidates for sheriff of our county, Stinson and Hahn. They met last night at 7 o'clock, with a full house, and selected two men, H. B. and John Griffin, to preside over the meeting. After a few preliminary remarks from both sides, Mr. Johnson led off for Hahn by attacking Stinson's public and private record. He charged Stinson with neglect of duty in failing to execute legal documents placed in his hands for execution by the courts—cases, David Johnson, plaintiff, and Edward Hurt defendant. This is the only thing he charged against his official record. He also charged Stinson with wrong-doing in his private business by taking unfair advantage of the men who furnish logs for his mill. As for his candidate, Hahn, he had very little to say, only that he will be sure to be elected.

Mr. Sutton had nothing to say of Hahn's private record, but showed him up by figures from county records to be a defaulter in the settlement with the county every year from the time he entered office to the expiration of his official career. He also showed that Hahn after election, where he had expended large sums of money to secure his election, would collect out of tax-payers illegally (presumably) to reimburse him for election expenses.

Mr. Sutton held Stinson up as a model Sheriff—as good as the county has ever known. This he substantiated with figures from county records.

He claimed there can be no comparison between the two men for office, taking the records as a guide; and also claimed that no tax-payer or citizen who will take the trouble to inform himself could vote for Hahn unless he expects a consideration.

Mr. Sutton also claimed that Daniel Stinson, though a Northerner, has settled down with us, holds his property and pays taxes in the county, is an honest man, and is among the foremost in advocating good government and an economical management of the county affairs. This he has shown by his official acts, and more especially by advocating Coalition, by which the county may secure honest and intelligent representatives to our Legislature, and we feel sure that he will join us in sending the Hon. F. M. Simmons back to Congress, a true and real representative of the interests of the 3d district. A.

**STATE NEWS CONDENSED.** There are to be about 3,200 pensioners this year, or 200 more than last year, and they will not get over \$3 each. The number is getting in excess of the first estimate made, and increases every year.

Asheville Citizen: Owing to the continued illness of Col. Holt, Democratic candidate for Lieutenant-Governor, Hon. H. A. Gudgeon has been requested to represent him in a joint discussion with Mr. Pritchard, Republican candidate for the same position, throughout Western North Carolina.

Raleigh Chronicle: Hon. D. F. Caldwell, who has been nominated for the Senate by the Democrats of Guilford, is a notable figure in North Carolina politics. Mr. Caldwell was first in the Legislature in 1848 and was one of the leaders in the important Internal Improvement legislation of that day. He was always a man of inequality and courage. An able, patriotic, well-furnished publicist and Democrat of his experience will be valuable in the next Legislature.

Washington, N. C., July 20, 1886. It is with pleasure I add my grateful testimony to the hosts of witnesses who have attested the virtues of Mrs. Joe Person's great Remedy. After years of debility and suffering, it has proven to me the best of tonics and blood purifiers.
