O. H. Brought, Bergner & Engel's celebrated Beer, ice cold, at
A. H. HOLTON.
SPECIAL NOTICE TO CONSUMERS.—Having put my delivery wagon on the street, I am now in a position to deliver to my customers with promptness and satisfaction. Now comes the time when you are getting weary and my wagon don't pay me (with my small profit), and that I will soon break. Let me be the best judge of that. I am still paying 100 cents on the dollar, my property is in my own name, and I am determined to sell good groceries cheap.
Very respectfully,
THE GROCER, E. B. HACKBURN.

JUDGMENT and backbone will accomplish wonders.
SCHOOLS in this section have opened well. Others will soon commence with bright prospects.
THE advancement of education throughout the South has received great impetus for the last twelve months.
HON. HOWARD, the Republican candidate for Governor of Indiana, has declined the proposition to meet his Democratic competitor, Col. Stanton, in joint discussion.
NEW BERNE stands ready to meet the wishes of the surrounding country. What next? If gentlemen don't see what they want, they will please ask for it.
THE multitudinous friends of Senator Ransom who have not had the pleasure of seeing him in the last few days will be gratified to learn that he was never looking better than he is at present. He is being hopeful of Democratic success, indeed is confident of success, but he believes it will be secured by hard work and constant efforts.
YELLOW fever has made its appearance at Decatur, Ala., and consternation prevails. Decatur is the county seat of Morgan county, and is one of the most flourishing towns in the State. It is on the Tennessee river at the point where the Charleston and Memphis Railroad crosses the Louisville and Nashville Railroad.
A most remarkable run has just been made on a Southern road. The record compares favorably with any of the "light fyers" in the New England States. The run was between Columbia and Charleston, 137 miles which were covered in two hours and fifty-six minutes, averaging, including all stoppages, 30 miles an hour, on one portion of the road even greater speed than that was made. Of course this was not a schedule time, indeed there is no such schedule running in the world. The fastest long-run schedule is made on two competing lines between London and Edinburgh, where an average run of 40 miles is made, including every stop, at the rate of a little more than 30 miles an hour. The fastest schedule in the United States is made on the Pennsylvania Road between New York and Philadelphia, where a run of 43 miles is made in two hours and 15 minutes, or at the rate of 35 miles an hour.

LOCAL NEWS.

Rain showers prevailed through a portion of yesterday.
Quite a number of our citizens went to Kingston yesterday to hear Senator Ransom and Congressman Simmons.
We have been showing beautiful specimens of wood work turned out from the furniture factory of Palmer & Avery, 1110 N. 200th.
The members of the Winter Resort Association are reminded that Monday afternoon at 4 o'clock is the time, and the office of Green, Fox & Co. is the place of next weekly meeting. Any citizens interested in the subject, and desiring to join the Association and to work for the object is invited to attend.
A small piece of white board swung out near the corner of South Front and Craven streets bears the words "Dolls Millinery." A deep in above some five or six little girls from about five to eight years old. Their store room contains a table on which are various made up garments for doll wear. Capt. Dave Roberts is about the only customer we know of their having had.
Steamer Movements.
The Eagles of the E. C. D. line arrived yesterday with a full cargo of general merchandise. The Vesper of this line will arrive today. The Eagles will sail tomorrow afternoon at four o'clock.
The Newberne of the O. D. line arrived last night with a large cargo of freight and passengers, and will sail Tuesday at 12 o'clock for Norfolk direct.
Dangerous Accident.
Yesterday at 11:30 o'clock Mr. A. E. Wadsworth, residing on Core creek about 17 miles from the city, happened to a serious accident. A pistol was in a drawer in which there was a pound or more of powder. Mr. Wadsworth took the pistol and in some way fired it in the drawer, igniting the powder and badly burning the hands and face. He came here for medical treatment, arriving about two o'clock. Though badly burnt it is hoped that no very serious injury will result.
Personal.
R. M. Johnson, representing the Wilmington Messenger, was registered at Hotel Albert yesterday.
O. R. Thomas, Esq., of Beaufort, came up yesterday on a business trip and returned last night.
Miss Ella Ives has returned to Stanton, Va., where she takes charge of the musical department in the female college there.
Capt. Alex. Miller and Mr. J. B. Holland returned from New York last night, where they have been in search of goods.
The Speaking at Kingston.
Yesterday was a big day for the Democrats at Kingston. Between two and three thousand people gathered there from Lenoir and adjoining counties to hear the latest issues of the campaign discussed.
At 11 o'clock Senator Ransom, Congressman Simmons, O. B. Aycock, Esq., and others ascended the stand which had been erected on the courthouse square, when John F. Wooten, Esq., introduced Hon. M. W. Ransom. For over two hours Senator Ransom held the undivided attention of the vast crowd while he expounded upon arguments, convincing and incontrovertible, to show why the people should vote the Democratic ticket. When he was well under way a shower of rain began to fall and the crowd began to disperse. Mr. Ransom proceeded with his masterly effort.

The Springs at Round Knob.

We saw in a recent copy of the Asheville Citizen a statement of the discovery of a large number of mineral springs at Round Knob, in McDowell county, this State, and it was our intention to have copied the article, but pressure upon space at the time forbade our doing so.
But Major Curaway has just returned from that resort and gives us a quite satisfactory account of the matter. He has been there during the discovery and development of these springs, and says the amount of them in the Citizens is not overdrawn but rather below the mark. These springs when he left numbered one hundred and ninety instead of one hundred and sixty-nine as was the case when the Citizens representative wrote of them. The variety of mineral waters will exceed any place in this country or Europe, except possibly Saratoga in New York. Chemical analyses are now being made, and the medicinal properties will be made known. Already there is found to be Little water of a superior quality, alum and iron of the very best—equal to the celebrated Bedford Springs of Virginia—white and red sulphur, and iron water.
From the alum and iron water the alum and iron mass, well known to the medical profession, is made, and the evaporation has passed already beyond the experimental period, and large evaporators will be placed in position at once and the work pushed with vigor. The waters will be forwarded in demijohns to all parts of the country as ordered. The use of the alum and iron water has already worked some marvelous effects upon invalids near by—one notable case at Old Fort, five miles below. This water has the commendation of high medical authority, and of a large number of physicians in various States of the country. It is highly recommended in cases of yellow fever and those convalescing from that terrible disease. Also it has been used with good results in hemorrhagic and all malarial fevers, as well as a preventive from them. For complaints incident to females the alum and iron mass has proven itself ahead of all other remedies, and has effected cures under the direction of physicians when all others had failed.
The compact form of the mass renders the use of the alum and iron water practicable any and every where, and with less risk and expense than the water direct from the spring. But the last if not the best claim set up for this water is that the use of it destroys all appetite for alcoholic drinks, and men who have been in the habit of taking their daily drama have after taking this water entirely lost all desire for them. The enriched condition of the blood and excellent tone of the system entirely supplanting the want of alcoholic stimulants. The Round Knob Mineral Springs Company is pushing the matter and have to aid them the most temperate and salubrious climate of all the mountain resorts.
As a resort for invalids able to undertake the expense, a sojourn at the Springs will be equally pleasant and beneficial in winter or summer. No fog ever settles in that little nook of repose as it has been termed, nor dew enough to wet the balcony rails at the hotel, and the singularly graduated solar influences dispels mists, while the rushing waters of Catawba river passing directly through the vale preclude the presence of heavy frosts. The extreme variations of the thermometer this summer have been 22°, the lowest 62°, the highest 84°. During the hot days of July, 1887, the highest point reached by the mercury in the hotel was 84°. This appears to be a natural sanitarium, and the mineral waters of McDowell county are likely to outrank the minerals, of which one of the largest lumps of gold ever discovered in this State was recently taken from one of the mines.

will find it to their interest to encourage and patronize this school.

Mrs. A. T. Jenkins is a careful and painstaking teacher who always makes a good impression upon her pupils.
Miss Mollie Host is a most excellent teacher for the little ones and keeps them wide awake in the school room.
Miss Emily Ferebee is another young lady of excellent training as a teacher and her pupils always make satisfactory progress.
St. Paul's school also opens tomorrow but we are not informed as to who will have charge.
We wish all these schools the liberal patronage which they deserve. The number is surely sufficient to accommodate all.

STATE NEWS CONDENSED.
Wilmington Star: Advice received from Fayetteville indicate that one of the biggest frenzies on record is on its way to Wilmington. The river is out of its banks and the lowlands all under water. The river has risen several feet and is still rising.
Oxford Orphan's Friend: The ladies of North Carolina will please bear in mind that the cold weather is coming on and that we have 240 children to make comfortable. Just one day's work for us now will do you and us good. Try it.
Charlotte Chronicle: All along the road between Blowing Rock and Charlotte the effects of the high water are to be seen. In almost every piece of bottom land the corn is prostrate, and in many places covered up with mud.
Charlotte made furniture goes to every State in the Union, and the demand for the goods is so great that the factory is frequently behind its orders.
News and Observer: A train with two hundred refugees from Florida arrived at Hendersonville on the night of the 12th inst. The joint discussion between Fowle and Dockery will close on the 22d inst. After that date they will have separate appointments. It is understood, however, that if either of them desires to report at any appointment of the other there will be a free discussion of any subject they may wish to discuss. Thursday night on the West bound freight for Winston. He is in much better condition after his recent spell and enters upon the canvass with renewed vigor.

ROCKINGHAM, N. C., Sept. 19.

Dear Sir:—We, the undersigned, who live in the same township with Oliver H. Dockery, and some of whose farms adjoin his, have known him intimately, the most of us, all of our lives, and we are hearty certifiers, that as a farmer, it is well known, not only in his own neighborhood, but in the whole county, he is a dead failure, and that he has never been, and is not now, anything but a professional politician.

Lemon Elixir.
A PLEASANT LEMON DRINK.
Cures indigestion, headache, malaria, kidney disease, fever, chills, loss of appetite, debility and nervous prostration, by regulating the Liver, Stomach, Bowels, Kidneys and Blood.
Lemon Elixir is prepared from the fresh juice of Lemons, combined with other vegetable liver tonics, cathartics, aromatic stimulants and blood purifiers. W. A. Jones, Bell Station, Ala., writes: "I have suffered greatly from indigestion or dyspepsia. One bottle of Lemon Elixir done me more good than all the medicine I ever taken."
An Old Citizen of Atlanta, Ga., writes: "I used Dr. Moxley's Lemon Elixir for a severe chronic case of indigestion, palpitation and irregular action of the heart with constipation and biliousness. I also suffered greatly with gravel and great pains in the back and kidneys, much of the time unable to stand alone. I was treated by many physicians and used many remedies, but got no relief. Dr. Moxley's Lemon Elixir alone has made a perfect cure of all these diseases. I am now a well man. My wife has for many years suffered greatly with constipation and sick headaches from which she could get no relief. The Lemon Elixir has permanently cured me."
