SPECIAL NOTICE TO CONSUMERS

Having put my delivery wagon on the street, I am now in a position to furnish all my customers with FIRST CLASS Groceries at a very small profit. I defy competition, warrant my goods, and only ask a trial to convince the most doubtful. Now some of my friends say that my advertising and my wagon don't pay me (with my small profit), and that I will soon break. Let me be the best judge of that. I am still paying 100 cents on the dollar, my property is in my own name, and I am determined to sell good groceries cheap.

Very respectfully,

THE GROCER, E. B. HACKBURN.

THEY say the discussion is all foul play.

FLOODS are being reported from numerous sections.

JUDGE THURMAN is engaged in the preparation of his letter of acceptance.

THE corn crop in the Northwest is said to be large and in advance of injury from frost.

SAVANNAH is now the largest cotton port in the United States, and Norfolk second.

EMPEROR WILLIAM refuses to allow the use of French on the bill of fare at his State and military dinners.

THE cigar makers of Havana are on a big strike. They, with their families, are thought to number at least twenty thousand persons.

WITH all improved precautions it does seem that there have been more railroad accidents in the last few months than we ever before remember.

HUMAN sympathy is an angel of mercy; but the pugilist who boasts of his powers, and is then worsted in the ring, must endure his suffering unblest by its ministry. Alas, poor Dockery!

NORFOLK has made her quarantine regulations more stringent than ever. It includes all the cities south of Weldon. All baggage and freights arriving from the yellow fever districts are re-fumigated.

DOCKERY is now, in this year 1888, in favor of paying a great debt that was created by thieves and bums. It is believed that it would literally bankrupt the State to pay the special tax bonds.—Wilmington Star.

THE death of Professor Richard A. Proctor of yellow fever in New York, is a calamity that in its sweep is world wide. He was one of the greatest astronomers of the age, and science mourns the loss of her brilliant son.

OWING to destructive floods in and near the city and inconvenience of travel from quarantine regulations, Augusta, Ga., has postponed the opening of her exposition until November 8th. It is to continue till December 15th.

THE Durham Progress has made its appearance, but it has not found its way to this office. If it is really to be a journal of progress, we would like to feel the inspiration of its presence, and if it is to be the ally of Republicanism we would like to know what it is about, so as to better counteract its pernicious influence.

A new and substantial wharf is being constructed on East Front street at the Justice place. As to a sight for a resort building we think this point admirably suited. The far projection into the water makes this point command one of the prettiest views we know of.

St. Paul's School.

This school opens today under favorable auspices. A new building of the most convenient size and form and peculiarly adapted for the purpose in view has just been completed, furnishing to the pupils every desirable facility for their educational pursuits.

The school is under the personal management of the clergy attached to the church who will themselves teach the classical studies. It is well known that the Catholic clergy have to undergo a long and thorough course of classical studies preparatory to their course in Philosophy and Theology. Six years of constant daily study of the classic course, Latin in particular, which is continued through the six additional years of study in Philosophy and Theology give the Catholic clergy a proficiency in these studies that is anything but common. In addition the school will give a thorough training in common and high school education.

The petition for their pardon was signed by the officers of the court and a large number of the best citizens of this county.

The Democratic rally at Kinston last Saturday was a magnificent success. The old cannon brought up from New Berne began to belch forth the news early in the morning and reminded the people for miles around that the time had come for them to begin in earnest the work of the campaign. Between two and three thousand people gathered together on that day to hear the issues of the campaign discussed. This was done in a masterly manner by Senator W. W. Ransom, Congressman J. M. Smith and C. H. Aycock. Their speeches were able, practical, and full of common sense. They were very specially directed toward the people and they were listened to with rapid attention. Some of the points were voted by that day's work.

About twenty-five delegates to the county assembly in the 2nd district room of the court, Kinston, to organize the Prohibition party. J. M. Smith was made chairman. H. C. Bowen, secretary. After enrolling the names of those present desiring to become members of the party, a banquet was held in the session of the county convention at Kinston. J. B. Webb, chairman and J. B. Bowen, secretary. The banquet was a very successful one. It was held in the room of the court, Kinston, and was attended by a large number of the best citizens of the county. HON. THOMAS M. HOLT.

AND THE COTTON BAGGING TRUST.

MADE FOR THE FARMERS OF NORTH CAROLINA.

We were shown yesterday an article which can be seen at the store of Messrs. Barbee & Barbee, No. 305 South Wilmington street, this city, and which is to be used as a substitute for cotton bagging. It is made by Hon. Thomas M. Holt at his mills at Haw River, N. C., for the farmers of North Carolina. The goods are strong and durable and make a most excellent substitute for the jute bagging heretofore used, and by the use of them and like substitutes our farmers will be enabled to throttle the monster known as the "Cotton Bagging Trust," by means of which a few northern manufacturers are oppressively seeking to suck the life-blood out of our people. In the history of this country there has never been a more shameless attempt to extort the hard earned money of our Southern farmers than the one this same "Cotton Bagging Trust" is now engaged in. Without any just cause or reason—but simply because they thought they had the power—the parties engaged in this nefarious undertaking have wantonly and for the purpose of adding to their already enormous wealth put up the price of cotton bagging from 50 to 75 per cent and at a season of the year when the cotton is in the fields ready to be gathered, thereby adding to the expenses of the farmers of the South in the marketing of their cotton crop at least the sum of \$2,000,000. It therefore affords us great pleasure to chronicle the fact that Col. Holt and the rest of our North Carolina manufacturers have come to the rescue of the agricultural interest of our State, and have joined hands with it in its fight against this heartless "Trust." Col. Holt is himself one of the largest and most successful farmers in North Carolina and can always be relied upon to lend aid and assistance to his brother farmers whenever it is in his power to do so. We say hurrah for the manufacturers of North Carolina for their praiseworthy effort to protect the leading interest of the State at a critical moment. Messrs. Barbee & Barbee say that the substitute manufactured by Col. Holt is the purpose well and can be bought of them at a price which is from 3 to 5 cents less per yard than is now demanded for jute cotton bagging. Verily, we believe the farmers of North Carolina now have the "Cotton Bagging Trust" by the throat. This matter shall receive immediate attention, so that the mills can go to work on the goods if they are approved and desired by the farmers.—News and Observer.
