**FINE** beef at J. H. Thomas's stall, corner of South Front and Middle streets, on Saturday morning.

**PARIS GREEN** for destroying the cotton worm at

**SPINACH**, Turnip, and Siberian Kale Seed at

GEO. ALLEN & CO.

**SPECIAL NOTICE TO CONSUMERS** Having put my delivery wagon on the street, I am now in a position to furnish ALL my customers with FIRST CLASS Groceries at a very small profit. I defy competition, warrant my goods, and only ask a trial to convince the most doubtful. Now some of my friends say that my advertising and my wagon don't pay me (with my small profits), and that I will soon break. Let me be the best judge of that. I am still paying 100 cents on the dollar, my property is in my own name, and I am determined to sell good groceries cheap.

Very respectfully,  
**THE GROCER, E. B. HACKBURN.**

**PHIL'S BUTTER**, the best in the market, on ice at Dunn's, only 30 cents per lb.

**WHITE LEAD**, Mixed Paint, Varnish, Oil and Glass at

GEO. ALLEN & CO.

**USE PURE ICE**, manufactured by the Jarman Ice Factory.

The German Emperor is evidently anxious for a war with France.

MR. CARLISLE has been re-nominated for Congress by acclamation.

JOHN T. PATRICK, Commissioner of Immigration, is very sick with Bright's disease.

On last Tuesday there were 153 new cases and twenty deaths in Jacksonville of yellow fever.

MR. CARLISLE says that Cleveland is stronger than he ever was, and his re-election is certain.

WITH charity for all and malice towards none, let every patriot in Craven go to work to elect the Coalition ticket.

The Democrats of the House of Representatives have met in caucus and resolved to continue in session until the Senate makes known its intentions.

The Judge of the Criminal Court of Memphis, Tenn., has instructed the grand jury to indict members of the cotton bagging trust, regardless of the fact that they do not live in that city.

We have before us the Knoxville Daily Tribune of the 16th inst. The first page is a fac simile of a red-bandauna on which are first rate pictures of Cleveland and Thorman. The paper is "chuck full" of the best kind of Democracy.

WITH cheaper raw material the cost of production will be diminished, the manufacturer will have a wider market for his products, the laborer will have more constant employment and the consumer will obtain his supplies at lower prices.

PHILADELPHIA calls the attention of the proper authorities at Washington to the fact that a great number of persons are leaving the fever-stricken districts, and have carried the yellow fever in some isolated cases to Northern cities, and urges the necessity for the strictest quarantine, and if necessary the establishment of a military cordon.

No man stands fairer at Washington than the Hon. F. M. Simmons. We heard a distinguished statesman say, "I have watched Simmons closely. He is always at his post. He votes right and is sure to say the right thing at the right time." Nothing can be gained by a change of Representative in the Second District of North Carolina. The people know that Simmons is the man, and they intend to stand by him, and elect him.

SENATOR MITCHELL of Oregon, having, on the floor of the Senate, charged Senator Morgan of Alabama, with drunkenness. Senator

Pugh of Alabama, has published a card in which he says, "I state with emphasis that my opportunities of knowing the condition of my colleague (J. T. Morgan) while on the Senate floor during its session, and equal to those of any Senator, and I can say that during the last eight years I have never seen my colleague at any time under the influence of liquor." Senators Jones, Coke, Plumb, Hale, Cockrell, Vest, Hampton, George, Harris, Berry, Brown, Call and Butler, make similar statements in their own handwriting.

## LOCAL NEWS.

A new dwelling is going up on East Front street.

The bridge leading to Union Point from East Front street has been much improved recently.

Aaron Bell, col. of James City, has had some very fine apples on the market. Three of the largest weighed four pounds and he sold them for fifteen cents apiece.

The machine shops of Crabtree & Co. are about to turn out a huge boiler for J. A. Meadows' mill. It is one hundred and twenty five horse power, and like all work sent out from them—first class.

We notice a shipment to Baltimore yesterday morning of 50 copies of Allen's Forty Lessons in Bookkeeping. We learn that this one house in Baltimore has purchased over four hundred copies of this book which speaks well for it.

We call attention to the advertisement of Roberts Bros. They have received a large and well selected stock of groceries and dry goods—anything from a needle to an anchor can be found in their well filled store on South Front street.

The Wilson Mirror says: "Our New Berne friends are making preparations for the fair at that place this fall. The last one was hurriedly gotten up but was a splendid success. With ample time for preparation their next will eclipse anything of the kind ever seen." This notice is just what we expected of our generous neighbor. We can have no better champion than the Mirror, and we are now assured of a brilliant success. The Mirror is mistaken as to time. The fair will be held in February, and brother Blount is expected to be present with a celestial host of the Wilson beauties he so charmingly describes.

Mr. W. H. Smith of Waterloo, Province of Quebec, Canada, has returned to his home after a visit to this city. During his sojourn here he, in company with R. P. Williams, one of our city councilmen, visited many parts of this and adjoining counties, and was so well pleased that he purchased from Mr. Williams a farm three miles distant from New Berne, located on the public road and the Atlantic and North Carolina Railroad, with a navigable water front. He will make North Carolina his future home. We believe that Mr. Smith is a native of Vermont; we wish that more of the "Green Mountain Boys" would do like Mr. Smith, come and take a look at us, partake of our figs, our grapes, our fish and oysters, pick roses in October and November and bask in our soft winter sunshine. We will give a cheerful and hearty welcome to them. We want and need them, for we know their pluck, industry and indomitable perseverance, we want them to go along with the State now on the flood tide of prosperity. We say again, come and visit us and see what a good country we have.

The Grand Barbecue. Remember the special train will leave for Ogleby at 9 o'clock tomorrow morning. A grand barbecue and flag raising will be had by the Democrats at that place, and prominent speakers have been invited to be present.

Hand it in Today. The contribution for Jacksonville only shows three dollars increase today. It is important that the money be forwarded at once. Will New Berne not send more than \$98 00?

The Manteo of the O. D. line sails today at 12 o'clock for Norfolk direct.

The Kinston of the N. & T. S. line will leave for Kinston today at 10 o'clock instead of 12 as usual.

## THE YELLOW FEVER.

JACKSONVILLE Sept. 19.—While there has been another bright and lovely day, tempered by a delightful sea breeze, the pestilence has waited in darkness and wasted at noonday. The official report of the board of health for the 24 hours ending at 6 p. m. shows 180 new cases of yellow fever making the total so far reported 1,333. A very large proportion of the new cases now are among colored people living in the suburbs, and they will die rapidly should cool nights prevail. The deaths reported today number 14.

Camps of refugees are being put in shape since the almost continuous ten days of rain and the sick people will get into them soon. Efforts will be made to convince the negroes that it will be best for them to go there. Thousands will prefer to stay in the city if they can get free food. It is probable that rationing in the city will be necessary to force them to go to the camps and be well fed.

Reports from Gainesville by wire tonight state that there are no new cases, and confidence is felt that there will not be an epidemic there.

Rev. Mr. Snowden rector of the Episcopal church at M. J. Temple, and today Others sick there are being nursed in new cases are reported.

WASHINGTON, D. C., Sept. 19.—The Senate today, Mr. Edmunds offered a joint resolution appropriating \$100,000 for the relief of yellow fever sufferers, which after brief remarks was passed.

The Sage of Seguin. Austin, Tex., Aug. 2, 1888.

T. M. A. K. HANCOCK, Esq., has given me pleasure to say that I have been using your glasses for some time past with much satisfaction. For their clearness and softness and for all purposes intended, they are not surpassed by any that I have ever worn. I would therefore recommend them to all who want a superior glass. I am very respectfully yours,

JOHN BRELAND, Esq. of Texas. All eyes fitted and fit guaranteed by F. S. DUFFY, New Berne, N. C.

Rites of History. The Society of North Carolina. CHAIRMAN, Sept. 19, 1888.

The first annual meeting of the North Carolina Historical Society for 1888-89 was held last Tuesday night. Two papers were presented.

President Little had a paper proving the error of the statement in a recent history that North Carolina made Roanoke Island, founded her dislike to the Federal Constitution, on its prohibition of bills of credit, because she had issued so much of her own. He showed by quotation from the speeches of its opponents in the State convention of 1777, viz.: of Hester, Taylor, Galloway, Melwett, Caldwell, Lenoir, Shoups Jones and others, as well as by quotations from the speeches of Federalists such as Iredell, Davis, Manly, that the objections were of a general nature, that too much power was granted, that the power was undefined and that the rights of the State had not been guarded. The anti-Federalists of North Carolina really dreaded a consolidated government. It was conclusively shown that no one objected to future prohibition of State bills of credit and that the fear of the State being forced by the Federal court to pay for in specie for her depreciated paper was only one of objections urged to immediate adoption. North Carolina did not reject, she only deferred, accepting until assured the much desired amendment would be adopted.

Dr. Stephen B. Weeks presented a paper on Blackbeard, the Corsair of Carolina. He sketched the rise of privateering and buccanering in America and showed how Teach came to turn pirate. He had been a soldier in Queen Anne's war and although the historians accuse him of being a pirate before, there is no proof he was one prior to the treaty of Utrecht in 1713. He then became a pirate because it was the easiest way for him and his men to make a living. He was slain off Ocracoke Inlet in 1718 by Capt. Brand. The historians give the honor improperly to Lieut. Maynard. The evidence for and against Knight was given and summed up. The author came to a verdict of guilty. This has been the verdict of the State for 170 years. Dr. Weeks then presented some anecdotes and local tradition concerning the life of the pirate, his wives, buried treasure, body after death and real existence of at least one chest of his money.

Mr. Wm. J. Andrews of Raleigh, was elected Secretary and Treasurer in place of Dr. Weeks who goes to the John Hopkins University to pursue his studies. Mr. Andrews is a man of talent, is interested in his work and will make a good officer.
