**DRIED PEACHES.** Fresh arrival of Butter. Very nice. Try it.  
C. E. SLOVER.

In order to make an entire change in our business, we are offering our stock of Dry Goods and Shoes at New York Cost. This is no fraud; we mean business. Either retail or wholesale customers will find it to their interest to call on us.  
252 dlm A. M. BAKER.

**HOURS** of receiving Ice from the Jarman Ice Factory on Sunday: 7 to 9, 11 to 2 and 5 to 7.

**GAIN I** am before the public and wish to IMPRESS upon their minds the fact that my Groceries are beyond competition when price and quality are both considered. I have not less North, and thereby incurred an expense of several hundred dollars which the consumer must pay, but have used pen and ink, found the cheapest markets and bought, saving that unnecessary expense, of which I propose to give my customers the benefit. I am now receiving, semi-weekly, Butter and Cheese from the finest Dairies in the country. Try a pound of each, and if you are not more than pleased, return them and get your money. My aim is to please and give perfect satisfaction.  
THE GROCER, E. B. HACKBURN.

It is reported at Democratic headquarters that the farmers of Western New York who have heretofore been Republican are now, almost to a man, for Cleveland and Thurman.

The Philadelphia Times says: "No such campaign as this has ever been conducted before, and the results of other years are of little service in forming a correct judgment now."

THERE are 25,000 working men on a strike in Havana. There will be a rise in cigars, and it will be said "the Mills bill did it." As well say it caused the rise of furs at St. Petersburg, or of rats at Canton.

JUDGE THURMAN is to return to New York. Great preparations are being made for an immense meeting on Staten Island, about the first of October, which will be addressed by Allen G. Thurman and David B. Hill.

HARRIS is the core of the trouble that besets our times; here is the chief, but a hidden source of the social unrest, the industrial disorders that mar the symmetry of American prosperity: *Economic truth has not acquired ethical force.*

PROFESSOR PROCTOR'S last contribution to science is an interesting paper, entitled "The Moon a dead World, but never like our Earth." It appears in Harper's Weekly of September 22, and is worthy of the profound attention of scholars.

THE Democratic campaign in the State of New York is well conducted, and is consequently enthusiastic. Among the speakers announced are Governor Hill, speaker Carlisle, and Congressmen Mills, Breckinridge, McMillan and Skinner.

SOME time ago it was announced that candidate Harrison would receive visiting delegates every day until the election, except on Sunday. Now it is said that continual handshaking was found to be too fatiguing for so small a man, and so he has given it up and returned to his law office. It is further stated that the sign at the office door, "no new cases taken after the 6th of November," has been removed.

GENTLEMEN who have traveled extensively in the West assert that the farmers are going over on mass to the Democratic party. The opinion is freely expressed that the farmers of the country will elect Cleveland and Thurman beyond the shadow of a doubt.

AT Cow Bay, C. B., three small boys were playing "killing pigs." A six-year-old son of Mrs. Anderson who keeps the village hotel, was bound hand and foot by his two little companions, who then cut his throat with an old rusty knife from the effects of which he died.

"NATURAL laws, when abstracted or overborne, transfer their energy to sub laws, and in our case sub laws have produced, on the one hand, corporations and trusts, on the other hand labor organizations. The first are castles and strongholds of accumulated wealth, the second are the walled cities and entrenched camps of the producers of wealth." Here is war where we should have peace, and where nature would have maintained peace but for man's meddling."

## LOCAL NEWS.

A colored voter says in a card published in this issue that many of the colored people are free politically.

The annual election of officers of the New Berne Grain and Cotton Exchange will be held next Wednesday, Oct. 31. Gorton's Minstrels played at the theatre last night. The performance was a good one and the audience enjoyed it very much.

The union meeting of the Atlantic Baptist Association convenes at the Baptist Church in this city today. Several of the delegates arrived last night.

Lewis Washington, the house mover, was moving a house up Pollock street yesterday. It was taken for a street car by a gentleman accustomed to city ways.

Our farmers near the city are pushing the work of harvesting their hay. The beautiful weather for the past two days has been much appreciated on that account.

The work of tearing down the McLean building on the corner of Pollock and Craven streets, recently purchased by Dr. F. W. Hughes, has begun. It has for several years been considered unsafe, and, though a fine building in appearance, its coming down to give room for a new, handsome residence will be hailed with pleasure by the community.

The union meeting of The Atlantic Association will convene at the Baptist Church this morning at 11 o'clock, when Rev. C. A. Woodson is expected to preach the introductory sermon. The Union is designed to elicit free discussion upon topics of general religious interest, on the part of the ministry and laity of the Association who may be in attendance. All its sessions are public and visitors will be cordially welcomed.

We are requested to announce that Prof. C. L. Walton, Secretary of the Goldsboro Eastern North Carolina Fair (colored) will address the public at Drayton Hall tonight. The Fair will open Oct. 23d. Isaac H. Smith of this city has been elected chief marshal. So it seems that our Goldsboro friends have faith in the ability of New Berne to furnish chief marshals if we were considered a little off on the quarantine.

**Personal.**  
Messrs. E. M. Foscoe, J. W. Wooten, Calvin Debruhl, Lewis King, C. M. Pollock, farmers of Jones county, were in the city yesterday.

**Another Blow at the Bagging Trust.**  
The New York Herald of Tuesday last has the important item of news given below. It would seem now that the triumph of the farmers over the Trust will in the end be complete.

The Cotton Exchange received a cable message from the Liverpool Cotton Association yesterday, saying that cotton baled with cotton sheeting will be accepted as a good delivery.

**Jacksonville Fund.**

**Steamer Movements.**  
The Vesper of the E. C. D. line arrived yesterday with cargo of general merchandise and will sail this afternoon at 4 o'clock. The Eagle of this line will arrive tomorrow.

The Monitor of the O. D. line will sail for Norfolk today at 12 o'clock.

**New Rails to Morehead City.**  
From the News and Observer we learn that at a meeting of the directors of the A. & N. C. R. held in Raleigh, President Bryan was authorized to buy at once steel rails sufficient to relay the track of the road from New Berne to Morehead City. When this is done the A. & N. C. R. will be one of the best roads in the country. Then it will want to, and must be extended to Charlotte or at least to Sanford.

**Nelson—Blackwell.**  
A very quiet and pretty wedding took place at 10 o'clock a. m., Thursday last at the Franklin Square Baptist Church, Rev. A. C. Dixon officiating, assisted by Rev. A. C. Dixon. The contracting parties were W. Porter Nelson, of Aspen, Colorado, and Miss Julia Henry Blackwell, stepdaughter of Jas. W. Carter, Baltimore. Mr. Arthur Nelson, brother of the groom, was best man. The bride wore a superb traveling costume of brown cloth, and they were the recipient of many handsome and useful presents.—Baltimorean.

Many hearts in New Berne bound with pleasure at this simple announcement, and many lips sincerely say "God bless them." The bride was a New Berne girl, and is the much loved niece of Mrs. Rountree, for whom she was named.

Colorado is a land of snow and the realm of storms, but there will be one home there of perpetual sunshine, made beautiful by the gentle ministry of love.

**Newspapers—Thanks.**  
Our most excellent contemporary, the New Berne Free Will Baptist, has in its last issue an admirable article on Newspapers. It is sensible and elegant. Near the close of the article is this paragraph:

"We take pleasure in pointing to the example which Wilmington and Charlotte have set their sister cities. The citizens of Wilmington have taken \$45,000 stock in the Messenger, and \$80,000 stock has been taken in the Chronicle by citizens of Charlotte. Let the people of New Berne and the adjoining counties look to the encouragement of the JOURNAL; it is the organ which represents this section, it is the surest, safest means of 'booming' New Berne, and now is the time to do it above all others. While Jacksonville is under the shadow of a winter resort, let New Berne be 'boomed' as such. Get out illustrated issues of the WEEKLY JOURNAL and send everywhere, setting forth her manifold beauties and attractions."

Thanks to our generous neighbor for his kind words and noble sentiments. The JOURNAL asks no higher honor than that, to which the Free Will Baptist points, of presenting New Berne in her own beautiful colors to the world at large.

But we ask, as we know we shall receive, the co-operation of the Baptists. We will go hand in hand in our high undertaking, and equally participate in the glory of the achievement.

**A Fight With the Tariff.**  
J. J. Martin, Esq., the Harrison candidate for Presidential elector in the second district, addressed a small crowd at the court house last night. He was taken in charge by the Hahn Republicans, Frederick Douglass presiding at the meeting, which was composed of about seventy-five Hahn Republicans, about twenty-five Democrats and ten or fifteen Stimson Republicans. The latter class of Republicans stayed away from the meeting; without those a Republican meeting in New Berne is a slim affair.

Mr. Martin wrestled with the tariff manfully for an hour or more, and like Judge George Rodman contended that the "furrin" goods should be taxed, not low as George wants it, but high. He makes a plausible speech for his side, as any school-boy can without interruption. He will be met at Tranton today by Mr. Woodard who will expose the fallacy of his position and convince any man of reasonable common sense that it is wrong to take more money from the people than the government needs, no matter whether it is done for protection or for revenue, and that a revenue tariff is the only tariff authorized by the constitution.

**A SOUND LEGAL OPINION.**  
E. Baldrige Munday, Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with malarial fever and jaundice, and was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off as well as cure all malarial diseases, and for all kidney, liver and stomach disorders stands unequalled. Price 50c. \$1 at R. N. Duffy's drug store.

## STATE NEWS CONDENSED.

**Goldsboro Argus.** Merely as an item of news—for we take no sort stock in the man, nor in any State and church combine man—we state that the Rev. Sam Small will address the citizens of this city and section at the court house here on Saturday afternoon of this week, in the interest of the "Third Party" wing of the Republican party.

Wilmington Review is generally understood that the damage to the crops is not so great as has been recently feared, although in some few sections the loss exceeds the original estimates. In this immediate section they have been hurt very little, and in some near by localities they are better than they have been in years.

Wilmington Star. Oysters are slow in making their appearance in market this season.—Considerable sickness is reported along the Cape Fear river as a result of the recent freshet.—Owing to the backwardness of the crops and the late disastrous heavy rains, the gala week is postponed from the last week in October to a period commencing November 12th and lasting a week inclusive.

Charlotte Chronicle. A special to the Chronicle from Atlanta says that "all routes to Arkansas and Texas have been quarantined and there is no possible chance to get through until the quarantine is raised.—Rev. Mr. V. McDuffee, a native of this State, who went to New Brunswick, N. J., two years ago and took charge of the Iremson Avenue Baptist Church of that city, is stirring the waters by a series of sermons in which he lays bare the social inequalities of that place. They are talking about him in all the big papers.—The clothing factories of the city are ahead of every place in the United States.

Wilson Mirror. He had been gone from the paternal roof for six months—left home in the first bloom of summer, with a simple ax upon his brow and a pickaxe in his hand. The Black Hills his destination, fame and glory and gold the goal. A summer spent amid the auriferous rocks—industry, perseverance and a rare knowledge of chemistry and mineralogy, his useful tools in addition to the pickaxe. Results are such that he is enabled to return sooner than his most sanguine expectations had allowed him to dream of doing. Almost home, he pauses outside the town until nightfall and sends to his waiting, expectant parents the following suggestive message: "Bring me a large blanket and a pair of old pants. I've got a hat."

**THE YELLOW FEVER.**  
JACKSONVILLE, Sept. 26.—One hundred and three new cases of yellow fever were reported for the past twenty-four hours, 31 of them among the white and 72 among the colored people. The deaths reported are 7. Total cases to date, 2,287; total deaths, 229.

A hopeful feeling continues and it is believed that the number of cases and mortality will now steadily decrease.

A Ferrandina special to the Times-Union says: Dr. Palmer was the first physician to announce the presence of yellow fever. The steamer Gulf Stream sailed this morning with nearly all the people who desired to leave, and took back the freight consigned to interior points. Many of the stores are closed. The citizens who remain are courageous and hopeful and are organizing to meet the emergency.

A special to the Times-Union from Gainesville at 9:30 this morning says no new cases or symptoms of any. Convalescents are all doing well and will be moved to the hospital. The last taken sick is Fritz Miller, who is not expected to live.

MEMPHIS, TENN., Sept. 26.—Dr. Mitchell who visited Binford at 9 o'clock this morning, found him free of fever, and unhesitatingly pronounced his sickness of last evening, which created such excitement, only the after effect of a big drunk. There is no excitement here since the true facts of Binford's illness has been made public.

JACKSON, MISS., Sept. 26.—The situation here today was the same as yesterday. There were no deaths and no new cases. The sick are doing well.

SELMA, ALA., Sept. 26.—Excitement at Selma on account of the yellow fever scare has entirely subsided.

**They Are Free.**  
Mebane has sold out, but he did not sell Mr. Simmons. Many of the colored people are free and will exercise their freedom in November.

HOPWELL P. O. Mecklenburg Co., N. C., September 14, 1888.

**MRS. JOE PERSON.**  
MADAM—

Four years ago I took a violent cold, which resulted in quin'y, and after suffering almost death, got relieved, but alas, the disease was in my system and finally culminated in a womb trouble, which caused me great suffering that winter and spring. I could scarce drag around, and was often so miserable I would pray to die. I begged my husband to let me try your Remedy; he bought me one box and it has made a perfect cure of me. It has also cured me of Indigestion, and furthermore, after the birth of five of my children I would nearly lose the use of my arms, and a fierce untold agony with Rheumatism and Neuralgia. I have not been troubled with either with my last two children. I keep a bottle of the Remedy in the house all the time; my husband says it is better than a doctor. With all my other children, I had great trouble with them during dentition. I can truthfully say, whenever I had children cut teeth with so much ease and as little trouble as my last two have. Whenever I see any sign of their teething I commence taking the Remedy. It keeps my stomach and bowels regular and in a healthy condition, and seems to have the same effect on theirs. It is certainly the best Tonic I ever tried, a few doses will bring me up, and make me feel like a new person. Yes, publish any part of my letter that will help your cause in the least. I hate publicity, but if my experience with the Remedy will be the means of others trying it, I am willing for the public to know the good it has done me and mine. May God bless you!  
I am, very truly,  
MRS. ANNE ALEXANDER.
