The Right Kind of Consor. But if a popular man be false, or an accepted doctrine mischievous, or an agreeable habit dangerous, somebody must say so. In this sense the censor, instead of insult-Lethario, and frankly calls Lovelace a profligate, la a social benetactor, to whom every modest weman and every gentleman is beholden. The merchant who refuses to be associated in the conduct of business with men whom he knows to be unprincipled is a censor of their behavior, but he certainly insults no one. Indeed, the man who is often described as a censor, and therefore an insulter of others, is usually a man who denounces the frauds and humbugs he sees around him, and who has merely the courage of his opinions

and principles. If censor be understood to be the name of a mere fault-finder, a man and not to correct, or who caltivates a habit of sneering and of seeking the worse rather than the better aspects of life for the gratifieation of a morbid taste, he is a nuisance and a pest. Of that there is no dispute. But it is an ill disposition which, inclined to selfndulgence of any kind, rails at the critic as a fault finding censor, and Two doors north of Hotel Albert, Midholds the Vicar of Bray to be the type of the Christian moralist. To a popular nor a gratifying office, I can sell you: but is a truer and manlier service drinking because tomorrow we die.
