TO those who have been smoking Proclamation Cigars, manufactured at Factory No. 1017, and sold in this city to the wholesale and retail trade by The Grocer, E. B. Hackburn, I would say that since some merchants have been so very kind as to have a cigar put up at another factory bearing the same name, brand, caution label, etc. as the cigars which I have advertised for over a year, I have had a still better cigar manufactured and the brand registered, and it is really the best for 5 in the United States. OF course we are defeated. So were the Americans at Banker Hill.

GLADSTONE'S tour through England has been one grand ovation.

THE five great European powers have now 12,000,000 men under arms.

THE Wilmington Star says: "It pleases us to see able Northern papers beginning to urge the abolition of the electoral college. The people should vote direct."

THE steamer Iberia was cut in two by the Umbria last Sunday near New York. There were no passengers aboard the Iberia and her officers and crew were taken to the city by the Umbria. A heavy fog prevailed at the time of the accident.

AGAIN it is reported that the young Emperor of Germany has broken loose from Bismarck. We do not credit the report. William may be hot headed and vain, but he has been too long under the tutelage of the Chancellor to break away from his control.

MR. SIMMONS was defeated by only 671 votes in the black district. He made a splendid run. A gentleman from that district tells us that his speeches in the campaign were indeed remarkably good—able, effective and adroit.—Wilmington Star.

THE New York Star says: "No faithful Democrat need be discouraged by the result of '88. The defeat of '72 was followed by the Tilden victory of '76. Let the measures of the Democratic managers be as promptly imitated and as steadfastly pursued as were those of Tilden, and another Democratic victory will surely follow the experiment of another four years of Republican rule."

THE JOURNAL joins contemporaries in calling attention to the fact that the Oxford Orphan Asylum now has 245 children within her walls, and will need a generous offering from the good people of North Carolina on Thanksgiving

day, to help her get these little ones through the winter months. Thanksgiving day falls on the 29th inst., and a generous offering for the little ones on that day would not be inappropriate."

THE Charlotte Chronicle of Tuesday says: An entire train of Richmond and Danville cars, including postal car, first and second class coaches and a fine new vestibule car, was burned to ashes on the Air Line Division yesterday. The burned train was the fast mail and express No. 53, due here at 5:25 yesterday afternoon from Atlanta, and the accident which resulted in its destruction occurred in the vicinity of the Tugalo river, near Tuccoa. It was just midway and the train was bowling along the mountain curve at the usual rate of speed when the train went head long down a 30 feet embankment. No lives were lost.

"Good out of evil found a pretty illustration in the case of Hawthorne's removal from office. He was crushed by the blow and staggered to his humble home full of bitter disappointment. No one knew him then as one of our greatest—yes, the world's greatest—men of genius. His wife quietly left the room, says Carnvy, then came back with an armful of wood, kindled a cheerful fire, drew his chair to his desk, brought papers, pen and ink, and then turning to him with a beaming face said: 'Now you can write your book.' The result was 'Scarlet Letter,' and such fame as no novelist in America before or since has attained. It was all due to his noble wife. Had she repined and added to this burden the world would never have known Hawthorne."

The calendar committee requests the bar to meet at the office of O. H. Guion, Esq., at 4 o'clock p. m., for the purpose of arranging the court calendar.

With three large schooners discharging, the steamer Newberne loading, and a large three master awaiting her turn, the Atlantic & North Carolina Railroad warehouse was by far the busiest place in the city yesterday.

It is necessary for the prosperity of New Berne that the Board of Trade be supported by its members. Attend the meetings—this is the least you can do to encourage the organization. Don't forget to attend the next Friday night meeting. If the weather is unfavorable do not let that prevent your being on hand. Let every member see that his fellow workers are there.

Extensive Improvements.
Messrs. D. Congdon & Son have commenced work on the dry house at their mills in the upper part of the city. In addition to this they are going to put up a large planing mill, warehouse and shingle mill.

French Cooks.
The proprietors of Hotel Albert have secured the services of Mr. Eugene Gateau and wife of Paris to preside over the culinary department of the hotel. We are glad to know this for we believe no hotel can better advertise itself than by keeping a well prepared table. The American traveler will put up with most any kind of sleeping quarters, but if you would gain his favors and avoid grumbling, give him something good to eat.

Schooner Arrivals.
The schooner Minnie E. Smithers from Philadelphia arrived at the A. & N. C. R.
The schooner Carrie H. Lister arrived with a cargo of rails for the A. & N. C. R.
The schooner A. E. Rudolph arrived with a cargo of phosphates for the A. & N. C. R.
The schooner George A. Howell arrived with a cargo of phosphates for the A. & N. C. R.

Work for the Next Fair.
The directors of the Fair Association had a full and interesting meeting on Tuesday night. A committee, consisting of Messrs. Geo. Allen, Chas. Reizenstein and O. H. Guion, was appointed to prepare a premium list limited to two thousand dollars.

Mr. Geo. Allen and Capt. S. H. Gray were appointed a committee to correspond with Northern parties relative to visiting the Fair.

Capt. S. H. Gray was appointed to inquire into the expediency of placing gas or electric lights on the ground.

The premium committee will publish their list as early as possible. With the amount put at their disposal an impetus ought to be given to our next exposition that will make it a grand success.

The main building on the grounds has been thoroughly repaired, with new roof and the rooms properly connected and the paint brush will now be applied. Machinery hall is about ready for the roof and the large and commodious stables are well under way. Capt. Alex. Miller has been appointed and authorized to purchase trees and other shrubbery for beautifying the grounds.

Let every farmer in the surrounding counties begin now to prepare something in the way of farm products and timbers from the forests to exhibit. Let every mechanic, manufacturer, merchant and all begin to prepare something to exhibit. Success now means a great deal for New Berne and this entire section.

Personal.
Messrs. Guy and Ward, inspectors of boilers and hulls, arrived yesterday morning from Norfolk on the steamer Newberne and inspected the steamers Kinston and Vanceboro and pronounced them O. K.

Rev. C. W. Porter and Mrs. Porter arrived yesterday morning and are stopping at Mrs. S. A. Smith's boarding house on Middle street. Mr. Porter is a blind man but has an excellent reputation as a piano and organ tuner.

Benj. Brock, the Senator elect of the 11th district, was in the city yesterday. His majority over his competitor is somewhere in the neighborhood of fifteen hundred.

Dempsy Harper of Jones county, a former type of the JOURNAL office, was in to see us yesterday.

Steamer Movements.

The Newberne of the O. D. line sailed yesterday with a full cargo of cotton, lumber, naval stores, other freights and several passengers. The Manteo will arrive tonight and sail tomorrow at 12 o'clock.

The Vesper of the E. C. D. line arrived last night and will sail this afternoon at 4 o'clock.

The Tahoma arrived last night with a full cargo of cotton and will sail this morning at 6 o'clock, returning Friday evening.

The Scout of the Clyde line left for Adams creek yesterday morning to load lumber for Baltimore.

Preparing for Conference.
The M. E. Church of this city is being put in condition for the holding of the annual Conference which convenes on Wednesday, Nov. 28th. The boarding houses are all preparing to accommodate to their fullest capacity and every effort will be put forth to entertain the Conference in a becoming manner.

Those who are prepared to take boarders should hand in their names, stating the number they can accommodate and the price charged, to Rev. L. W. Crawford or Mr. J. H. Carter. This should be done at once.

SAVED HIS SIGHT.
MR. A. K. HAWKES—About a year ago I procured my first pair of glasses from some dealer, but they strained my eyes and caused them to ache. I then bought a pair of your Crystalized Lenses, and the effect has been wonderful, as a proof of which I do not use any glasses now and see as well as ever. F. E. DANIEL, M. D., Ed. Tex. Med. Federal Department of Agriculture.

WASHINGTON, Nov. 10.—The Department of Agriculture reports a good season for cotton picking during October in the southwest, and only moderately favorable weather in the Atlantic Coast States. The wet weather of September proved very injurious to quality, prostrating plants and rotting bolls, causing blight and shedding and injuring the prospects of the top crop. There is much stained fibre, and the quality is much poorer than that of previous years. Picking was late commencing but there has as yet been no killing frost, rendering possible partial compensation as to length of season. Indications of the yield per acre average the same as last year at this time, though the previous condition of the plant scarcely warrants the expectation of so much late growth and harvest outcome in November and December. The States west of the Mississippi report a slightly larger yield than last year, while Georgia, Alabama and Tennessee indicate a slight reduction. The other States indicate nearly the same expectation as at this date last year.

The returns of the yield of corn made to the Department of Agriculture indicate the yield per acre quite as large as that of 1885, and larger than any other crop since 1880. The aggregate will exceed that of any previous American product, being very close to 2,000,000,000 bushels, or about 32 bushels per capita, which has been exceeded in several previous years. The corn surplus States average yields is as follows: Ohio 35.2 bushels, Indiana 35, Illinois 36.2; Iowa 37, Missouri 31, Kansas 27, Nebraska 36. These seven States produce 61 per cent of the crop aggregate. The general average, will fall somewhat under 27 bushels. There is a good supply of maize in nearly all parts of the South, so that comparatively little will be required from the West. The yields of the Atlantic States are moderate, seriously reduced by frost on the northern border.

After three years of low yields potatoes give an average of about 80 bushels per acre or nearly the rate of yield of 1879. The averages of prominent potato-growing States are as follows: Maine 110 bushels; New York 83; Pennsylvania 93; Ohio 80; Iowa 90; Minnesota 95; Dakota 80; Nebraska 80. The yield has been increased in the South. It is high in the northern belt of the Territories. The total product on the basis of these averages is about 195,000,000 bushels, or 61,000,000 more than estimated product of 1887.

The average yield of buckwheat is approximately 13 bushels per acre, and the crop is nearly 11,000,000 bushels. The average for New York is 11 bushels; Pennsylvania 14; Michigan 12.5; Indiana 14.4; Illinois 12.8; Wisconsin 9.5; Minnesota 11; Iowa 10.8; Missouri 10.7; Kansas 9.5; Nebraska 11.5.

The hay crop is slightly above the average in yield, or 1.22 tons per acre. It has been seriously injured by the drought. There is a strong tendency to an increase of area in the South, and the yield upon cultivated areas rather than natural meadows are relatively large.

Salvation Oil, the greatest cure on earth for pain, has made a most brilliant debut. Price 25 cents.

Philosophers say that affairs should always be conducted with a view to the greatest good of the greatest number. Dr. Bull's Cough Syrup does the greatest good to the greatest number. 25 cents.

ADVICE TO MOTHERS.
Mrs. WINGLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Kinston Items.

Hurrah for Shade Wooten
The cotton crop continues to come in slowly.

Our young men who went West some months ago are doing well.

Mr. E. S. Fordham of Jones county, has advertised his personal property for sale with a view of moving to Kansas.

The boys of old Pink Hill did their duty nobly in the recent election, rolling up over one hundred majority for Simmons. "Old 75" brought up the rear guard and came very near making it unanimous.

The Republicans had a grand parade last Saturday night. There were about one thousand colored brethren in line "rallying for Cheatham. Speeches were made by W. W. Dunn, Chas. H. Brown and R. F. Parrott. The crowd behaved well and everything passed off quietly.

The defeat of Col. N. B. Whitfield for the State Senate is deeply regretted. The majority against him is only fourteen votes. More than twice this number of Democratic votes were thrown away on the Prohibition candidate and the fence law candidate.

Mr. J. T. Eaton was attending court looking after the interest of the Jura vat and talking up the meeting of the State tirany which comes off on the 11th of December. Board has been obtained for delegates at one dollar per day and Kinston is arranging to give them a hearty welcome.

Many are the regrets of Simmons' defeat in this Congressional district. He will always be remembered as an able, faithful representative of his constituents and his services will be demanded again in the near future. The people can not afford to let such a man retire from public life.

Capt. J. M. White has begun work on his factory to be located on the river bank near Parrott's bridge. He will manufacture the various hard woods to be found in our forests into articles of usefulness. We trust this is the beginning of manufacturing enterprises which our town must turn its attention to if we expect to advance in material prosperity with other towns in the State.

David G. Reynolds, an old citizen living near Nobles' mill, died a few weeks ago. He lived in an obscure way of the way, but accumulated quite a little competency which he kept on interest, but was nearly all lost in consequence of the war. Since the war he has been robbed several times of his personal effects, but he continued to struggle for existence and obtained an honest livelihood until he was called hence.

The Superior Court is in session this week, Judge Boykin presiding. He held court in the extreme western portion of the State last week and did not arrive until Monday night. Due notice having been given, jurors, witnesses and suitors did not attend until Tuesday. W. A. Jones, Esq. of Pink Hill, was selected foreman of the grand jury which is an excellent body at this time. There are many trivial cases on the docket, but none of a serious nature. Judge Boykin is a most excellent Judge, fair and impartial, patient but firm, quick without being hasty, he dispates business to the general satisfaction of suitors and attorneys. Solicitor Allen is one of the most conscientious and energetic officers in the State. He seeks to vindicate the law and advance the material interest of the people of his district. No petty spite can find encouragement in his court and favoritism is unknown to him.

Mr. R. M. Abbott of Contentnea Neck township died at his residence on Monday, Nov. 5th, aged about 65 years. The death of such a citizen deserves more than a passing notice. He began life as a wage worker and by his industry, energy, economy and honest efforts accumulated quite a little estate for a country farmer. He served in the late war as a Confederate soldier, has been one of the board of county commissioners for two years and was re-elected last June for another term. True to principle, bold and outspoken in condemning wrong and advocating the right, he had the courage of his convictions and none dared to molest him in the exercise of his privileges as a free man. He was a member of the Union Baptist church, was a Christian gentleman, a kind husband and father, a good neighbor and a devoted member of the Patrons of Husbandry. He had the confidence and esteem of all who knew him. A good and useful citizen is gone.

The baby has its preferences as well as anybody, and the taste of Dr. Bull's Baby Syrup renders it acceptable to every infant. Price 25 cents a bottle.

You are aware of course that inactivity induces dyspepsia with all its wretched consequences. The remedies needed for such cases are judicious exercise and Laxador. Price 25 cents.

Ask your dealer for Old Virginia Cheroots. 5 for 10 cents. 2m F. ULRICH, Wholesale Agent.
