**T**o those who have been smoking Proclamation Cigars, manufactured at Factory No. 1017, and sold in this city to the wholesale and retail trade by The Grocer, E. B. Hackburn, I would say that since some merchants have been so very kind as to have a cigar put up at another factory bearing the same name, brand, caution label, etc., as the cigars which I have advertised for over a year, I have had a still better cigar manufactured and the brand registered, and it is really the best 2 for 5 in the United States. Remember the brand. Old Hickory. Factory No. 1017. Try them.

## LOCAL NEWS.

**NEW** ADVERTISEMENTS. C. E. SLOVER—Raisins, etc. A. MILLER—Boss milk lunch biscuit.

**Our** shelled streets begin to need another covering of shell.

**Some** very fine planted oysters in market yesterday. Bring more Conference week.

**Let** every farmer in the adjoining counties prepare something for the Fair. Valuable premiums will be given on the best exhibits.

**It** is reported that there is not a vacant house in the city. There is plenty of lumber at our saw mills and mechanics are ready for work.

**Sheriff** Stimson predicts a warm winter. With an acre of slab wood for sale one would think that he would expect very cold weather.

**John** W. Stewart has charge of the omnibus and will fill orders for passengers or baggage left at Hotel Albert or at his office on Broad street.

**Stimson's** mills are now cutting fifty thousand feet of lumber per day. His already extensive dry kilns will be enlarged soon. What a pity it is we haven't got a furniture factory with one hundred hands employed to work up a large amount of this lumber.

**Prof. H. T. Murtha,** who has been teaching short-hand in the city for the past few weeks, left yesterday on the steamer Mantoo for Norfolk. Since he has been in New Berne we believe he has given entire satisfaction in his teaching. Prof. Murtha has conducted himself gentlemanly and in our judgment is a master of his profession.

**Reduced Rates.** The A. & N. C. R. will give reduced rates to Goldsboro and return on the 21st inst., the time of holding the Catholic Fair. Round trip from New Berne and return \$3.15. Good for three days. Tickets will be issued only to those who have certificates from Father Chas. E. Burns.

**Pay Your Taxes.** Sheriff Stimson has given notice that the taxes for 1888 must be paid forthwith. He is compelled to settle the State and school taxes at an early date and farther indulgence cannot be expected. Walk up to the Captain's desk and settle.

**Vote of the Ninth Senatorial District.** Sheriff C. H. Fox of Jones, deputy Sheriff J. F. Cox of Onslow, and deputy T. S. Forlaw of Carteret, met at Pollockville yesterday and compared the vote according to law. The returns showed 2,877 votes for Benjamin Brock, the regular Democratic candidate, and 1,819 for John N. Whitford, giving Brock a majority of 1,558.

**Acute** rheumatism is an inflammation of the joints, marked by pain, heat and redness. With these symptoms apply Salvation Oil, the great pain-remover, at once. Price 35 cents a bottle.

**Nothing** tries the patience of a man more than to listen to a speaking cough, which he knows could easily be cured with Dr. Bull's Cough Syrup.

**One** of New Berne's Valuable Industries.

**Mr. J. A. Meadows** having rebuilt his grist mill that was destroyed by fire about a year ago, is now back at the old stand and in better trim for making meal and feed than ever before. The main building where the mills are run is four story, large and commodious, with elevators to carry the grain or meal to the different floors. Two mills have already been put in and several others are to be added at once, giving a capacity of seven to eight hundred bushels per day. A large warehouse for the storage of grain from boats, one for the storage of meal and feed, and the brick boiler and engine room, constitute the other buildings. The mills are run by a seventy horse power engine with one hundred and twenty horse power boiler. The machinery, mills, elevators and fixtures are of the latest style, and altogether constitute one of the best mills in the South. Meal for bread and feed for stock are turned out in great quantities, and with the embargo of the R. & D. R. at Goldsboro taken off many towns in the State would be supplied from these mills.

**Another** important industry is the fertilizer factory which is located at the old cotton factory site near Union Point. It is owned and conducted by Messrs. E. H. & J. A. Meadows. Here all kinds of chemicals, phosphates, potash, kaint, fish scrap, and all other material of manurial value, are being manipulated into standard fertilizers, which the past year have proved valuable on all kinds of crops grown in this section. They have large storerooms and the capacity of the mills is twenty-five tons per day.

**We** rejoice to see such prosperous enterprises, yet we feel sad when we know that all our enterprises of this nature are hedged in by the associated railroads, and railroads that our own State built extend no helping hand to encourage, but rather discriminate against them.

**We** call upon Judge Fowle now to investigate the condition of our section in regard to its facilities for reaching the interior and western portions of the State, so that, if he concludes, as is fashionable nowadays, to have a POLICY in regard to the A. & N. C. R. to have one that will redound to the interest of those who have been burdened with the construction of the road, and not one to please a few railroad manipulators who care for nobody's interest but their own.

**Board of Trade Meeting.** An interesting meeting of the Board of Trade was held last night. A large number was in attendance and matters of vital interest to New Berne and this entire section were discussed at length. We think good will come of the meeting of which we will have more to say in the future, if the people here will unite and make an earnest effort.

**Steamer Movements.** The Eagle of the E. C. D. line arrived yesterday and will sail this afternoon at 4 o'clock.

The Mantoo of the O. D. line arrived and sailed last night with full cargo of cotton, etc. The Newberns will arrive tonight.

The Tahomah will leave for lower Neuse and Bay river at 8 o'clock this morning and return Monday morning.

**Testimonial.** We, the undersigned, pupils of Prof. H. P. Murtha, take pleasure in testifying to the surprising progress made by us in Stenography under his tuition. The science of Stenography has hitherto appeared to us as one of the unattainable sciences, except by the utmost perseverance and undivided application, but under the system introduced among us by Professor Murtha, we have in the course of less than three weeks been enabled to reach a rate of speed in writing Stenography which far exceeds our most sanguine expectations and far in advance of the guarantees offered us by the Prof. on entering his class, being enabled in the short time stated of writing from one hundred words in one minute to one hundred words in three minutes according to our respective applications. We cordially recommend Prof. Murtha to any one desiring to study this science, as a courteous gentleman, a patient and untiring teacher and master of his profession.

"We feel truly grateful to the Prof. for our wonderful advancement under his system and are gratified at the results of his efforts."

"We wish him that patronage in such other localities as he may visit, that his system and skill in imparting his knowledge so greatly deserves."

**Signed** as members of his class in Stenography: New Berne, Nov. 16, 1888. O. H. GIBSON, Atty. P. H. PALLETIER, Atty. E. B. ROBERTS, Agt. O. D. S. Co. J. REDMOND, Merchant. E. E. HARRIS, Daily Journal. ROSCOE SNEY, A. W. WOOD, Agt. A. & N. C. R. W. G. BOYD, Train Disp. And other pupils.

**Ask** for Old Virginia Cigarettes, 5 for 10 cents. Take no other. F. ULICH, Wholesale Agent.

**After** the Sugar Trusts.

**NEW** YORK, November 14.—The suit brought by the Attorney-General on behalf of the people of the State of New York against the North River Sugar Refining Company, to dissolve that corporation on the ground that it had exceeded the privileges granted it by its charter in becoming one of the members of a great sugar trust on October 1, 1887, and other sugar companies, were brought to trial today in the Supreme Court. The action is one of the results of the Senate investigating Committee of last winter, which for the first time brought to light a deed of fraud under which the different sugar houses formed a combination. It was substantially agreed at the outset by counsel that there would be no controverted question of fact for the court to pass upon, but it would merely be a question of law. The formality of drawing a jury was then gone through with, the jury were told as the only question at issue was one of law for the court to pass upon their services would not be needed in the trial. They were only required to be present at the end of the case to go through the formality of rendering a verdict as directed by the court. The counsel agreed that the testimony to be offered not take any very great length of time, and today they would ask to have the case adjourned until Wednesday next in order to argue the points of law. With this understanding the jurors were dismissed until next Wednesday. Attorney-General Labor opened the case for the people and the taking of testimony began. The witnesses are some of those who were before the State Committee, and also before the Congressional Committee investigating the trusts, and the facts they stated have a ready bearing on the case.

**Virginia's Vote.** WASHINGTON, Nov. 14.—Gen. Mahone in his consultation with Senator Quay and others declares his ability to prove that a majority of the voters in Virginia on the 8th inst. were in favor of the Harrison and Morton electors. He charges that the Democrats returned officers marked up Democratic returns for several of the counties, and in some instances marked up twice. It is understood also that it is claimed two or three Republican candidates for Congress were elected, and in the Richmond district it is said a narrow majority has been made that seven hundred Republican voters, all of whose names are given, were unjustly prevented from depositing their ballots. Gen. Mahone says Harrison and Morton are fairly entitled to Virginia, and if it is not conceded to them there will be some fun. It is said that his visit to Baltimore last night was with a view to consultation with Judge Bond, before whom proceedings will probably be brought in case it is concluded to appeal to the courts. Gen. Benjamin F. Butler, who has come into the case as counsel, with his usual fertility suggested various methods of action, but it is not understood that up to this time anything definite has been determined upon. Gen. Butler spoke of one difficulty—the very decisive manner in which the Republican party had committed itself in the contest of 1876 to the principle that it was not proper to go behind the returns.

**The Catholic University.** BALTIMORE, Md., Nov. 13.—At four o'clock this afternoon a meeting was held at the Cardinal's residence of the board of directors of the Catholic University of America. The principal business of the meeting was an examination of the statutes and laws of the University. The statutes are to be presented for approval to Pope Leo XIII. Bishop Keane is commissioned to go to Rome, and present them to the Holy See. He sails next Saturday morning. Bishop Keane is also authorized to confer, while abroad, with the learned men of Europe in regard to the future corps of professors for the University.

**During** his absence all his duties will be discharged by the newly appointed vice-rector of the University, Rev. Philip J. Carrigan, D. D., who was commissioned today. Mr. Carrigan goes tomorrow to take up his residence in Washington. He will reside with Father Chappelle at St. Matthews until the completion of the University. Bishop Keane will be absent about four months.

**The Presidential Term.** NEW YORK, Nov. 13.—The Herald this morning devotes an entire page to the expression of opinion of prominent men upon the question of extending the term of office of the President of the United States to seven or eight years. It is claimed that the shrinkage in the internal commerce and business of the country during the past four months, traceable to the apprehension, excitement and other conditions dependent upon the Presidential campaign, amounts to not less than \$500,000,000, and the Herald argues that this and other reasons advanced justifies the extension of the term of the Presidential office.

**Among** those quoted as favoring an extension are: Chauncey M. Depew and Sidney Dillon, both of whom think six years about the proper length of time for which a President should be elected.

**SAVED HIS EIGHT.** Mr. A. K. HAWKES.—About a year ago I procured my first pair of glasses from some dealer, but they strained my eyes and caused them to ache.
