A COLD wave is reported advancing in this direction.

GEN. MAHONE is spoken of as the next Republican candidate for Governor of Virginia.

THE Wilmington Review has hoisted the name of Charles M. Stedman for Governor in 1892.

M. GOBLET, French Minister of Foreign Affairs, has felt impelled to enquire of England why she has appropriated two of the Tonga islands.

It is stated that Hon. John Nichols, member of Congress from the Raleigh district, bids fair to be made public printer under the Republican regime at Washington.

THE fact that this government is based on manhood and not upon money is one which needs to be frequently hammered in upon the dull consciousness of our would be plutocrats.

THE Washington Post of the 16th contains a pen picture of Col. Oliver H. Dockery, of this State, together with a strong recommendation for an appointment in Mr. Harrison's Cabinet.

A LATE copy of the Philadelphia Ledger says: Here we are hearing the middle of January, with bricklayers and stone masons at work outdoors on stone walls just the same as if there was no such thing as winter.

MINISTER PHELPS is to leave London for home at the end of this month, it is stated, and in the English metropolis the fact is ascribed to Salisbury's masterly inactivity in relation to the vacancy made by Lord Sackville's recall.

A JOINT caucus of Pennsylvania Republican Senators and Representatives has decided that the proposed prohibition amendments to the Constitution shall be passed at once, and that the question shall be submitted to the people at a special election to be held on June 16 next.

THE Durham Cotton Manufacturing Company have just declared a semi-annual dividend of 6 per cent, making 12 per cent on their capital stock during the past year. So it is all over the South. Every Southern cotton factory under competent management is making money.

DI MURSKA's death in poverty is another reminder of the world's cold forgetfulness. A beautiful voice that charmed millions in this country and Europe made her a petted and much applauded woman.

Its sudden loss and ill health reduced her to poverty and no generous voice ever called her from it. Her daughter, crazed by her mother's death and poverty, took her own life in despair.

THE moral tone of the dominant element in the Republican party is indicated by the renewed probability that John Wamamaker is to be given a place in President Harrison's Cabinet. Col. Holloway, a prominent Republican of Indianapolis, speaking of the contingency, says: "There is no reason why he shouldn't appoint him. Practical politics elected Gen. Harrison, and he will do well to recognize them."

DR. ATTICUS HAYGOOD, the well known laborer in the cause of negro education, demands justice for the Southern States in the public impression of what they are doing for negro schools. He says that since 1870 Virginia has spent \$4,000,000, Georgia \$2,500,000, and Alabama \$3,500,000 for negro schools and teachers. The South claims to be doing all she can for her colored youth, and must do so as a simple principle of self preservation and progress.

## LOCAL NEWS.

**NEW ADVERTISEMENTS**  
C. E. SLOVER—Seed potatoes.  
W. B. FLANNER—Dry goods, etc.  
J. F. TAYLOR—Cassard hams, etc.

Nine delegates left yesterday for Raleigh in the interest of the railroad meeting.

Yesterday was a clear and beautiful day, but after night it clouded up and showed appearance of falling weather.

The steamer Newberne brought in upon her deck yesterday a beautiful little craft to be driven by naphtha. It is for government service at Beaufort harbor.

The regular meeting of the general managers of the Ladies' Department at the Fair will be held this (Tuesday) afternoon at 4 o'clock at the residence of Mrs. Manly. The committee on Art and Curious is requested to join them.

The entertainment at the theatre tonight will be well worth seeing. The press generally, speaks in very high praise of Miss Nahr as an elocutionist and dramatic reader. Reserved seats can be secured at Bell's jewelry store.

The roads in the country are reported to be in very bad condition even considering the recent heavy rain-fall. Good roads and good streets and sidewalks are among the first things that a county and city government should look to.

The busy light at Pamlico Point is out and the fact occasions great annoyance and no little danger to vessels plying in that vicinity. We trust our Norfolk exchanges will note this, in order that the attention of the proper authorities may be called to it.

The ladies of Piney Grove, Jones county, expect to have a festival the evening of February 14th, for the benefit of the church and hope to have a large attendance, as they are very anxious to have the church nicely repaired before the next Association which is to be there in October. Now, gentlemen help them and the work will soon be accomplished. They extend thanks to the steamer Howard for \$5 sent for the same.

Elsewhere appears a communication signed "Delegate," one of a committee appointed by the Board of Trade of New Berne to attend a railroad meeting to be held in Raleigh today. It seems that an arrangement had been made by which it was agreed that if fifteen would go the Atlantic & N. C. Road would furnish round trip tickets at \$4.00. Thirteen were at the depot ready to pay for fifteen tickets, and we see no reason why they were not permitted to do so.

We Appreciate.

The State Chronicle, ever ready to speak a good word for this section, speaks as follows in regard to our Fair: "February 19th, 20th, 21st and 22nd are the dates for holding the second Fair, Oyster, Game and Industrial Exposition at New Berne. It will be an affair well worth attending. The Chronicle will refer to this Exposition again and tell of the attractions to be offered."

If some enterprising fellow would now corner the market on Dr. Bull's Cough Syrup he could make his fortune. Beware of frauds.

"For I am declined into the vale of years," she said a little sadly, but indeed I don't much mind it since I can get Salvation Oil for 25 cents.

## Is There to be no Lumber Exhibit?

We have not heard yet whether there is to be an exhibit of lumber and woods at our Fair. The lumber business is one of our most important industries and it should not be overlooked. There is a premium of \$15.00 offered on the best and largest display of dressed lumber and we are in hopes that some of our saw mill men will find time to have this department represented. The exhibit last year was a good one and attracted considerable attention. Nearly every variety of wood that North Carolina produces is in close proximity with New Berne and to get them so as to show to advantage would cost but little. Will not some one see that this important interest is not overlooked?

## Shipping News.

The steamer Vesper of the E. C. D. line arrived Sunday with full cargo of general merchandise. The Eagle of this line sailed yesterday with full cargo. The Vesper will sail at 4 o'clock tomorrow afternoon.

The Newberne of the O. D. Line sails today at 12 o'clock for Norfolk. The Manteo of this line will arrive tonight. The schooner Chas. P. Sinnickson is at the railroad wharf unloading kaint for the Oil Company at Goldsboro.

## A Heavy Invoice.

The large wholesale house of H. B. Duffy received yesterday in bulk a shipment of shoes to the value of upwards of \$6,000. By hard work and close application to business Mr. Duffy has built up an immense business. His trade has been reaching out until it has penetrated even farther than the adjoining counties.

## Honor to Whom Honor is Due.

EDITOR JOURNAL.—I have seen in a recent issue of some paper that the town of Wilson is more noted for its distinguished men than any other town in our State.

The writer surely knows nothing of old New Berne—so noted for its distinguished men. It was the birth place and home of the great Judge William Gaston. Also of the eminent John Stanley, and of his son Edward Stanley. Also of Rev. Dr. Francis Hawks, the distinguished divine who for years was the greatest pulpit orator in the city of New York; also his brother Rev. Cicero Hawks who for many years was Bishop of Missouri. The Hon. John H. Bryan who for many years lived in Raleigh. Also his brother James W. Bryan known as the finest orator of the New Berne bar. With these was Judge M. E. Manly, an eminent jurist.

Later, Hon. C. C. Clark, Judge Green, Henry R. Bryan, Clement Manly M. DeW. Stevenson, and many other talented gentlemen of the New Berne bar of today. With these are her doctors who are the equals if not the superiors of any in the State. Last though not by any means least, is John S. Long, the orator, of whom it has been said, by one fully capable of judging, that his reputation as an orator is national. No city or town in North Carolina can show such a record, and the list might be much lengthened.

It may be proper to say that this writer does not wish in the least degree to undervalue the distinguished gentlemen of Wilson, or make any "invidious comparison," but is simply impelled by an earnest desire to do justice to his native place, a city long known as the "Athens" of our great State.

Yours, &c., OCTOBERIAN  
New Berne, Jan. 27, 1889.

## A. & N. C. Railroad.

EDITOR JOURNAL.—Instead of being in Raleigh, at this moment, as I expected, this morning I am in New Berne, and permit me to give the reason:

The A. & N. C. R. R. Co. advertised if fifteen delegates or more would attend the railroad convention in Raleigh on the 29th inst., tickets for the trip there and return would be sold for \$4.00. This morning there happened to be but thirteen delegates at the depot, who attempted to buy fifteen tickets, agreeably to the published rates. This President Bryan would not allow. Therefore, three or four of our prominent citizens and myself declined to further follow the direction of the "Tom Tit President" and thus are now at home.

If the incompetency of this President could be manifested to the public through the State I have no doubt, with many others, that his re-election would be impracticable. Now let the press publish the facts as they exist, whether they strike down a Governor or a railroad President.

Are we ever to sit quiet and allow others to take us into humble keeping? Instead of encouraging the delegates to attend a convention for the interests of our people and the extension of the road of which he is the chief executive officer, we have here annoying obstruction thrown in the way, either from indifference to our welfare or personal pique or incompetency.

Mr. Editor turn on the light and let us know whether Gov. Seales' statement in his message, respecting the excellent management of this road now is true or false. DELEGATE  
New Berne, Jan. 28, 1889.

One lap (its mother's) for the wall baby in daytime. About 700 laps of the bedroom floor at night for the happy (?) father unless he has a bottle of Dr. Bull's Baby Syrup to ease the little sufferer.

A constipated habit of the body and all of its pernicious effects are quickly removed by Laxador, the great regulator. Price only 25 cents.

## Kinston Items.

Some of our teachers are talking of taking a teacher's European excursion next summer.

We were very glad to meet Mr. C. H. Woodley, of the State Normal School, who was on a flying visit. He has many friends here.

Miss Kate Galloway of Goldsboro, came down on the Thursday train to take charge of the Art Department of Kinston College.

The river is rising, and the mud frog is piping his cheery note in the lowlands. It seems that winter has abrogated his claims in favor of spring.

A walk into our drug and seed stores gives you a flavor of spring time. Truckers are getting ready for an early campaign, and if the signs of the time do not fail, we shall have an early spring—ending with frost and ice.

Eight prisoners escaped from the county jail here on Wednesday night. They took advantage of the noise and confusion attending the free, open air exhibition of the Indians to prize up some of the iron bars which formed the ceiling of their cell. The poor fellow was left behind, to sustain his fate on account of his fat. He was too large to go through the liberty hole. They were waiting in prison to be hanged out in order to work out their sentences. Steel cells, then, can be broken out if it seems. But there must have been some outside aid.

## Earthquake in Colorado.

DENVER, Jan. 25.—Information just received from Routt Colorado, states that a portion of the State has been treated with a genuine earthquake. The shock commenced on the afternoon of the 15th inst., and at 7 o'clock there were violent ones which shook small buildings, detached large masses of rocks from the mountains, and greatly frightened the people and animals. Cattle were especially terrified, and ran frantically back and forth. Thunder preceded the shocks, but there was no rain.

A peculiar phenomenon was observed at Hot Springs. Below the government bridge the productive of great gushes of water and gas, fully three times as much water as gas was thrown out, and accompanying it was a most sulphurous stench that made the people sick and the birds to drop to the ground. When the convulsions ceased the water receded, and there was a sound like the rushing of a great river. The course of the shocks was from south to north.

## They Washed Him With Coal Tar.

FALL RIVER, Jan. 24.—Sun Sherman was a boarder with Clark King who lived with his wife on the King road, near Bliss Four Corners Turnout. R. I. The attentions of Sherman to Mrs. King excited the neighbors, and twenty of them went to the King house supplied with coal tar. They invited Sherman, who had been previously notified to leave town, to come out. As soon as he did so he was seized by the mob, and his head, face and hands covered with tar. He was then told to run and not to stop till he dropped. Under an impetus from the crowd he started and came to the Niagara engine house in this city. He made his way to the station by the next train, and has not been back to Fall River since.

## Are the Ju's Will's Roused?

OLUMBUS, Ga. Jan. 24.—There is a rumor current among warehousemen that an important deal has been consummated by the Standard Oil Company by which the whole petroleum industry of the country is to be affected. It is stated that stockholders of the Standard Oil Company have purchased the patent process for making pine-straw bagging that they will establish factories all over the country, wherever they have oil wells, and that their bagging will enable them to break down the jute mills.

## Sixteen Missionaries for Revenge.

LONDON, January 26.—The British foreign office has received a dispatch from Zanzibar stating that the Arabs engaged in the slaughter of Missionary Brooks and his sixteen followers sent word that the deed was committed in revenge for England's anti-slave trade policy, and that missionary work in central Africa was to be exterminated.

## The Verdict Unanimous.

W. D. Salt, Druggist, Rippon, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of 10 years standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at R. N. Duffy's wholesale and retail drug store. Large size, \$3.00 per dozen, wholesale.

## Anniversary of Gen. Gordon's Death.

LONDON, January 26.—Today is the third anniversary of the death of Gen. Gordon, and his statue on Trafalgar Square is covered with flowers and wreaths in memory of the brave soldier.

I HAVE been a sufferer from catarrh for the past eight years. Having tried a number of remedies advertised as "sure cures" without obtaining any relief, I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy.—an invaluable Balm.—Joseph Stewart, 684 Grand Av., Brooklyn.

## A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she stood its severest tests but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. The thought of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking the dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz. Thus wrote W. C. Hamrick & Co. of Shelby, N.C. Get a trial bottle at R. N. Duffy's wholesale and retail drug store. Wholesale \$3.00 per dozen.
