A Message to Congress from the President on the Samoan Affair.

WASHINGTON, January 30.—The President today sent to Congress additional correspondence relative to Samoan affairs, accompanied by the following message:

To the Congress:—I had the honor on the 15th instant to communicate to your honorable body certain correspondence and documents in relation to affairs in the Samoan Islands, and having since received further dispatches from the Vice Consul at Apia and the commander of the United States naval vessel Nipisic, in those waters, I lose no time in laying them before you. I also transmit herewith the full text of instructions from Prince Von Bismarck to the German Minister at this capital, which was communicated on the afternoon of the 25th instant. This appears to be an amplification of previous telegraphic instruction on the same channel, communicated through the same channel, and which being set forth in a note of the Secretary of State to Count Von Arco-Valley, German Minister, of the 12th instant, was duly laid before Congress with my last message in relation to Samoan affairs. It is also proper to inform you that on Monday, 28th instant, on occasion of the communication of the note of Prince Chancellor, the Secretary of State was given to understand by the German Minister that a proposition from his government to that of the United States, for a conference on the Samoan subject, was on its way by mail, having left Berlin on the 20th instant, so that its arrival here in due course of mail can be looked for in a very short time.

In reply to an inquiry from the Secretary of State, whether the proposition referred to was for a renewal of the joint conference between the United States, Germany and Great Britain, which was suspended in July, 1887, or for consideration of Samoan affairs of a new nature, the German Minister stated his inability to answer until the proposition, which left Berlin on the 20th instant, should have been received.

I shall heretofore communicate to Congress all the information before me in relation to the Samoan status.
GROVER CLEVELAND.

I HAVE been a sufferer from catarrh for the past eight years. Having tried a number of remedies advertised as "sure cures" without obtaining any relief, I had resolved never to take any other patent medicine, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 634 Grand Av., Brooklyn.

The W. E. Infantry have received orders to be turned out recently with them on their back well and comfortably.

Some merchants of this town find it necessary to have goods which they buy in North Carolina, and are manufactured in the State, shipped via Richmond and Norfolk, thence by O. D. L. to this place, and by doing so save 50 per cent on freight. Should a railroad be built to here by a strong corporation, and it get control of the freight, wouldn't we pay some freight, and don't you forget it.

An apparatus for pulling snags and logs from the river was lowered up the river on the 25th. It was operated so we hear, above Tarboro. It was the best for skiffs that are used in skimming.

Married recently by J. E. Harrison, J. P., at Mableville, Mr. J. B. Wainfield to Miss Annie Fisher. On the same day by the same J. P., Mr. A. B. Reddie to Miss Della Fortson, at Farmington.

Married at Farmington at the residence of Mr. E. R. Swindell, his youngest daughter, Miss Louisa to Mr. R. D. Adams of Havelock, N. C. Price making the happy couple one.

Cannot Impose Upon Americans.
VERNA, Jan. 28.—The Pecker Lloyd and other Hungarian papers, in discussing the Samoan question, favor American opposition to German's encroachments. The Pecker Lloyd says:

"America cannot allow German supremacy in a place which is acquiring enormous commercial and strategic importance. After the isthmus of Panama shall have been opened, the military prestige of Germany will not impose upon Americans, who have no occasion to concede to German claims."

The North German Gazette says: "Advices from San Francisco show that the Chamber of Commerce there is the most active element in the opposition to Germany's policy in Samoa. The anti-German feeling is heightened by the action of Mr. Sewell, the American Consul in Samoa. There is no conflict between Germany and America. It is only with Sewell and the American officials in Samoa, who are anxious to cause complications."

A Young Town and Living Men.
EDITOR JOURNAL.—(O)rganizations all wrong in his premises, as well as his conclusions. It was stated simply and substantially that for a young and small town, Wilson had been the home of more men of distinction, now living, than any similar town of the State.
