The Century for 1880.

HE question has offen been asked, "to what does The. Century owe its great circle lation ?" The Christian Union chice answered this by the statement that "It has been fairly wea, not by adver-

tising schemes, but by the excellence which characterizes it in every dopertment." In their announcements for the coming year the publishers state that it has always been 'heir desire to make The Cent-ry the one indispensable periodical of its class, so that whatever other publication might be desira-ble in the family, The Century could not be neglected by those whowish to keep abreast of the times in all matters pertaining to culture. And the unprecedented circulation of the magazine would seem to be the response of the public to this intention. a With the November sumper The Century

begins its thirty-sevenili volume. Two great finiures of the magazin which are to contains throughout the new volume are already well ( known to the public, the Lincoln history and the papers on "Siberia and the Exile System." The first of these, written by Messrs. Nicolay and Hay, President Lincoin's private secretaries, contains the inside history of Link dark days of the war, as seen from the White House a .

Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she stood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she s'ept all night and with one bottle has been miraculously cured.
