BUSINESS LOCALS.

JAMES REDMOND, WHOLESALE LIQUOR DEALER, has just received a good assortment of Native Wines and Brandy, and also some of the famous California Wine known as the "Angelica," made from the famous and delicious Angelica Grape. This Grape is only successfully cultivated in the Southern part of California; it is a very delicate grape and requires certain conditions of climate to bring it to excellence, which conditions are only met in that paradise of the United States. His native North Carolina Wines and Brandy from the vineyards of Garrett & Co. and J. Wharton Green are of very superior quality and are very pure. feb 1m

BOULANGER'S election was followed by a fall of rents.

The State of New York has spent \$18,000,000 on its capitol.

The Cincinnati Enquirer speaks of Indiana's capital as Harrisonapolis.

The street car strike in New York city continues without any visible prospect of a settlement.

SMALL fruits are in favor this season. A Plum and a Berry have been elected to the United States Senate.

The Jackson Memorial Association of Lexington, Va., has ordered a bronze statue of Stonewall Jackson to cost \$30,000.

"It is said that Walker Blaine will lead the cotillion at the inauguration ball. His father will turn his attention to the Germans later on."

MR. PRESTON, the Haytian Minister, has informed the Secretary of State that several vessels are being fitted out in New York for an expedition against Hayti.

SPEAKING of the inauguration ball a Washington correspondent says: "The admission ticket is an engraved card with a 'V' in the corner."

The Senate has adopted an amendment to the diplomatic and consular appropriation bill giving the President \$500,000 with which to protect American interests at Samoa.

R. G. DUNN & Co's Review of Trade for the week ending January 31, says: "Dissatisfaction with the state of trade is increasing, and the failure of merchants to distribute the goods purchased in expectation of the usual demand for the season, causes numerous embarrassments and general complaint as to collections."

The Wilmington Messenger says: "A man has just died in Cabarrus county who once fished his life to save his Colonel, Hon. William Henry Harrison Cowles. But the striking thing about it is

that Colonel Cowles did not forget the obligation. He has regularly remitted the old soldier money to relieve his necessities, and last Christmas sent him a check for a handsome amount. This is the sort of a man to tie to."

SPEAKING of the proposed railroad commission the Statesville Landmark says: "It will be no place for disappointed politicians, and the places should not be distributed on the ground of party services." Correct. But we trust past services will not prove an insuperable barrier to official position in North Carolina.

The Wilmington Star says: "Wanamaker is a self-made man. That is to say, he has from a worker in a brick yard got to be a great merchant, and as the capstone to his monument has bought himself into Harrison's Cabinet. He owns the biggest retail store in America, is superintendent of a Sunday school with 3,000 scholars, the biggest thing in America, has never been to a circus or theatre, does not drink or smoke, and has the honor of having raised more boodle with which to bribe electors than any other man in the country. Wanamaker does things on a big scale. He gave Harrison \$100,000 and that brought down the game."

The Charlotte Chronicle of February 24 publishes the following: Mr. Robert Hayden, Editor of the Chronicle, Charlotte, N. C.: Dear Sir—In order that Senator Vance's friends may know the exact truth as to his condition, I write to say that the operation was promptly and most skillfully performed, and it has been attended with the best results. No further trouble is apprehended, and he is getting along splendidly. He has been comforted by expressions of sympathy from friends in the Senate and in this city, and has been deeply touched by the kindly and solicitous enquiries from the people of his own State. Very truly yours, **CLIAS. N. VANCE.**

Granted License.

Meers. J. M. Brinson, R. B. Nixon and H. L. Gibbs passed examination before the Supreme Court on Saturday last and have been granted license to practice law. Mr. Brinson is a graduate of Wake Forest College and studied law with Clark & Clark of this city. Messrs. Nixon and Gibbs studied law with Simmons & Manly of this city, the junior member of the firm being the principal instructor.

We congratulate these young men upon their success. We know they have been well prepared and we predict for them a brilliant future.

Personal.

Prof. W. R. Skinner, of Vance Male and Female Academy, at Pollockville, was in the city Sunday. The spring session of the Academy has opened well and bids fair to be the most prosperous of any previous session. Prof. Skinner is a man full of energy and go-ahead-iveness and has competent assistants.

Mr. Jas. A. Bryan and Capt. Matt. Manly left yesterday morning for Augusta, Ga., to be present at the marriage of Mr. Chas. S. Bryan which takes place tomorrow.

After Many Years.

We met in the city yesterday Mr. A. C. Clark who was born in No. 1 township, not far from Vanceboro, of this county and left here fifty-six years ago. His home is now at Lafayette in Walker county. This is his first visit to his old home, and as he is now sixty-six years old he does not expect to ever return again. He leaves this morning, taking along with him a young man whose name is Seth Sutton.

Mr. Clark says there has been many changes since he left here, not only in this vicinity but in the whole country. When he left here fifty-six years ago it took eight weeks to make the trip to Walker county, Georgia, now he can make the trip in two days. Quite a change in distance at least.

Kinston Items.

Mr. and Mrs. Wallace are on a visit to Kenansville.

Mr. John Green and wife have been visiting relatives in town.

Miss Sue McArthur returned to her home at Kenansville on Friday. She has been visiting relatives here.

Mr. Jas. A. McDaniel, a student of Wake Forest College, is at home for a short time on account of ill health.

Two more couples will be joined in the "holy bonds" before very long in our neighborhood. This is a secret and nobody is expected to say anything about it.

We will be compelled to withdraw a statement made in these notes last week, concerning the Indian show. Some of their exhibitions have been seen recently as to bring a blush to ladies' cheeks. Why must it be so?

The young Kinstonians who emigrated to Washington Territory a few weeks ago, have reached their destination, and write back that they are well pleased with their new homes. One of them has already gotten into business.

A large number of our citizens, many of them young gentlemen and ladies, went out to the dedication of the new church at Wise Fork on Saturday. The young people fondly imagined that the old people thought that they were bent only on attending religious exercises; but the older ones having "been there," are not easily fooled.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of an individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1 at R. N. Duffy's Wholesale and Retail Drug Store. Wholesale price, \$8 per dozen.

Attention, Gun Club. Regular meeting tonight at 7:30 o'clock. A full attendance is desired. By order of President, **R. A. RICHARDSON, Sec.**

TRIAL BUSINESS ROOMING. Probably no one thing has caused such a general revival of trade as R. N. Duffy's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthmas, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted. For sale by R. N. Duffy, Wholesale and Retail Druggist. Wholesale price, \$8 per dozen.

An Address to the People of North Carolina.

The citizens of Morehead City and vicinity feeling the necessity of a first-class school where may be obtained a thorough, practical education at a nominal cost, and being assured their town possesses all the advantages as to location, etc., for the permanent organization of an institution of learning that can be made second to none in the State, have organized "The Farmer's Co-operative School Co. of North Carolina," for which they propose to obtain a charter from the Legislature authorizing a capital of \$150,000 to be raised by subscription on shares of stock at \$10.00 each.

Everything connected with the school—buildings, board, tuition, etc., will be operated on the joint stock plan. Certificates of stock will be issued to any person desiring to become a member on payment of the price above mentioned. Said stock to be transferable, and the private property of stockholders to be exempt from all liabilities arising therefrom.

The promoters of this scheme in placing before the public an opportunity to assist in the construction of an institution which they propose to advance to the very highest grade of excellence and which, if pushed and energy count for anything, will be steadily improved until it shall become a shining honor to the hands that raised it and a brilliant ornament to the State that foster it, do so with the full assurance that in location, in climate, in transportation facilities and "hygiene" surroundings, Morehead City can furnish all the advantages that could be possible required in the successful conduct of a first-class college. In latitude 40°-41m North of the equator with a mean annual temperature exactly equivalent to that of Rome, Italy, on a sandy peninsula of light, porous earth that absorbs all moisture in a short time after rain-falls; surrounded on the north by a dense forest of pine that mingles its healing balsam with the air and accents the atmos-

phere for miles around with beautiful perfume, and swept from the south by the ozone-laden breeze fresh from the bosom of old ocean, whose billows lash the beach not a mile away, it is impossible for infection-laden germs of disease to live in such surroundings, and hence the health of Morehead City is all that could be desired.

Then again all the delicacies of sea and land in the way of diet are close at hand and can be had in abundance and at the very lowest cost. Wild fowl of every description, the choicest venison and other game, and fish, oysters, crabs, clams, terrapins, turtles, and every variety of shell fish, all rich in phosphorus, making the very best of brain food, which, according to the highest medical authority, is a great desideratum to the student in keeping up the supply of nerve force needful for close application to study.

Then, too, Morehead City is a quiet, peaceable town, far removed from the noise and bustle of the more active cities, and without the vice and vices of life of the latter, its inhabitants are sober, moral, upright people, most of them members of some Christian Church, which we have to our advantage as a small town in the State, the society refined and elevating. The place is easily approached by railroad and steamer transportation. There the N. C. Teachers' Assembly buildings are located the only institution of the kind in the United States, where annually the best minds of this State and others meet to discuss matters pertaining to education. This alone will be of great benefit to the student.

Besides, the Atlantic Hotel is situated here, the largest in the South, which has been aptly called the "summer capital by the sea," where thousands of people from all over the Union, the very cream of society—spend their summer vacation and which will eventually be filled every winter with wealthy tourists from the North. But time fails us to enumerate half the advantages of Morehead City as a suitable place for a first class school.

For further information on the subject, address J. T. Eaton, President of the N. C. Davis Seminary, Morehead City, N. C. Very respectfully, **T. C. DAVIS, Sec.**
