JAMES REDMOND, WHOLESALE LIQUOR DEALER, has just received a good assortment of Native Wines and Brandies, and also some of the famous California Wine known as the "Angelica," made from the famous and delicious Angelica Grape. This Grape is only successfully cultivated in the Southern part of California; it is a very delicate grape and requires certain conditions of climate to bring it to excellence, which conditions are only met in that paradise of the United States. His native North Carolina Wines and Brandies from the vineyards of Garrett & Co. and J. Wharton Green are of very superior quality and are very pure. fe2 lm

Now they have it, "there is nobody sure but Blaine."

Now Chandler looks more like the beast he really is. His ears are growing. Jo Blackburn did it.

WHY did Blackburn take Chandler by the ear? Because it is the way in Kentucky with such animals.

THERE is fight in John C. New's eye. He feels that he has been wronged by Gen. Harrison and open warfare is threatened.

ON Friday the President sent to the Senate the nomination of James C. Perry, of North Carolina, to be an assistant surgeon in the Marine Hospital Service of the United States.

"JUDGING from present indications the Republican policy has settled down to two objects: Preserving the taxes and spending the surplus; getting the offices and keeping them."

"M. QUAD" of the Detroit Free Press writes to the News and Observer: "I expect to be in Raleigh by the 4th of March to write up Raleigh, Wilmington, New Berne, Charlotte, Salisbury and perhaps other towns."

"PRESIDENT ELECT Harrison has had to let up on his smoking. He has been in the habit of late of smoking from ten to twelve cigars a day, but his nerves could not stand the strain. He has been obliged to cut down his indulgence to five or six cigars a day. He smokes nothing but imported cigars. Does protection protect?"

THE Wilmington Star says: "We see from the Richmond Times that a reply is preparing to Capt. W. R. Bond's stinging pamphlet on the battle of Gettysburg. The Virginians do not intend to have it go down to history that North Carolinians did as well at Gettysburg, or better, as the much trumpeted division of Pickett. North Carolinians must see to it that the brave men who made such a splendid record at Gettysburg are neither defamed nor robbed."

AN observant exchange says: A perfect town is that in which you see the farmers patronizing the home merchants, the laborers spending the money they earn with their own tradesmen, and all animated by a spirit that will not purchase articles abroad if they can be bought at home. The spirit of reciprocity between business men

and mechanics, tradesmen and laborers, farmers and manufacturers, result every time in making a town a perfect one to do business in.

The beautiful steam yacht Viva, Capt. Mitchell, owned by Commodore Weld of Norfolk, is in port. Mr. Geo. F. Weld and friend E. Higgins arrived on board, having been on a pleasure trip through the sound.

"What are de tearin' up dat street so fur?" inquired a colored woman yesterday as she passed George street where contractor Wallace's force had been at work. "De are building a tramroad read up to de State grave yard," responded an old gentleman.

The New Berne S. F. E. Band was out serenading on Monday night. We can bear testimony to the excellence of their music, and we hope our citizens will be ever ready to aid and encourage them in their efforts to make the band what it was a few years ago—the best in the State.

Pearls at the Fair.
Mr. J. J. Ward of Swansboro, had on exhibition at the Fair two large pearls taken one from a clam and one from a fish. They were unusually large and quite handsome. Mr. Ward also brought a very large hornets nest and a fine specimen of clams.

Store and Dwelling Burned.
Information was received on Tuesday by Mr. S. W. Willis that the store and dwelling of Mr. W. H. Mason at Adams' creek were burned on Friday night last. The front end of the building was used for a store and the rear end for a sleeping apartment. The fire originated in the back end, apparently at one corner, the roaring of which awakened Mr. Mason and he had only time to save his trunk and bed. Everything in the store, about four hundred dollars worth, was lost.

P. F. Carraway, Esq., in the same neighborhood, came near losing his house by fire a few days before.

Thanks.
I desire to return my thanks to the fire department of New Berne for their efforts to preserve my property from destruction by fire on Monday night, and also to them and all others who assisted in rescuing my horses and mules from the flames. WM. COHEN.

The Diamond Shoal Light

In the consideration of the sundry civil appropriation bill by the Senate last Tuesday, the discussion which occurred over the item appropriating \$500,000 for a lighthouse on Outer Diamond Shoal off Cape Hatteras, showed that the members of the Senate recognize the necessity which exists for a light at that point. Senator Gorman said that he considered the proposed lighthouse as the most important one in the world, and Senator Frye stated that it ought to be built even if it should cost a million and a half dollars. The clause providing for the appropriation was agreed to without opposition from any one. The probability now is, that if the engineers who have proposed to construct the lighthouse have made no error in their calculations, within a comparative brief period, mariners will have a light for their protection on the most dangerous spot on our coast. As a matter of interest we publish what Senator Allison said as to the plan of obtaining a foundation for the proposed structure. Diamond Shoal, it must be remembered, is nine miles from land, and the water on the shoals but eight feet deep.

"I will say that the general plan, as I understand it, is to construct substantially a circular caisson of 2 inch plate iron and sink it in the sand as far as it can be sunk. The diameter of this caisson will be about 30 feet, as we are informed by the Naval Secretary, and it is expected that it can be sunk in sand 45 feet and thus make a permanent and substantial foundation for this light—Norfolk Ledger.

Bark Wrecked—Eleven Men Drowned.
NORFOLK, Va., Feb. 23.—The Nova Scotia bark Jessie Troop, with a cargo of chalk and crew of seventeen men, was wrecked at 7 o'clock last evening at Chicomicom, N. C. The master and ten men were drowned and six were saved. The vessel is broken up and strewn on the beach.
The bark was bound from London to Philadelphia and the cause of the disaster was a miscalculation owing to thick weather, which made it impossible to get accurate sights and bearings. The crew of Life Saving Station No. 19 could see no signs of the vessel until eleven men had been lost, and were just in time to save the six survivors. Thus far only one body has come ashore, that of Charles Meade.

Persons living in unhealthy localities may avoid all bitious attacks, by taking a dose of Laxador occasionally to keep the liver in a healthy action. Price only 25c. per package. At all druggists.

A Woman's Sweet Will.
She is prematurely deprived of her charms of face and form, and made unattractive by the wasting effects of ailments and irregularities peculiar to her sex. To check this drain upon, not only her strength and health, but upon her amiable qualities as well, is her first duty. This is safely and speedily accomplished by a course of self-treatment with Dr. Pierce's Favorite Prescription, a nervous and tonic of wonderful efficacy, and prepared especially for the alleviation of those suffering from "dragging-down" pains, sensations of nausea, and weakness incident to women—a boon to her sex.
