JAMES REDMOND, WHOLESALE LIQUOR DEALER, has just re-ceived a good assortment of Native Wines and Brandies, and also some of the famous California Wine known as the "Angelica," made from the famous and delicious Angelics Grape. This Grape is only successfully cultivated in the Southern part of California; it is a very delicate grape and requires certain conditions of climate to bring it to excellence, which conditions are only met in that paradise of the United States. His native North Carolina Wines and Brandies from the vintages of Garrett & Co. and J. Wharton Green are of very superior quality and are feg 1m very pure.

But Simmons could not have accomplished what he has without the aid of Senator Ransom in the Senate. Immediately after the election the JOUR-

NAL took a stand for the return of Senator Ransom to the Senate. We knew there was opposition, strong opposition in some localties, but after considering the matter calmly it was

that Senator Ransom could better serve secretary. North Carolina for the next six years than any man the General Assembly could possibly elect to succeed him, and we are more than satisfied that we were correct in that opinion. When the Senator comes this way again the people will show him that they appreciate his efforts in their behalf. All honor to Simmons and Ransom.

Some days ago two or three of our best citizens had a conference in regard to the interests of our section of country, which resulted in the call for a meeting of our people at the opera house. On Friday night last this meeting was held. There was a large at tendance of business men. A tempo rary organization was effected by call ing Mr. N. J. Rouse, jr., to the chair the honest judgment of the JOURNAL Mr. J. F. Taylor was elected temporary Loans and discounts -

> At the request of the chairman My B. W. Canady explained the object of the meeting and how it came that this meeting was called. He was followed by Mr. L. Harvey in the same line. Mr. George Rountree, in a somewhat more extended speech, opened out what he considered the objects, aims and purposes of the proposed organization with some reference to detail. His words were wise, timely and judicious. Real estate, furniture, and Dr. H. D. Harper also addressed the

meeting and read an article from a newspaper, detailing one of the means by which manufactories could be readily started. This was very interesting and suggestive. Dr. H. never speaks in vain.

Bev. I. Harding added his endorse ment of the views expressed by the speakers, and urged that employment should be afforded the many young neople in our community who are now so evidently in need of it.

The object of the meeting, as set forth by the several speakers, were to get on foot means and arrangements which may result in the building of factories and opening to the world the advantages of our section as a place for business men. And, in order to make a beginning in this direction, it was thought best to organize a body to be called a Chamber of Commerce or some such title. To accomplish this object. on motion, a committee was appointed by the chair, to report next Friday night, to wit: George Rountree, L.

att. E. F. Cox. On motion of Mr. L. Harvey the Free Press was requested to publish proceed-ings of this meeting and citizens generally invited to attend.
