THE persistent politician and place hunter from North Carolina makes himself felt in the corridors of the Washington hotels, with old time vim and vigor.—Wilmington Messenger.

MANY messages of sympathy have been sent to Mrs. Dawson, of Charleston, and among them is the following from ex-President Cleveland: "I am shocked by the death of your husband, and I sadly tender you my heartfelt sympathy and condolence."

"Oh, Christian, the God whom you serve is so excellent that no good can be added to Him; and so infinite that no good can be diminished in Him. He makes happy, and yet is not the less happy; he shows mercy to the full, and yet remains full of mercy."

In the course of a sermon recently delivered, Dr. McCosh said: "I have for most of my life been a student of philosophy. I have been called to study all its systems, ancient and modern. None of them could make up for the want of the

Bible. However important in enlarging and establishing the mind, they cannot give peace and stability to the soul."

NOWHERE in the world is our Christ represented as slow to heed the cry of distress, or as pre-occupied with the vast concerns of His twofold kingdom; never too weary, though resting at the well, to seek for the lost, and open to them fountains of never-failing refreshment. "Jesus Christ is the same, yesterday, today, and forever.—Advocate of Holiness.

LIFE is the time for doing. The world is a great workshop, in which there is no room for drones. God himself worked as the great Master-builder. All creatures fulfill their needful functions, from the angel that hymns God's praise to the insect that floats in the air. There is plenty to do; evil to put down; good to build up; doubters to be directed; prodigals to be won back; sinners to be sought.—F. B. Mayer.

THE World says: "The Pennsylvania Railroad Company has secured possession of 5,660 feet of shore front on New York Bay. It has also purchased a large section of contiguous property. These immense accessions have been made with such systematic secrecy that The World is able to announce today for the first time that a railroad terminal is to be constructed on the property, and with facilities ample to insure its being one of the largest in the world."

Y. M. C. A. Convention.

The annual convention of the Young Men's Christian Association will convene in Wilmington on Thursday, March 31st.

Mr. W. P. M. Bryan, President of the Association in this city, has credentials for the delegates who will attend from the Association.

The Most Important Act.

The most important act of the General Assembly affecting this section of the State was that to prevent discrimination against the A. & N. C. R. by other railroads in the State.

Governor Fowle promised the people of New Berne that if the General Assembly would give him the law he would see that flagrant discriminations such as have taxed our people almost beyond endurance, and diverted a large part of our trade, should be corrected. We do not know whether the remedy provided is complete or not, but we do know, and the Governor knows, that a remedy is needed. If it is sufficient were feel confident that the Governor will exert every effort in his power to correct the evils of which we have so long complained.

That Thousand Dollars.

We are told that we have got to hustle to raise that thousand dollars to offer as a bonus to have a factory started. That is true. This is a hustling age. There must be hustling to succeed in any enterprise that is worth having. But we want to explain a little about that thousand dollars. A number of available sites have been offered free to any one who will erect factories thereon. These offers alone when they become known will attract the attention of capitalists. But in order to hurry the thing along it is proposed to raise a thousand dollars to be given as a bonus to the first one that will accept an offer for a site and build a factory thereon with not less than \$20,000 capital. It is not giving a thousand dollars simply for the purpose of trying an expedient. The thousand is to be given for the \$20,000.

For the sake of such a factory it ought not to require so much hustling to raise a thousand dollars. Let all hands chip in. A furniture factory with \$20,000 capital would employ at least fifty hands. These hands would be paid at least three hundred dollars per week and as much more would be paid out for lumber. Six hundred dollars a week: twenty-five hundred per month; thirty thousand per year, and almost every dollar of it would go into the trade of the city.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. NORTH CAROLINA NEWS.

From the State Papers.

Scotland Neck Democrat. We learn that on Wednesday night of last week some one went into the field of Mr. J. B. House, near Palmira, and burned several stacks of fodder.—We note that a new Catholic church is built in Halifax.

Elizabeth City News. Work has been resumed on the buildings and grounds of the Albemarle Park Association, and the chairman of the directors say that things will now move until the grounds are finished.—Another rashly attempt to burn Koch's bakery was made at 3:30 o'clock yesterday morning. This makes the fourth time the attempt has been made on the same building, not being content with having already burned Mr. Koch's wife.—Both Underwood and Godfrey are putting in dry kilns.—There are a number of strangers in town some of them looking for investments.—Ground has been broken for the new Knobb creek mill.—The town boundaries have been extended and the wards changed. Of course some are glad and some mad.

Winston Sentinel. They say that Mr. R. E. Reeves of Surry county is to be U. S. Marshal for this district to succeed Col. David Settle.—A new post-office has just been established in Rockingham county and its name is "Splashy."—The Sentinel regrets to learn of the critical illness of Mrs. T. H. Pagram, on Liberty street, who is suffering from a cancer and protracted recovery are unfavorable.—We are informed that Mr. Charles Lee will soon begin the erection of a flour and furniture factory in Winston near his country residence just north of the city limits. The building will be 100x120 feet and two stories in height.—A negro girl mysteriously disappeared from the neighborhood of Marvin church, this county, about ten days ago and has not since been heard of.—The condition of Rev. W. H. Babbit, who recently experienced a paralytic stroke at Rockingham, Richmond county, has so improved during the last week as to permit his removal to Winston, to the home of his daughter, Mrs. Ashcraft.

State revenue agent Vandford made a raid on the distillers of Mr. Geo. W. Smith, near Kernersville Tuesday night and found irregularities, in consequence of which he seized everything belonging to the distillery—about 40 barrels of whiskey, considerable beer, stock, wagons, etc.—Smith skipped.

Salisbury Herald. We have to announce with humiliation and regret that the effort to procure electric lights for Salisbury has failed, for the want of proper encouragement.—Rawan county possesses a man of giant strength in the person of Mr. Henry Rice, of Woodland. Not long since he cut down a black walnut tree and got it ready for the mill, and took up one of the logs, 12 feet long, and carried it, and placed it upon the saw carriage. The log squared 13 inches, and made 150 feet of lumber. Mr. H. C. Trottsawed the lumber for Mr. Rice, and the remarkable display of strength was witnessed by several persons.—The Knitting Mill is progressing rapidly. The engine is to be shipped on the 23d and the other machinery a few days later. Samples of yarns are coming in fast. About fifty women and children are needed to begin work in April.—One of the most remarkable freaks of nature we have ever seen is the skin of a white raccoon now in the possession of Mr. Robt' W. Price. The coon was killed by a citizen of Gold Hill township on New Year's.—While the men employed at the Kirk's Mountain quarries were eating their dinner Monday, a strange noise was heard in the air overhead, which was found to be the ringing of a bell worn by a buzzard that was flying near them. The bell was of ordinary size and could be heard distinctly for some distance.

Tarboro Southerner. All hope of maintaining the graded school by taxation has gone for at least two years, thanks to a Legislature which knew more about the needs of this community than the community itself. Still the school should continue, but its continuance and excellence depend now solely upon private contributions.—Thursday afternoon Alex. Boyd, living near the W. & W. depot, died suddenly from heart disease. For several days he had complained of a pain in his side. Just before he died he wanted a lamp lit; everything was dark he said. A few minutes later he was a corpse.—In some sections the negroes are still leaving for Arkansas. Here, none have left, and are not likely to go. Just before the Goldsboro's trouble, some of the agents had been here trying to induce them to leave, but the Edgewood darkey isn't built that way. Not one went.—Three fires in the county last week. The first occurred at the farm of J. L. Coker, just beyond Princeville. After one o'clock in the morning, a two room out house about fifteen or twenty feet from the dwelling, was discovered to be on fire. Loss about \$200. The second fire was on the plantation of N. B. Killebrew, of No. 11 township, near M'Kendree, Friday just before day; his stables were discovered burning, and the fire well under way. One brood mare was burned with the building. He also lost about twenty five barrels of corn. The barn which was near by was saved. The loss is estimated at \$1,000. The third was on Robert Pitt's farm, No. 10 township, known as the Off Atkinson farm. His barn, stables and residence were all consumed.—Sunday morning, near Scotland Neck, about 4 o'clock Gilbert Leggett had his residence and contents all consumed. The fire was of incendiary origin. The loss was not reported, but as there was no insurance the loss is very heavy to Mr. Leggett.

PLEASE REMEMBER that I need money as well as the rest of mankind, and if you owe me please pay me. J. C. WHITTY.

A Brilliant Reception.

On Thursday evening regardless of the wind which was whistling and the rain which was copiously falling, a large number of ladies and gentlemen assembled at the hospitable mansion of Mr. and Mrs. James A. Bryan to pay their respects and offer their congratulations to Mr. and Mrs. Charles S. Bryan, who had just reached home after an extended bridal tour. The guests were received by the bride and groom in an exceedingly graceful and becoming manner. The bride was attired in her wedding dress, around her neck she wore a magnificent chain of diamonds. A bountiful collation of delicacies was served, and a most pleasant and enjoyable evening was spent by all present. In the parlor and on the festive board were quantities of beautiful flowers; they seemed to be some of the rarest and choicest that grew. The hands of fair women had arranged them with exquisite taste, and the rooms were filled with their odor.

Augusta, her former home, could not have extended more hearty good wishes to the bride, than were extended to her in her new home by the people of New Bern.
