GEO. ALLEN & CO.

IMPORTED FRENCH BRANDY AND HOLLAND GIN, just received and for sale by
JAMES REDMOND.

FERTILIZERS for Truckers and for Cotton Planters, at
GEO. ALLEN & CO.

JAMES REDMOND, WHOLESALER LIQUOR DEALER, has just received a good assortment of Native Wines and Brandy, also some of the famous California Wine known as the "Angelica" made from the famous and delicious Angelica Grape. This Grape is only successfully cultivated in the Southern part of California; it is a very delicate grape and requires certain conditions of climate to bring it to excellence, which conditions are only met in that paradise of the United States. His native North Carolina Wines and Brandy from the vineyards of Garrett & Co. and J. Wharton Green are of very superior quality and are very pure.

GEO. ALLEN & CO.

PURE WINES AND LIQUORS for medicinal and other uses for sale by
JAMES REDMOND

THE New York Republicans are not happy over the distribution of the loaves and fishes.

THE Brooklyn, N. Y., underground railway scheme has been decided to be unconstitutional.

If the killing of Capt. Dawson was a characteristic outrage, what shall we call the family disturbance in Nevada in which a man killed his father-in-law, his mother-in-law, and his brother-in-law?

WALTER is a favorite name and an honored one. Last Sunday we spoke of Walker Blaine as Walter. Now this is easy to all the Walters that nothing unkind to them was intended. The new legal adviser of the State Department is Walker Blaine, not Walter.

MR. NORTHERN papers are calling the killing of Captain Dawson "a characteristic Southern outrage." It is no more characteristic of the South than of New England. Good citizens everywhere deplore the occurrence and denounce the crime.

THOSE students of American politics who find little that is pleasant or consoling in the contemplation of recent election contests have been greatly impressed with the idea that the addition of four new States to the Union will deprive New York hereafter of its power as the great pivotal State.—N. Y. Sun, Protectionist.

It is reported that there is a sharp disagreement between Secretary Blaine in regard to the English Mission. The President is in favor of the appointment of Warner Miller, late Republican candidate for Governor of New York, and the Secretary wants Whitehead Reid, editor of the New York Tribune appointed.

THE Wilmington Star says: The selection of Mr. Eugene Schuyler for the post of Assistant Secretary of State is well received by papers of both parties. He has had large diplomatic experience, is a man of

fine scholarly attainments, and an author of ability. We first made his acquaintance in his somewhat heavy but strong life of Peter the Great.

MURAT HALSTEAD is pretty sure to get the German mission. France is held open for Mr. Reid, or he can have Germany if he says so, and Mr. Halstead will get France. John O. New is to go to Austria. The adjournment of the Senate until Monday upset a thousand calculations and made those nervous who supposed yesterday that their men would go in today.

APROPOS of the rather fanciful discussion in the Federal Senate with respect to the annexation of Canada a Canadian paper wants to know why 5,000,000 Canadians should pay more to be governed than 60,000,000 Americans pay? We give it up, though it may be that it is because of the large proportion of escaped bootleggers who understand thoroughly the act of governing at greatest cost to the people.—News and Observer.

J. E. BOYD, the well known Republican politician of North Carolina, met Major Butterworth in the Ebbitt last night: "North Carolina does not seem to be getting much out of this administration," said the Major to Boyd. "No," replied Boyd, "but it is getting about as much as Ohio. I think we shall have to join forces and get these two States admitted into the Union." They joined.—Washington Post.

It is already evident that Mr. Harrison will be the President of a party, rather than the Chief Magistrate of the whole country. The intimation that he would make no appointment except on the recommendation of the Republican members of Congress from the district to which the applicant belong, or in the absence of such member, upon the recommendation of such trusted party leader, indicates plainly enough the lines upon which the spoils are to be distributed.—Philadelphia Record, Dem.

The grading of George street has been moved up to the junction of Broad.

It was a busy day at the steamer wharves with the draymen yesterday. News was received in the city yesterday of the death of Dr. J. L. Manney at Beaufort.

St. Patrick's day this year was more universally observed than it has been for several—it was Sunday.

There is no use talking. A man who can't make a living in New Berné would starve in the up country in persimmon time.

Two offices on South Front street are being put in order for new occupants. These are not government offices, however.

We do say without fear of successful contradiction that a family can live better in New Berné than anywhere else at the same cost.

Dill and Gorman's Specialty Company combined with Prof. Johnson's Royal Marionettes will be at the opera house Thursday night.

Kinston is moving for a knitting factory. The mooned men of the town are not waiting for some one else to come, but are going to put their own money in it.

A change in the board of directors of the National Bank occurred recently. Mr. Washington Bryan having resigned and Mr. Geo. H. Roberts being elected to fill the vacancy.

The weather on Sunday was out of character with the 17th of March—a beautiful spring-like day throughout instead of the blustering weather for which it is generally noted.

There will be a meeting of the stockholders of the E. C. F. O. G. & I. Association tonight at the rooms of the Y. M. C. A. at 7:30 o'clock. All members are requested to be present.

Ward politics was a little agitated yesterday in front of the Exchange, but the discussion was upon the probabilities of the first ward and but one of the participants a voter at that precinct, so Richard Patrick's fence is not yet seriously damaged.

The thirteenth annual convention of the Young Men's Christian Association of North Carolina meets in Wilmington March 21st to 24th. We are in hopes that the New Berné Association will be represented. The railroad fare for the round trip has been reduced to, we believe, \$5.25.

W. E. Clarke, Esq., has returned from Washington City feeling confident that he will receive the appointment of postmaster at New Berné. We could not be better pleased with postoffice officials than we are with the present occupants, but if Democrats have to hustle, we will welcome Mr. Clarke.

The meeting at the Baptist Church continues to increase in interest. Last night Mr. Dill preached a powerful sermon on sin as illustrated in leprosy. Several persons manifested a desire to be saved. Services will continue through the week conducted by Mr. Dill at 4 p. m. and 7:45 p. m. daily.

A meeting of the Board of Trade and citizens was held last night to hear the report of the committee to raise one thousand dollars bonus for a factory. The committee reported something over six hundred dollars subscribed. The committee was continued and Jas. W. Waters, Esq., added to it. Steps were taken to advertise offers made for factories.

Here We Are.
It has been astonishing in the past that there has been so little business push in New Berné—in future the surprise will be that she has accomplished so much. What other town has such a prospect? If there is one we don't know it. Wilmington has more shipping just now, and we wish she had ten times as many as she has. Charlotte has more manufactures, and we would gladly see them quadrupled; but the day is coming when the shipping of New Berné will be equal to that of Wilmington and her manufactures exceed those of Charlotte. We do not intend to compete with Durham in the making of cigarettes, for cigarette smoking is a bad habit and we don't intend to encourage it. But in all health-giving, wealth-producing, civilizing and christianizing enterprises we intend to be leaders.

Just think of it—a cotton factory as good as the "Pride of Lowell." A furniture factory equal to any that ever supplied the outfit for a palace; flouring mills that will make Norfolk and Baltimore drummers a little mere forward about standing back; and whatever else constitutes a first class manufacturing city!

"M. Quad" is a trump. He is a capital engineer, and he turned on the steam at the right time, but we intend to astonish him, as well as the rest of mankind, and make him wish he had invested his money, as well as his brains, in New Berné.

NORTH CAROLINA NEWS.

From the State Papers.

Wilmington Messenger: About 115 delegates to the Y. M. C. A. to be held here next week have been heard from, and it is probable that the number may reach 150 by this time next week, as a number of the largest towns are yet to report.—The Governor's response in accepting the job was brief, but very happy. He expressed his appreciation of the value of the State fund as well as of the generosity, patriotism and public spirit of the Wilmington people which has so greatly contributed to the successful result of the plans for a permanent encampment. He alluded to the growth of the Guard and of the public appreciation of it, and in conclusion said that in the name of the State he accepted the great Wilmington as the most suitable for a winter camp to be desired.

Asheville Citizen: If we may judge from the rumors which last night flooded our streets, sidewalks and avenues, the long mooted question is settled as to what disposition Mr. Vanderbilt will make of his land purchased in this county. Madam Honor, always remarkable for truthfulness, says that there will be a partial residence erected on the central point of the great domain, the case of the south has not yet been known. Fourteen acres will be put to a public park with a lake and a swimming bath in every respect equal to the celebrated parks of England. The report is already in the hands of the interested parties.

Charlotte Democrat: Last Sunday morning the teachers of this county met in the graded school building. There was a lecture by Prof. Graham and an interesting discussion of the subject, "Busy work in a country school."—Walter Brown, who won a suit last week for some \$2,000, approached after the trial one of the jurors in the case, and upon enquiry, the juror told Mr. Brown that the case had been decided against him to the amount of \$25. The juror had forgotten the parties in the case, the amount of judgment and the verdict given, and his mind, therefore, unperplexed by past cogitations, was fresh and vigorous for another case. It requires a great mind to dismiss a subject so thoroughly and so quickly.—Since the Editor robbery there has been a general stirring up of the animals in this city. In other words, our Mayor is mad. He has been personally very active in precautionary measures against further mix-ups to Charlotte. The week is full of history unsavory to the wicked. Last Saturday night about 12 o'clock there was a man standing with coat collar over his ears on the corner of Trade and College streets. A criminal inspection proved him to be Mayor McDowell, actually on watch himself, so great was his interest in good order. A negro ran by at a panic gait, when he was checked. He said he was going home, but the Mayor told him he must not go home so fast, and took him in hand. The negro was on the way to the gambling den to give the alarm to his friends who were about to be "pulled" by the police.

News and Observer: The board of commissioners for Wake county have authorized J. N. Holding, Esq., of the firm of Pace & Holding, to proceed at once to enforce the collection of all taxes on lands which have been sold for State and county taxes by the sheriffs of Wake county during the past ten or twelve years.—The latest news from Dr. W. H. Bobbitt is that he has improved more rapidly than his friends had expected, and that he will be removed from Rockingham to Winston the home of his daughter, Mrs. Ashcraft, today or tomorrow.—Senator William L. Wilson, of West Virginia, will deliver the annual address at Wake Forest commencing in June next.—Mrs. Z. J. Lemay did suddenly die of heart disease at 5 o'clock Wednesday afternoon at her residence in Cleveland township, Johnston county, aged about 40 years. She leaves a husband and five children.—Work on the building of the Agricultural and Mechanical College is steadily progressing and is drawing near completion. The superintendent of construction says it will be completed by the first of September next. The college will be opened at that date. Each county in the State is entitled to as many free students as it has members in the lower house of the legislature. It is stated however, that there will not be more than seventy-five students at first. The college when completed will be an admirable structure.—The railroad officials inform us that for some days past the negro exodus movement has not been so heavy. The Richmond & Danville and the Coast Line have both withdrawn the special rates and colored emigrants now have to pay full rates.—The public school matter will, probably culminate in a mass-meeting of citizens for the purpose of raising subscriptions to pay up the expenses of the schools and continue them longer. Some prominent citizens were interesting themselves in the matter yesterday.

A Woman's Discovery.
"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she stood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she slept all night and with one bottle she had been miraculously cured. Her name is Mrs. Luther Lutz." Thus wrote W. C. Hamrick & Co., of Shelby, N. C. Get a trial bottle at R. N. Duffy's wholesale and retail drug store. Wholesale, \$3.00 per dozen.

Self-Reliance.

There is a determination to establish manufacturing interests in our midst, and what concerns us much is the planting of those which are most needed—considering the amount of crude material to be worked up and the demand for said material after it has been converted into articles ready for use. In his inaugural address recently delivered, Gov. Ross of Texas has these valuable and pointed remarks on the subject:

Self-reliance is the great element of success in this world with State and individuals, and as self preservation is a natural duty binding upon all alike, and there being no constitutional amendment that I am aware of compelling our people to send to our Northern neighbors for everything we need, from a hoe handle to a steam engine, without the least trace of hostility or bitterness I would invoke them to a more perfect reliance upon the energies and resources which they can find within themselves by the development of home industries, home markets and individual enterprise.

General Wm. O. Lewis is examining the State lands on Core creek in this county with a view of establishing a convict farm. This is a good move on the part of Governor Easley and might move to make the penitentiary self-sustaining.

Had he discourse, and I will enlighten three ear with tales of astounding courses of all sorts of suffering by Savannah, Ga. Price only 25 cents.

An Indian boy wanted to hang himself after seven school girls had kissed him. He didn't for he found they had given him nothing more serious than a cold which he speedily cured with Dr. Bull's Cough Syrup, and then married the prettiest one.
