THE Pope of Rome was ill on Wednesday.

TSIN KOOK YAN is to be the new Chinese Minister to the United States.

A WASHINGTON correspondent says Assistant Postmaster General Clarkson is making 150 appointments daily.

CHICAGO distanced. The Charlotte News says: "Judge Shipp granted divorces to three couples in Wilmington, Monday, inside of one hour."

SIX thousand emigrants embarked upon seven steamships at Liverpool last Wednesday. The majority of these emigrants are bound for the United States.

A MR. STRAUSS, engaged in the foreign fruit business in New York, is reported to have received, April 17th, a cablegram to the effect that a vessel in the foreign fruit trade has picked up the passengers and crew of the steamer Danmark.

THE leading Republican Assemblymen have excused the Assembly ceiling steel on the plea that if the work had been done under the direction of the proper officer, the Democratic Superintendent of the Capitol, Mr. Cleveland might have been elected instead of Mr. Harrison.—N. Y. World.

MUNICIPAL elections held yesterday (Wednesday) in many towns and villages in Illinois in which the saloon question was the burning one, the anti-license element candidates were successful in eighteen towns, the license element in seventeen, the Republican ticket in six and the Democratic in eight.—Wilmington Star.

THE South is solidly Democratic and will remain so because its business interests, commercial future, growth and security of its property interests and the safety of its people depend upon the white man governing. Ever Harrison, while anxious to build up the Republican party, acknowledges so much by his refusal to allow the negroes to hold office.—Memphis Appeal, Dem.

It is said that the American Navy will consist of eighteen cruisers (including two dynamite cruisers and a cruising monitor), one dispatch vessel, six gun boats, one torpedo boat, seven coast or harbor defense vessels (including five monitors), two lines-of-battle ships and one training ship. Eleven ships of the fleet, including the monitors, will be sent to the Pacific.

THE conviction in Arkansas and sentence to twenty one years in the penitentiary of a White Cap, has been mentioned. It is noteworthy that the only known instance of the punishment of a White Cap should be, not in the North, where White Caps most abound, but in the so-called lawless South.—Norfolk Virginian.

SIR JULIAN PAUNCEFOTE, the new British Minister to this country, was presented by the employees of the Foreign office before he left London with a handsome silver inkstand. As his predecessors at Washington lost his place through an indiscreet letter, this inkstand given to Pouncefote carries with it a hint of no obscure significance.—Exchange.

LOCAL NEWS.

NEW ADVERTISEMENTS.

C. E. SLOVER—Corned beef.

C. E. SLOVER—Small hams.

C. R. THOMAS, Jr.—For rent.

C. E. SLOVER—Mince meat, etc.

HOWARD & JONES—James Means shoe.

The truckers are pushing forward their asparagus and radishes. Peas will be in a few days.

The sharpie "Dan" belonging to Dr. Bell, of Morehead City, was at the E. C. D. wharf yesterday with a load of porpoise hides.

Judge George Rodman has promised to give his opinion on the exodus question as soon as he gives thorough consideration so he can answer "elligibly."

J. J. Harris, the colored postmaster for Fort Barnwell, was in the city yesterday fixing up his bond. Cheatham seems to be making pretty good headway in securing small places for the brethren.

George Washington, a young colored man of this city, who was sent to the penitentiary some few years since for killing a sailor in a fight up town, died on the 15th inst. He was a religious enthusiast from the time of his conviction to date of his death.

Fourth Ward Republicans. The Republicans of the fourth ward held a large and harmonious meeting on Thursday night at Drayton Hall, at which E. A. Richardson presided and C. R. Robbins was secretary. V. A. Crawford, the present incumbent, was unanimously nominated. Speeches were made by E. R. Dudley and I. H. Smith, in which some good advice was given about the exodus movement.

The First Peas. The first box of peas for the season was shipped over the A. & N. C. R. yesterday by J. H. Lewis and Bryan Slaughter, two colored men of James City. They were of the Morning Star variety seed, bought of J. F. Clark of this city, and were consigned to W. E. Lipscomb & Co., N. Y.

Last season the first box was shipped on the 16th of April, and in 1887 on the 18th, by the same shipper, J. H. Lewis of James City.

Attempt at Suicide. "Good-bye Beck," said Tempa Davis, a colored woman who is in the habit of imbibing the ardent too freely, as she called off the E. C. D. wharf into the dock yesterday afternoon. Beeton is one of the stevedores on the wharf, and he and others held to Ed. Jackson while he swung himself out and grabbed Tempa, bringing her back on the wharf. She was under the influence of liquor and evidently intended to drown herself, but her "good-bye Beck" gave timely warning of her intention and was saved. She was put on a dray and carried to the station, looking as limber as a dish rag.

Personal. Mr. J. J. Ward of Swansboro called to see us yesterday and reports the town on a boom.

H. E. Bryan, Esq., has returned from a trip to New York, on business.

Major Hughes has returned from Washington City where he has been on professional business.

Judge Geo. H. Brown arrived last night on his way home in Washington. He has been holding court in the eighth district and the papers speak of him in very complimentary terms.

Mr. Jas. O. Roberts of Anniston, Ala., is visiting his father, F. O. Roberts, Esq. Mr. W. H. Willard of Raleigh, is in the city.

Messrs. Rodolph Duffy and H. B. Nixon left for New York yesterday.

Miss Edith Roberts has returned from a visit North.

Egg Hunt.

The young ladies of Christ Church Aid Society will have an egg hunt on Easter Monday at half-past three o'clock p. m. in rear of the Cole house on Pollock between Hancock and Medical streets. Children are invited to come. Admittance, 10 cents.

The egg hunt will be an interesting sport for adults as well as children. The laying of eggs will be extensive.

A Passenger Station and Warehouse at Newport.

Next week the Atlantic & North Carolina Railroad begins the erection of a neat and tasteful little station at Newport. The Newport people are to be congratulated. This is something they have never had, and we venture to say like other work done on the road it will be first-class. The President seems to go on quietly and calmly with the various improvements, apparently unconcerned as to the clamor of the friends of the various candidates for his position or the excitement over circulating petitions. Among other improvements we note the introduction of gas in the New Berne warehouse. This does away with the use of oil lamps and gives greater facilities for the speedy handling of truck at night.

The Petition in Kinston.

The effort to get up a petition in Kinston praying Governor Fowle to reappoint Mr. Bryan President of the A. & N. C. R. seems to have created some excitement and is about to rebound with double force. The Free Press charges that undue influence had been used by Mr. Wood, one of the directors of the road, to get people to sign the petition and thirteen of those who did sign will forward the following letter to the Governor:

"HIS EXCELLENCY GOV. D. G. FOWLE, Raleigh, N. C.

"We the undersigned citizens of Kinston, N. C., signed a petition presented to us by Mr. D. Wood, a director of the A. & N. C. Railroad, requesting your Excellency to retain the present management of the road. Since signing the same we find public sentiment decidedly opposed to the reappointment of Mr. Bryan as president of the road and we desire the withdrawal of our recommendation in said petition."

Mr. Bryan seems to have been unfortunate indeed with his dealings with the people of Kinston. The Free Press supposes that not more than a half dozen names of Kinston business men remain on Mr. Bryan's petition.

We think it unfortunate that this question should have been stirred up so soon, but it is the old spring topic, and when the time arrives for the sap to rise it is hard to keep it down. The sap will be on the go down of its own accord, as doubtless will this agitation, before the Governor appoints the directors of the road.

We hear of men going through the country at a break-neck speed looking for the truckers to sign a petition, and if they are using the argument that we bear of in order to obtain signatures, Mr. Bryan may yet have to cry out "save me from my friends." The argument being used it is said, is that if Mr. Bryan is not retained the truck train will be discontinued and all the truck will have to go by boat except on the regular freight train. Such arguments advanced this early in the contest will surely rebound. Chips will fly back.

Better keep cool awhile, or conduct the contest fairly. Let the Governor have the truth, the whole truth and nothing but the truth.

Steam Navigation from Smithfield to New Berne.

The citizens of Seven Springs in Wayne county held quite an enthusiastic meeting on Saturday, the 13th, inst. for the purpose of organizing a steamboat company and raise money to build a boat to run on the Neuse river between Smithfield and New Berne. The meeting was presided over by W. G. Broadhurst, Dr. J. C. Grady acting as secretary. A committee was appointed on resolution which reported as follows:

"It is known that we whose names are hereto annexed have this day entered into a partnership to be known as the Seven Springs and Goldsboro Steam Navigation Company, and do further agree to establish a steamboat line from Smithfield to New Berne; and do further agree that as soon as sufficient amount of stock is subscribed a Board of Directors shall be elected whose duty it shall be to organize for business and transact such business as may be required to carry out the object in view."

This committee recommended that books of subscription be opened at such places as may be deemed most practicable to the furtherance of the same and suitable parties be named to solicit stock.

They further recommend that as soon as the desired amount of stock is subscribed that the present secretary be empowered to call a general meeting of the stockholders for permanent organization.

The report of the committee was adopted and a committee appointed to open books of subscription and solicit subscriptions.

Our older citizens will remember

when steamboats plied the river between New Berne and Smithfield, and the people along its banks, far up in Wayne and Johnston counties, were acquainted with our people, did business with them and had an interest in common with them. There is no reason why the same relations should not exist except the introduction of railroads has gotten everybody to believe that water transportation is too slow for this day and time. Many farmers along the banks of the Neuse are several miles from the railroads, yet they neglect the natural channel, provided by nature without money and without price, for carrying their produce to market and exchanging for other necessities, and haul with their teams everything they sell and everything they buy several miles in order to find a market. No cheaper freights can be asked for than are being obtained at New Berne over the water lines North. The people along the banks of the Neuse as far as it is navigable are entitled to the same advantages if they will but take advantage of it.

We hope the new steamboat company will succeed and get a boat on an early day of such build that it can make the trip from Smithfield to New Berne at any season of the year. The people of New Berne will extend them a hearty welcome.

NORTH CAROLINA NEWS.

From the State Papers.

Wilmington Star Receipts of new crop rosin were reported on Change yesterday by M. J. Meyer and R. W. Hicks.—Mr. Wray, the veterinary expert, returned to Washington yesterday. So far as heard from there have been no new cases of glanders, and it is confidently believed that the disease has been eradicated.

Durham Plant: The R. & D. Railroad Company has placed upon the passenger depot ingeniously constructed bulletins upon which are recorded, by means of dials, haps and movable plates, the number of trains, in what direction they are going, whether on time or delayed, and at what time they are expected to arrive. It is a good thing. Something of the kind has long been needed.

News and Observer: Several persons witnessed the novelty of seeing an ox shod yesterday at Pennington's blacksmith shop. Most of them had never seen the sight before.—Ex President Cleveland and Mrs. Cleveland are expected to spend a week at Morehead during the session of the Assembly.—The Governor has made ex-Lieut. Gov. Stedman chairman of the North Carolina delegation to the Washington Centennial in New York—a graceful and appropriate act.

Scotland Neck Democrat: We have seen and heard of more wheat in this community this spring than usual. This is a hopeful sign.—A considerable string of fence dividing Halifax and Martin counties was burned last week. It caught accidentally, we learned, from fire used by the railroad hands.

—Mr. Walter Dunn lost a fine dog last week. He went mad and bit several dogs in the town and community, and went through Palmyra and made a swipe among the dogs there.

Wilmington Messenger: Several Wilmington firms are among the creditors of T. S. Memory's Son whose failure has been announced from Whiteville.—The question of emigration has now become a matter of consideration and consequence to the colored people of this section. A mass meeting of the colored people of the city was held last night at the First Colored Presbyterian church, for the purpose of considering the question of emigration and electing delegates to attend a State Emigration Convention of colored people to be held in Raleigh on the last Friday in the month, April 26th.

Asheville Citizen: Mr. D. V. Thrash and family, and a party composed of seventeen people living in the vicinity of Asheville, left yesterday to make their future home in the newly admitted State of Washington.—Rev. T. A. Wharton, of Waynesville, has been unanimously called to the Steele creek church, Mecklenburg county, which is said to be the largest country church in the South among the Presbyterians. It has over 500 members, and its congregation varies from 800 to 1,000 every Sabbath.

Charlotte Chronicle: Last night, about 9:30 o'clock, a barger attempted to enter the residence of Mrs. W. F. Catibon, who lives on 5th street between B and C.—During the session of the Mecklenburg Criminal Court just adjourned, six negroes, of whom one is a woman, were sentenced to the chain gang, and two negro men were sentenced to the penitentiary for ten years.

—C. W. Tillett, of this city, received a letter yesterday from his father-in-law, Dr. D. N. Pasterson, of Mangum, who wrote that a few nights ago some wagoners camped near his house and left a fire burning. The wind blew the coals into the woods near by, which were soon in a blaze. The fire spread rapidly, and in a short time it was carried by the wind to Dr. Pasterson's lot. His barn, stable and other outbuildings were consumed, and his residence was saved with difficulty.

Rockingham Rocket: Last Friday was another windy day and forest fires were again on the rampage. They broke out on the north and south of town and swept over a large territory, doing great damage.—We regret very much to announce the death which occurred on the 4th inst., of John J. Bennett, Esq., who was sheriff of this county in 1857-'58. He was about 70

years of age, and died of heart disease.—We know of a family of Mineral Springs township, this county, consisting of father, mother and nine children, some of whom either use tobacco in any form or whiskey except strictly as medicine. It is a record to be proud of. We might add that the father takes several newspapers and always pays cash in advance for them, and does not have to run around town the first of January looking for some merchant to "run him" during the year.

Chatham Record: The first snake story of the season comes from Mr. R. R. Smith of Hadley township, who says that he killed a black snake, last Saturday, that measured 9 feet in length and 7 inches in circumference.—The county coroner and superintendent of health went yesterday to the Buckhorn section for the purpose of investigating the cause of Mr. Richard Weathers' death, which occurred very suddenly last month. Some persons suspect that he was poisoned.—Deputy Collector Spence Taylor made quite an extensive revenue raid a few days ago, in Hickory Mountain township he captured and destroyed two illicit stills, and next day he cut up two more on Deep river, in Gulf township. Thence he proceeded to Montgomery county, where he captured and cut up another, making five stills destroyed in three days. After destroying the one in Montgomery county he spent the night at a house about five miles distant and next morning his buggy was missing. He tracked it about two miles and there found it cut all to pieces, having been destroyed no doubt by the owners of the captured still.

Atlantic & N. C. R. Co., PRESIDENT'S OFFICE, NEW BERNE, April 19, 1889.

EDITOR JOURNAL—Permit me through your columns to thank the fire department, citizens, and employees of the company, for their faithful and efficient work at the burning of the New Berne passenger station.

Very truly yours,
